

ASX / MEDIA RELEASE

18th March 2016

Senior Executive Departure

Sydney, Australia; 18th March 2016 – Sirtex Medical Limited (ASX:SRX) today announces that Mr Mike Mangano, President, Americas Region has chosen to explore new challenges in his career and will be leaving Sirtex at the end of the financial year, after more than six years of service.

Mr Gilman Wong, Chief Executive Officer of Sirtex Medical commented “Mike has done a tremendous job building and growing our Americas business, which has seen revenues more than triple from US\$35 million to US\$113 million between financial years 2010 and 2015. We now have over 100 employees in the Americas region, with a strong depth of talent across all functional areas of the business.”

Mr Wong continued “During the coming months, Mike will be working closely with me and Sirtex management to effect a smooth and positive transition in the business. Our core America’s Senior Management team has over sixty years of medical device experience between them. Accordingly, we are confident the very robust operating structure we have established under Mike’s leadership will continue to deliver positive long term growth in dose sales. We wish Mike the best in his future endeavours and truly appreciate his years of dedicated service.”

Sirtex will be conducting a thorough executive search process to identify a suitable internal or external candidate to fill the position left by Mr Mangano. We anticipate completing this process prior to the end of the 2016 financial year in order to effect an orderly transition.

About Sirtex Medical

Sirtex Medical Limited (ASX:SRX) is an Australian-based global healthcare business working to improve outcomes in people with cancer. Our current lead product is a targeted radiation therapy for liver cancer.
