Companies Announcements Office
Australian Securities Exchange
Electronic Lodgement**

Dear Sir/Madam

UXA INCLUDED IN EDI SCHEME

UXA Resources Limited (ASX code: UXA) wishes to advise that it has qualified for inclusion in the Australian Federal Government Exploration Development Incentive (EDI) scheme for the 2014/15 year.

Under the scheme, losses generated from qualifying exploration expenditure can be passed to shareholders in the form of an exploration credit, which can be used by shareholders as a tax offset.

Australian resident UXA shareholders will participate in the tax credit on a pro rata basis, and receive a refundable tax offset (for individuals and superannuation funds) or a franking credit (for companies).

The Company will advise shareholders of a record date for exploration credit eligibility shortly, and is required to notify all shareholders of their exploration credit entitlements by 30 June 2016.

Graham Seppelt
Company Secretary
