At the General Meeting, the Company sought Shareholder approval for, among other things, a change in the nature and scale of the Company's activities as a result of the Gameday Acquisition. To give effect to these changes, ASX requires the Company to re-comply with Chapters 1 and 2 of the Listing Rules. This Prospectus is issued to assist the Company to re-comply with these requirements.	Sections 1.6 and 1.7
	The Company has been suspended from trading from the time of the General Meeting and will not be reinstated until the Company has satisfied the Conditions of the Offers, including re-compliance with Chapters 1 and 2 of the Listing Rules.	
	There is a risk that the Company may not be able to meet the requirements of re-quotation on the ASX. If the Conditions of the Offers are not satisfied, or the Company does not receive conditional approval for re-quotation on ASX on terms which the Company reasonably believes are capable of satisfaction, then the Company will not proceed with the Public Offer and will repay all Application Monies received (without interest). If the Company does not proceed with the Public Offer, it will not proceed with the Vendor Offer, the Convertible Note Conversion Offer, the Advisor Offer, the Lead Manager Offer or the Gameday Acquisition.

G. Key Risks		
What are the key risks of investing in the Company?	Some of the key risks of investing in the Company are detailed below. The list of risks is not exhaustive and further details of these risks and other risks associated with an investment in the Company are detailed in Section 5.	Section 5
	In undertaking its business activities, the Company will be exposed to risks, which include, but are not limited to:	
	A new business in a developing market: There can be no assurance that Gameday's products will be successful in the market or that Gameday will receive significant revenue from the sale of its products. Unexpected expense or downward pressure on the prices Gameday charge could result in the production of the Gameday mouthguards being uneconomic.	
18	 Limited operating history: Gameday has a limited operating history and the potential of its business model is still being proven. Like many companies at this stage it has not reached commercial viability. Accordingly, given that its business is at an early stage of development and 	

Topic	Summary	Further Information
	is yet to generate profit, it is difficult to make an evaluation of Gameday's business or its prospects. No assurances can be given that the Company will achieve commercial viability through the successful implementation of its business plans.	
	Failure to increase transaction volumes, customers or establish its brand: Gameday is currently in the early stages of establishing its presence in the Australian market and its ability to profitably scale its business is heavily reliant on increases in transaction volumes and its customer base to generate revenue and profit.	
	Operational risk: Operations may be affected by various factors including, unanticipated operational and technical difficulties encountered, failure of operating equipment, fire, accidents, industrial disputes, risk that development and operating costs prove to be greater than expected, failure to achieve market penetration and prevention and/or restriction of market penetration through the inability to obtain consents and approvals.	
	Reliance on key management personnel: The Company's business strategy will be implemented by the Board and the management team led by Matthew Weston and Alistair Blake. The Company's success will depend on the continued performance, efforts, abilities and expertise of its key management personnel, as well as other management and technical personnel engaged on a contractual basis. The loss of services of any of its key management personnel and the Company's inability to replace them could have a material adverse impact on the Company's ability to successfully implement the Company's business strategy.	
	New product development and process risk: Gameday's business will be reliant upon certain manufacturing and distribution processes and upon the successful commercialisation of its products. The Company is confident that Gameday's products offer a unique offering in the Australian marketplace. However, there is a risk that as healthcare and dental care industry continues to develop, there may be certain product developments that supersede, and render obsolete, Gameday's products. This will adversely affect the Company's financial performance and position and the value of the Securities.	
	 Intellectual property and patent protection: Gameday's trademarks, trade names, copy rights, trade secrets and other intellectual 	

Topic	Summary	Further Information
	property rights are important to its success and unauthorised use of any of Gameday's intellectual property rights may adversely affect the Company's business and Gameday's reputation. There can be no assurances that the Company or Gameday will be able to:	
	 register or protect new intellectual property it develops in the future; or 	
	 prevent the unauthorised use of its intellectual property. 	
	Failure to adequately protect Gameday's intellectual property rights could adversely affect the Company's financial performance and condition.

2. Company and Gameday Overview

2.1 Company and Strategy

The Company is an Australian public company that has been listed on the Official List (ASX code: MUM) since 23 May 2007. The Company's principal activities are the maintenance of mineral exploration licences that it currently holds.

Between 2011 and 2012, the Company completed a feasibility study program to test the viability of recommencing operations at the Kirkalocka Gold Project (**KGP**), commenced negotiations to secure debt financing and completed a number of drill programs which identified additional oxide, supergene and primary gold mineralisation. However, as a consequence of a significant fall in the gold price in June 2013, the Board concluded that the development in the short term was not in the best interests of the Company and Shareholders and the KGP was placed in care and maintenance. In August 2013, the Company's project team completed an update on the KGP's optimised feasibility study.

On 25 March 2015, the Company entered into a conditional binding offer with Ozchina Enterprises Pty Ltd (**Ozchina**), whereby Ozchina agreed to acquire the assets which collectively comprised the KGP and included the following:

- (a) the mining tenements comprising the KGP;
- (b) all mining information in the possession of the Company relating in any way to the KGP and tenements being acquired;
- (c) all moveable and immovable assets owned by the Company located at the Kirkalocka operation on mining leases M59/233 and M59/234, including the processing plant, buildings and other infrastructure (including the camp and airstrip) (**Kirkalocka Plant**); and
- (d) other assets owned by the Company associated with and required for the Kirkalocka Plant and the KGP.

Following the execution of the conditional binding offer, the Company agreed to a request by Ozchina to assign its rights and obligations under the conditional binding offer to Minjar Gold Pty Ltd (**Minjar**).

On 14 July 2015 the Company entered into formal sale and purchase agreements in respect to KGP. Following Shareholder approval for the sale of the KGP to Minjar, the sale was completed on 17 November 2015, with the Company receiving consideration of \$1,861,825.

The Company currently retains ownership of mineral exploration licences E59/1778, E59/1962, E59/1361 and E59/2145. In 2013, the Company identified iron ore prospectivity on these licences which were part of the Wydgee Prospect and formed part of the KGP. However, the Company's exploration activities on these licences concluded that the mineralisation was considered discontinuous along strike, narrow in true thickness (less than 20 metres), steeply dipping and of relatively low grade. Accordingly, having regard to these factors, the Company determined that its preferred strategy was to pursue business objectives in a different sector.

On 10 February 2016, the Company announced that it had entered into the Share Sale Agreement pursuant to which it proposed to acquire 100% of the issued share capital of Gameday. Refer to Section 6.1 for a summary of the terms of the Gameday Acquisition and the Share Sale Agreement. At the General Meeting, Shareholders have approved, among other things, the change in the nature and scale of the Company activities.

If the Gameday Acquisition completes, following reinstatement of Shares to the Official List of ASX, the Company's primary focus will be to support the Company's growth by following the Gameday business model and strategy outlined below.

The Company is proposing to enter into arrangements with Minjar, pursuant to which:

- (a) it will transfer E59/2145 and part of E59/1361 to Minjar:
- (b) it will surrender the remaining portion of E59/1361; and
- Minjar will assume all on-going costs and liabilities to maintain these licences. (c)

Following completion of the Gameday Acquisition, the Company intends to surrender its remaining interest in E59/1778 and E59/1962, and accordingly, expects that it will only be liable to a fraction of the on-going costs and liabilities for this financial year.

2.2 Overview of Gameday and its Business

Gameday is an Australian incorporated private company that was established in September 2014 and currently operates as a manufacturer and distributor of professionally made home-impression custom-fit mouthguards.

Gameday:

- aims to disrupt the mouthguard market in Australia by enabling consumers to purchase (a) custom-fit mouthquards in a more cost effective and convenient fashion than the traditional method of visiting a dental clinic;
- (b) has developed a business plan whereby consumers are able to take an impression of their teeth at a time and place of their choosing (with an impression kit provided by Gameday), post the impression back to Gameday (in an original express post prepaid package provided by Gameday) and receive a custom-fit mouthquard within nine business days: and
- (c) currently produces a single product range with numerous product options, including design in the consumers' chosen colours and/or the inclusion of their name and telephone number.

Figure 1 - Gameday's laminated custom-fit mouthguards

Gameday is seeking to achieve this by:

(a) offering a product, equivalent to an in-clinic provided custom-fit mouthguard, using high quality imported raw materials and the latest technology in the manufacture of its mouthguards, under the direction of a registered dental prosthetist, at a comparable cost compared to traditional products:

- (b) investing in its online presence to capture organic internet searches around mouthguard purchase by employing a multi-channel distribution strategy, with a particular focus on digital marketing and e-commerce;
- (c) focusing on developing key relationships with sporting bodies and clubs in selected regions such as the Western Australia Hockey Association, the Southern Football Netball League, Basketball New South Wales, Hockey New South Wales and Hockey Victoria (refer to Section 2.6); and
- (d) generating additional revenue streams from other oral appliances and dental products, including teeth whitening solutions and boil & bite mouthguards.

At present, Gameday produces a single product range and is focused on growing its revenue stream from manufacturing and distributing professionally made home-impression custom-fit mouthguard products. All Gameday custom-fit mouthguards have a one year warranty with respect to manufacturing and material defects.

Following completion of the Gameday Acquisition, Gameday has intentions to expand its product offerings, including but not limited to, teeth whitening kits and boil and bite mouthguards. Refer to Section 2.7 for further details.

2.3 Gameday's Custom-fit Mouthguards

Gameday operates its business through its website www.gamedaymouthguards.com.au, where customers can either purchase custom-fit mouthguards through its website or via a Gameday representative (at marketing and sporting events). Gameday's mouthguards are available in a variety of different colours and can be designed based on a customer's preference, including the option to laminate their name and phone number inside the mouthguard.

Following the ordering of a custom-fit mouthguard, customers will be provided with Gameday's home impression kit by mail which enables them to take their own impressions, when and where they wish. Customers are required to return these impressions to Gameday via a pre-paid package (provided with the home impression kit).

Figure 2 - Gameday's home impression kit

Upon receipt of the customer's home impression kit:

- (a) each individual customer's specifications and requirements are stored in a centralised system and barcoded with individual tracking and case numbers;
- (b) a technician will check the customer's impression prior to manufacturing a mouthguard and, if a customer has provided a "bad impression", Gameday will provide a new home impression kit to its customer free of charge;
- (c) if the technician is satisfied with the impression, the customer's impression is then placed in a disinfectant solution cavex for a minimum of three minutes to eliminate exposure to bacterial and viral infections;
- (d) after the customer's impression is disinfected, it is cast, using yellow stone, into a working model for the purpose of constructing a custom-fit mouthquard;
- (e) the laboratory technicians will assess the dentition on the working model and if the customer is a child, the laboratory technician blocks out any erupting adult teeth to create space for those adult teeth to grow;
- (f) once the laboratory technician is satisfied with the working model, it is coated with a sealant to prevent it from bonding to the mouthquard material while forming under heat and pressure (Gameday utilises ethylene vinyl acetate, a co-polymer known for its elasticity and toughness, for its mouthguards);
- based on customer preference, the appropriate colour combinations are placed into the (g) Erkopress 300 TP-ci pressure forming machine which utilises a touchless temperature sensor for accurate determination of the actual thermoforming material temperature and has the advantage of vertical forming without delay for even foil thickness;
- (h) following completion of the pressure forming over the working model, the laboratory technician cuts and trims the mouthguard, personalises the mouthguard, trims away any excess material and rounds off the edges of the mouthguard;
- the mouthquard is then articulated and treated by a laboratory technician to ensure that (i) the indentations for the mandibular dentition (the teeth supported by the alveolar part of the mandible) sit evenly on the mouthquard; and
- as a final step, the mouthguard is polished and disinfected before being despatched to (j) the customer via express post.

Gameday manufactures its mouthquards in a dental laboratory, located in Moorabbin, Victoria, and, at present, has the capacity to produce up to 50,000 mouthguards annually.

2.4 **Current Status of Gameday's Business**

Gameday was incorporated in Western Australia on 18 September 2014 and is an early stage company. Gameday spent the first 9 months from incorporation establishing its brand, sales channels and platforms and its home impression kit, and from July 2015 to July 2016, achieved total sales of 1250 custom-fit mouthguards in Australia with 990 custom-fit mouthguards being sold in the March 2016 to July 2016 period.

Gameday achieved the above result by:

- (a) re-designing its website to ensure better website functionality for customers;
- conducting a strategic digital campaign which aimed to enhance the overall organic (b) internet search results of Gameday:

- (c) conducting marketing campaigns with its strategic partners (sporting bodies and clubs) for instance, Gameday conducted an event driven marketing campaign with Western Australia Hockey Association and achieved approximately 50 custom-fit mouthguard sales per day during the week of the campaign; and
- (d) obtaining feedback from its customers via social media, email and by liaising with certain customers to get their thoughts and feedback on the product.

At present, the minimum cost to purchase a Gameday custom-fit mouthquard is \$79.95.

Refer to Section 2.6 for further details regarding Gameday's target market and strategy.

2.5 Gameday's Registered Intellectual Property

On 7 May 2015, Gameday was granted an innovation patent for developing a "home impression technique" that utilises Gameday's home impression kit (refer to Section 2.3). The home impression kit allows customers of Gameday to take an accurate dental impression of their own mouth, for the purpose of constructing dental appliances that are to be manufactured at Gameday's dental laboratory.

The innovation patent has been granted for 8 years, expiring on 20 April 2023, and is enforced by the Commissioner of Patents in accordance with the Patents Act 1990 (Cth).

In addition to the innovation patent, Gameday has also registered the following:

- (a) Business name Gameday Mouthguards;
- (b) Key domain names:
 - (i) gamedaymouthguards.com.au;
 - (ii) yatao.com.au; and

 - (ii) Impratech.
- (d) Designs:
 - (i) home impression box for storing double impression tray & four containers with putty material; and
 - (ii) home impression box for storing single impression tray and four containers with putty material.

Notwithstanding the above registrations, the Company considers that the growth of Gameday's business will be driven by its marketing and sales strategies (refer to Section 2.6 for further details) rather than the intellectual property rights detailed above.

2.6 Target Market and Strategy

Gameday's target market for its home-impression custom-fit mouthguard product can broadly be defined as children and adults engaged in contact sport or recreational activities which may require a mouthguard.

- (b) a boil and bite mouthguard named "Yatao" which it may introduce and market in Australia to children wearing braces and parents who do not wish to purchase a Gameday customfit mouthguard.

If Gameday determines that a new product line represents a viable opportunity to the Company, it will target a launch of:

- (a) boil and bite mouthguards, Yatao, on or around December 2016 to January 2017; and
- (b) instant teeth whitening kit on or around the first guarter of 2017.

Investors should note that the above plans of Gameday are still at an early stage and Gameday is still presently undertaking due diligence on the above products (including Yatao and the instant teeth whitening kit). 2.8 Regulatory Overview

Gameday has taken the regulatory steps required for legal supply of their home impression kit, by ensuring that the product conforms to the requirements for quality, safety and effectiveness mandated by the Therapeutic Goods Administration (**TGA**), including but not limited to adhering to the essential principles for medical devices prescribed by the TGA.

Gameday's home impression kit was included in the Australian Register of Therapeutic Goods on 19 March 2016. In addition Gameday has made the required notification to the TGA of the supply of the custom-made mouthguards created from the home impression kits.

At present, Mr Alistair Blake, the proposed Technical Director, complies with the following regulation:

Refer to Gameday's website <u>www.gamedaymouthguards.com.au</u> for further details of Gameday and its product and business.

2.9 Industry Overview

(a) Overview

The number of people estimated to play what may be defined as "contact sport" in Australia is approximately 2,100,000. This is comprised of approximately:

- (i) 1,400,000 children (ages 4 to 14); and
- (ii) 700,000 adults (ages 15 and above).

A number of sporting bodies and clubs in Australia have implemented a "no mouthguard, no play" policy whereby it is mandatory for children engaged in that given sport to wear a mouthguard.

The mouthguard industry operates in a traditional manner and customers typically obtain their mouthguards by appointment with a dentists or prosthetists or through over the counter boil & bite providers (through 'bricks and mortar' retail channels). Although barriers to entry in the mouthguard industry are relatively low, the industry comprise of numerous providers, most of whom are dental professionals offering mouthguards as an additional service and product option. Accordingly, Gameday aims to disrupt the mouthguard industry through its strategy (detailed in Section 2.6).

(b) Industry Structure and Products

As detailed above, at present, the mouthguard industry is largely fragment, with a reasonably large number of smaller competitors in the impression custom-fit market and a smaller number of large competitors (including dental professionals) in the low-cost over the counter boil & bite market.

Competitors can essentially be separated into six broad groups being:

- (i) dentist or prosthetists impression providers with in-clinic and on-site school and club appointment capabilities;
- (ii) dentist or prosthetists impression providers with in-clinic appointment capabilities only;
- (iii) specialist boil & bite mouthguard providers with e-commerce capabilities and retail distribution;
- (iv) specialist boil & bite mouthguard providers with online capabilities only;
- (v) other DIY home-impression custom-fit mouthguard providers with strong e-commerce capabilities; and
- (vi) specialist 'ultimate fighting' impression providers by appointment only,

with the specialist dentist or prosthetist by-appointment-only group, and the specialist boil & bite group with e-commerce and retail distribution capabilities being the 2 primary groups with the strongest market presence.

Further, companies in this industry mainly produce and distribute over the counter boil & bite mouthguards, dentist custom-fit mouthguards and DIY home-impression custom-fit mouthguards. The difference between the different products are as follows:

- (i) over the counter boil & bite products are low cost and low-specification, readily available products that are typically produced as part of a range of sporting related products with an average price ranging from approximately \$6.99 to \$59.95;
- (ii) dentist custom-fit mouthguards are high cost, high-specification and highservice products typically produced as part of a dental care service offering with an average price ranging from approximately \$150 to \$400; and

Mount Magnet South Limited PROSPECTUS 45

(iii) DIY custom-fit home-impression mouthguards are medium cost, highspecification and low-service DIY products typically produced as a standalone product.

Accordingly, Gameday aims to differentiate itself from its competitors by:

- (i) providing an economical or similar alternative to a dentist or prosthetist customfit mouthguard;
- (ii) providing a high quality and affordable product at a price of \$79.95 (being the cost of a basic Gameday custom-fit mouthguard);
- (iii) providing time savings and convenience to its customers;
- (iv) providing a wide variety of colours, designs and options for customers to customise and personalise their mouthguard (including the option to laminate their name and phone number inside the mouthguard); and
- (v) engaging with its customers and providing them with information regarding its product.

- ii. Consolidation if required to satisfy the ASX Listing Rules, completion of a consolidation of the Capital of MMS on the minimum ration required to satisfy the ASX Listing Rules and to be agreed between MMS and Gameday ("Consolidation"):
- iii. Re-Compliance Capital Raising- the Company undertaking an equity capital raising and receiving valid applications for at least \$2,000,000 ("Capital Raising");
- iv. 100% Acquisition the Company entering into binding arrangements with all minority shareholders of Gameday for the sale and purchase of their shares, such that the Company will hold 100% of the issued share capital of Gameday following completion of the acquisition; and
- v. Escrow Arrangements to the extent required by ASX, each of the Gameday shareholders entering into a restriction agreement as required by ASX imposing such restrictions on trading of those securities as mandated by the ASX Listing Rules.

On 27 July 2016, the Company obtained shareholder approval of the acquisition of Gameday in accordance with the Agreement.

Following completion, Gameday will have the right to appoint Messrs Kelvin Smith, Matt Weston, Alistair Blake and John Worsfold to the Board of the Company. One of the existing directors, Mr Alec Pismiris, will remain on the board of the Company following completion.

Further details of Gameday are outlined in Section 2 of the Prospectus.

For accounting purposes, the acquisition of Gameday by the Company has the features of a reverse acquisition under Australian Accounting Standard AASB 3 "Business Combinations", notwithstanding Mount Magnet South Limited being the legal parent of the group. At acquisition date the net assets of Gameday are recorded at their book value and the net assets of the Company are recorded at fair value.

Consequently the historical financial information presented in this Report is the historical financial information of Gameday as at 31 December 2015 which has been subject to audit by Shakespeare Partners (Audit) Pty Ltd. We note that the audit report for the period ended 31 December 2015 contained a qualification in relation to the non-attendance at the stocktake by the auditor, as this occurred prior to their appointment. A copy of the audited accounts as at 31 December 2015 are attached at Appendix 4

The proforma financial information presented in this Report is the historical financial information of Gameday for the period ended 31 December 2015, assuming that the acquisition of Gameday by the Company and the other proposed transactions set out in Section 3(c) of this Report had been completed as at that date.

The proforma consolidated financial information has been prepared using a balance date of 31 December 2015 corresponding to the most recently available management financial information.

For completeness, extracts of historical financial information of both MMS and Gameday are set out in Appendix 2 and 3.

The intended use of the funds raised by the issue of shares under the Prospectus is specified in Section 1.9 of the Prospectus.

2. SCOPE OF REPORT

You have requested HLB Mann Judd ("HLB") to prepare this Report presenting the following information:

- a) the historical financial information of Gameday comprising the historical Statement of Financial Position as at 31 December 2015 and the historical Statement of Comprehensive Income, historical Statement of Cash Flows and historical Statement of Changes in Equity for the period to 31 December 2015 as set out in Appendix 1 to this Report;
- b) the historical Statement of Financial Position of the Company as at 31 December 2015 as set out in Appendix 1 to this Report; and
- c) the proforma financial information of the Company comprising the proforma Consolidated Statement of Financial Position as at 31 December 2015 and the proforma Consolidated Statement of Comprehensive Income, proforma Consolidated Statement of Cash Flows and proforma Consolidated Statement of Changes in Equity for the period to 31 December 2015 as set out in Appendix 1 to this Report.

The Directors have prepared and are responsible for the historical and proforma information. We disclaim any responsibility for any reliance on this Report or on the financial information to which it relates for any purposes other than that for which it was prepared. This Report should be read in conjunction with the full Prospectus.

The historical financial information and the proforma financial information is presented in an abbreviated form insofar as it does not include all of the presentation and disclosures required by Australian Accounting Standards and other mandatory professional reporting requirements applicable to general purpose financial reports.

The historical financial information as set out in Appendix 1 has been extracted from the management financial statements of Gameday for the period from 22 October 2014 to 31 December 2015.

The independent auditors report for the period to 31 December 2015 contains a modification in relation to Inventories. As the incumbent Auditors were appointed post year end, they did not observe the counting of the inventories. They were unable satisfy themselves by alternative means as to the inventory quantities and as a result provided a qualified auditors opinion in relation to the inventory balance and on the result for the period then ended.

As the value of inventory contained in the proforma is not considered material, the qualification is not repeated in our review statement.

We performed a review of the historical and proforma financial information of the Company and Gameday as at 31 December 2015 in order to ensure consistency in the application of applicable Accounting Standards and other mandatory professional reporting requirements in Australia.

Our review of the historical and proforma financial information of the Company and Gameday was conducted in accordance with Australian Auditing Standards applicable to review engagements. Our review was carried out in accordance with the Standard on Assurance Engagement ASAE 3450 ""Assurance Engagements involving Corporate Fundraisings and/or Prospective Financial Information" and included such enquiries and procedures which we considered necessary for the purposes of this Report.

The review procedures undertaken by HLB in our role as Investigating Accountant were substantially less in scope than that of an audit examination conducted in accordance with generally accepted auditing standards. Our review was limited primarily to an examination of the historical financial information and proforma financial information, analytical review procedures and discussions with senior management. A review of this nature provides less assurance than an audit and, accordingly, this Report does not express an audit opinion on the historical information or proforma information included in this Report or elsewhere in the Prospectus.

In relation to the information presented in this Report:

- support by another person, corporation or an unrelated entity has not been assumed;
- the amounts shown in respect of assets do not purport to be the amounts that would have been realised b) if the assets were sold at the date of this Report; and
- the going concern basis of accounting has been adopted. c)

d) Notes to the historical financial information and proforma information.

e) Valuation of Capitalised Costs

Upon completion of the acquisition of Gameday, the assets of the Group will include intangible assets that have been capitalised in the Statement of Financial Position. These intangible assets have been included at cost of acquisition to Gameday in the Proforma Statement of Financial Position.

We have not carried out valuations of the intangible assets and do not express a view on whether the carrying values of the intangible assets exceed the recoverable amount.

f) Measurement of assets and liabilities acquired

The acquisition of Mount Magnet South Limited (to be renamed Impression Healthcare Limited) (for accounting purposes the Company is treated as the acquiree) as recorded in the consolidated Proforma Statement of Financial Position reflects the provisional amounts allocated to the assets and liabilities acquired.

The assets and liabilities acquired will be re-measured after completion of the acquisition. Whilst the total net assets acquired are not expected to change significantly, the allocation between the different types of assets acquired may change somewhat as a result of this re-measurement.

4. SUBSEQUENT EVENTS

There have been no material items, transactions or events subsequent to 31 December 2015 not otherwise disclosed in the Prospectus which have come to our attention during the course of our review that would require comment in, or adjustment to, the content of this Report or which would cause such information included in this Report to be misleading.

5. STATEMENTS

Based on our review, which was not an audit, we have not become aware of any matter that causes us to believe that:

- a) the historical financial information of Gameday as at 31 December 2015 as set out in Appendix 1 of this Report, does not present fairly the financial position of the Company as at that date in accordance with the measurement and recognition requirements (but not all of the disclosure requirements) of applicable Accounting Standards and other mandatory reporting requirements in Australia, and its performance as represented by its results of its operations and its cash flows for the period then ended;
- b) the historical financial information of the Company as at 31 December 2015 as set out in Appendix 1 and Appendix 2 of this Report, does not present fairly the financial position of the Company as at that date in accordance with the measurement and recognition requirements (but not all of the disclosure requirements) of applicable Accounting Standards and other mandatory reporting requirements in Australia, and its performance as represented by its results of its operations and its cash flows for the period then ended;

- c) the proforma consolidated financial information of the Company as at 31 December 2015 as set out in Appendix 1 of this Report, does not present fairly the financial position of the Company and its controlled entities as at that date in accordance with the measurement and recognition requirements (but not all of the disclosure requirements) of applicable Accounting Standards and other mandatory reporting requirements in Australia, and its performance as represented by its results of its operations and its cash flows for the period then ended, as if the transactions referred to in Section 3(c) of this Report had occurred during that period; and
- the assumptions and applicable criteria used in the preparation of the proforma consolidated financial d) information do not provide a reasonable basis for presenting the significant effects directly attributable to the acquisition and do not reflect proper application of those adjustments to the unadjusted financial information.

6. DECLARATION

- HLB will be paid its usual professional fees based on time involvement, for the preparation of this Report a) and review of the financial information, at our normal professional rates.
- Apart from the aforementioned fee, neither HLB, nor any of its associates will receive any other benefits, b) either directly or indirectly, for or in connection with the preparation of this Report.
- Neither HLB, nor any of its employees or associated persons has any interest in the Company or the c) promotion of the Company.
- d) Unless specifically referred to in this Report, or elsewhere in the Prospectus, HLB was not involved in the preparation of any other part of the Prospectus and did not cause the issue of any other part of the Prospectus. Accordingly, HLB makes no representations or warranties as to the completeness or accuracy of the information contained in any other part of the Prospectus.
- HLB has consented to the inclusion of this Report in the Prospectus in the form and context in which it e) appears.

Yours faithfully **HLB MANN JUDD**

MOUNT MAGNET SOUTH LIMITED (TO BE RENAMED IMPRESSION HEALTHCARE LIMITED) NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD TO 31 DECEMBER 2015

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial information has been prepared in accordance with applicable accounting standards including the Australian equivalents of International Reporting Standards and other authoritative pronouncements of the Australian Accounting Standards Board. Material accounting policies have been adopted in the preparation of the historical and proforma financial information are shown below.

(a) Basis of preparation

The financial statements have been prepared in accordance with the measurement requirements (but not all of the disclosure requirements) of applicable Accounting Standards and other mandatory professional reporting requirements in Australia using the accrual basis of accounting, including the historical cost convention.

Historical cost convention

These financial statements have been prepared under the historical cost convention, and do not take into account changing money values or, except where stated, current valuations of non-current assets. Cost is based on the fair value of the consideration given in exchange for assets.

Critical accounting estimates

The preparation of financial statements in conformity with AIFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 1(m).

Going concern

This financial information has been prepared on the going concern basis, which contemplates the continuation of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

(b) Principles of consolidation

In preparing the consolidated financial statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-group transactions have been eliminated in full. Subsidiaries are fully consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group. Control exists where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

MOUNT MAGNET SOUTH LIMITED (TO BE RENAMED IMPRESSION HEALTHCARE LIMITED) NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD TO 31 DECEMBER 2015

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(c) Cash and cash equivalents

Cash comprises cash at bank and in hand. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts (if any) are shown within borrowings in current liabilities in the statement of financial position.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

(d) Trade and other receivables

Trade receivables, which generally have 30-90 day terms, are recognised and carried at original invoice amount less an allowance for any uncollectible amounts. An allowance for doubtful debts is made when there is objective evidence that the Group will not be able to collect the debts. Bad debts are

 $Impairment of trade \ receivables \ is \ continually \ reviewed \ and \ those \ that \ are \ considered \ to \ be \ uncollectible \ are \ written \ off \ by \ reducing \ the \ carrying \ amount$ directly. An allowance account is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original contractual terms. Factors considered by the Group in making this determination include known significant financial difficulties of the debtor, review of financial information and significant delinquency in making contractual payments to the Group. The impairment allowance is set equal to the difference between the carrying amount of the receivable and the present value of estimated future cash flows, discounted at the original effective interest rate. Where receivables are short-term, discounting is not applied in determining the allowance.

The amount of the impairment loss is recognised in the statement of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

MOUNT MAGNET SOUTH LIMITED (TO BE RENAMED IMPRESSION HEALTHCARE LIMITED) NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD TO 31 DECEMBER 2015

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(e) Impairment of assets

The Group assesses at each balance date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at revalued amount (in which case the impairment loss

is treated as a revaluation decrease). An assessment is also made at each balance date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of comprehensive income unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

(f) Trade payables

Trade payables and other payables are carried at amortised costs and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services.

(g) Employee Entitlements

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

MOUNT MAGNET SOUTH LIMITED (TO BE RENAMED IMPRESSION HEALTHCARE LIMITED) NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD TO 31 DECEMBER 2015

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(h) Issued capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(i) Share-based payment transactions

The Group provides benefits to employees (including senior executives) of the Group in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

The cost of these equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using a Black-Scholes or Binomial model.

The assessed fair value at grant date of performance rights granted is expensed according to the performance or market based conditions attached to the performance hurdle. Performance based hurdles are expensed to each reporting period evenly over the period from grant date to vesting date. Market based hurdles are expensed on the grant date.

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the Group's best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The statement of comprehensive income charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period. No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph. The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(j) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

(k) Income tax

The income tax expense or benefit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date.

Deferred income tax is provided on all temporary differences at the balance date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the
 reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

MOUNT MAGNET SOUTH LIMITED (TO BE RENAMED IMPRESSION HEALTHCARE LIMITED) NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD TO 31 DECEMBER 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Income tax (cont'd)

- · when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in the statement of comprehensive income.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

(I) Critical accounting judgements and key sources of estimation uncertainty

not readily apparent from other sources.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from those estimates. The following significant accounting estimates and judgements were used in the preparation for the financial statements.

MOUNT MAGNET SOUTH LIMITED (TO BE RENAMED IMPRESSION HEALTHCARE LIMITED) NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD TO 31 DECEMBER 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(I) Critical accounting judgements and key sources of estimation uncertainty (cont'd)

- i) Recoverability of Property, Plant and Equipment
 - The Group has undertaken a review of the recoverable amount of property, plant and equipment based on fair value less costs to sell. The Directors' assessment is that the recoverable amount is in excess of carrying value (which is book value reduced by an impairment provision).
 - ii) Provision of rehabilitation and restoration
 The Group has estimated the expenditure required in accordance with statutory regulations and best industry practice to rehabilitate the Kirkalocka
 Gold Project upon cessation of all activities at the site.
 - iii) Exploration and Evaluation Expenditure
 In accordance with accounting policy management determines when an area of interest should be abandoned. When a decision is made that an area
 of interest is not commercially viable, all costs that have been capitalised in respect of that area of interest are written off. In determining this,
 assumptions, including the maintenance of title, ongoing expenditure and prospectivity are made.

(m) Reverse acquisition accounting

The acquisition of Gameday by the Company has the features of a reverse acquisition under Australian Accounting Standard AASB 3 "Business Combinations", notwithstanding the Company being the legal parent of the group. Consequently the historical financial information presented in this Report is the historical financial information of Gameday as at 31 December 2015.

The legal structure of the Group subsequent to the acquisition of Gameday will be that the Company will remain as the parent entity. However, the principles of reverse acquisition accounting are applicable where the owners of the acquired entity (in this case, Gameday) obtain control of the acquiring entity (in this case, the Company) as a result of the businesses' combination.

Under reverse acquisition accounting, the consolidated financial statements are issued under the name of the legal parent (the Company) but are a continuation of the financial statements of the legal subsidiary (Gameday), with the assets and liabilities of the legal subsidiary being recognised and measured at their pre-combination carrying amounts rather than their fair values.

5. OPTIONS

Assuming the successful completion of all events in the Prospectus, the following options shall be on issue:

		Number
Options exercisable at \$0.12 on or before 31 December 2018		29,016,857
Options exercisable at \$0.128 on or before 31 December 2018	5(a)	1,171,879
Total	<i>0</i> =	30,188,736

(a) The fair value of the equity-settled share options granted under both the option and the loan plans is estimated as at the date of grant using the Black and Scholes model taking into account the terms and conditions upon which the options were granted.

Expected volatility (%)	50%
Risk-free interest rate (%)	2.0%
Expected life of option (years)	3.5 years
Exercise price (cents)	\$0.128
Grant date share price	\$0.08

The expected life of the options is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of options granted were incorporated into the measurement of fair value.

6. CONTINGENCIES AND COMMITMENTS

The Directors are not aware of any contingencies other than as set out in the Prospectus.

7. RELATED PARTY TRANSACTIONS

Details of Directors' interests in the Company's issued capital and transactions with the Company are included in Section 8 of the Prospectus.

8. PERFORMANCE SHARES

On completion of the acquisition the Company has issued 20,000,002 Class A Performance Shares and 20,000,002 Class B Performance Shares to the Gameday Vendors. At face value, the performance shares have a combined fair value at date of issue of \$3,200,000 (based on the 8c capital raising). However, at the date of this report, management has determined that there is insufficient information to suggest that it is probable these performance shares will vest. These performance shares will vest on the following milestones being achieved:

Class	Performance Condition	Milestone Date
Class A Performance Shares	Gameday selling 30,000 dental devices in any 12 month period.	3 Years from date of issue
Class B Performance Shares	Gameday selling 60,000 dental devices in any 12 month period	5 Years from date of issue

Notes to the Financial Statements

Gameday International Pty Ltd For the period 22 October 2014 to 31 December 2015

1. Statement of Significant Accounting Policies

The directors have determined that the company is not a reporting entity and accordingly, this financial report is a special purpose report prepared for the sole purpose of distributing a financial report to members and must not be used for any other purpose. The directors have determined that the accounting policies adopted are appropriate to meet the needs of the members.

The financial report has been prepared on an accrual basis and under the historical cost convention, except for certain assets, which, as noted, have been written down to fair value as a result of impairment. Unless otherwise stated, the accounting policies adopted are consistent with those of the prior year.

The accounting policies that have been adopted in the preparation of the statements are as follows:

Income Tax

The income tax expense for the year comprises current income tax expense. The company does not apply deferred tax. Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at 31 December 2015. Current tax liabilities are therefore measured at the amounts expected to be paid to the relevant taxation authority.

Inventories

Inventories are carried at cost value and include expenditure incurred in acquiring the inventories and bringing them to the existing condition and location.

Property, Plant and Equipment

Property, plant and equipment is initially recorded at the cost of acquisition or fair value less, if applicable, any accumulated depreciation and impairment losses. Plant and equipment that has been contributed at no cost, or for nominal cost, is valued and recognised at the fair value of the asset at the date it is acquired. The plant and equipment is reviewed annually by directors to ensure that the carrying amount is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the utilisation of the assets and the subsequent disposal. The expected net cash flows have been discounted to their present values in estimating recoverable amounts.

Freehold land and buildings are measured at their fair value, based on periodic, but at least triennial, valuations by independent external valuers, less subsequent depreciation for buildings.

Increases in the carrying amount of land and buildings arising on revaluation are credited in equity to a revaluation surplus. Decreases against previous increases of the same asset are charged against fair value reserves in equity. All other decreases are charged to profit or loss.

Any accumulated depreciation at the date of revaluation is offset against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Intangibles

Goodwill is recognised as the excess of the purchase price for a business acquired over the fair value of the net assets at the date of acquisition. Goodwill is assessed for impairment annually and is carried at cost less accumulated impairment losses.

Trade and Other Receivables

Trade receivables and other receivables, including distributions receivable, are recognised at the nominal transaction value without taking into account the time value of money. If required a provision for doubtful debt has been created.

Financial Statements Gameday International Pty Ltd

Page 7 of 13

Financial Assets

Investments held are originally recognised at cost, which includes transaction costs. They are subsequently measured at fair value which is equivalent to their market bid price at the end of the reporting period. Movements in fair value are recognised through an equity reserve.

Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the company that remain unpaid at 31 December 2015. Trade payables are recognised at their transaction price. They are subject to normal credit terms and do not bear interest.

Employee Benefits

Provision is made for the liability for employee entitlements arising from services rendered by employees to 31 December 2015. Employee benefits have been measured at the amounts expected to be paid when the liability is settled, plus related costs.

Provisions are recognised when the entity has a legal or constructive obligation resulting from past events, for which it is probable that there will be an outflow of economic benefits and that outflow can be reliably measured. Provisions are measured using the best estimate available of the amounts required to settle the obligation at the end of the reporting period.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

Revenue Recognition

Revenue from the sale of goods is recognised upon the delivery of goods to customers. Revenue from the rendering of services is recognised upon the delivery of the services to customers. Revenue from commissions is recognised upon delivery of services to customers.

Revenue from interest is recognised using the effective interest rate method. Revenue from dividends is recognised when the entity has a right to receive the dividend.

All revenue is stated net of the amount of goods and services tax (GST).

Goods and Services Tax

Transactions are recognised net of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the balance sheet.

Financial Statements Gameday International Ptv Ltd

Page 8 of 13

Leases

Finance leases are leases of fixed assets where substantially all of the risks and benefits incidental to the ownership of the asset are transferred to the entity, but the legal ownership is not transferred to the entity.

Finance leases are capitalised by recording an asset and a corresponding liability at the lower of the amounts equal to the fair value of the leased asset, or the minimum lease payments measured at present value including any residual values.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term.

Operating lease payments are charged to the income statement on a straight-line basis over the term of the lease.

Lease incentives are deferred and amortised over the period of the lease.

Profits and losses on sale and leaseback transactions are recognised in the reporting period in which they occur.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF GAMEDAY INTERNATIONAL PTY LTD

Report on the Financial Report

We have audited the accompanying financial report, being a special purpose financial report, of Gameday International Pty Ltd, which comprises the balance sheet as at 31 December 2015, and the trading statement and trading income statement for the period then ended, a summary of significant accounting policies, other explanatory notes and the statement by directors.

The Responsibility of Directors for the Financial Report

Directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and have determined that the accounting policies described in Note 1 to the financial statements, which form part of the financial report, are appropriate to meet the financial reporting requirements and are appropriate to meet the needs of the members. Directors are also responsible for such internal control as directors determine is necessary to enable the preparation of a financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements, and that we plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report which gives a true and fair view, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Australian professional ethical pronouncements.

DIRECTORS: Leigh-Anne Meyerowitz CA | Stephen Thompson CA

Basis for Qualified Auditor's Opinion

We were appointed as auditors of the company on 16 February 2016 and thus did not observe the counting of the physical inventories at the end of the period. We were unable to satisfy ourselves by alternative means concerning inventory quantities held at 31 December 2015. Since closing inventories enter into the determination of the financial performance, we were unable to determine whether adjustments might have been necessary in respect of the income for the period reported in the trading statement and trading income statement.

Qualified Auditor's Opinion

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Auditor's Opinion paragraph, the financial report presents fairly, in all material respects, the financial position of Gameday International Pty Ltd as at 31 December 2015 and its performance for the period then ended in accordance with the accounting policies described in Note 1 of the financial statements.

Basis of Accounting

Without modifying our opinion, we draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared for the purpose of fulfilling director's financial reporting responsibilities under the company's constitution. As a result, the financial report may not be suitable for another purpose.

Risk Factors 5.

The Securities offered under this Prospectus are considered speculative. An investment in the Company is not risk free and the Directors strongly recommend that potential investors consult their professional advisers and consider the risks factors described below, together with information contained elsewhere in this Prospectus, before deciding whether to apply for Securities pursuant to this Prospectus.

The below list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by the holders of Securities. The proposed future activities of the Company are subject to a number of risks and other factors which may impact its future performance. Some of these risks can be mitigated by the use of safeguards and appropriate controls. However, many of the risks are outside the control of the Company or the Directors and cannot be mitigated.

5.1 Specific Risks

Conditional acquisition and re-compliance with Chapters 1 and 2 of the Listing (a) Rules

As part of the Company's change in nature and scale of activities, ASX will require the Company to re-comply with Chapters 1 and 2 of the Listing Rules. The Prospectus is being issued to assist the Company to re-comply with these requirements. The Shares will be suspended on the morning of the day of the Meeting. It is anticipated that the Shares will remain suspended until completion of the Public Offer, completion of the Gameday Acquisition, re-compliance by the Company with Chapters 1 and 2 of the Listing Rules and compliance with any further conditions ASX imposes on such reinstatement. There is a risk that the Company will not be able to satisfy one or more of those requirements and that the Shares will consequently remain suspended from quotation.

Further, if any of the conditions detailed in Section 6.1 are not satisfied (or waived), the Gameday Acquisition will not proceed.

(b) A new business in a developing market

There are many risks associated with establishing any new business. There may be unforeseen difficulties, delays or expenses in developing the business.

There can be no assurance that Gameday's products will be successful in the market or that Gameday will receive significant revenues from the sale of its products. Unexpected expenses or downward pressure on the prices Gameday charges could result in the production of the Gameday mouthguards being uneconomic.

(c) Limited operating history

Gameday has a limited operating history and the potential of its business model is still being proven. Like many companies at this stage Gameday has not reached commercial viability.

Accordingly, given Gameday's limited trading history and given that it's business is still at an early stage of development and is yet to generate profit, it is difficult to make an evaluation of Gameday's business or its prospects. No assurances can be given that the Company will achieve commercial viability through the successful implementation of its business plans.

(d) Failure to increase transaction volumes, customers or establish its brand

Gameday is currently in the early stages of establishing its presence in the Australian market and its ability to profitably scale its business is heavily reliant on increases in transaction volumes and its customer base to increase revenue and profits.

If the Company fails to retain Gameday's existing customers and add new customers the Company's revenue, financial results and business may be significantly harmed. The size of the Company's customer base is critical to its success and its financial performance will continue to be significantly determined by its success in adding, retaining and engaging existing customers. If customers or potential customers do not perceive Gameday's products to be reliable and trustworthy, the Company may not be able to attract or retain customers.

Following completion of the Gameday Acquisition, the Company intends to continue with the commercialisation of Gameday's products by focusing on brand development, sales and marketing. By its nature, there is no guarantee that the Company's brand development, sales and marketing campaign will be successful. In the event that it is not, this may materially and adversely impact Gameday's ability to achieve economies of scale and therefore adversely impact Gameday's ability to improve its future profitability.

(e) Manufacturing

Gameday intends to develop production methods to increase the production rate and reduce the manufactured cost of Gameday mouthguards. If this is not possible, there is a risk that the Company will be constrained to a level of production which may adversely affect its profitability.

(f) Operational risk

The Company's operations may be affected by various factors including:

- (i) unanticipated operational and technical difficulties encountered;
- (ii) failure of operating equipment, fire, accidents, industrial disputes;
- (iii) risk that development and operating costs prove to be greater than expected;
- (iv) failure to achieve market penetration; and
- (v) prevention and/or restriction of market penetration through the inability to obtain consents and approvals.

(g) Reliance on key management personnel

The Company's business strategy, upon completion of the Gameday Acquisition, will be implemented by the Board and the management team led by Mr Matthew Weston and Mr Alistair Blake. The Company's success will depend on the continued performance, efforts, abilities and expertise of its key management personnel, as well as other management and technical personnel engaged on a contractual basis. The loss of services of any of its key management personnel and the Company's inability to replace them could have a material adverse impact on the Company's ability to successfully implement the Company's business strategy.

There is no guarantee that the Company will be able to attract and retain suitably qualified personnel, and a failure to do so could materially and adversely affect the Company's business, operating results and financial prospects including its ability to grow.

(h) New product development and process risk

Gameday's business is reliant upon certain manufacturing and distribution processes and upon the successful commercialisation of its products. The Company is confident that Gameday's products offer a unique offering in the Australian marketplace. However, there is a risk that as dental products continue to develop in the dental industry, there may be certain product developments that supersede, and render obsolete, Gameday's products. This will adversely affect the Company's financial performance and position and the value of the Securities.

(i) Costs of acquiring new sales

Due to the often lengthy sales cycle, significant sales and marketing expenses are incurred in acquiring new sales. There can be no guarantee that the expenditure committed and incurred for the purpose acquiring new sales will actually result in new sales. Further, revenue generated from a new sale may not exceed the actual cost of acquiring the sale. The failure to recover costs incurred in acquiring new sales has the potential to adversely affect the Company's financial position and performance.

(j) Ability to manage growth effectively

The Company will need to expand its operations if the Company successfully achieves market acceptance for Gameday's products. The Company cannot be certain that its systems, procedures, controls and existing space will be adequate to support expansion of its operations. The Company's future operating results will depend on the ability of its officers and key employees to manage changing business conditions and to implement and improve its technical, administrative, financial control and reporting systems. The Company may not be able to expand and upgrade its systems and infrastructure to accommodate these increases. Difficulties in managing any future growth, including as a result of the Acquisition, could have a significant negative impact on the Company's business, financial condition and results of operations.

(k) Ability to establish and maintain additional strategic relationships

To be successful, the Company must continue to maintain Gameday's existing strategic relationships and establish additional strategic relationships with sporting bodies, clubs and leaders in healthcare and dental care. This is critical to the Company's success because the Company believes that these relationships contribute towards its ability to:

- (i) extend the reach of Gameday's products to a larger number of physicians and hospitals and to other participants in the healthcare and dental care industry;
- (ii) extend the reach of Gameday's products to members of sporting bodies and clubs;
- (iii) develop and deploy new products;
- (iv) further enhance the "Gameday" brand; and
- (v) generate additional revenue and cash flows.

(I) Intellectual Property

The Gameday mouthguard is protected by a number of patents and Gameday intends to build on those patents where necessary. Similarly, the Company will monitor new patent applications worldwide.

Gameday's trademarks, trade names, copy rights, trade secrets and other intellectual property rights are important to its success and unauthorised use of any of Gameday's intellectual property rights may adversely affect the Company's business and the

Mount Magnet South Limited PROSPECTUS 103

Company's and Gameday's reputation. There can be no assurances that the Company or Gameday will be able to:

- (i) register or protect new intellectual property it develops in the future; or
- (ii) prevent the unauthorised use of its intellectual property.

Failure to adequately protect Gameday's intellectual property rights could adversely affect the Company's financial performance and condition.

(m) Competition

The Company will be subject to competition from other operators in the healthcare and dental care industry internationally and domestically. A number of factors, including any one or more of the following, could increase the market share of any of those competitors relative to the Company's share and materially affect the Company's financial performance and position:

- (i) acquiring or developing technologies which give them a competitive advantage;
- (ii) lowering prices;
- (iii) increasing scale or range of products; or
- (iv) undertaking strategic moves to combine or consolidate their business.

(n) Insurance

The Company faces various risks in connection with Gameday and may lack adequate insurance coverage. Gameday maintains insurance coverage for property, public liability, product liability, machinery and office insurance. While the Company will endeavour to maintain appropriate insurances, including in relation to the Gameday Business, there is no guarantee that such insurance will be available to the Company at economically viable premiums (or, potentially, at all). Further, if there is a claim, there can be no guarantee that the level of insurance held by the Company or Gameday will be sufficient.

If the Company incurs substantial losses or liabilities, including in relation to the Gameday Business, and the insurance coverage is unavailable or inadequate to cover such losses or liabilities, the Company's financial position and financial performance may be adversely affected.

(o) Liability claims

Gameday's business may be exposed to liability claims if its products are faulty or cause harm to its customers. The Company may have to expend significant financial and managerial resources to defend against such claims. If a successful claim is made against the Company or Gameday, the Company or Gameday (as the case may be) may be fined or sanctioned and its reputation and brand may be negatively impacted. This could adversely affect the Company's financial performance, operations and prospects.

(p) Compliance with laws, regulations and industry compliance standards

Gameday is subject to a range of legal and industry compliance requirements that are constantly changing. This includes the Dental Board of Australia, the Australian Health Practitioner Regulation Agency and the Therapeutic Goods Administration.

There is a risk that additional or changed legal, regulatory or licensing requirements, and industry compliance standards, may make it uneconomic for Gameday to continue to operate, or to expand in accordance with its strategy. This may materially and adversely

impact Gameday's revenue and profitability, including by preventing its business from reaching sufficient scale.

There is also a risk that if Gameday fails to comply with these laws, regulations and industry compliance standards, this may result in significantly increased compliance costs, cessation of certain business activities or the ability to conduct business, litigation or regulatory enquiry or investigation and significant reputational damage.

(q) Brand name risk

The "Gameday" brand is a key aspect of the business and the growth of Gameday's business is dependent on market awareness of its brand. The "Gameday" reputation and value of the brand may be adversely affected by a number of factors including (but not limited to) disputes or litigation with third parties and adverse media coverage (including social media). Erosion in the "Gameday" reputation or value of the brand may adversely affect the Company's financial performance or position.

Future capital needs (r)

The future capital requirements of the Company will depend on many factors including its business development activities. The Company believes that its available cash, following completion of Gameday, and including the proceeds of the Public Offer should be adequate to fund its business activities in the short term as stated in the Notice.

Should the Company require additional funding, there can be no assurance that additional financing (whether debt or equity) will be available, either on acceptable terms or at all. Any inability to obtain additional funding, if required, would have a material adverse effect on the Company's business and its financial condition and performance.

5.2 General risks

(a) Additional requirements for capital

The funds raised under the Public Offer are considered sufficient to meet the immediate objectives of the Company. Additional funding may be required in the event costs exceed the Company's estimates and to effectively implement its business and operations plans in the future (including in relation to Gameday) to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses, which the Company may incur. If such events occur, additional financing will be required.

The Company may seek to raise further funds through equity or debt financing, joint ventures, licensing arrangements, production sharing arrangements or other means. Failure to obtain sufficient financing for the Company's activities and future projects may result in delay and indefinite postponement of their activities and potential research and development programs. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.

(b) **Economic risks**

General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's business activities and potential research and development programmes, as well as on their ability to fund those activities.

(c) Insurance risks

The Company intends to insure its operations and those of Gameday (as required) in accordance with industry practice. However, in certain circumstances, such insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company affected.

(d) Litigation risks

The Company is exposed to possible litigation risks including, but not limited to, intellectual property claims. Further, the Company may be involved in disputes with other parties in the future, which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. Neither the Company nor Gameday are currently engaged in any litigation.

(e) Dependence on outside parties

The Company may pursue a strategy that forms strategic business relationships with other organisations in relation to potential products. There can be no assurance that the Company will be able to attract such prospective organisations and to negotiate appropriate terms and conditions with these organisations or that any potential agreements with such organisations will be complied with.

(f) Market conditions

Share market conditions may affect the value of the Shares regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and technology stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return to Shareholders arising from the transactions the subject of the Notice or otherwise.

5.3 Investment Speculative

The above list of risk factors ought not to be taken as an exhaustive list of the risks faced by the Company, Gameday or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities offered under this Prospectus.

Therefore, the Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

6. Material Contracts

6.1 Gameday Acquisition Agreements

On 10 February 2016, the Company announced it had entered into a conditional Share Sale Agreement with Gameday and the Major Gameday Vendors, pursuant to which the Company agreed to acquire the entire issued share capital of Gameday, subject to the satisfaction of certain conditions precedent.

Under the terms of the Share Sale Agreement, the Company has paid a fee of \$150,000 following execution of the Share Sale Agreement and will issue the following Securities to the Gameday Vendors, in their respective proportions, in consideration for the acquisition of the entire issued capital of Gameday:

- (a) an aggregate total of 880,000,000 Shares (pre-Consolidation);
- (b) an aggregate total of 400,000,000 Class A Performance Shares (pre-Consolidation); and
- (c) an aggregate total of 400,000,000 Class B Performance Shares (pre-Consolidation),

(together, the Vendor Securities).

The formal agreements to effect the Gameday Acquisition comprise:

- (a) the Share Sale Agreement, pursuant to which the Company will acquire the Gameday Shares held by the Major Gameday Vendors, representing 58.63% of the issued capital of Gameday; and
- (b) the Minority Seller Agreements, pursuant to which the Company will acquire the remaining 41.37% of the issued share capital of Gameday, held by the Minority Gameday Vendors.

Share Sale Agreement

- (a) Completion of the Share Sale Agreement and the Gameday Acquisition is subject to and conditional upon among other things:
 - (i) the Company obtaining all regulatory approvals required in order to undertake the Acquisition;
 - (ii) Gameday preparing audited accounts from the date of incorporation to 31 December 2015:
