BRIERTY AWARDED \$8.1 MILLION PERTH STADIUM CONTRACT

Diversified contractor Brierty Limited (ASX: BYL) is pleased to announce it has been awarded an \$8.1 million contract by Multiplex to construct car parks and access roads for the Perth Stadium project.

Under the contract Brierty will provide drainage and pavement construction for the carparks and roadways, as well as kerbing and other traffic treatments.

In the past 18 months Brierty has successfully delivered an earthwork and drainage package for Multiplex at the Perth Stadium. The new contract extends Brierty's presence at the stadium for an additional 10 months.

Brierty Chief Executive Officer Ray Bushnell said the Perth Stadium contract, combined with work at Perth Airport, Riverside Waterbank, and the Perth City Busport provided Brierty with high exposure large public works projects.

"Brierty has won a number of contracts at major Perth projects, proving our ability to seamlessly integrate with other contractors for big ticket infrastructure as well as providing standalone civil construction," Mr Bushnell said.

"We're also pleased to continue our very good working relationship with Multiplex."

Recent metropolitan projects that demonstrate Brierty's diversity include:

- City Link Bus Project – Installation and realignment of underground services and road networks working under live traffic and public transport movements on Wellington Street, Perth.
- T1&T2 Perth Airport – Installation and realignment of underground services and road realignment. Working in a live international airport required strategic planning, clear stakeholder and client communication and management, and a committed safety and quality focus.
- Riverside Waterbank Stage 4 – Installation of a water main and drainage. New road pavements and brick paving to the WACA (cricket ground) forecourt area. Again under live traffic and sporting events.
