**JCurve Solutions signs an additional agreement with NetSuite and expands beyond the SME market**

JCurve Solutions ("JCS") announces a new Solution Provider Partner agreement with NetSuite allowing JCS to target businesses of all sizes across Australia and New Zealand to capitalise on the fast-growing demand for cloud ERP software.

The agreement will extend JCS's existing exclusive distribution rights to the small business "JCurve Edition" of NetSuite, the world's leading cloud ERP solution. This edition was specifically designed to meet the needs of growing small Australian and New Zealand businesses, with less than 20 employees.

Gaining full Solution Provider status consolidates JCS as one of the largest NetSuite Partners in ANZ. This allows the company to move up the value chain and deliver larger NetSuite deals in a wide range of industries, including wholesale distribution, retail, manufacturing and professional services.

JCS has successfully delivered hundreds of implementations of the NetSuite platform over the past 7 years, resulting in one of the largest NetSuite teams in ANZ. JCS has developed a rapid implementation methodology to deliver a smooth transition thereby realising the benefits of NetSuite Cloud ERP quickly.

Stephen Canning, CEO of JCurve Solutions, commented, "We have built solid foundations to become a leading NetSuite partner in Australia and New Zealand. We have a passionate and experienced team and we are looking to continue our rapid growth by helping businesses of all sizes transform and grow using NetSuite.

"For our existing clients this means we will continue to build an even stronger team of NetSuite experts that are available to work closely with them to get the most out of their system and further empower their business growth. Once they become large enough, we will seamlessly upgrade customers to NetSuite mid-market or OneWorld editions," continued Mr Canning.

**About JCurve Solutions:**

JCurve Cloud ERP is award winning cloud-based business management software that helps to empower growth in SMEs by transforming the way they manage their businesses. While providing real-time data and KPIs for total visibility, it also allows businesses to streamline and automate operations across financials and payroll, inventory and order management, CRM, eCommerce and more. JCurve Solutions is the Australian and New Zealand, 5 star awarded small business partner of NetSuite, the global leader in cloud enterprise resource planning (ERP) software. JCurve Solutions Ltd is listed on the ASX (JCS).
