Intelligent Cardiovascular Information System (iCVIS) to be delivered to Sunshine Coast University Hospital

Highlights:

- **Strengthening of the commercialization of iCVIS through FUJIFILM.**
- **Contract to deliver iCVIS to Sunshine Coast University Hospital.**
- **Cardiovascular Information System market estimated to be \$USD917m by 2020¹.**

FUJIFILM Medical Systems, a division of FUJIFILM Australia Pty Ltd (**FUJIFILM**), has secured a contract to deliver a leading edge intelligent Cardiovascular Information System (**iCVIS**) to the Sunshine Coast University Hospital in Queensland, Australia. iCVIS was developed by Alcidion for FUJIFILM and is built upon the Miya platform to address clinical risk, workflow and logistic issues that are encountered in cardiology labs. The terms of the transaction remain commercial-in-confidence.

The FUJIFILM Group is considered a global leader in the Cardiovascular Informatics market. The Cardiovascular Information Systems Market is estimated to grow at approximately 8.1% CAGR to \$USD917m by 2020.

Mr Ray Blight, Chief Executive Officer of Alcidion commented "Since FUJIFILM and Alcidion announced a strategic partnership, we have been diligently developing the Intelligent Cardiovascular Information System – we are exceptionally excited to see FUJIFILM expand the commercialisation of this award winning solution."

Alcidion is excited about this new opportunity as it signals an acceleration in the rollout of intelligent cardiovascular technology throughout Australia and potentially into international markets.

Eric Le Bail, General Manager, Medical Systems of FUJIFILM Australia commented that "This is a very important opportunity for both FUJIFILM and Alcidion, to be a part of this exciting new Hospital development on the Sunshine Coast is a further step in bringing the very exciting iCVIS product to the broader market. iCVIS is a bespoke application of the Miya platform that addresses the clinical risk, workflow and logistic issues that are encountered in cardiology labs".

The project is set to commence in the coming months and the software is scheduled to be in production use when the hospital opens in April 2017.

The Queensland Government recently announced \$730m of funding to upgrade its Clinical Systems throughout the state and the formation of eHealth Queensland. Sunshine Coast Hospital will open with approximately 450 beds.
