

Net Tangible Assets & Monthly Investment Report

31 January 2016

Company Commentary

Markets sold off aggresively in January, seemingly over fears for the future direction of the global economy, as investors now fret over adjustments occuring in the Chinese economy and the rapid fall in the oil price. Price action was simply a function of an industry's perceived exposure to a downturn in the global economy. Lack of liquidity in markets, as a result of regulatory change and the need for sovereign wealth funds to liquidate assets on the back of the collapse in the oil price, is no doubt compounding the situation. We also doubt that monetary authorities belief in negative interest rates in Japan and Europe is helping the situation and is in fact a mistake.

In contrast, earnings reports from our companies appear to be as expected as does the status of the US economy, reflected in wage growth continuing it's slow acceleration. Thus, the extent of the sell off appears in stark contrast to fundamentals and valuations have become very attractive. What will create a bid in the market is very difficult to judge, but it will no doubt be linked to physcology regaining confidence in the sustainabilty of the US economy. Macro fears are always difficult to judge and our intention is to maintain our focus on businesses that will provide above average yield and/or earnings over the medium to longer term.

NET TANGIBLE ASSET BACKING PER ORDINARY SHARE (all figures are unaudited)	DECEMBER 2015	JANUARY 2016	CHANGE
NTA before tax accruals + franking credits	\$1.1557	\$1.0896	-5.72%

^{^^} Represents net exposure to AUD and NZD. Actual NZD exposure is -24.6%

Company Profile

PM Capital Global Opportunities Fund Limited (PGF or the Company) provides investors with an opportunity to invest in a concentrated portfolio of listed securities that are diversified across global equity markets (including Australia). The aim is to provide investors with an opportunity to invest in an actively managed portfolio that does not replicate standard industry benchmarks.

Who manages the Company's portfolio?

The Chief Investment Officer of PM CAPITAL, Paul Moore, who has over 30 years experience in successfully managing global investment funds. The portfolio manager, Ashley Pittard, who has over 17 years industry experience. Paul and Ashley are supported by a team of investment analysts.

Manager Profile

PM CAPITAL Limited, founded in 1998, is a Sydney based specialist equity and income fund manager that manages over \$2.1 billion on behalf of private clients, institutional investors and the clients of financial advisers. PM CAPITAL provides its clients with an opportunity to invest alongside its investment team, investing in businesses that it believes are currently trading below their long-term intrinsic value, but will return to full value over time.

PGF's investment mandate is based on the guidelines of the unlisted PM CAPITAL Global Companies Fund (GCF) and will generally invest in the same investments as the GCF once the portfolio has been established (although there may be differences in portfolio positioning from time to time). PGF's investment objective is to provide long-term capital growth over a seven-year plus investment horizon through investment in a concentrated portfolio of global equities and other investment securities.

Investment Philosophy

PGF's investment portfolio is managed by PM CAPITAL, which uses the same investment philosophy and process they utilise for their unlisted retail funds. This philosophy is a belief that:

"the best way to preserve and enhance your wealth is to buy a good business at a good price."

KEY COMPANY DETAILS		
ASX CODE	PGF	
ACN	166 064 875	
LISTING DATE	II December 2013	
SHARES ON ISSUE	347,344,401	
CATEGORY	Global equities (long / short)

SUGGESTED INVESTMENT TIME	Seven years plus	
INVESTOR PROFILE	PGF may be appropriate for investors seeking long term capital growth over a seven year plus investment horizon, through investment in a concentrated portfolio of global (including Australian) equities and other investment securities	

This investment philosophy has been successfully executed by PM CAPITAL's Chief Investment Officer, Paul Moore, for 30 years, and has been applied at PM CAPITAL since its inception in 1998. The philosophy involves taking a business owner's approach to investing by looking to understand how the business works, management's philosophy in managing the business and those parts of the business that determine its intrinsic value.

PM CAPITAL then asks, "What would a rational business owner pay for the business?" Because in the end, the Manager believes that if a company's intrinsic valuation is not recognised by the stock market, it will eventually be recognised by a business owner.
