

## ITL US Customer Expansion

ITL Limited, the diversified healthcare company and owner of MyHealthTest, the provider of direct to consumer pathology testing, is pleased to report that OneBlood, Inc. in the United States has approved ITL's SampLok Sampling Kit (SSK) for use in its blood processing system. SSK is used in the global blood banking market to transfer platelet samples when performing bacterial detection testing.

OneBlood is a not-for-profit 501(c)(3) blood centre responsible for providing safe, available and affordable blood to more than 200 hospital partners and their patients throughout most of Florida, parts of Georgia, Alabama and South Carolina.

OneBlood is heavily regulated by the Food and Drug Administration (FDA), distributes nearly one million blood products annually, operates more than 80 donor centers and deploys nearly 200 of its signature Big Red Buses throughout its service area for blood drives.

The approval by OneBlood follows the recently announced grant of the SSK patent in the US and the Taiwan FDA approval, and shows the continuing success of ITL's strategy to reach new markets around the world.

Bill Mobbs, Executive Chairman commented "Adoption of SSK by another large US blood center is a good achievement for ITL BioMedical. With this new blood center partner, the recently granted patent in the US and the Taiwan FDA approval, SSK continues to show growth promise in new markets and with new partners around the globe."

Bill Mobbs  
Executive Chairman

## About ITL BioMedical

ITL BioMedical is a division of ITL. The division has a range of bacterial screening ancillaries as part of its wider portfolio of biological sampling and transfer kits. The division's products are distributed by industry leaders and partners around the world.

**ITL Limited ABN 16 088 212 088**

**Unit 1, 63 Wells Road  
Chelsea Heights, Victoria, 3196**

ITL is an innovative diversified medical technology company that creates and manufactures leading edge medical devices for Operating Theatres, Blood banks and laboratories.

ITL's patented medical devices are sold in over 50 countries and protect healthcare workers in millions of procedures annually.

ITL's wholly owned subsidiary MyHealthTest creates and markets highly innovative direct to consumer pathology testing for major chronic diseases.
