MANAGING DIRECTOR'S REVIEW

BLUE SKY POWER FUNDING

Last year was a break through for Triple Energy Ltd (**Triple**) in securing the financing necessary to drill two new wells in the Company's coal bed methane acreage in Hegang, China. Specifically, an investment of around A\$6 million was made in Triple by Blue Sky Power Holdings Ltd (**BSP**), a company listed on the Hong Kong Stock Exchange (HKSE 6828).

As part of this transaction, BSP's Chairman, Mr Tommy Cheng was appointed as the Non Executive Chairman of Triple. He was later joined by Mr Po Chan, as an Executive Director. BSP now holds just under 50% of the issued capital in Triple following the recent conversion of drilling Performance Shares. I am pleased to report that the relationship that has since developed between Triple and BSP is one of strong cooperation with the common objective of growing the Company significantly.

As a reminder to shareholders, BSP has a downstream strategy of, inter-alia, generating electricity using cleaner sources of energy and in particular gas. Triple is thus a part of the vertically integrated "upstream" strategy of BSP's energy strategy in China.

DRILLING IN HEGANG

As mentioned, BSP's investment in Triple was mostly to fund the drilling of two new CBM wells and this was partly arranged by the issue of Performance Shares in Triple. Despite unforeseen delays in drilling in 2015 and subsequent land access difficulties due to proximate underground coal mining activities, BSP delivered these services to the extent physically possible. Whilst the entire testing programme could not be completed, we did acquire a full suite of desorption logging and other necessary data to evaluate the gas in the coals in the drilling areas.

Specifically, the fracking and testing programme physically cannot be undertaken in the Yixin-1 well and the Niaoshan-1 well did not demonstrate recoverable gas worthwhile testing. We thus sought and received shareholder approval to re-issue the Performance Shares pro rata to the work that was capable of being undertaken as per the Notice of Meeting dated 19 May 2016. These Performance Shares have since vested and have been converted on a pro-rata basis with 318 million new ordinary shares having been issued.

NEW PROJECTS

2015 also saw a "sea-change" for Triple as we have been able to commence looking for other energy projects in China, beyond just the Heilongjiang Joint Venture. Specifically BSP has introduced Triple to other quality producing assets in China via its network of relationships and contacts.

The announcement in October 2015 of a Letter of Intent to acquire ready to develop coal bed methane project areas in the Hangcheng area was the first of these initiatives. The acreage involved is well understood in terms of the gas content and recovery rates as it has already been well explored and appraised. In one area for example, there are already seven existing producing wells in the productive coal seams. Consequently, when an agreement is executed, it is expected that Triple will be able to move quickly to monetise these project areas and emerge as a gas production company in China.

It is Triple's objective to finalise this transaction as soon as possible. Internal modelling of these assets based on current assumptions demonstrates substantial potential value-add for Triple shareholders.

The benefits of the strong relationship with BSP were further evident via the recent placement of shares to raise around A\$1.75m to fund working capital and new ventures activities.

A number of other already producing energy assets in China are under review for possible future acquisition, consistent with Triple's goal of growing its energy production portfolio in scale. Included in this review is the possibility of exercising Triple's rights over the Jixi CBM area, which is included in Heilongjiang (Aolong) Joint Venture. This area already has five CBM wells drilled on it which Triple understands were successful and hence the area is ready to develop.

CLOSING

Whilst the drilling in Hegang last year was not as successful as we would have liked, Triple's objective of establishing a portfolio of quality producing energy assets in China and dual listing on the Hong Kong stock exchange is still our primary focus.

I wish to thank the Board, staff and advisors of Triple located in the respective Perth, Hong Kong and Beijing offices for their considerable efforts. It has been a transformational year and I know we are all excited at the possibilities that are currently before us.

We look forward to ongoing shareholder support in pursuing these objectives and hope to see you at the upcoming Annual General Meeting in August.

DIRECTORS' REPORT (continued)

Your directors submit the annual financial report of the Company for the financial year ended 31 March 2016. In order to comply with the provisions of the Corporations Act 2001, the directors report as follows:

Directors

The names of directors who held office during or since the end of the year and until the date of this report are as follows. Directors were in office for this entire period unless otherwise stated.

Mr Ming Kit (Tommy) Cheng	Non Executive Chairman
Mr Paul Underwood	Managing Director and Chief Executive Officer
Mr Po Siu Chan	Executive Director (appointed 29 April 2015)
Mr Garry Ralston	Independent Non-Executive Director

Names, qualifications, experience and special responsibilities

Mr Tommy Cheng **Non-Executive Chairman** **Qualifications: B.Comm**

Mr Cheng is an executive director and chairman of Blue Sky Power Holdings Ltd (HKEx Stock Code 6828 "BSP"). He holds a Bachelor degree in Commerce from the University of Alberta, Canada. From 1995 to 2003, Mr Cheng held various positions which were responsible for corporate finance and property development activities in the People's Republic of China (PRC). From 2003 to 2008, Mr Cheng was involved in the investment and operations in the gold mining industry in the PRC and had held senior positions in a mining company listed on the Toronto Stock Exchange Venture Board with mining and exploration operations in the PRC. Mr Cheng is currently an executive director and chief executive officer of New Times Energy Corporation Limited (HKEx stock code: 0166) and was an executive director of Grand T G Gold Holdings Limited (HKEx stock code: 08299) from November 2008 to June 2009, which shares are listed on the Hong Kong Stock Exchange.

During the three years to balance date, Mr Cheng has served as a Director of New Times Energy Corporation Limited (2009- present) and Blue Sky Power holdings Ltd (2014-Present).

Mr Paul Underwood **Managing Director and Chief Executive Officer** **Qualifications: B.Bus, Grad Diploma in Applied Finance, Chartered Accountant**

Mr Underwood has over 33 years experience in the upstream oil and gas sector and corporate advisory. He was the founding Managing Director and Chief Executive Officer of Tap Oil Limited (ASX: TAP), a position he held for 11 years. Mr Underwood presided over Tap Oil during its progression from an unlisted junior start-up company into a significant participant in the oil and gas sector with a market capitalisation of several hundred million dollars.

Mr Underwood has also served as a Non-Executive Director of Western Power, a Western Australian state owned electricity utility, and is the President of Alliance Francaise de Perth.

During the three years to balance date Mr Underwood has not served as a director of any other listed company.

Mr Po Siu Chan **Executive Director,** **Qualifications: FCA, MComm**

Mr Chan is a fellow of Chartered Accountants Australia and New Zealand and is a Director of Afanti Asset Management in Hong Kong. Mr Chan has experience in business consulting and investment banking in China and the Asia Pacific region. Mr Chan has held roles as a Director at PwC in the Advisory division and as a Senior Manager at ANZ in its Project Finance division and has significant experience in transactions in China and Asia Pacific. He holds a Masters Degree in Commerce (specialised in Banking and Finance) from the University of New South Wales in Sydney and a Bachelor Degree in Commerce from the University of Sydney in Sydney.

During the three years to balance date Mr Chan has not served as a director of any other listed company.

DIRECTORS' REPORT (continued)

Mr Garry Ralston

Independent Non-Executive Director, Chairman Audit & Risk, Nomination and Remuneration Committees
Qualifications: Licensed Finance Broker (CFB)

Mr Ralston serves as a Non-Executive Director of the Company and is based in Perth, Western Australia. Mr Ralston has been directly involved in the banking and finance industry for over 44 years. Mr Ralston was a co-founder of Finance and Systems Technology (FAST) which is one of Australia's premier mortgage aggregators. Mr Ralston is also a director and co-founder of Select Mortgage Services.

During the three years to balance date Mr Ralston has not served as a director of any other listed company.

Company Secretary - Mr Alex Neuling

Mr Neuling is a Chartered Accountant and Chartered Secretary with extensive corporate and financial experience including as director, chief financial officer and / or company secretary of various ASX-listed companies in the Oil & Gas, mining, mineral exploration and other sectors.

Prior to those roles, Alex worked at Deloitte in London and Perth. Alex also holds an honours degree in Chemistry from the University of Leeds in the United Kingdom and is principal of Erasmus Consulting Pty Ltd which provides company secretarial and financial management consultancy services to a variety of ASX-listed and other companies.

Interests in the shares and options of the Company

The following relevant interests (including indirect interests) in shares and options of the Company or a related body corporate were held by the Directors as at the date of this report or the date each Director ceased to be a Director, as applicable.

Directors	Fully paid ordinary shares	Options
Mr Tommy Cheng*	-	30,000,000
Mr Po Chan*	-	20,000,000
Mr Paul Underwood	28,160,000	20,000,000
Mr Garry Ralston	12,000,000	1,000,000

*Mr Cheng and Mr Chan are nominees of Blue Sky Power Holdings Ltd (BSP). The BSP Group is a substantial shareholder of the Company which currently holds 768,104,905 ordinary shares (48.9%).

No ordinary shares were issued by the Company during or since the end of the financial year as a result of the exercise of an option.

There are no unpaid amounts on the shares issued.

At the date of this report unissued ordinary shares of the Company under option are:

Class	Expiry Date	Exercise price	Number of options
G	31 August 2018	\$0.015	77,000,000
			77,000,000

Dividends

No dividends have been paid or declared since the start of the financial year and the directors do not recommend the payment of a dividend in respect of the financial year.

Principal Activities

The principal activity of the Company during the year was the exploration for natural resources.

DIRECTORS' REPORT (continued)

Review of Operations

Blue Sky Power Investment Transaction

During the prior financial year the Company announced the execution of a binding Memorandum of Understanding ("MoU") with Blue Sky Power Holdings Limited (**BSP**), whereby BSP would introduce investment of around A\$6m into the TNP Group to fund a two well drilling program in China and working capital (**BSP Transaction**). This investment was arranged by way of share placements plus the funding of a two well drilling program.

On 24 April 2015 Shareholders voted overwhelmingly to approve the BSP Transaction and subsequently the Company issued 291.7 million new ordinary shares at an issue price of \$0.006 per share and 595.3 million drilling performance shares to BSP, raising A\$1.75 million in new funds (before costs). Of the 291.7 million shares issued, 83.33 million were used to settle in full the A\$0.5 million converting loan previously advanced by BSP.

Concurrent with the approval of the investment transaction, Triple welcomed Mr Tommy Cheng as Chairman to the Triple Board and Mr Po Chan to the Board as BSP's second nominated director.

Coal Mine Gas Project, Heilongjiang, China

Under the terms of the BSP Transaction, the Aolong Joint Venture (80% profit interest to TNP), entered into a drilling contract with Beijing Jiuzun Energy Technology Co Ltd (**Jiuzun Energy**) for the drilling and technical services for the two wells in the Hegang area of Heilongjiang Province in China.

Full responsibility for payment for the Jiuzun Energy drilling services was assumed by BSP, in consideration for the drilling performance shares issued to them by Triple. The terms of these performance shares allow for their conversion to ordinary shares on a 1:1 basis upon satisfactory completion of the specified drilling services by an agreed milestone date.

Two wells were drilled during 2015 under the arrangements with BSP and Jiuzun Energy: Niaoshan-1 and Yixin-1.

NIAOSHAN -1

The first of the two 2015 wells was spudded on 29 June 2015. The well was drilled to a Total Depth (**TD**) of 1,261 metres (measured depth), as planned. Following wireline analysis and the completion of analysis of core desorption data, it was interpreted that the coal seams intersected in the well did not have sufficient gas content for the well to be commercial. This was interpreted to be due to leakage of the original gas in place through proximate fault planes. It was recently agreed that this well would be plugged and abandoned.

YIXIN-1

The second 2015 well was spudded in early September 2015 and on 16 November 2015 had reached (TD) at 1,090 metres (measured depth). Five coal seams intersected were cored and the cores analysed. Drill Stem Tests were also run and this data was analysed in conjunction with the core samples, mud and wireline logs. Encouraging preliminary results of this analysis indicated that, whilst data were not conclusive:

- the coal seams below Seam #11 have sufficient indications of gas charge to justify a fracture stimulation and test operation over one or more seams; and
- Yixin-1 data below Seam #11 are similar to observations from the 2013 Xian Xian-1 well, supporting the case for a future re-entry of that well or a well in that area.

Fracking and testing operations were not able to be conducted immediately following the drilling, due to the freezing temperatures over winter. Technical studies for the Hegang area were reviewed in detail by Triple and the drilling contractor and the results of this were announced by the Company in April 2016.

In summary, the Yixin-1 well drilled in 2015 will not be fraced and tested as it has been established that this cannot be achieved safely due to a proximate unsealed borehole. Triple has been in detailed discussions Longmei in respect of this matter such that future drilling areas are not likewise affected.

Both wells drilled in 2015 have already provided a great deal of valuable data (including core desorption and logging analysis and Triple remains confident as to the prospects of future drilling in this Joint Venture, especially in the Jixi area where the Joint Venture provides Triple with exclusivity subject to certain conditions.

The Jixi area has already shown considerable promise wherein TNP is advised that five CBM wells have already been drilled. Triple understands these wells have demonstrated good gas flow rates and as such, the area is likely ready for immediate development. TNP is accordingly arranging discussions with Longmei to procure the data from these wells with a view to exercising its rights over this area and adding this area to the portfolio.

DIRECTORS' REPORT (continued)

Drilling Performance Shares

As at 31 December 2015 (the originally scheduled milestone completion date) the 2 wells had been drilled and cored as announced by the Company to ASX previously, however certain other specified components of the drilling services were not able to be met through no fault of Triple or BSP. A general meeting of the Company was convened and held on 28 June 2016 to enable the drilling performance shares to be reissued on revised terms. Shareholders voted overwhelmingly in favour of reissuing the shares, which was completed immediately following the meeting. Subsequently, the Company and BSP determined a pro-rata vesting of the reissued shares based on the value of drilling services performed up to that date and 318 million new fully paid ordinary shares were issued to BSP, while the balance of 277 million of the reissued drilling performance shares were agreed to have lapsed immediately in accordance with their terms.

New projects

In October 2015 Triple signed a Letter of Intent (LoI) to acquire interests in a number of CBM blocks in Shaanxi Province, China. In summary, the LoI includes 4 x blocks covering around 378 km² total in the Ordos Basin of Shaanxi Province in PRC. Triple continues to work actively towards concluding a transaction in relation to these blocks. An independent expert's report on the blocks has been commissioned for due diligence purposes and documentation with relevant owners is progressing.

Management considers the Ordos Basin blocks to be well suited to the growth plans and overall strategy of Triple Energy (and TNP's major shareholder, Blue Sky Power). Specifically, they have the potential to generate meaningful near term production and to book resources/reserves and thus further TNP's goal to become a relevant gas production company, dual listed on the Australian and Hong Kong Stock Exchanges.

Operating Results for the Year

The consolidated net loss after income tax attributable to members of the Company amounted to \$1,622,013 (2015 \$693,823).

Review of Financial Conditions

As at 31 March 2016 the Consolidated Entity held \$403k in cash, excluding funds raised subsequent to year-end of A\$1.75m through a placement of 117 million new fully paid shares at 1.5 cents per share.

Corporate Governance and Risk Management

Details of the Company's Corporate Governance and Risk Management policies are contained within the Corporate Governance Statement in the Directors' Report.

Significant Changes in the State of Affairs of the Consolidated Entity

Other than the capital-raising, performance share re-issue and operational updates as noted elsewhere in this Report, there have been no significant changes in the state of affairs of the Consolidated Entity to the date of this Report.

Significant Events After Balance Date

On 11 April 2016 Triple announced the placement of 117 million new fully paid ordinary shares to raise A\$1.75 million before costs. The Shares were subsequently allotted and issued on 15 April 2016. Funds raised are to be applied towards furthering a proposed acquisition and for general working capital purposes.

On 28 June 2016, Shareholders approved the issue on amended terms of 595.3 million drilling performance shares (**Performance Shares**) and on 29 June 2016 the Company announced the vesting and conversion of 318 million of the Performance Shares into fully paid ordinary shares, with the balance of 277 million performance shares automatically lapsing in accordance with their terms.

Except as disclosed, no matter or circumstance has arisen since 31 March 2016 that in the opinion of the Directors has significantly affect, or may significantly affect in future financial years:

- (i) the Group's operations;
- (ii) the results of those operations; or
- (iii) the Group's state of affairs.

DIRECTORS' REPORT (continued)

Likely Developments and Expected Results

The company continues to evaluate new projects complimentary with the business model of finding and developing producing gas projects in China.

Except as disclosed herein, disclosure of information regarding likely developments in the operations of the Company in future financial years and the expected results of those operations is likely to result in unreasonable prejudice to the Company. Therefore, this information has not been presented in this report.

Environmental Legislation

The Company is subject to the usual environmental and monitoring requirements in respect of its natural resources exploration activities in China.

The Directors are not aware of any significant breaches of these requirements during the period.

Indemnification and Insurance of Directors and Officers

The Company has agreed to indemnify all the directors of the Company for any liabilities to another person (other than the Company or related body corporate) that may arise from their position as directors of the Company and its controlled entities, except where the liability arises out of conduct involving a lack of good faith.

During the financial year the Company paid a premium in respect of a contract insuring the directors and officers of the Company and its controlled entities against any liability incurred in the course of their duties to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

DIRECTORS' REPORT (continued)

Remuneration Report

This report, which forms part of the directors' report, outlines the remuneration arrangements in place for the key management personnel of Triple Energy (the "Company") for the financial year ended 31 March 2016. The information provided in this remuneration report has been audited as required by Section 308(3C) of the Corporations Act 2001.

The remuneration report details the remuneration arrangements for key management personnel ("KMP") who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company and the Group, directly or indirectly, including any director (whether executive or otherwise) of the parent company.

Key Management Personnel

(i) Directors

Mr Tommy Cheng (Non-Executive Chairman)
Mr Paul Underwood (Managing Director and Chief Executive Officer)
Mr Po Chan (Executive Director)
Mr Garry Ralston (Independent Non-Executive Director)

(ii) Executives

Mr Alex Neuling (Company Secretary)

(iii) Former Directors

Mr Greg Meldrum (Former Non-Executive Technical Director) (appointed 27 November 2013 resigned 9 December 2014)

Remuneration philosophy

The performance of the Company depends upon the quality of the directors and executives. The philosophy of the Company in determining remuneration levels is to:

- set competitive remuneration packages to attract and retain high calibre employees;
- link executive rewards to shareholder value creation; and
- establish appropriate, demanding performance hurdles for variable executive remuneration

Remuneration Committee

The Board, in its capacity as the Remuneration Committee of the Board of Directors of the Company; and in accordance with the Remuneration Committee Charter is responsible for determining and reviewing compensation arrangements for the directors, the CEO and the executive team.

The Board assesses the appropriateness of the nature and amount of remuneration of directors and executives on a periodic basis by reference to relevant employment market conditions with an overall objective of ensuring maximum stakeholder benefit from the retention of a high quality Board and executive team.

Remuneration structure

In accordance with best practice Corporate Governance, the structure of non-executive director and executive remuneration is separate and distinct.

Non-executive director remuneration

The Board seeks to set aggregate remuneration at a level that provides the Company with the ability to attract and retain directors of the highest calibre, whilst incurring a cost that is acceptable to shareholders.

The ASX Listing Rules specify that the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. The latest determination was at the Annual General Meeting held on 31 August 2010 when shareholders approved an aggregate remuneration of up to \$250,000 per year.

DIRECTORS' REPORT (continued)

Remuneration report (continued)

The amount of aggregate remuneration sought to be approved by shareholders and the manner in which it is apportioned amongst directors is reviewed annually. The Board considers advice from external shareholders as well as the fees paid to non-executive directors of comparable companies when undertaking the annual review process.

Each director (other than an alternate director) is entitled to receive a fee for being a director of the Company, however the Company's Chairman, Mr Tommy Cheng, has waived his entitlement to receive a Directors fee.

The remuneration of non-executive directors for the year ended 31 March 2016 is detailed in the Remuneration of directors and named executives in Table 1 of this report.

Senior manager and executive director remuneration

Remuneration consists of fixed remuneration and Company options (as determined from time to time). In addition to the Company employees and directors, the Company engages key consultants on a contractual basis. These contracts stipulate the remuneration to be paid to the consultants.

Fixed Remuneration

Fixed remuneration is reviewed annually by the full Board (assuming the role of the Remuneration Committee and in accordance with the Remuneration Committee charter). The process consists of a review of relevant comparative remuneration in the market and internally and, where appropriate, external advice on policies and practices. The Committee has access to external, independent advice where necessary.

Fixed remuneration is paid in the form of cash payments.

The fixed remuneration component of key management personnel is detailed in Table 1.

Variable Remuneration

Executives (including executive Directors) are eligible to participate in the Company's Short Term Incentive (bonus) schemes, as well as Long Term Incentives arrangements in the form of the grant of share options or participation in the Company Employee Share Scheme ("ESS"). During the year, 77,000,000 options exercisable at 1.5 cent per share on or before 31 August 2018 were granted to Directors and management pursuant to Shareholder approval granted at the Company's AGM on 28 August 2015.

During the 2015 year, the Company's CEO Mr Paul Underwood was awarded 15,000,000 ESS shares at an issue price of 2 cents per share, funded by a limited-recourse loan from the Company and subject to project-specific vesting conditions as approved by Shareholders at the 2014 AGM. In addition, Mr Underwood was entitled to a cash bonus of \$96,000 for the year ended 31 March 2015, paid upon completion of the 2015 two-well drilling program for which funding was secured during that year.

Key Management Personnel Employment & Service Contracts

PW Underwood

The Company has engaged Mr Paul Underwood effective as from 14 February 2012 as Executive Chairman and Chief Executive Officer. Effective 9 December 2014, Mr Tommy Cheng was appointed Non-Executive Chairman and Mr Underwood appointed Managing Director and Chief Executive Officer. With effect from 1 May 2015 Mr Underwood is paid annual remuneration of \$160,000 plus statutory superannuation. Mr Underwood is also reimbursed for reasonable expenses incurred in carrying out his duties. The Company is required to provide a notice period consistent with the position of 6 months prior to termination, or alternatively, payment in lieu of service and directors and to maintain officers indemnity insurance.

AJ Neuling – Company Secretary

The Company has engaged Erasmus Consulting Pty Ltd ("Erasmus") to provide consulting services including services provided by Mr Neuling (an employee and Director of Erasmus). The consulting contract between the Company and Erasmus incorporates a monthly minimum retainer of \$1,800 (excluding GST) and additional fees on an hourly rate for work performed by Erasmus personnel in excess of 10 director-level staff hours per month.

DIRECTORS' REPORT (continued)

Remuneration report (continued) Remuneration of directors and named executives

Table 1: Directors' and named executives' remuneration for the year ended 31 March 2016

	Short-term employee benefits			Post-employment benefits		Equity		Total	%
	Salary & Fees	Bonuses	Non- Monetary	Superannuation	Prescribed	Options	Performance		
Mr Tommy Cheng	-	-	-	-	-	64,410	64,410	64,410	100%
Mr Paul Underwood	156,667	-	-	14,883	-	42,940	214,490	214,490	20%
Mr Po Chan	80,000	-	-	-	-	42,940	122,940	122,940	35%
Mr Garry Ralston	35,500	-	-	-	-	2,147	37,647	37,647	6%

DIRECTORS' REPORT (continued)

Directors' Meetings

The number of meetings of Directors held during the year and the number of meetings attended by each Director was as follows:

Director	Board Meetings*	
	Attended	Eligible to Attend
Mr Tommy Cheng	4	6
Mr Paul Underwood	6	6
Mr Po Chan	5	5
Mr Garry Ralston	6	6

*Includes matters determined by circulating resolution.

Separate Remuneration, Nomination and Audit & Risk Committees were established during the year but did not hold separate meetings during the year. Committee Business was instead considered by the full Board during 2016.

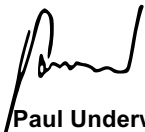

Auditor's Independence and Non-Audit Services

Section 307C of the Corporations Act 2001 requires our auditors, HLB Mann Judd, to provide the directors of the Company with an Independence Declaration in relation to the audit of the annual report. This Independence Declaration is set out on page 13 and forms part of this directors' report for the year ended 31 March 2016.

Non-Audit Services

There were no non-audit services provided by the Company's auditors in the current financial year.

Signed in accordance with a resolution of the Directors.

A handwritten signature in black ink, appearing to read "Paul Underwood".

Paul Underwood

Managing Director

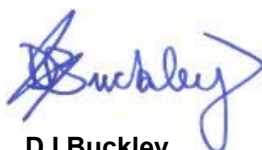

Dated this 30th day of June 2016

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the consolidated financial report of Triple Energy Limited for the year ended 31 March 2016, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) any applicable code of professional conduct in relation to the audit.

Perth, Western Australia

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES****(a) Basis of preparation**

The financial statements are general purpose financial statements, which have been prepared in accordance with the requirements of the Corporations Act 2001, Accounting Standards and Interpretations and comply with other requirements of the law.

The financial statements comprise the consolidated financial statements of the Company and its subsidiaries (the Group). For the purposes of preparing the consolidated financial statements, the Company is a for-profit entity.

The financial statements have also been prepared on a historical cost basis. Cost is based on the fair values of the consideration given in exchange for assets.

The financial statements are presented in Australian dollars.

The Company is a listed public company, domiciled in Australia and operating in Australia (with subsidiaries operating internationally). The principal activity of the Group is the exploration for natural resources.

Going Concern

The financial statements have been prepared on a going concern basis, which contemplates the continuity of normal business activity and the commercial realisation of the Group's assets, and the settlement of liabilities in the normal course of business.

The Group has recorded a net loss after tax of \$1,622,013 and net operating and investing cash outflows of \$1,687,389 for the year. At 31 March 2016, the Group also had a working capital deficit of \$421,456. Notwithstanding this, the Directors have reviewed the Group's overall position in respect of the matters identified above and are of the opinion that the use of the going concern basis is appropriate in the circumstances, having regard, inter alia, to the post year-end placement of shares by the Company to raise approximately A\$1.75m before associated costs.

(b) Adoption of new and revised standards**Changes in accounting policies on initial application of Accounting Standards**

In the year ended 31 March 2016, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for the current annual reporting period.

It has been determined by the Directors that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Group's business and, therefore, no change is necessary to Group accounting policies.

The Directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the year ended 31 March 2016. As a result of this review the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Group's business and, therefore, no change necessary to Group accounting policies.

(c) Statement of compliance

The financial statements were authorised for issue on 30 June 2016.

The financial statements comply with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards (IFRS).

(d) Basis of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Triple Energy Ltd ('the Company') as at 31 March 2016 and the results of all subsidiaries for the year then ended. Triple Energy Ltd and its subsidiaries are referred to in this financial report as the group or the consolidated entity.

The financial statements of the subsidiaries are prepared for the same reporting period as the parent entity, using consistent accounting policies.

In preparing the consolidated financial statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-group transactions have been eliminated in full.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

(d) Basis of consolidation (continued)

Subsidiaries are fully consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group. Control exists where the company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing when the Group controls another entity.

Unrealised gains or transactions between the Group and its associates are eliminated to the extent of the Group's interests in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests represent the portion of profit or loss and net assets in subsidiaries not held by the Group and are presented separately in the statement of comprehensive income and within equity in the consolidated statement of financial position. Losses are attributed to the non-controlling interests even if that results in a deficit balance.

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity attributable to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill) and liabilities of the subsidiary and any non-controlling interests. When assets of the subsidiary are carried at revalued amounts or fair values and the related cumulative gain or loss has been recognised in other comprehensive income and accumulated in equity, the amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the relevant assets (i.e. reclassified to profit or loss or transferred directly to retained earnings as specified by applicable Standards). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under AASB 139 'Financial Instruments: Recognition and Measurement' or, when applicable, the cost on initial recognition of an investment in an associate or jointly controlled entity.

(e) Critical accounting judgements and key sources of estimation uncertainty

The application of accounting policies requires the use of judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions are recognised in the period in which the estimate is revised if it affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Share-based payment transactions:

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined using a Black and Scholes model. The Group measures the cost of share-based payments at fair value at the grant date using the Black and Scholes formula taking into account the terms and conditions upon which the instruments were granted, as discussed in Note 16.

Valuation of Performance Shares:

During the year the Group issued 595.3 million drilling performance shares to the BSP group in consideration for the procurement of drilling services. The accounting value of the Performance Shares has been determined using the market value of the Company's shares as at the date of issue of the performance shares and with an assessment carried out at balance date as to the value of the drilling services performed and thereby the number of performance shares deemed likely to have vested at that date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

(f) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

(i) Interest income

Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial asset.

(g) Cash and cash equivalents

Cash comprises cash at bank and in hand. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(h) Trade and other receivables

Trade receivables are measured on initial recognition at fair value. Trade receivables are generally due for settlement within periods ranging from 15 days to 30 days.

Impairment of trade receivables is continually reviewed and those that are considered to be uncollectible are written off by reducing the carrying amount directly. An allowance account is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original contractual terms. Factors considered by the Group in making this determination include known significant financial difficulties of the debtor, review of financial information and significant delinquency in making contractual payments to the Group.

The amount of the impairment loss is recognised in the statement of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

(i) Property, plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses. Such cost includes the cost of replacing parts that are eligible for capitalisation when the cost of replacing the parts is incurred. Similarly, when each major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement only if it is eligible for capitalisation.

Land and buildings are measured at fair value less accumulated depreciation on buildings and less any impairment losses recognised after the date of the revaluation.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets as follows:

Leasehold Improvements – lease term

Plant and equipment – over 5 to 15 years

The assets' residual values, useful lives and amortisation methods are reviewed, and adjusted if appropriate, at each financial year end.

(i) Impairment

The carrying values of plant and equipment are reviewed for impairment at each balance date, with recoverable amount being estimated when events or changes in circumstances indicate that the carrying value may be impaired.

The recoverable amount of plant and equipment is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For an asset that does not generate largely independent cash inflows, recoverable amount is determined for the cash-generating unit to which the asset belongs, unless the asset's value in use can be estimated to approximate fair value.

An impairment exists when the carrying value of an asset or cash-generating units exceeds its estimated recoverable amount. The asset or cash-generating unit is then written down to its recoverable amount.

For plant and equipment, impairment losses are recognised in the statement of comprehensive income in the cost of sales line item.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

(i) Property, plant and equipment (continued)

(iii) Derecognition and disposal

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognised.

(j) Derecognition of financial assets and financial liabilities

(i) Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired;
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either:
 - (a) has transferred substantially all the risks and rewards of the asset, or
 - (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When continuing involvement takes the form of a written and/or purchased option (including a cash-settled option or similar provision) on the transferred asset, the extent of the Group's continuing involvement is the amount of the transferred asset that the Group may repurchase, except that in the case of a written put option (including a cash-settled option or similar provision) on an asset measured at fair value, the extent of the Group's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

(ii) Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

(k) Foreign currency translation

The functional and presentation currency of Triple Energy Limited is Australian dollars. Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

(l) Income tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date.

Deferred income tax is provided on all temporary differences at the balance date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

(l) Income tax (continued)

- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- or
- when the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

(m) Other taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(n) Impairment of assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016**(n) Impairment of assets (continued)**

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at revalued amount (in which case the impairment loss is treated as a revaluation decrease).

An assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

(o) Trade and other payables

Trade payables and other payables are carried at amortised costs and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services.

(p) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability.

When discounting is used, the increase in the provision due to the passage of time is recognised as a borrowing cost.

(q) Share-based payment transactions

The Group provides benefits to employees (including senior executives) of the Group in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

The cost of these equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of Triple Energy Limited (market conditions) if applicable.

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the Group's best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The income or expense for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016**(r) Issued capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(s) Earnings per share

Basic earnings per share is calculated as net profit / loss attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share is calculated as net profit / loss attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

(t) Exploration and evaluation

Exploration and evaluation expenditures in relation to each separate area of interest are recognised as an exploration and evaluation asset in the year in which they are incurred where the following conditions are satisfied:

- (i) the rights to tenure of the area of interest are current; and
- (ii) at least one of the following conditions is also met:
 - (a) the exploration and evaluation expenditures are expected to be recouped through successful development and exploration of the area of interest, or alternatively, by its sale; or
 - (b) exploration and evaluation activities in the area of interest have not at the reporting date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

Exploration and evaluation assets are initially measured at cost and include acquisition of rights to explore, studies, exploratory drilling, trenching and sampling and associated activities and an allocation of depreciation and amortised of assets used in exploration and evaluation activities. General and administrative costs are only included in the measurement of exploration and evaluation costs where they are related directly to operational activities in a particular area of interest.

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. The recoverable amount of the exploration and evaluation asset (for the cash generating unit(s) to which it has been allocated being no larger than the relevant area of interest) is estimated to determine the extent of the impairment loss (if any). Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years.

Where a decision has been made to proceed with development in respect of a particular area of interest, the relevant exploration and evaluation asset is tested for impairment and the balance is then reclassified to development.

(u) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of Triple Energy Limited.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

(v) Parent entity financial information

The financial information for the parent entity, Triple Energy Limited, disclosed in Note 24 has been prepared on the same basis as the consolidated financial statements, except as set out below:

i. investments in subsidiaries, associates and joint venture entities

Investments in subsidiaries, associates and joint venture entities are accounted for at cost in the parent entity's financial statements.

ii. Share-based payments

The grant by the Company of options over its equity instruments to the employees of subsidiary undertakings in the Group is treated as a capital contribution to that subsidiary undertaking. The fair value of employee services received; measured by reference to the grant date fair value, is recognised over the vesting period as an increase to the investment in subsidiary undertaking, with a corresponding credit to equity.

Income tax benefit/(expense) attributable to entity	<u>-</u>	<u>-</u>

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016
NOTE 3: INCOME TAX (continued)
(c) Tax losses

Unused tax losses for which no deferred tax asset has been recognised have not been recognised as a deferred tax asset as the future recovery of these losses is subject to the Company satisfying the requirements imposed by the regulatory authorities. The benefit of deferred tax assets not brought to account will only be brought to account if:

- Future assessable income is derived of a nature and an amount sufficient to enable the benefit to be realised; and
- The conditions for deductibility imposed by tax legislation continue to be complied with and no changes in tax legislation adversely affect the Company in realising the benefit.

Prior period tax losses are deductible to the Company if the Company continues to pass the requirements of either the continuity of ownership test or the same business test. It is probable that the Company has failed the continuity of ownership test and same business test during a previous financial year. Specifically the Company's major shareholder disposed of its 56.67% interest in the Company on 25 September 2009 resulting in the probable breach of the continuity of ownership test. Further there was a change in the business of the Company as a result of the Company's move away from the medical technology business conducted by it prior to November 2009. As a result, as at 31 March 2014 it is assumed that the requirements of the continuity of ownership test have been satisfied from 25 September 2009 onwards and therefore tax losses incurred prior to 25 September 2009 are no longer tax deductible to the Company. As at 31 March 2016 the Company has estimated carry forward tax losses of \$1,993,984 (31 March 2015: \$1,557,322).

CONSOLIDATED

There are no potential ordinary shares that are considered dilutive, as a result no dilutive earnings per share has been disclosed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016
NOTE 5: OPERATING SEGMENTS
Identification of reportable segments

Triple Energy Limited is focused on the oil and gas sector.

The Group has identified its operating segments based on the internal reports that are reviewed and used by the executive management team (the chief operating decision makers) in assessing performance and in determining the allocation of resources.

The operating segments are identified by management based on the nature of its interests and projects. Discrete financial information about each of these projects is reported to the executive management team on at least a monthly basis.

Location of interests and nature of projects

Oil and gas exploration projects

The Group's current project is located in the People's Republic of China. The Company continues to review other potential opportunities within the oil and gas sector internationally.

Accounting policies and inter-segment transactions

The accounting policies used by the Group in reporting segments internally are the same as those contained in Note 1 to the accounts and in the prior period.

(b) Performance Shares
(i) Existing Drilling Performance Shares

During the year to 31 March 2016, the Company issued 595.3 million drilling performance shares to BSP as part of the Shareholder-approved BSP Transaction. Under the terms of the BSP Transaction, the Aolong Joint Venture (80% profit interest to TNP), entered into a drilling contract with Beijing Jiuzun Energy Technology Co Ltd (**Jiuzun Energy**) for the drilling and technical services for the two wells in the Hegang area of Heilongjiang Province in China.

Full responsibility for payment for the Jiuzun Energy drilling services was assumed by BSP in consideration for the drilling performance shares issued to them by Triple. The terms of these performance shares allow for their conversion to ordinary shares on a 1:1 basis upon satisfactory completion of the specified drilling services by an agreed milestone date.

As at 31 December 2015 (the originally scheduled milestone completion date) the 2 wells had been drilled and cored as announced by the Company to ASX previously, however certain other specified components of the drilling services were not able to be met through no fault of Triple or BSP. The independent Directors of Triple (being, in this instance the Directors not nominated by or associated with BSP) resolved to take such remedial action as may be necessary to enable the commercial substance and practical intent of the drilling services arrangements with BSP to be honoured. A general meeting of the Company was convened and held on 28 June 2016 to enable the drilling performance shares to be reissued on revised terms. Shareholders voted overwhelmingly in favour of reissuing the shares, which was completed immediately following the meeting. Subsequently, the Company and BSP determined a pro-rata vesting of the reissued shares based on the value of drilling services performed up to that date and 318 million new fully paid ordinary shares were issued to BSP, while the balance of 277 million of the reissued drilling performance shares were agreed to have lapsed automatically in accordance with their terms.

The drilling performance shares were valued based on the market price at the time of their original issue (being 24 April 2015) and subject to an assessment as at balance date of the number of performance shares likely to have vested as at that date.

(ii) Lapsed Prior Classes of Performance Shares

On 7 February 2013, pursuant to shareholder approval, the Company issued 350,000,000 Performance Shares in respect of the acquisition of CFT Heilongjiang (HK) Ltd. The Performance Shares were issued in 4 tranches and all 4 Tranches lapsed due to their relevant performance conditions not having been met. Tranches 1 and 2 lapsed in the year to 31 March 2014 and Tranches 3 and 4 (being two equal tranches of 250,000,000) lapsed in the year to 31 March 2015.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

NOTE 13: RESERVES (continued)

Share based payment reserve

For ESS transactions, the share based payment reserve is used to record the difference between the issue price of ESS shares and the fair value of consideration received by the Company where a limited-recourse loan from the Company is used to fund the purchase. Also, where equity instruments have been issued as consideration for the acquisition of assets or services and are required to be separately valued, any difference between fair value of the instrument granted and the actual book value of the assets received.

Foreign Currency Translation Reserve

This reserve is used to record exchange differences arising on translation of the group entities that do not have a functional currency of Australian dollars and have been translated into Australian dollars for presentation purposes.

Consolidation Reserve

This reserve recognises adjustments upon consolidation to record the difference between the non-controlling interest's share of the net assets and the equity committed by the non-controlling interest.

NOTE 14: SUBSIDIARIES

Details of the Group's subsidiaries at the end of the reporting period are as follows:

Name of subsidiary	Principal activity	Place of incorporation and operation	Proportion of ownership interest and voting power held by the Group	
			31 March 2016	31 March 2015
Tango Energy, Inc	Holds interests in Oil and Gas exploration	USA	100%	100%
CFT Heilongjiang (HK) Ltd	Oil and Gas investment	Hong Kong	100%	100%
Heilongjiang Aolong Energy Co. Ltd	Coal mine gas exploration	China	80%	80%

NOTE 15: FINANCIAL INSTRUMENTS

CONSOLIDATED

	2016	2015

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

NOTE 16: SHARE BASED PAYMENTS

At 31 March 2016, the Group has the following share-based payment arrangements affecting remuneration in the current or prior year.

Share Options granted to Directors and Consultants

Pursuant to Shareholder approval granted on 24 April 2015, during the year 77,000,000 new options were granted to Directors, officers and consultants to the Company. A non-cash share-based payment expense of \$165,319 was recognised during the year in relation to the option issue. Valuation of the options was performed by management using the Black Scholes methodology, incorporating the following inputs:

Share Price: \$0.006
Expected Volatility: 100%
Option life: 3 years
Expected Dividends: Nil
Risk-free interest rates: 2.5%

Also pursuant to Shareholder approval, granted on 24 April 2015, 20,000,000 options were granted to advisors to the Company in consideration for corporate services relating to the BSP Transaction. In accordance with Accounting Standards, the accounting cost of these options (\$33,700) was recognised within transaction costs and debited directly against equity. Valuation of the options was performed by management using the Black Scholes methodology, incorporating the following inputs:

Share Price: \$0.006
Expected Volatility: 100%
Option life: 6 months
Expected Dividends: Nil
Risk-free interest rates: 2.5%

Triple Energy Ltd Employee Share Plan

The Triple Energy Ltd Employee Share Plan was approved by shareholders at the General Meeting of 19 December 2012. Participation of the plan is at the Board's discretion and no individual has a contractual right to participate in the plan or to receive any guaranteed benefits. During 2015 15,000,000 shares were issued to a group employee as an incentive and remain subject to project-related vesting conditions, as approved by Shareholders at the 2014 AGM. The ESS shares issued are funded by an interest-free limited recourse loan to the recipient with a 5 year term. An amount of \$54,000 was recognised as an expense during the year to 31 March 2015 in relation to the issue.

The inherent option value of the ESS arrangement for accounting purposes has been recorded as a share-based-payment expense. The valuation was performed by management using the Black Scholes methodology, incorporating the following inputs:

Share Price: \$0.006
Expected Volatility: 100%
Option life: 5 years
Expected Dividends: Nil
Risk-free interest rates: 2.5%

NOTE 17: FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group has exposure to the following risks from their use of financial instruments:

- Credit risk
- Interest rate risk
- Liquidity risk
- Market risk

This note presents the information about the Group's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital.

The Board has overall responsibility for the establishment and oversight of the risk management framework. The Board reviews and agrees policies for managing each of these risks as summarised below.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

NOTE 17: FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

The Group's principal financial instruments comprise cash and short term deposits. The main purpose of the financial instruments is to earn the maximum amount of interest at a low risk to the Group. The Group also has other financial instruments such as trade debtors and creditors which arise directly from its operations. For the year ended 31 March 2014, it has been the Group's policy not to trade in financial instruments.

(a) Credit risk management

Credit risk refers to the risk that a counter-party will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group only transacts with entities that are rated the equivalent of investment grade and above. This information is supplied by independent rating agencies where available and, if not available, the Group uses publicly available financial information and its own trading record to rate its major customers. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management committee annually.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

The carrying amount of financial assets recorded in the financial statements, net of any allowance for losses, represents the Group's maximum exposure to credit risk without taking account of the value of any collateral obtained.

(b) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, who have built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. The Group did not have any undrawn facilities at its disposal as at balance date.

(c) Interest rate risk management

The Group is exposed to interest rate risk as the Group deposits the bulk of the Group's cash reserves in Term Deposits. The risk is managed by the Group by maintaining an appropriate mix between short term and medium-term Deposits. The Group's exposures to interest rate on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

(d) Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices will affect the Group's income or value of the holdings of financial instruments. The Group is exposed to movements in market interest rates on short term deposit, and foreign currency movements on the trade receivables. The policy is to monitor the interest rate yield curve out to 120 days to ensure a balance is maintained between the liquidity of cash assets and the interest rate return. The Group does not have short or long term debt, and therefore this risk is minimal. The Group limits its exposure to credit risk by only investing in liquid securities and only with counterparties that have acceptable credit ratings.

NOTE 18: COMMITMENTS AND CONTINGENCIES

Guarantees

Triple Energy Limited had in place a deposit-banked bank guarantee for an amount of \$15,308 (2015: \$15,308).

Operating lease commitments – Group as lessee

The Group has entered into a commercial lease in respect of its office premises. The lease has a minimum duration of less than one year from year-end.

Future minimum rentals payable under non-cancellable operating leases as at 31 March are as follows:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

	CONSOLIDATED	
	2016	2015
	\$	\$
Within one year	20,000	20,000
After one year but not more than five years	-	-
More than five years	-	-
	20,000	20,000

Capital expenditure commitments

As at balance date, the Group had no outstanding future commitments under equipment purchase contracts not otherwise accounted for as liabilities (2015: Nil).

NOTE 19: DIVIDENDS

The directors of the Company have not declared any dividend for the year ended 31 March 2016 (2015: nil).

NOTE 20: EVENTS SUBSEQUENT TO BALANCE DATE

On 11 April 2016 Triple announced the placement of 117 million new fully paid ordinary shares to raise A\$1.75 million before costs. The Shares were subsequently allotted and issued on 15 April 2016. Funds raised are to applied towards furthering a proposed acquisition and for general working capital purposes.

On 28 June 2016, Shareholders approved the issue on amended terms of 595.3 million drilling performance shares (**Performance Shares**) and on 29 June 2016 the Company announced the vesting and conversion of 318 million of the Performance Shares into fully paid ordinary shares, with the balance of 277 million performance shares automatically lapsing in accordance with their terms.

Except as disclosed, no matter or circumstance has arisen since 31 March 2016 that in the opinion of the Directors has significantly affect, or may significantly affect in future financial years:

- the Group's operations;
- the results of those operations; or
- the Group's state of affairs.

DIRECTORS' DECLARATION

In the opinion of the directors of Triple Energy Limited ('the Company'):

1. The financial statements and notes thereto, as set out on pages 14 to 41, are in accordance with the Corporations Act 2001 including:
 - a. giving a true and fair view of the consolidated entity's financial position as at 31 March 2016 and of its performance for the year then ended;
 - b. complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001; and
 - c. the financial statements and notes thereto are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.
2. There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
3. This declaration has been made after receiving the declarations required to be made to the directors in accordance with Section 295A of the Corporations Act 2001 for the financial year ended 31 March 2016.

This declaration is signed in accordance with a resolution of the Board of Directors made pursuant to s.303(5) of the Corporations Act 2001.

A handwritten signature in black ink, appearing to read "Paul Underwood".

Paul Underwood
Managing Director

Dated this 30th day of June 2016

INDEPENDENT AUDITOR'S REPORT

To the members of Triple Energy Limited

Report on the Financial Report

We have audited the accompanying financial report of Triple Energy Limited ("the company"), which comprises the consolidated statement of financial position as at 31 March 2016, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration for the Group. The Group comprises the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In Note 1(c), the directors also state, in accordance with Accounting Standard AASB 101: *Presentation of Financial Statements*, that the financial report complies with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Group's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our audit did not involve an analysis of the prudence of business decisions made by directors or management.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's opinion

In our opinion:

- (a) the financial report of Triple Energy Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the Group's financial position as at 31 March 2016 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1(c).

Report on the Remuneration Report

We have audited the remuneration report included in the directors' report for the year ended 31 March 2016. The directors of the company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's opinion

In our opinion the remuneration report of Triple Energy Limited for the year ended 31 March 2016 complies with section 300A of the *Corporations Act 2001*.
