The unaudited pre and post-tax net tangible assets (NTA) of Platinum Asia Investments Limited (“PAI”) as at 31 May 2016 was \$0.95 per share (30 April 2016: \$0.90).

The NTA was calculated on a liquidation basis using the last sale price to value investments. As the calculation has been prepared on a full liquidation basis, any deferred tax asset in excess of the liquidation tax provision has consequently not been recognised. In addition, the NTA figures do not include the effect of any dilution that would arise from the conversion of any unexercised options.

At 31 May 2016, the PAI share price was \$0.95 and the options price (“PAIO”) was \$0.018.

Unaudited additional information:

	31 May 2016	30 April 2016
	(\$ per share)	(\$ per share)
Pre-tax NTA	0.9476	0.9021
Current and unrealised tax provision*	0.0000	0.0000
Post-tax NTA	0.9476	0.9021

* If the NTA included both the current period losses and costs of the initial public offer then the 31 May 2016 post-tax NTA, based on application of the accounting standards, would be \$0.9631.

The 31 May 2016 monthly update for PAI is available on the Platinum website at:
