DOWNER EXTENDS CONTRACT AT MEANDU MINE

Downer EDI Limited (Downer) today announced it had signed a two year extension to its contract to provide mining services at Stanwell Corporation's Meandu Mine in South East Queensland.

Meandu mine delivers approximately 5.5 million tonnes of product coal per year to the adjacent Tarong and Tarong North power stations.

Downer has been providing mining services at Meandu since January 2013 and the completion date for the original contract was June 2018. Downer has now signed a two year extension, to June 2020, valued at approximately \$250 million.

The Chief Executive of Downer, Grant Fenn, said the contract extension reflected Downer's strong performance and its ongoing commitment to deliver cost savings and operational improvements at the mine.

Technical Services Agreement with Adani Enterprises Limited

Downer has also signed a Technical Services Agreement (TSA) with Adani Enterprises Limited for the provision of mine planning, design and project execution services for the AEL coal mines in India. The TSA has an initial value of \$2 million, takes effect in July 2016 and has an initial term of 12 months. The services include technical and operational support for existing AEL coal mines and technical review of the bids for the Indian coal block auction.

Mr Fenn said the signing of the TSA builds on the excellent relationship between Downer and Adani and opens an opportunity in a new market for the Downer Group.

About Downer

Downer EDI Limited (Downer) is a leading provider of services to customers in markets including: Transport Services; Rail; Mining; Utilities Services; Technology and Communications Services; and Engineering, Construction & Maintenance. We build strong relationships of trust with our customers, truly understanding and predicting their needs and bringing them world leading insights and solutions.
