ABOUT CHARING CROSS SYMPOSIUM

The Charing Cross Symposium first took place in 1978 at Charing Cross Hospital, Hammersmith, London, and is the longest running vascular and endovascular symposium in Europe and one of the largest in the world.

This year's symposium focuses on challenges in complete optimal vascular disease management, catering for all vascular specialists.

ABOUT AVITA MEDICAL LIMITED

Avita Medical develops and distributes regenerative products for the treatment of a broad range of wounds, scars and skin defects. Avita's patented and proprietary collection and application technology provides innovative treatment solutions derived from a patient's own skin. The Company's regenerative product portfolio includes ReCell® for burns aimed at plastic reconstructive procedures, ReGenerCell™ for chronic wounds and ReNovaCell™ of restoration of pigmentation and cosmesis. ReCell®, ReGenerCell™ and ReNovaCell™ are patented, CE-marked for Europe. ReCell® is TGA-registered in Australia, and CFDA-cleared in China. In the United States, ReCell® is an investigational device limited by federal law to investigational use, and a pivotal U.S. trial is well underway aimed at securing FDA approval.
