CONTINUOUS DISCLOSURE: DECEMBER 2015 HALF YEAR RESULTS

PTB Group has upgraded its forecast results for the December 2015 half year.

The increase in the forecast is driven by higher than forecast results in the IAP business for December. This was mainly due to the finalisation of an engine deal that had not been included in the previous forecast.

	December 2014 Half Year	December 2015 Half Year
	Actual	Forecast
A. Operating profit before tax (excluding foreign exchange gains and losses)	\$1.041M	\$2.900M
B. Operating profit before tax (including foreign exchange gains and losses)	\$0.474M	\$2.500M

The forecast for full year operating profit before tax, excluding foreign exchange gains and losses, remains unchanged at this point (\$3.8 million to \$4.2 million).

Yours sincerely
