ASX ANNOUNCEMENT

Cleansing notice under section 708A of the Corporations Act 2001 (Cth)

11 December 2015

This notice is given by Martin Aircraft Company Limited (ASX:MJP) (Company) under section 708A of the Corporations Act 2001 (Cth) (Act).

On 11 December 2015, the Company issued a total of 200,000 fully paid ordinary shares in the Company (New Shares) at an issue price of NZD \$0.24 per New Share on exercise of existing options in the Company.

The Company advises that:

1. the New Shares will be issued without disclosure under Part 6D.2 of the Act;
2. the notice is being given under section 708A(5)(e) of the Act;
3. as at the date of this notice, the company has complied with:
 - (1) the provisions of Chapter 2M of the Act as they apply to the Company; and
 - (2) section 674 of the act as it applies to the Company; and
4. as at the date of this notice, there is no excluded information of the type referred to in section 708A(7) and 708A(8) of the Act.

Yours sincerely

James West
Company Secretary and Chief Financial Officer

ABOUT THE MARTIN AIRCRAFT COMPANY LIMITED

Martin Aircraft Company Limited (**Martin Aircraft**) is currently developing the Martin Jetpack, the world's first practical jetpack, with potential search and rescue, military, recreational and commercial applications, both manned and unmanned. The Martin Jetpack was initially conceived and developed by Glenn Martin in Dunedin in 1981. This led to the founding of Martin Aircraft Company in 1998 and the development of a Jetpack that, based on current testing, is expected to have over 30 minutes' flight capability at a speed of up to 74 km/h and an altitude up to 1,000 m (3000ft).

The Martin Jetpack is a disruptive technology, much like the helicopter was when first developed, with significant capabilities and is able to be flown either by a pilot or via remote control. The jetpack can take off and land vertically (VTOL) and because of its small dimensions, it can operate in confined spaces (such as close to or in between buildings), near trees or in confined areas that other VTOL aircraft such as helicopters cannot access.

More detailed information about Martin Aircraft and the Martin Jetpack is available at www.martinjetpack.com
