### FGX DELIVERS STRONG OUTPERFORMANCE AND AN INCREASED FULL YEAR FULLY FRANKED DIVIDEND

- Investment portfolio increases 12.7%, outperforming the Index by 10.7%
- 100.0% increase in full year fully franked dividend
- Annual donation of \$2.29 million to Australian children and youth at risk charities

Future Generation Investment Company Limited (FGX or the Company) is pleased to announce the investment portfolio increased by 12.7% for FY2016, outperforming the S&P/ASX All Ordinaries Accumulation Index by 10.7%, and a fully franked 2.0 cents per share final dividend. This brings the full year fully franked dividend to 4.0 cents per share – a 100.0% increase on the 2.0 cents per share fully franked dividend paid for the period to 30 June 2015.

The increase of the investment portfolio and outperformance against the index was achieved with significantly less volatility than the market. The volatility of the FGX investment portfolio, as measured by its standard deviation during the year, was 8.8%, while the S&P/ASX All Ordinaries Accumulation Index was 14.2%.

Chairman Jonathan Trollip said the participating fund managers had again delivered an outstanding result for shareholders.

"FGX continues to perform strongly as the 18 fund managers deliver significant risk-adjusted outperformance against the market." he said.

"The increased final dividend supports the Company's goal of delivering on its investment objectives of providing a stream of fully franked dividends to shareholders while protecting their capital and delivering capital growth," Mr Trollip said.

The Company will donate \$2.29 million to Australian charities focused on changing the lives of Australia's most vulnerable children and youth at risk. The donation is a 39.6% increase from the previous year's donation of \$1.64 million.

FGX Chief Executive Officer Louise Walsh said the Company expects the donation to charities will increase each year as the Company continues to grow and perform for shareholders.

"We are delighted with the \$2.29 million donation to children and youth at risk. We look forward to growing this donation over time and are expecting to donate an estimated \$2.66 million for FY2017," Ms Walsh said.

The dividend to shareholders and donation to charities were a result of the skill and generosity of the participating fund managers said Founder and Director Geoff Wilson.

"Our 18 fund managers forgo both management and performance fees, allowing the Company to make a significant donation to charities focused on children and youth at risk. This donation would not be possible without their incredible generosity. We also thank our service providers who are also working pro bono for FGX." Mr Wilson said.

#### Charitable objectives

The Company provides shareholders with unprecedented access to prominent Australian fund managers without paying management or performance fees. All participating fund managers have agreed to forgo management and performance fees, and directors and most service providers are working on a pro-bono basis. This allows the Company to donate 1.0% of its Net Tangible Assets (NTA) to Australian charities each financial year.

The objectives of the Company are to provide shareholders with an attractive investment and to provide an ongoing source of funding for Australian charities, with a focus on children and youth at risk. The Company's innovative structure promotes giving as well as wealth creation, and we hope this initiative will inspire greater corporate philanthropy.
