BLUGLASS APPOINTS SPT MICROTECHNOLOGIES VICE PRESIDENT TO ITS BOARD OF DIRECTORS

BluGlass Limited (ASX:BLG) is pleased to announce that it has appointed Vivek Rao, Executive Vice President & Chief Operations Officer of SPT Microtechnologies USA, Inc (a division of SPP Technologies Co., Ltd) as a Non-Executive Director to the BluGlass Board.

Mr. Vivek Rao is a seasoned semiconductor professional with more than 20 years in the semiconductor capital equipment industry in various managerial and technical leadership roles and brings to the BluGlass board a strong understanding of BluGlass' target markets and customers.

SPP Technologies are a Cornerstone Investor in BluGlass holding 17.4% of the Companies Shares. BluGlass Managing Director Giles Bourne said today "We are pleased to Welcome Vivek Rao to the BluGlass Board, and look forward to his valuable input to our governance and the strengthening relationship between SPP Technologies and BluGlass."

About BluGlass:

BluGlass Limited (winner of the 2013 Australian Technologies Competition) is an Australian green technology company formed to commercialise a breakthrough in the Semiconductor Industry.

BluGlass has invented a new process using Remote Plasma Chemical Vapour Deposition (RPCVD) to grow semiconductor materials such as gallium nitride (GaN) and indium gallium nitride (InGaN), crucial to the production of high efficiency devices such as next generation lighting technology Light Emitting Diodes (LEDs) with advanced performance and low cost potential.

The RPCVD technology, because of its low temperature and highly flexible nature, offers many potential benefits over existing technologies including higher efficiency, lower cost, substrate flexibility including GaN on silicon and greater scalability.
