Alcidion Co-Founder to present at Health Informatics Conference

Highlights:

- **Professor Malcolm Pradhan to present at Health Informatics Conference.**
- **Alcidion to unveil “Deep Learning” Product Roadmap Strategy for Patient Flow.**
- **Technology incorporates predictive analytics to streamline Patient Flow.**

Alcidion Group Limited (ASX:ALC) is pleased to announce that Professor Malcolm Pradhan, Alcidion’s Chief Medical Officer, will present a paper on “Deep Learning for Patient Flow Prediction” at the Health Informatics Conference (HIC) on July 25th 2016.

Deep learning is a branch of Machine Learning based on recent advances in neural network technology that has enabled computers to achieve better than human performance in tasks such as image recognition.

The applications for Deep Learning within the Patient Flow environment hold the potential to revolutionize patient flow as the algorithms provide predictive analytics, enabling hospitals to proactively plan workload management and capacity planning – resulting in a dramatic improvement in bed availability.

During the conference, Professor Malcolm Pradhan will talk about the challenges of applying deep learning in health informatics and particularly in patient flow management, and the performance of deep learning models for patient flow prediction compared with existing methods.

Professor Pradhan, holds formal qualifications in Medicine and a PhD in Medical Informatics from Stanford University, co-founded Alcidion with Ray Blight, the former Chief Executive and chairman of the South Australian Health Department.

Alcidion will additionally be exhibiting at the HIC Conference, which is the official conference for Health Informatics Society of Australia (HISA).

The primary theme of Digital Health Innovation for Consumers, Clinicians, Connectivity, Community the conference will highlight innovation and the digital transformation of the healthcare sector and the central role that information and health informatics brings in connecting the system, being smart with data, and enhancing practitioner and consumer experience in healthcare interactions

About Alcidion

Alcidion Group Limited (ASX:ALC) is a publically listed, innovative health informatics company that specializes in clinical products that improve productivity, safety and efficiency. Alcidion's solutions target key problems for Emergency Rooms, Inpatient Services and Outpatient Departments and are built upon a next generation health informatics platform, which incorporates an intelligent EMR, Clinical Decision Support Engine, Data Integration Capability, Smartforms, Terminology Support and Standards Based Web Services.

Alcidion's focus is on delivering solutions that enable high performance healthcare and which assist clinicians by minimising key clinical risks, tracking patient progress through journeys and improving quality and safety of patient care.
