The Offers comprise:

- (c) a Public Offer to Eligible Shareholders and new external investors.

Further information regarding the Priority Offer, the Shortfall Offer and Public Offer is set out in Sections 1.2 to 1.4 below. The New Shares offered under this Prospectus will rank equally with the existing Shares on issue.

Rights and liabilities attaching to the New Shares are summarised in Section 5 of this Prospectus.

The purpose of the Offers and the intended use of funds raised are set out in Section 2 of this Prospectus.

1.2 Priority Offer

The Company offers New Shares under this Prospectus to Eligible Shareholders, who are those Shareholders that:

- (a) are the registered holders of Shares as at 7:00pm (AEST) on the Record Date; and
- (b) have a registered address in Australia or New Zealand.

The Company reserves the right to reject any Application that it believes comes from a person who is not an Eligible Shareholder.

Eligible Shareholders will be entitled to apply for New Shares under the Priority Offer on the basis of one (1) New Share for every 2.6 existing Shares held as at the Record Date (**Entitlement**), at the Offer Price.

Eligible Shareholders will receive a personalised Priority Offer Entitlement & Acceptance Form setting out their Entitlement. If any of the New Shares available for Eligible Shareholders are not applied for by 5:00pm (AEDT) on the Closing Date, those Shares will form part of the Shortfall Offer.

The Company will accept all applications from Eligible Shareholders under the Priority Offer up to their Entitlement. To the extent that subscriptions from Eligible Shareholders under the Priority Offer exceed their Entitlement, the directors will treat such applications for excess Shares as applications for Shortfall Shares under the Shortfall Offer.

1.3 Shortfall Offer

Any New Shares not applied for under the Priority Offer will form part of the Shortfall Offer.

In addition to being able to apply for New Shares in the manner described in Section 1.2 above, Eligible Shareholders who subscribe for their full Entitlement will also have the opportunity to apply for additional New Shares that are not subscribed for under the Priority Offer (**Shortfall Shares**), subject to the limitations set out in Section 4.

The Offer Price for each New Share to be issued under the Public Offer will be \$0.049, being the Offer Price under the Priority Offer and Shortfall Offer.

Applicants should note that the Directors retain an overriding right to do any of the following at their discretion in relation to the Public Offer:

- (a) accept the Application in full;
- (b) accept the Application in respect of a lesser number of New Shares than applied for; or
- (c) decline the Application.

Where the number of New Shares issued under the Public Offer is less than the number applied for, or where no issue is made, surplus application money will be refunded without any interest to the Applicant as soon as practicable after the Closing Date.

1.5 Minimum subscription

There is no minimum subscription in respect of the Priority Offer or the Shortfall Offer.

1.6 Offers in Australia and New Zealand

The Company has determined, pursuant to ASX Listing Rule 7.7.1 that it would be unreasonable on this occasion to extend the Offer to Ineligible Shareholders having regard to the number of securities held by Ineligible Shareholders and the costs of complying with the legal and regulatory which would apply to an offer of securities to Ineligible Shareholders in those jurisdictions.

This Prospectus is not to be distributed in, and no offer of New Shares is to be made in, countries other than Australia or New Zealand.

(a) **New Zealand**

The Offers contained in this Prospectus to Eligible Shareholders with registered addresses in New Zealand are made in reliance on the *Securities Act (Overseas Companies) Exemption Notice 2013* (New Zealand).

Members of the public in New Zealand who are not existing Shareholders on the Record Date are not entitled to apply for any New Shares.

This Prospectus has been prepared in accordance with section 713 of the Australian Corporations Act. This Prospectus has not been registered, filed with, or approved by any New Zealand regulatory authority under the *Securities Act 1978* (New Zealand). This Prospectus is not an investment statement or prospectus under New Zealand law and is not required to, and may not, contain all the information that an investment statement or prospectus under New Zealand law is required to contain.

(b) **Applicants outside Australia and New Zealand**

This Prospectus contains an offer to Eligible Shareholders in Australia and New Zealand.

This Prospectus does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation.

No action has been taken to:

- (i) register or qualify the New Shares or the Offer, or to otherwise permit an offering of the New Shares, in any jurisdiction other than as set out in this section;
- (ii) lodge this Prospectus in any jurisdiction outside of Australia or to otherwise permit a public offering of New Shares in any jurisdiction outside Australia.

This Prospectus is not to be distributed in, and no offer of New Shares is to be made in, countries other than Australia or New Zealand.

It is the responsibility of Applicants to ensure compliance with any laws of country relevant to their application. Neither this Prospectus nor the New Shares have been, or will be, registered under the *Securities Act of 1933* (US) or the securities laws of any state of the United States and the Offer is not being made in the United States or to persons resident in the United States. Without limitation, neither this Prospectus nor the accompanying Entitlement and Acceptance Form may be sent to investors in the United States or otherwise distributed in the United States. No public offering of securities is being made in the United States.

Recipients may not send or otherwise distribute this Prospectus or the Entitlement and Acceptance Form to any person outside of Australia or New Zealand (other than to Eligible Shareholders).

1.7 Rights issue exception not available

No nominee has been appointed for Ineligible Shareholders under section 615 of the Corporations Act and, as such, Eligible Shareholders will not be able to rely on the exception for rights issues in Item 10 of section 611 of the Corporations Act. Accordingly, when an Eligible Shareholder applies for some or all of its Entitlement, it must have regard to the takeovers prohibition in section 606 of the Corporations Act (that is, the 20% voting power threshold). Eligible Shareholders who may be at risk of exceeding the 20% voting power threshold in section 606 of the Corporations Act as a result of acceptance of the Offer should seek professional advice before completing and returning the Entitlement & Acceptance Form.

1.8 Custodians and nominees

The Offers are being made to all Eligible Shareholders. Carpentaria is not required to determine whether or not any Eligible Shareholder is acting as a nominee or the identity or residence of any beneficial owners of Shares.

Where any registered holder that qualifies as an Eligible Shareholder is acting as a nominee for a foreign person, that registered holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Offers is compatible with applicable foreign laws.

Any person in the United States, or any person that is, or is acting for the account or benefit of a US Person with a holding through a nominee, may not participate in the Offer and the nominee must not take up any entitlement or send any materials into the United States or to any person that is, or is acting for the account or benefit of, a US Person.

1.9 Non-Renounceable Offers

The rights to New Shares under the Offers are non-renounceable. Accordingly, there will be no trading of rights on ASX, and you may not dispose of your rights to subscribe for New Shares under the Offers to any other party. If you do not take up your entitlement to New Shares under the Offers by the Closing Date, the offers to you will lapse.

Eligible Shareholders who choose not to take up their rights will receive no benefit and their shareholding in the Company will be diluted as a result.

1.10 Underwriting

The Offers are not underwritten.

1.11 Fractional entitlements

Any fractional entitlements to a New Share will be rounded up to the nearest whole number of New Shares.

1.12 Issue of New Shares under the Offer

The issue of New Shares offered by this Prospectus will take place as soon as practicable after the Closing Date.

Pending the issue of the New Shares or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required under the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for New Shares issued under the Prospectus will be dispatched as soon as practicable after their issue.

1.13 ASX Quotation

Application for official quotation by ASX of the New Shares offered under this Prospectus has been made.

If the New Shares are not admitted to official quotation by ASX before the expiration of 3 months after the date of issue of this Prospectus, or such other period as varied by ASIC, the Company will not issue any New Shares and will repay all application monies for the New Shares within the time prescribed under the Corporations Act without interest.

The fact that ASX may grant official quotation to the New Shares is not to be taken in any way as an indication of the merits of the Company or the New Shares offered for subscription.

1.14 Taxation implications

Applicants should be aware that there may be taxation implications in participating in the Offer and subscribing for New Shares. The taxation consequences of participating in the Offer or acquiring New Shares may vary depending upon the individual circumstances of each Applicant. 2.2 Effect of the Offer

The principal effects of the Offers will be to:

- increase the Company's cash reserves after the Placement and Offers by approximately \$3.275 million on a fully subscribed basis after taking into account the costs of the Offer;

- (b) provide the Company with additional capital for the purposes referred to in Section 2.1; and
- (c) increase the total number of issued Shares (refer Section 2.3).

2.3 Effect of the Offer on capital structure

The effect of the Offers on the capital structure of the Company will be as follows:

Shares	Number
Number of Shares on issue at 8 September 2016 (the last practicable trading day prior to announcement of the Offers)	140,260,623
Maximum number of Shares to be issued under the Offers	53,946,394
Maximum number of Shares on issue following the Offers	194,207,017

The figures in the table above are approximate as individual Entitlements will be rounded up to the nearest whole figure.

2.4 Dilution

If Eligible Shareholders do not take up their full Entitlements under the Offer, then the interests of those Eligible Shareholders will be diluted.

The proportional interests of Ineligible Shareholders will be diluted because those Ineligible Shareholders are not entitled to participate in the Offers.

2.5 Effect of the Offer on financial position

A principal effect of the Offers on the Company, assuming that the Offers are fully subscribed (without taking into account the impact of rounding), will be that cash reserves will increase from \$1,682,599 as at 30 June 2016 to \$4,957,598 based on the pro forma balance sheet as at 30 June 2016 (assuming that the Placement and the Offers were completed as at this date) set out below.

A pro forma balance sheet as at 30 June 2016 has been prepared, and is set out below for illustrative purposes, but it has not been audited or reviewed. The pro forma balance sheet has been prepared on the basis of the accounting policies normally adopted by the Company, and reflect the changes to its financial position (assuming that the Placement and the Offers were completed as at 30 June 2016).

The pro forma balance sheet has been prepared on the basis that the Offers are fully subscribed, and there have been no material movements in assets and liabilities of the Company between 30 June 2016 and the date of this Prospectus other than:

- (a) impact of the Placement (net of expenses) on the cash balance;
- (b) impact of the Offers (net of expenses) on the cash balance; and
- (c) expenses of the Placement and Offers of approximately \$170,643.

The pro forma balance sheet has been prepared to provide Shareholders with information on the pro forma assets and liabilities of the Company as noted below. The historical and pro forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by the Australian Accounting Standards applicable to annual financial statements.

- (2) In the event that the maximum number of New Shares are issued under the Offers, the Company's cash and issued capital balances will increase by approximately \$2.643 million.
- (3) The Company will also pay the expenses of the Placement and the Offers of approximately \$170,643.

2.6 Effect of the Offer on the control of the Company

If all Eligible Shareholders take up their full Entitlement, then each Eligible Shareholder's percentage ownership interest (and voting power) in the Company will remain the same and there will be no effect on the control of Carpentaria.

If an Eligible Shareholder does not take up all of their entitlement, its percentage ownership interest (and voting power) in Carpentaria will be diluted. The proportional ownership (and voting power) of Ineligible Shareholders will be diluted because such Shareholders are not entitled to take up New Shares under the Offer.

As the Company does not propose to apply to ASIC for approval of the appointment of a nominee for the purposes of section 615 of the Corporations Act, no person will be permitted to acquire New Shares under the Offers to the extent that such acquisition results in that person holding a relevant interest exceeding 20% of the issued share capital of the Company on a post issue basis.

The current substantial shareholders of Carpentaria as at the date of this Prospectus, according to substantial holding notices lodged with the Company, are as follows:

Substantial Shareholder	No. of Shares	% of current issued Share capital
Shareholder 1	20,944,506	14.93
Shareholder 2	10,479,000	7.47
Shareholder 3	6,122,449	4.37
Shareholder 4	3,667,482	2.61
Shareholder 5	3,550,000	2.53

Examples of how the dilution may impact Shareholders is set out in the table below:*

Holder	Holding as at date of Prospectus	% as at date of Prospectus	Entitlements under Priority Offer	% post Offer if Entitlements not taken up
Shareholder 1	20,944,506	14.93	8,055,579	10.78
Shareholder 2	10,479,000	7.47	4,030,385	5.40
Shareholder 3	6,122,449	4.37	2,354,788	3.15
Shareholder 4	3,667,482	2.61	1,410,570	1.89
Shareholder 5	3,550,000	2.53	1,365,385	1.83

* The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted are placed under either the Shortfall Offer or Public Offer.

2.7 Market price of Shares

The highest and lowest closing prices of the Shares for the 6 months up to 8 September 2016 were:

Highest	7.0 cents	6/05/2016
---------	-----------	-----------

Lowest	3.0 cents	22/03/2016
--------	-----------	------------

The volume weighted average sale price (VWAP) on the ASX of the Shares for the periods set out below ending 8 September 2016 were:

5.94 cents VWAP for the 45 day trading period;

5.67 cents VWAP for the 30 day trading period;

4.97 cents VWAP for the 5 day trading period.

The closing price of the Company's Shares on ASX as at the close of business on 8 September 2016 was 5.8 cents.

No guarantee or assurance is given in relation to the market price of Shares at the Closing Date or at any time after the date of this Prospectus. Applicants should refer to Section 6.2 in the Risks Section.

so that they reach the registry **by no later than 5.00pm (AEDT) on the Closing Date** or such later date as the Directors determine.

If you wish to pay by BPAY, in respect of the Priority Offer or Shortfall Offer only, you do not need to return the Entitlement & Acceptance Form, you simply need to follow the instructions on the relevant Entitlement & Acceptance Form. Your cheques or bank draft must be made payable to 'Carpentaria Exploration Limited' and crossed 'Not Negotiable'. Cash payments will not be accepted and receipts for payment will not be provided.

By applying for New Shares under the Offer (including by way of payment through BPAY), an Applicant is taken to:

- (a) agree to be bound by the terms and conditions set out in this Prospectus and the accompanying Entitlement and Acceptance Form;

- (c) represent and warrant that they satisfy the criteria of being an Eligible Shareholder or Applicant as set out in this Prospectus;

- (e) agree to be bound by the Company's Constitution.

Any application for New Shares under the Offer (including by way of payment through BPAY), once lodged, cannot be withdrawn.

4. Shortfall Shares & Public Offer

Shortfall Shares will only be issued if the Priority Offer is undersubscribed. If there is any Shortfall, the Shortfall Shares will be allocated to Eligible Shareholders who have applied for Shortfall Shares at the discretion of the directors.

To the extent any shortfall remains after allocation to Eligible Shareholders who have applied for Shortfall Shares, Carpentaria will use its best endeavours to place those remaining Shortfall Shares under the Public Offer. Public Offer Shares will only be issued if the Priority Offer and Shortfall Offer are undersubscribed.

The Public Offer is a separate offer made under this Prospectus to both existing Eligible Shareholders and new external investors to the Company, who will be treated equally in the allocation of any Public Offer Shares.

To the extent that it is commercially practicable, and taking into account Carpentaria's requirement for funds, the directors (in consultation with the lead manager) will endeavour to allot the Shortfall Shares and Public Offer Shares to a spread of Applicants, in order to mitigate any control effects which may arise from issuing Shares to a single or small number of investors. In any event, no Applicant will be permitted to acquire Shares under the Shortfall Offer or Public Offer to the extent that such acquisition would result in that Applicant having a voting power in Carpentaria in excess of 20% (on a post issue basis).

Any Shortfall Shares or Public Offer Shares so issued will, in accordance with the Listing Rules, be issued within 3 months after the Closing Date and will be issued at a price that is not less than the Offer Price of the New Shares under the Offer.

The Company will not issue Shortfall Shares or Public Offer Shares where it is aware that to do so would result in a breach of the Corporations Act, the Listing Rules or any other relevant legislation or law. Eligible Shareholders wishing to apply for Shortfall Shares or Public Offer Shares must consider whether the issue of the Shortfall Shares or Public Offer Shares applied for would breach the Corporations Act or the Listing Rules having regard to their own circumstances.

The Directors reserve the right to reject any application for Shortfall Shares or Public Offer Shares, or to allot a lesser number of Shortfall Shares or Public Offer Shares than applied for. Application monies received but not applied towards subscriptions for Shortfall Shares or Public Offer Shares will be refunded as soon as practicable. No interest will be paid on application monies held and returned.

5. Rights and Liabilities Attaching to New Shares

The New Shares will rank equally in all respects with existing Shares.

The following is a summary of the more significant rights and liabilities attaching to New Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Company's Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

5.1 Rank equally

New Shares are ordinary shares in the capital of the Company and rank equally with all other ordinary shares issued by the Company. Currently all Shares issued by the Company are ordinary shares

5.2 Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at a general meeting of Shareholders:

- (a) each Shareholder is entitled to vote and may vote in person, or by proxy, attorney or representative;
- (b) on a show of hands, each person present who is a Shareholder, or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder will, in respect of each fully paid Share held, or in respect of which the Shareholder appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid Shares will have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

5.3 Dividends

Subject to the Corporations Act, the Listing Rules, and any rights or restrictions attached to a class of shares, the Company may pay dividends as the Directors authorise.

5.4 Meetings and notices

Each Shareholder is entitled to receive notice of, and to attend, general meetings of the Company and to receive all notices, accounts and other documents required to be sent to

Shareholders under the Constitution of the Company, the Corporations Act or the Listing Rules.

Shareholders may requisition meetings in accordance with the Corporations Act.

5.5 Winding up

If the Company is wound up and the property of the Company is more than sufficient to pay the debts and liabilities of the Company and the costs of winding up, Shareholders will have the right to participate equally in the distribution of its property subject to any amounts unpaid on the Share.

5.6 Transfer of shares

Subject to the Company's Constitution, the Corporations Act and any other laws and ASX Settlement Operating Rules and ASX Listing Rules, Shares are freely transferable.

5.7 Future increases in capital

5.8 Variation of rights

Under the Corporations Act, the Company may, with the approval of a special resolution passed at a meeting of Shareholders, vary or abrogate the rights attaching to Shares. If at any time the share capital is divided into different classes of shares unless the terms of issue of the Shares of a class state otherwise, the rights attaching to any class may be varied or abrogated with the approval of a special resolution passed at a meeting of Shareholders, together with the consent in writing of the holders of three quarters of the issued shares of that class, or a special resolution passed at a separate meeting of the holders of the shares of that class.

6. Risk Factors

6.1 Introduction

The New Shares offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for New Shares pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the New Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

6.2 Specific risks

(a) Additional requirements for capital

Failure to obtain sufficient financing for the Company's activities and future projects may result in delay and indefinite postponement of its activities and potential development programmes. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders. The Company is exposed to risks associated with its financial instruments, cash, receivables, accounts payable and accrued liabilities due to third parties from time to time. This includes the risk that a third party to a financial instrument fails to meet its contractual obligations, the risk that the Company will not be able to meet its financial obligations as they fall due and the risk that market prices may vary which will affect the Company's financial position and prospects.

Additional funding will be required in the event costs exceed the Company's estimates and also to effectively implement business and operations plans in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which the Company may incur. If such events occur, additional financing will be required. The Company may seek to raise further funds through equity or debt financing, joint ventures, licensing arrangements or other means. Failure to obtain sufficient financing for the Company's activities and future projects may result in delay and indefinite postponement of activities and potential development programmes. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.

(b) Feasibility studies, construction and commissioning risk

The prefeasibility study into the future development of a mining operation at the Hawsons Iron Ore Project is dependent upon, and may be affected by, a number of factors including, but not limited to, failure to determine feasibility to recover ore bodies economically, determination of unfavourable geological conditions, unanticipated technical and operational factors encountered when examining extraction and production methods, complexities determined with respect to operating plant and equipment, unexpected shortages or increases in the price of consumables, spare parts or plant and equipment, cost overruns, risk of access to the required level of funding and contracting risks from third parties providing essential services.

There is a risk that the prefeasibility study for the Hawsons Iron Ore Project will not reflect the Company's expectations for the project, which may adversely affect the prospects and economics of the project. Alternatively, even if the prefeasibility of production is confirmed, there is an inherent risk that the Hawsons Iron Ore Project construction may not be completed on schedule, or that the construction cost may exceed budget, or that significant problems in commissioning or metallurgical processes of the plant may arise.

In the event that the Company commences production, its operations may be disrupted by a variety of risks and hazards which are beyond its control, including environmental hazards, industrial accidents, technical failures, labour disputes, weather conditions, fires, explosions and other accidents.

(c) **Access to infrastructure**

Iron ore produced from the Company's Hawsons Iron Ore Project is intended to be transported to customers by a combination of pipeline, rail and sea.

A number of factors could disrupt these transport services, including any failure of rail or port infrastructure providers to provide capacity in order to meet future export requirements, key equipment and infrastructure failures, weather-related problems and industrial action, thereby impairing the Company's ability to supply iron ore to customers.

The Company would need to secure additional capacity at either the Port of Port Pirie or the Port of Whyalla from existing operators, in order for the Company to be able to maximise its production capacity at the Hawsons Iron Ore Project.

There is a possibility that the Company may not secure this additional capacity from existing operators.

The Company has commenced discussions with existing operators and potential providers of both rail and port capacity. While a conditional right of first refusal has been entered into in respect of Port Pirie, to date, no definitive agreements have been entered into, and there is a possibility that the Company will not enter into arrangements with existing operators, rail providers and port owners for use of services or will not be able to enter into arrangements on terms acceptable to the Company.

(d) **Resource estimates**

The Company has previously announced resource estimates. Resource estimates are based on relevant reporting codes, where required (refer to the JORC Code for further information on resource estimation), and judgements based on knowledge, skills and industry experience. Estimates that were valid when originally made may alter significantly when new information or techniques become available.

No assurance can be given that there will be an upgrade of the resource at Hawsons Iron Ore Project upon completion of the resource drilling and metallurgical tests.

By their very nature, resource estimates are imprecise and depend upon interpretations which may prove to be inaccurate, and whilst the Company will employ industry-standard techniques, including compliance with the JORC Code to reduce the resource estimation risk, there is no assurance that this approach will alter the risk. As further information becomes available through additional fieldwork and analysis, resource estimates may change. Actual mining results may materially differ from those estimates due to further findings and results not previously known or fluctuations in operating costs, exchange rates and metal prices. This may result in alterations to mining and development plans which may in turn adversely affect the

Company. The consequences for project economics may be either positive or negative.

(e) Failure to enter into sales or off-take agreements

The Company has entered into, and continues to enter into and engage in negotiations in respect of, various non-legally binding letters of intent with respect to sales or off-take agreements.

To date, no definitive sales or off-take agreements have been entered into in respect of any of the Company's planned production of iron ore from the Hawsons Iron Ore Project.

Assuming the Company is able to secure sales or off-take agreements in the future, the Company may depend upon a small number of large customers, the loss of any of which, or inability to collect payment from, could adversely affect the Company's results of operations and financial condition. Furthermore, the Company's ability to receive payment for iron ore sold and delivered under any future sales or off-take agreements will depend upon the continued creditworthiness of its customers. If the Company is unable to collect payments from any of its customers, the Company's financial condition and results of operations could be materially adversely affected.

Should the Company be unable to find customers to purchase its produced volume, its financial results may be adversely affected.

(f) Research and development tax rebate

The Company has received, and anticipates continuing to receive, research and development (R&D) tax rebates pursuant to the AusIndustry Research & Development Scheme. The Company's past claims with regard to R&D tax rebates are subject to regular compliance reviews. No assurance can be given that full or partial funding of the Company's prior, current or future R&D tax rebate claims will be available, or will be available on terms acceptable to the Company.

(g) Commodity price volatility and exchange rate risks

Commodity price volatility impacts both upon the value of the Company's projects and the potential revenue (if any) derived from those projects. Commodity prices fluctuate and are affected by many factors beyond the control of the Company. These factors include supply and demand fluctuations, forward selling activities and other macro-economic factors. Furthermore, international prices of various commodities are denominated in foreign currencies, whereas the income and expenditure of the Company are and will be taken into account in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between foreign currencies and the Australian dollar as determined in international markets.

6.3 General risks

(a) **Forecasts**

The Directors consider that it is not possible to accurately predict the future revenues or profitability of the Company or whether any revenues or profitability will eventuate. The business of the Company is dependent upon a number of factors and many of these factors are outside the control of the Company. Consequently the Company and the Directors do not make any forecast or representation in relation to the Company's future financial position or performance.

(b) **Economic**

General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's business activities and potential development programmes, as well as on the ability to fund those activities.

(c) **Force majeure**

The Company's business may be adversely affected by risks outside the control of the Company, including (but not limited to) labour unrest, civil disorder, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(d) **Uninsured loss and liability**

Exploration for and development of minerals involves hazards and risks that could result in the Company incurring losses and liabilities to third parties. There is a risk that the Company may not be insured against all potential losses or liabilities that could arise from its activities. If the Company incurs losses or liabilities that are not covered by its insurance policies, the funds available for its business and activities will be reduced and could create risk for the value of the Company's assets.

(e) **Dependence upon outside parties**

The Company may pursue a strategy that forms strategic business relationships with other organisations in relation to potential products and services. There can be no assurance that the Company will be able to attract such prospective organisations and to negotiate appropriate terms and conditions with these organisations or that any potential agreements with such organisations will be complied with.

(f) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and mining stocks in particular. Neither the Company nor the directors warrant the future performance of the Company or any return to Shareholders arising from the Offer or any other event or occurrence.

(g) Reliance on key personnel

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially upon senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment or if one or more of the Directors leaves the Board.

(h) Government regulation risk

The Company's tenements and activities may be subject to extensive regulation by local, state and federal governments in relation to exploration, development, production, exports, taxes and royalties, labour standards, occupational health, waste disposal, protection and rehabilitation of the environment, mine reclamation, mine safety, toxic and radioactive substances, native title and other matters. Compliance with such laws and regulations will increase the costs of exploring, drilling, developing, constructing, operating and closing mines and other production facilities. There is a risk that approvals required for exploration and development programs and mining operations may not be forthcoming, either at all or in a timely manner, or that they may not be able to be obtained on acceptable terms. A failure to obtain any approval would mean that the ability to participate in or develop any project, or possibly acquire any project, may be limited or restricted either in part or absolutely. There can be no assurance that future government policy will not change and this may adversely affect the long term prospects of the Company. In addition, future changes in governments, regulations and policies may have an adverse impact on the Company.

(i) **Investment speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Shares offered under this Prospectus.

Therefore, the New Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Shares.

Potential investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

7. Additional Information

7.1 Continuous disclosure obligations

The Company is a 'disclosing entity' (as defined in the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities.

This Prospectus is a 'transaction specific prospectus'. In general terms a 'transaction specific prospectus' is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all the assets and liabilities, financial position, profits and losses or prospectus of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act, states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with ASIC in relation to the Company may be obtained from, or inspected at, the offices of ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the annual financial report of the Company most recently lodged with ASIC before the lodgement of this Prospectus with ASIC;
 - (ii) any half-year financial report lodged by the Company with ASIC after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with ASIC; and
 - (iii) any continuous disclosure documents given by the Company to ASX in accordance with the ASX Listing Rules as referred to in Section 674(1) of the Corporations Act after the lodgement of this annual financial report referred to in (i) and before the lodgement of this Prospectus with ASIC.

Copies of all documents lodged with ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

Details of documents lodged by the Company with ASX since the date of lodgement of the Company's latest annual financial report and before the lodgement of this Prospectus with ASIC are set out in the table below:
