Zyber Announces New Trial Agreement

The Board of Directors of Zyber Holdings Limited (ASX: ZYB) ('Zyber' or 'the Company'), is pleased to announce the signing of a trial agreement with Cynosure Private Equity.

Cynosure, a Hong Kong based private equity firm involved in providing capital and advisory services to private and public companies across a wide range of sectors, will test Zyber's secure file sharing solution across their organization for a period of 90 days and provide technical validation within the financial sector.

"We are averse to using Cloud-based file-sharing services to store and collaborate on our important documents due to the amount of sensitive information that could fall into the wrong hands. This is an increasing concern for me so I chose the Zyber solution because it is "on premise", cost effective, and has superior storage flexibility." said Sean Webster, Co-Founder of Cynosure Private Equity.

Ben Daly, CEO of Zyber states, "We view this trial agreement as an important step for Zyber as we continue to provide security and auditing functionality unique to the financial sector. By deploying our solution in a fast paced, financial transaction oriented environment, we will believe we will quickly be adopted as a gold standard and definitively outcompete our competitors in this space"

Cynosure

Cynosure Private Equity Limited identifies opportunities for investors in early stage growth companies. We specifically focus on companies with strong and proven management, and a firm track record for success, who have the potential to solidly grow and mature their business model.

Cynosure provides investment and management support to companies seeking private capital, public listing advisory services, and subsequent financial support in the secondary market.
