Dividend re-investment plan

Summary of the Dividend re-investment plan

1. Introduction

The Dividend Re-Investment Plan (**Plan**) offers shareholders the opportunity to acquire additional shares in Global Value Fund Limited (**Company**) by reinvesting part or all of their periodic dividends.

The Directors consider it important that the Plan operates to the advantage of all shareholders, not only those that participate in the Plan. Therefore, the Directors will only operate the Plan where they have formed the view that the benefits derived from the capital raised through the Plan will exceed the costs associated with the Plan, with the respective benefits and costs evaluated having regard to the position of all shareholders.

Accordingly, under the terms of the Plan the Directors have the ability to:

- (a) limit the amount of dividend which may be invested in subscription for shares under the Plan;
- (b) determine the price that will be used to calculate the issue price for each issue of shares under the Plan;
- (c) acquire shares on-market and procure the transfer of those shares to participants in the Plan rather than to issue new shares under this Plan; and
- (d) suspend, amend or terminate the Plan.

The following sections outline the way the Plan works and should be read in conjunction with the rules of the Plan. If you are interested in participating in the Plan you are encouraged to read the rules of the Plan in full.

2. Eligibility to participate

Participation in the Plan is optional and is open to all shareholders resident in Australia and those who are resident outside Australia and who have produced to the Company such evidence as the Company may require to satisfy it that any necessary approvals of any government or governmental authority in relation to participation in the Plan have been obtained and that such participation is not contrary to any applicable laws of Australia or any other relevant jurisdiction.

Before electing to participate in the Plan, a Shareholder who is not a resident in Australia should seek professional advice to ascertain if any restrictions apply. That Shareholder should then contact the Company directly with evidence to satisfy the criteria for participation set out above.

3. How to participate

Shareholders wishing to participate in the Plan that are eligible to do so should read this booklet and complete and return the application in writing or by electronic communication or by fax, each of which must be capable of authentication. If necessary, consult your financial adviser before joining.

The Company may in its absolute discretion refuse any election to participate in the Plan.

If a shareholder has multiple share holding accounts in the Company, a separate application will be required for each account.

4. When participation begins

Subject to the Company's acceptance of your application your participation in the Plan will, in general, begin with the first dividend paid after acceptance of your application to participate. If your application is received after the close of the Company's share register for determination of entitlements to payment of a dividend, it will not be effective until the Company's next dividend.

5. Full or partial participation

Shareholders wishing to participate in the Plan can elect to participate in respect of all of the shares registered in their name or in respect of a specified number of such shares only. Accordingly, shareholders have two options when completing an application:

- (a) **Full Participation:** Dividends on all shares held by a shareholder (including any additional shares acquired in the future whether under the Plan or otherwise) will be reinvested under the Plan.
- (b) **Partial Participation:** The shareholder can nominate the number of shares which participate in the Plan. Only the dividends on those shares (and any shares issued under the Plan in respect of those shares) will be reinvested in acquiring additional shares under the Plan and shareholders will continue to receive cash dividends on the rest of their shares.

If an application does not clearly indicate the level of participation in the Plan, it will be deemed to be an application for full participation.

6. How the Plan operates

When announcing a dividend, the Company will announce to ASX Limited (**ASX**):

- (a) the amount of the dividend;
- (b) any limit on the amount of dividend which may be applied to acquire shares under the Plan; and
- (c) the closing date by which shareholders must lodge an election to participate or vary their Plan participation if they wish their election to take effect in respect of the current dividend period.

Following the end of a dividend period, the Company will determine each shareholder's net dividend entitlement.

7. Shares acquired under the Plan

Under the Plan, the Directors will determine whether participating shareholders are to be issued with new fully paid ordinary shares in the Company or transferred existing fully paid ordinary shares in the Company pursuant to an on-market acquisition of shares through a broker on behalf of the Participants.

All shares issued or transferred (as the case may be) under the Plan will rank equally in all respects with existing shares from the date of issue. In the case of new shares being issued under the Plan, following allotment, the Company will apply to have the shares quoted on the ASX.

8. Reinvestment of dividends

The Plan has been structured to take account of the relationship between the market price of the Company's shares and its net tangible asset value per share (**NTA Price**) at the relevant time when dividends are being reinvested.

Where share price is greater than or equal to NTA Price

If the prevailing share price is higher than or equal to the NTA Price, you will receive your dividends as newly issued shares in the Company.

In addition, the Company will promptly apply for quotation on the ASX of new shares issued and allotted under the Plan.

Where share price is less than the NTA Price

If the prevailing share price is less than the NTA Price, dividends on shares subject to the Plan will be used to acquire the Company's shares on-market.

The Company has 20 trading days in which to do this on behalf of all shareholders participating in the Plan. The average share price, less brokerage and stamp duty, is then determined and the shares purchased under the Plan are allocated among the participating shareholders in accordance with their level of participation.

However, where the Company cannot buy enough shares on-market within 20 trading days to satisfy the full amount of dividends payable, the remainder of the dividend will be applied for the issue of new shares or given to the shareholder in cash.

What is the issue price of shares?

Shares issued under the Plan will be issued at the greater of:

- the NTA Price on the day immediately prior to the record date for the dividend; and
- the weighted average price of all shares traded on the ASX during the period set by the Board less any discount the board considers appropriate.

9. Disposal of shares

If a participating shareholder elects for Full Participation and then sells some of its shares, the dividends on the remaining shares will continue to be reinvested under the Plan.

If a participating shareholder elects for Partial Participation and then sells some of its shares, the number of shares sold will be deemed firstly to be shares that are not participating in the Plan and, once they are all deemed to be sold, then secondly participating shares under the Plan.

10. Variation or termination of participation

Shareholders may vary their level of participation in the Plan or withdraw from the Plan at any time by giving notice in the form approved by the Company to the Company's share registry.

The Company may in its absolute discretion refuse any variation of the level of participation in the Plan (but not any withdrawal).

The variation (subject to acceptance by the Company) or termination will be effective in relation to any dividends in respect of which the close of the Company's share register for determination of entitlements to payment of the dividend occurs after the notice is received.

11. Variation, suspension and termination of Plan

The Company may vary the Plan Rules at any time by notice on the Company's website and by notice to the ASX. If the Rules are varied, participating shareholders will continue to participate under the Plan and the Rules in their varied form will apply to them.

The Company may also suspend or terminate the operation of the Plan at any time by notice on the Company's website and by notice to the ASX. The Company may reinstate the Plan following a suspension at any time by notice on the Company's website and by notice to the ASX.

12. Brokerage and commission

The Company will issue shares under the Plan free of brokerage fees and/or commission. Where the Company acquires shares on-market for participating shareholders, brokerage payable on those acquisitions will be passed on to participating shareholders. The Company will endeavour to secure the most cost effective brokerage rates possible. No brokerage will be payable on the subsequent transfer of those shares to participating shareholders.

13. Plan underwriting

Where the Directors consider it appropriate, the Company may periodically have the Plan underwritten.

14. Taxation

Under current Australian taxation laws, reinvested income will be regarded for tax purposes as if it were received in cash. Please refer to the Plan dividend statement for the details of each dividend.

The Company does not take any responsibility for the taxation liabilities of shareholders and suggests that you obtain independent advice concerning your taxation position.
