WHO WE ARE

Pact is a leading provider of specialty packaging solutions in Australasia, servicing both consumer and industrial sectors. Pact specialises in the manufacture and supply of rigid plastic and metal packaging, materials handling solutions, co-manufacturing services and recycling and sustainability services.

Scale and Diversity

With operations across seven countries and more than 4,000 team members, Pact's extensive manufacturing and supply network and highly diversified product portfolio provide broad end-market reach. Pact delivers products and services to some of the world's biggest and most trusted brands.

Innovation

Pact delivers high quality solutions to its valued customers, supported by world-class innovation capability, and global licencing arrangements.

Growth

Our growth strategy is focussed on delivery of growth through three core pillars: organic growth, operational excellence and efficiency, and disciplined M&A.

Vision

Our vision is to enrich lives everyday through sustainable packaging solutions.

Sales revenue up 11%
NPAT up 11%¹

VIEW FROM THE CHAIRMAN

"Our vision to enrich lives through sustainable packaging remains core to our business. The Group has a significant sustainability operation that enables ourselves and our customers to reduce environmental impacts."

Raphael Geminder **Chairman**

Dear Shareholder

Welcome to Pact Group's FY16 Annual Report.

Overview

I am delighted that FY16 has been another highly successful year for the business.

Our broad and diversified enterprise continues to demonstrate the defensive, resilient and stable nature of the sector we serve and we continue to grow and solidify our competitive moat. We have a well-defined three pillar growth strategy that comprises organic growth, ongoing efficiency and continued Mergers and Acquisitions (M&A).

The Group has delivered growth in sales, profit, cash flow and dividends every year since listing. During FY16 the Group remained focussed on its high performance culture, its commitment to efficiency and our disciplined M&A strategy, which saw four acquisitions completed during the year.

Our focus on organic growth coupled with a strategic emphasis on innovation is starting to deliver results. A much improved focus on customer satisfaction and quality, measured by Net Promoter Score is being rolled out to the Group, so that we can measure in a broader sense what is going on with our customers. A relentless focus on reducing our cost base and improving efficiency, remains a key priority for the management team. This is not a new theme, but remains a critical focus for the Group and is fundamental to any manufacturing enterprise. Our diversification into materials handling

and co-manufacturing packaging has developed new opportunities to grow in near adjacencies.

We have continued to invest in the latest technology to support our customers so that they can deliver innovative products and solutions. Our innovation culture has once again been recognised by the *Australian Financial Review* in their list of Australia's Top 50 Most Innovative Companies, the only packaging company to achieve this recognition this year and proudly for four consecutive years.

Our vision to enrich lives through sustainable packaging remains core to our business. The Group has a significant sustainability operation that enables us and our customers to reduce environmental impacts. We were also delighted that our recycled and recyclable Moisturelock meat tray won a prestigious *Green Ribbon Award* from the New Zealand Ministry of the Environment in 2016.

Board Changes

I would like to take this opportunity to highlight changes to your Board of Directors since our last annual report. In December 2015 we welcomed Malcolm Bunday as our new Managing Director and Chief Executive Officer. Mal, who was formerly President and CEO of Graham Packaging, a US\$3 billion global rigid packaging company, has brought with him a wealth of experience in our industry and has made an immediate and positive impact on the business. In April 2016 our previous Managing Director and CEO Brian Cridland retired. I want to pay tribute to Brian who successfully managed the Group from inception

in 2002, through its successful listing in 2013 and who made an enormous contribution to making Pact the successful business it is today. In October 2015 we were also delighted to announce the appointment of Ray Horsburgh AM as a Non-Executive Director. Ray has extensive management and Board experience in manufacturing and in M&A. Ray's appointment complements the Board's diverse mix of skills.

Dividends

The Board of Directors has declared a final dividend of 11.0 cps, franked to 65%, up 10.0% on the prior year. Total dividends declared for the year were 21.0 cps, up 7.7% on the prior year, and in line with Group's previously stated payout range of 65%-75% of NPAT before significant items.

On behalf of the Board I thank all shareholders for their continued support as well as our customers, suppliers and other stakeholders. I would also like to acknowledge the contribution of our dedicated management team and employees who have helped grow and transform the business.

I remain confident that together we can continue the journey to grow and reward all of our stakeholders.

Raphael Geminder
Chairman

A MESSAGE FROM THE CEO

"Since joining Pact I have been extremely impressed by the Group's capabilities, particularly in meeting the challenges of the external environment."

Malcolm Bunday **Managing Director and CEO**

Dear Shareholder

I am very pleased to be able to report to you a strong set of results for FY16.

Strong Financial Performance

The Group has reported growth in all key financial metrics in the financial year. Sales revenue grew by an impressive 10.6% and EBIT before significant items grew by 5.5%. NPAT before significant items grew by a very pleasing 10.7% to \$94.3 million.

This growth was delivered by a combination of acquisition benefits and efficiency savings, which more than offset the impact of lower underlying sales volumes in some sectors. The business delivered a strong cashflow performance, generating cash to fund our growth opportunities and to reward shareholders, whilst maintaining a robust balance sheet. Our financing metrics remained well within targeted levels.

Pact Australia sales revenue increased 15.5% to \$1,027.9 million with EBIT growing 10.8% to \$95.6 million. This result benefitted from the acquisitions of Jalco and other smaller acquisitions completed during the year as well as the continued high performance culture in the business, driving efficiency and improving underlying margins. These benefits more than offset the impact of some subdued underlying market conditions, costs of management transitions and a delayed facility start-up.

Pact International sales revenue was down 1.6% to \$353.4 million, but EBIT increased 1.1% to \$66.8 million with the diversification of the business and efficiency benefits delivering increased earnings and improved margins despite challenges in the dairy and industrial sectors.

These results were delivered against a backdrop of economic and market challenges, once again demonstrating the resilience of the business, the benefits of diversification and management's

relentless focus on efficiency and cash management.

Focused on Growth

Our growth strategy remains focused on generating long-term shareholder value through:

- organic growth;
- efficiency; and
- disciplined M&A.

This year has been an exciting period of growth for the Group which has seen us generate opportunities across each of these core growth pillars.

Our organic growth strategy has been bolstered by an organisational restructure, the introduction of a new sales pipeline process and the contract to establish a crate pooling business for a key customer.

Our focus on operational excellence has seen us complete the *Efficiency Program* announced in 2015, delivering savings as committed, and into the future seeking further efficiency gains will be realised through the implementation of lean manufacturing techniques across our manufacturing footprint.

Four acquisitions were also completed in FY16, expanding our product and customer portfolio. We also completed the acquisition of the New Zealand crate pooling business, The Fruit Case Company, in July 2016.

Our People

Critical to the continued success of the business are our people. Our core value is that all employees "walk in our customers' shoes to serve them better" and we are committed to providing a safe, sustainable, honest and respectful working environment. Through our *Applause* reward and recognition program we also encourage employees from across all areas of the business to submit ideas for innovation and process improvement – no idea is too big or too small!

The safety of our people remains a top priority and we continue to build awareness and engagement through our *Towards Zero Harm* campaign and various other programs. Furthermore we expect a positive impact on workplace health and safety as an outcome of our ongoing focus on lean manufacturing.

Outlook

The Group is strategically well positioned for the future, with solid foundations, a robust balance sheet and clear opportunities for growth. We remain confident that our strategy will drive further growth and shareholder returns in FY17. Our outlook for the FY17 is that we expect to achieve higher revenue and earnings (before significant items), subject to global economic conditions.

Since joining Pact I have been extremely impressed by the Group's capabilities, particularly in meeting the challenges of the external environment. I would like to take this opportunity to thank our talented and committed people for their outstanding performance during the year that has contributed to the FY16 result and will help drive the business to continued success in the future. I would also like to acknowledge and thank the contribution of our Chairman and the Board of Directors, for their guidance and our shareholders, for your continued support.

Foot notes within review of operations and financial performance are set out on page 14.

Sales Revenue

Group sales revenue increased 10.6% (\$132.1 million) to \$1,381.3 million, compared to the pcg, with growth from acquisitions delivering \$203 million in revenue. Contributions from acquisitions made during the period included:

- Jalco – a contract manufacturing, filling and packing business based in New South Wales, acquired in September 2015;
- Stowers Containment Solutions – a New Zealand based distributor of containment solutions, acquired February 2016;
- Power Plastics – a New South Wales based manufacturer of rigid plastic containers, acquired in March 2016; and
- Ecopolymers – a plastics recycler based in Queensland, acquired in May 2016.

In addition, the full year impact of acquisitions made in the last financial year had a positive impact. Sales benefitted slightly from favourable currency translation and price increases largely associated with inflationary impacts. These benefits were partly offset by lower underlying net sales volumes, particularly in the dairy, agricultural and industrial sectors, generally subdued demand conditions across most other sectors, and net contract losses in the period.

EBIT (before significant items)

The Group reported EBIT (before significant items) of \$162.5 million, up 6.6% (\$10.0 million) versus the pcg. EBIT was favourably impacted by acquisitions (+\$10.3 million), the 2015 *Efficiency Program* (\$6.6 million) and benefits delivered through property management, including property sales (\$4.1 million) and lower lease related costs (\$3.2 million). These benefits were partly offset by the EBIT impact of lower net sales volumes (-\$9.5 million), and other costs, largely associated with facility start-up costs in Australia (-\$2.0 million) and Indonesia (-\$0.7 million) and management transitions in the period (-\$1.2 million).

Focus on lowering the Group's overall cost of production remains a key priority and during the year the *Efficiency Program* announced in 2015 was substantially completed. EBIT growth, delivered in challenging market conditions, once again demonstrates the resilience of the business and the benefits of diversification.

EBIT margins in the underlying business were improved. Although group margins declined to 11.8% from 12.2%, this was primarily due to lower margins in the acquired businesses. Resin prices, in Australian dollar terms, were steady and costs were well controlled.

Significant Items

Pre-tax significant items for the year were an expense of \$11.5 million. This related to costs associated with the *Efficiency Program* announced in 2015 (\$8.6 million) and acquisition costs (\$2.9 million). The pre-tax significant items of \$23.5 million in the prior year also related to the *Efficiency Program* (\$20.8 million) and acquisition costs (\$2.7 million).

Net Finance Costs

Net financing costs for the period were \$30.5 million. The decrease in financing costs of \$2.5 million compared to the pcg reflects the beneficial impact of the refinancing completed in June 2015, the *Securitisation Program*, also established in June 2015, and reductions in market interest rates.

Income Tax Expense and Significant Tax Items

The income tax expense for the year was \$37.7 million and represents 28.5% of net profit before tax and significant items, broadly in line with the statutory tax rates payable across the Group's main operating locations. This compares to \$34.1 million in the pcg at a similar effective tax rate.

The significant tax item for the year is a benefit of \$2.2 million relating to the significant items noted above. In the prior year the significant tax item was a benefit of \$6.0 million, also relating to the *Efficiency Program* and acquisition costs.

Net Profit After Tax

Group net profit after tax attributable to shareholders for the financial year was \$85.1 million compared to \$67.6 million in the pcg. Excluding significant items, net profit after tax attributable to shareholders was \$94.3 million, an increase of \$9.1 million over the pcg.

REVIEW OF OPERATIONS AND FINANCIAL PERFORMANCE (CONTINUED)

Balance Sheet

Net debt at the end of the financial year was \$509.6 million, \$69.3 million higher than the prior corresponding period. The increase in net debt primarily reflects funding requirements of \$113.9 million for acquisitions made during the year, partly offset by the underlying cash generation of the business.

The Group has retained a robust balance sheet. At 30 June 2016 gearing (closing net debt / EBITDA) was 2.3 times, up from 2.1 times in the pcpc due to the funding requirements for acquisitions. This remains well within management's target range of less than three times.

Total debt facilities comprise of a A\$590.0 million facility and a NZ\$180.0 million facility, each equally split between tranches maturing in July 2018 and July 2020. Average tenor is three years. Unused facilities at 30 June 2016 were \$197.3 million.

Cashflow

Statutory operating cashflow including proceeds from the *Securitisation Program* was \$160.8 million, \$89.6 million lower than the pcpc. The inflow from securitisation of trade debtors was \$18.7 million in the financial year compared to \$96.9 million in the pcpc. Excluding securitisation inflows, statutory operating cashflow was \$11.4 million lower than the pcpc, primarily due to higher income tax cash payments.

Payments for property, plant and equipment were \$52.1 million compared to \$43.4 million in the pcpc. The increase includes capital expenditure in acquired businesses (mainly Jalco), expenditure relating to the integration of acquisitions and an initial \$2.7 million in capital expenditure relating to the establishment of a crate pooling business in Australia.

Payments for purchase of businesses and subsidiaries of \$113.9 million includes Jalco (\$76.1 million), Power Plastics (\$15.0 million), Stowers Containment Solutions (\$13.9 million), Ecopolymers (\$1.4 million) and a \$7.2 million deferred payment relating to the Sulo acquisition from 2014.

Review of Operations

Pact Australia

Pact Australia comprises the Group's operations in Australia where it has operating sites in New South Wales, Victoria, Tasmania, Queensland and Western Australia.

\$'000	30 June 16 Actual	30 June 15 Actual
Sales Revenue	1,027,939	889,911
EBIT	95,635	86,313
EBIT Margin %	9.3%	9.7%

Pact Australia achieved growth in both sales revenue and EBIT before significant items.

Sales revenue grew by \$138.0 million compared to the pcpc, or 15.5%, positively impacted by acquisitions. Excluding acquisitions, volumes were lower. Growth in the materials handling sector was more than offset by softer demand in the agricultural and industrial sectors, impacted by unfavourable weather conditions, weaker mining markets, and the impact of net contract losses.

EBIT (before significant items) of \$95.6 million was up \$9.3 million or 10.8% compared to the pcpc. Earnings growth was delivered through acquisitions and efficiency benefits, including benefits delivered through the 2015 *Efficiency Program*, property sales and lower lease related costs. These benefits more than offset the impact of lower underlying volumes and costs associated with management transition and facility start-up costs in the period.

The EBIT margin of 9.3% was lower than the prior year, negatively impacted by lower margins in the acquired businesses, partly impacted by the costs of integration. Excluding acquisitions, underlying margins improved.

Pact International

Pact International comprises the Group's operations in New Zealand, China, the Philippines, Indonesia, Singapore and Thailand.

\$'000	30 June 16 Actual	30 June 15 Actual
Sales Revenue	353,399	359,242
EBIT	66,834	66,116
EBIT Margin %	18.9%	18.4%

Pact International achieved growth in EBIT before significant items despite slightly lower sales revenue.

Sales revenue of \$353.4 million was down \$5.8 million, or 1.6%, versus the pcpc. The business achieved higher volumes in the material handling sector, through the supply of household bins and industrial crates, and benefitted from the acquisition of Stowers, as well as overall favourable foreign exchange conditions in the year. These positive impacts were more than offset by lower volumes from weaker demand in the dairy and industrial sectors, and the impact to sales from ownership changes in South East Asia (from 100% owned to JV).

EBIT (before significant items) at \$66.8 million was up \$0.7 million, or 1.1% compared to the pcpc. Earnings growth was delivered through the contribution of the acquired Stowers business and efficiency savings. These benefits more than offset lower underlying sales volumes and start-up costs relating to the new Indonesian manufacturing facility, which was commissioned in December 2015.

The EBIT margin of 18.9% improved from 18.4% in the pcpc.

Other Events of Significance

Acquisitions

On 1 September 2015 the Group completed the acquisition of 100% of the issued share capital of Jalco Group Pty Limited (Jalco) and its controlled entities. Jalco is a leading supplier of contract manufacturing, filling and packing in the non-food FMCG sector. This acquisition is part of the Group's overall strategy to deepen its existing FMCG customer relationships and to enter new areas of growth serving customers in this sector. Total purchase consideration was \$80.1 million (including deferred settlement), and the acquisition was funded through Group debt facilities.

During the year the Group also completed the acquisition of Power Plastics Pty Ltd (1 March 2016) for total purchase consideration of \$25.2 million; the business assets of Stowers Containment Solutions Ltd (29 February 2016) for total purchase consideration of \$13.9 million; and the business assets of Ecopolymers Pty Ltd (3 May 2016) for total purchase consideration of \$2.9 million.

Crate Pooling

On 16 May 2016 the Group announced that it had entered into an agreement under which the Group will construct, own and operate crate pooling, washing and storage facilities to service Woolworths. This is a natural extension of the Group's existing presence in the materials handling sector and continues the strategy of pursuing new revenue streams through organic growth.

It is expected the establishment of the business, including the construction of crate washing facilities and the manufacture of crates, will cost approximately \$70 million, with most of the capital expenditure spent in the FY17. The new business is expected to commence operations early in FY18.

On 7 June 2016 the Group also announced that it was to purchase the assets, brands and trademarks of the Fruit Case Company, a New Zealand based crate pooling and hire company, for \$16.9 million, continuing the Group's strategic expansion into the materials handling sector. The acquisition completed on 1 July 2016.

2017 Outlook

The outlook for the Group is for higher revenue and earnings (before significant items) in FY17, subject to global economic conditions.

In the Directors' opinion, any further disclosure of information would likely result in unreasonable prejudice to the Group.

REVIEW OF OPERATIONS AND FINANCIAL PERFORMANCE (CONTINUED)

Overview of Business Strategy

A key element of the Group's strategy is to maximise long-term shareholder value. The Group seeks to deliver long-term value through focus on three core areas: organic growth, efficiency and disciplined M&A.

Organic Growth

The Group's core business benefits from:

- leading sector positions;
- a diverse customer base with long-term relationships;
- a highly diversified product portfolio;
- broad end-market reach;
- an extensive manufacturing and supply network; and
- world-class innovation.

Key to the Group's ability to grow organically is its ability to leverage these differentiating characteristics to create a competitive advantage. A core focus of the Group is innovation. Pact supplies some of the most innovative products in the market, supported by in-house innovation capability and extensive global licencing arrangements. The Group's commitment to innovation has been recognised through multiple industry and customer awards (refer to page 16).

Efficiency

The Group is focussed on delivering operational excellence and the lowest cash cost of production.

In 2015 the Group announced an *Efficiency Program* to eliminate excess capacity and align the Group with customers' requirements and expected long-term volumes. This program has now been substantially completed delivering benefits in the 2016 financial year, with annual benefits of \$15 million expected in FY17.

The strategic focus on efficiency will be enhanced going forward through the implementation of lean manufacturing techniques across the manufacturing footprint in a systematic and staged approach. In addition, the Group will continue to review all areas of the business for efficiency opportunities in the pursuit of operational excellence.

M&A

The Group has a long track record of success in identifying value accretive acquisition opportunities, executing transactions in a disciplined and systematic manner, and delivering cost synergies and operational efficiencies through integration. Acquisitions have provided both product and customer diversity to the Group.

M&A opportunities must meet strict assessment and evaluation criteria. Opportunities must be low risk and aligned with the Group's core sectors or close adjacencies, and expected returns must meet a minimum financial hurdle of 20% return on investment by year three.

Discipline in deal execution is provided by a centrally managed integration process. A strict timeline for transition and the centralisation of common operational and back-office functions ensures cost synergies and efficiencies are realised early.

Business Risks

There are various internal and external risks that may have a material impact on the Group's future financial performance and economic sustainability. The Group makes every effort to identify material risks and to manage these effectively.

The material financial risks include:

Customer Risks

Customers are fundamental to the success of the business and, in recognition of this, Pact invests in the quality of its relationships with key material customers, and in producing products to customers required specification and standard. The loss of key material customers, a reduction in their demand for Pact's products or a claim for non-performance can have a negative effect on the future financial performance of the Group.

People Risks

Future financial and operational performance of the Group is significantly dependant on the performance and retention of key personnel, in particular Senior Management. The unplanned or unexpected loss of key personnel, or the inability to attract and retain high performing individuals to the business may adversely impact the Group's future financial performance. In line with the manufacturing industry, Pact has an exposure to health and safety management incidents in the manufacturing operations. Failure to comply with health and safety legislation and industry good practice may result in harm to a person or persons, which may lead to negative operational, reputational and financial impacts.

Competitor Risks

Pact operates in a highly competitive environment due to factors including actions by existing or new competitors, price, product selection and quality, manufacturing capability, innovation and the ability to provide the customer with an appropriate range of products and services in a timely manner. Any deterioration in the Group's competitive position as a result of actions from competitors may result in a decline in sales revenue and margins, and an adverse effect on the Group's future financial performance.

Consumer Preferences

Changes in consumer preference for Pact's products or adverse activities in key industry sectors which Pact and its customers service may be influenced by various factors. These industry sectors include consumer goods (eg. food, dairy, beverages, personal care and other household consumables) and industrial (eg. surface coatings, petrochemical, agriculture and chemicals) industry sectors. Factors which may influence these sectors include climate conditions, seasonality of foods, an increased focus in Australian and New Zealand supermarket chains on private brands, and reputation of products, substrates or technology in the wider industry sector. Demand for Pact's products may materially be affected by any of these factors which could have an adverse effect on the Group's future financial performance.

REVIEW OF OPERATIONS AND FINANCIAL PERFORMANCE (CONTINUED)

Strategic Acquisitions

Pact's strong growth over time has been aided by the acquisition of numerous businesses and assets. This growth has placed, and may continue to place, significant demands on management, information reporting systems and financial and internal control systems. Effective management of Pact's growth, including identification of suitable acquisition candidates and effective management of integration costs will be required on an ongoing basis. If this does not occur then there may be an adverse effect on the Group's future financial performance.

Foreign Exchange Rates

Pact's financial reports are prepared in Australian dollars. However, a substantial proportion of Pact's sales revenue, expenditures and cashflows are generated in, and assets and liabilities are denominated in, New Zealand dollars. Pact is also exposed to a range of other currencies including the US dollar, Chinese yuan, the Philippines peso, the Indonesian rupiah and the Thai baht in relation to Pact's business operations. Any depreciation of the Australian dollar and adverse movement in exchange rates would have an adverse effect on the Group's future financial performance.

Supply Chain

The ability for the supply chain to meet the Group's requirements including the sourcing of raw materials, is reliant on key relationships with suppliers. The price and availability of raw materials, input costs, and future consolidation in industry sectors could result in a decrease in the number of suppliers or alternative supply sources available to Pact. Additionally Pact may not always be able to pass on changes in input prices to its customers. Any of these factors may have an adverse effect on the Group's future financial performance.

Interruption to Operations

Pact operates across a diverse geographical footprint and situations may arise in which sites are not able to operate. Factors include emergency situations such as natural disasters, failure of information technology systems or security, or industrial disputes. Any of these factors may lead to disruptions in production or increase in costs, and may have an adverse effect on the Group's financial performance.

Compliance Risks

Pact is required to comply with a range of laws and regulations, and those of particular significance to Pact are in the areas of employment, work health and safety, property, environmental, competition, anti-bribery and corruption, customs and international trade, taxation and corporations.

Footnotes

This Report includes certain non-IFRS financial information which has not been subject to audit by the Company's external auditor. This information is used by Pact, the investment community and Pact's Australian peers with similar business portfolios. Pact uses this information for its internal management reporting as it better reflects what Pact considers to be its underlying performance.

- (1) EBITDA before significant items is a non-IFRS financial measure which is calculated as earnings before significant items, finance costs (net of interest revenue), tax, depreciation and amortisation.
- (2) EBIT before significant items is a non-IFRS financial measure which is calculated as earnings before significant items, finance costs (net of interest revenue) and tax.
- (3) NPAT before significant items is a non-IFRS financial measure which is calculated as net profit after tax before significant items.
- (4) Gearing is a non-IFRS financial measures which is calculated as net debt divided by EBITDA before significant items. Net debt is calculated as current debt plus non-current debt less cash.
- (5) Interest cover is a non-IFRS financial measures which is calculated as EBITDA before significant items divided by interest expense.
- (6) TSR measured as June 2016 30 day volume weighted average share price plus dividends received by shareholders in FY16, compared to June 2015 30 day volume weighted average share price.

GROWTH INITIATIVES

Pact has been transformed from a rigid packaging business generating \$0.2 billion in sales revenue in 2002 to a diversified provider of specialty packaging and manufacturing solutions generating close to \$1.4 billion in sales revenue in 2016, with operations across seven countries.

Our Transformation

This transformation has been underpinned by a disciplined approach to M&A, a core pillar of the Group's growth strategy.

Since inception Pact has successfully integrated 47* acquisitions (including four in FY16) delivering growth, synergies and geographic expansion. Acquisitions have also generated increased product and customer diversification, providing new growth sectors and resilience in the Group's earnings.

2002
\$0.2 billion
turnover,
operating in
2 countries

2016
\$1.4 billion
turnover,
operating in
7 countries

Expansion into co-manufacturing

On 1 September 2015 Pact completed the acquisition of Jalco Group Pty Ltd in New South Wales. Jalco is Australia's pre-eminent FMCG contract manufacturing service provider, a contract filler and manufacturer of personal care and household products. The business has been successfully integrated and is performing ahead of expectations, generating revenues in FY16 of \$165 million and expanding the Group's product and customer portfolio.

Establishing a leading position in crate pooling

Woolworths Contract

In May 2016 the Group announced that it had entered into an agreement to construct, own and operate crate pooling, washing and storage facilities to service Woolworths. This long-term partnership will provide Pact with a leading position in returnable produce crate pooling services. The initiative is also a natural extension of the Group's existing presence in the materials handling sector and continues the strategy of pursuing new revenue streams through organic growth.

Crate pooling operations with Woolworths will commence in the first quarter of FY18.

Fruit Case Company

On 1 July 2016 Pact purchased the assets, brands and trademarks of the Fruit Case Company, a leading crate pooling and hire business in New Zealand. The business has strong long-term relationships with growers and retailers. The acquisition aligns with the Group's strategic intent to expand within the materials handling sector.

* Does not include the Fruit Case Company, completed in July 2016

INNOVATION

We are widely recognised for our Group-wide innovation and dedication to developing products and processes that reflect consumer insights.

The Company has won multiple design and innovation awards for products and services from customers and industry bodies.

GOVERNANCE

SUSTAINABILITY

Sustainability is a consideration in all of our business decisions. From our vision to our corporate strategy, sustainability underpins and shapes our core philosophy and our day-to-day business decisions.

Pact recognises that our business activities have a direct impact on a wide range of stakeholders and the communities in which we operate.

For us, sustainability is an ongoing process of considering our material issues and seeking to improve our sustainability performance.

It is with this in mind that our approach to sustainability focuses on:

- People;
- Environment;
- Society; and
- Ethics and Governance.

Our annual *Sustainability Report* that is based on Global Reporting Initiative (GRI) G4 requirements, can be accessed at <http://pactgroup.com.au/investors/corporate-governance/sustainability-reports>

CORPORATE GOVERNANCE OVERVIEW

The Board recognises the importance of good corporate governance and its role in ensuring the accountability of the Board and management to shareholders.

The Board is concerned to ensure that the Group is properly managed to protect and enhance shareholder interests and that the Company, its directors, officers and employees operate in an appropriate environment of corporate governance.

The Board has adopted a corporate governance framework comprising principles and policies that are consistent with the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations (third edition) (ASX Recommendations).

The Corporate Governance Statement outlines the key aspects of the Group's corporate governance framework and is available on the Company's website at www.pactgroup.com.au/investors/corporate-governance/corporate-governance-statement.

The Board considers that the Company's corporate governance framework and practices have complied with the ASX Recommendations for the financial year, except as otherwise detailed in the Corporate Governance Statement.

FINANCIAL REPORTS

Financial Report

Full Year Consolidated Financial Report

For the year ended 30 June 2016

Introduction

This is the *Consolidated Financial Report* of Pact Group Holdings Ltd ("Pact" or the "Company") and its subsidiaries (together referred to as the "Group") and including the Group's interest in associates and jointly controlled entities at the end of, or during the year ended 30 June 2016. This Consolidated Financial Report was issued in accordance with a resolution of the Directors on 24 August 2016.

To make the *Consolidated Financial Report* less complex and more useful to readers, note disclosures have been reorganised into sections to allow readers to better understand the performance of the Group and how this links to Pact's strategy outlined in the Operating and Financial Review.

Information is only included in the *Consolidated Financial Report* to the extent the Directors consider it material and relevant to the understanding of the financial statements. A disclosure is considered material and relevant if, for example:

- the dollar amount is significant in size and/or by nature;
- the Group's results cannot be understood without the specific disclosure;
- it is critical to allow a user to understand the impact of significant changes in the Group's business during the period; and
- it relates to an aspect of the Group's operations that is important to its future performance.

Developing this *Financial Report* requires management to make a number of judgements, estimates and assumptions to apply the Group's accounting policies. Actual results may differ from these judgements and estimates under different assumptions and conditions and may materially affect financial results or the financial position reported in future periods. Key judgements and estimates, which are material to this report, are highlighted in the following notes:

- Note 1.2 Taxation
- Note 2.1 Business acquired
- Note 2.2 Control and significant influence
- Note 3.2 Estimation of useful lives of assets
- Note 3.2 Recoverability of property, plant and equipment
- Note 3.2 Impairment of goodwill and other intangibles
- Note 3.4 Business reorganisation

To assist in identifying key accounting estimates and judgements, they have been highlighted as follows:

Directors' Report

The Directors present their report on the consolidated entity consisting of Pact Group Holdings Ltd ("Pact" or the "Company") and the entities it controlled (collectively the "Group") at the end of, or during, the year ended 30 June 2016.

Left to right:
Jonathan Ling,
Lyndsey Cattermole,
Malcolm Bunday,
Peter Margin,
Raphael Geminder,
Ray Horsburgh.

Directors' Report

The following persons were Directors of the Company from their date of appointment up to the date of this *Report*:

Non-Executive

Raphael Geminder

Non-Executive Chairman

Member of the Board since 19 October 2010

Member of the Nomination and Remuneration Committee

Raphael founded Pact in 2002. Prior to this, Raphael was the co-founder and Chairman of Visy Recycling, growing it into the largest recycling company in Australia. Raphael was appointed Victoria's first Honorary Consul to the Republic of South Africa in July 2006. He also holds a number of other advisory and Board positions.

Raphael holds a Masters of Business Administration in Finance from Syracuse University, New York.

Other current directorships

Director of several private companies.

Lyndsey Cattermole AM

Independent Non-Executive Director

Member of the Board since 26 November 2013

Member of the Audit, Business Risk and Compliance Committee

Member of the Nomination and Remuneration Committee

Lyndsey founded Aspect Computing Pty Limited and remained as Managing Director from 1974 to 2001, before selling the business to KAZ Group Limited, where she served as a Director from 2001 to 2004. Lyndsey has held many board and membership positions including with the Committee for Melbourne, the Prime Minister's Science and Engineering Council, the Australian Information Industries Association, the Victorian Premier's Round Table and the Woman's and Children's Health Care Network.

Lyndsey holds a Bachelor of Science from the University of Melbourne and is a Fellow of the Australian Computer Society.

Other current directorships

Non-Executive Director of Treasury Wine Estates Limited, Tatts Group Limited, and the Florey Institute of Neuroscience and Mental Health and several private companies.

Ray Horsburgh AM

Independent Non-Executive Director

Member of the Board since 5 October 2015

Member of the Audit, Business Risk and Compliance Committee

Ray has extensive management experience in the glass and steel manufacturing sectors and in mergers and acquisitions. He was Managing Director and Chief Executive Officer of Smorgon Steel Group Limited (1993–2007) and held various senior roles in packaging company ACI Limited including Chief Executive Officer of ACI Glass Group.

Ray has a Bachelor of Chemical Engineering, Hon D Univ, is a fellow of the Australian Institute of Company Directors and a Fellow of the Institute of Engineers Australia.

Other current directorships

Ray is currently the Chairman of Toll Holdings Limited and AFL Victoria. He is also a Director of the Ricky Ponting Foundation.

Former listed company directorships in last three years

Non-Executive Director of CSR Limited (2004–2013)

Chairman of Calibre Global Limited (2012–2015)

Directors' Report

Peter Margin

Independent Non-Executive Director

Member of the Board since 26 November 2013
Chairman of the Audit, Business Risk and Compliance Committee
Member of the Nomination and Remuneration Committee

Peter has many years of leadership experience in major Australian and international food companies. His most recent role was Chief Executive Officer of Goodman Fielder Limited. Prior to that Peter was Chief Executive Officer and Chief Operating Officer of National Foods Limited. Peter has also held senior management roles in Simplot Australia Limited, Pacific Brands Limited (formerly known as Pacific Dunlop Limited), East Asiatic Company, HJ Heinz Company Australia Limited and is currently Executive Chairman of Asahi Beverages ANZ.

Peter holds a Bachelor of Science from the University of New South Wales and a Master of Business Administration from Monash University.

Other current directorships

Non-Executive Director of Bega Cheese Limited, Nufarm Limited and Costa Group Holdings Limited.

Former listed company directorships in last three years

Non-Executive Director of Ricegrowers Limited (2012–2015), PMP Limited (retired August 2016), Huon Aquaculture Ltd (retired August 2016).

Jonathan Ling

Independent Non-Executive Director

Member of the Board since 28 April 2014
Chairman of the Nomination and Remuneration Committee

Jonathan has extensive experience in complex manufacturing businesses. Jonathan is currently the Chief Executive Officer and Managing Director of GUD Holdings Limited, and has previously held leadership roles with Fletcher Building Limited, Nylex, Visy and Pacifica.

He was the Chief Executive Officer and Managing Director of Fletcher Building Limited (2006–2012), New Zealand's largest listed company.

Jonathan has a Bachelor of Engineering (Mechanical) from the University of Melbourne and a Masters of Business Administration from the Royal Melbourne Institute of Technology.

Other current directorships

Director of GUD Holdings Limited and various GUD Holdings Limited subsidiary companies.

Former listed company directorships in last three years

Non-Executive Director of Pacific Brands Limited (2013–2014).

Executive

Malcolm Bunday

Managing Director and Chief Executive Officer

Member of the Board since 1 December 2015

Malcolm is the Managing Director and Chief Executive Officer of Pact. He joined Pact in December 2015. Malcolm previously held several senior executive leadership positions for The Rank Group (a privately owned NZ group), based in both Australia and the USA. After joining them as CFO of Goodman Fielder in 2003, and then transferring to the United States as a Company Executive in 2007, he became the President and CEO of Evergreen Packaging, a US\$1.6 billion global paper and packaging company. In 2011 he took on the concurrent roles of President and CEO of Closure System International (CSI), a US\$1.3 billion global closure packaging business and Graham Packaging, a US\$3.3 billion global rigid packaging and machinery business. Prior to this Malcolm was a partner at Deloitte, where he worked from 1987 to 2003.

Malcolm has a Bachelor of Business, Accounting from Monash University, undertook MBA studies at RMIT and also Harvard Executive Programs in 2000 and 2001.

Other current directorships

No other external directorships

Directors' Report

Company Secretary

Jonathon West

Company Secretary

Jonathon West was appointed to the position of Chief Legal Officer, Company Secretary and Head of Corporate Development of Pact on 1 June 2016.

Prior to this appointment, Jonathon was most recently at Goodman Fielder Limited where he held a variety of roles over a 10 year period, including Group Strategy and Corporate Development Officer, Group General Counsel and Company Secretary and Group Commercial Director. Prior to that Jonathon worked in both private practice and industry in Australia and the UK, including with Burns Philp Limited, Sportal.com, AOL Europe, Linklaters and Herbert Smith Freehills.

Jonathon holds Bachelor of Laws (Honours) and Bachelor of Science degrees from the University of Melbourne.

Directors' Shareholding

As at the date of this *Report*, the relevant interests of the Directors in the shares of the Company were as follows:

	Relevant Interest in Ordinary Shares
Raphael Geminder	117,036,546
Lyndsey Cattermole	78,948
Peter Margin	7,894
Jonathan Ling	2,365
Ray Horsburgh	20,100
Malcolm Bunday	-

Directors' Meetings

The table below shows the number of Directors' meetings (including meetings of Board committees), and the number of meetings attended by each Director in their capacity as a member during the year:

	Directors' Meetings		Audit, Business Risk and Compliance Committee		Nomination and Remuneration Committee	
	Meetings held	Meetings attended	Meetings held	Meetings attended	Meetings held	Meetings attended
Raphael Geminder	8	8	NM	N/A	4	4
Lyndsey Cattermole	8	8	4	4	4	4
Peter Margin	8	8	4	4	4	4
Tony Hodgson ⁽¹⁾	2	2	1	1	NM	N/A
Jonathan Ling	8	8	NM	N/A	4	4
Ray Horsburgh ⁽²⁾	6	5	3	3	NM	N/A
Malcolm Bunday ⁽³⁾	4	4	NM	N/A	NM	N/A
Brian Cridland ⁽⁴⁾	4	4	NM	N/A	NM	N/A

NM – Not a member of the relevant committee

N/A – Not applicable

(1) Tony Hodgson retired as a Non-executive Director on 30 September 2015

(2) Ray Horsburgh was appointed as a Non-executive Director on 5 October 2015

(3) Malcom Bunday was appointed as an Executive Director on 1 December 2015

(4) Brian Cridland retired as an Executive Director on 10 April 2016

Principal Activities

The Group's principal activities relate to the conversion of plastic resin and steel into rigid packaging and other products that service customers in different sectors including: food and beverage, personal care, household consumer, industrial and chemical, and materials handling and infrastructure. The Group also provides a range of services including outsourced manufacturing, filling and packing and a range of sustainability, recycling and environmental services to assist customers in reducing the environmental impact of their product packaging and related processes.

Directors' Report

Operating and Financial Review

A review of the operations of the Group during the year and of the results of those operations is contained on pages 8 to 14 of this *Annual Report*.

Dividends

On 24 August 2016, the Directors determined to pay a final dividend of 11.0 cents per share partially franked to 65%. The dividend is payable on 6 October 2016. The record date for entitlement to the dividend is 2 September 2016.

The table below shows dividends paid (or payable) during the year ended 30 June 2016.

Dividends	Amount per security	Franked amount per security	Unfranked amount per security sourced from the conduit foreign income account	Date paid / payable
Current year to 30 June 2016				
Final Dividend (per ordinary share)	11.00 cents	7.15 cents	3.85 cents	6 October 2016
Interim Dividend (per ordinary share)	10.00 cents	6.50 cents	3.50 cents	6 April 2016
Prior Year to 30 June 2015				
Final Dividend (per ordinary share)	10.00 cents	6.50 cents	3.50 cents	5 October 2015
Interim Dividend (per ordinary share)	9.50 cents	-	9.50 cents	2 April 2015

The Board's current intention is to pay out approximately 65%–75% of the Company's net profit before significant items after tax attributable to shareholders in dividends.

Franking capacity in FY2016 has been favourably impacted by franking credits received through acquisitions.

Other Events of Significance

Please refer to the Review of Operations and Financial Performance in the *Annual Report*.

Significant Events After Balance Date

On 1 July 2016 the Group acquired the assets, brands and trademarks of the Fruit Case Company (FCC), for a provisional consideration of \$16.9 million. FCC's principal activities include crate pooling and hire business with operations in New Zealand.

In the opinion of the Directors, there have been no other material matters or circumstances which have arisen between 30 June 2016 and the date of this *Report* that have significantly affected or may significantly affect the operations of the Group, the results of those operations and the state of affairs of the Group in subsequent financial periods.

Workplace Health, Safety and Environmental Regulation

The Group operates under an integrated Workplace Health, Safety and Environment (WHSE) Management System, with a goal of Towards Zero Harm to both people and the planet. The system is aligned with ISO 14001 and operates under an Environmental Policy and a Workplace Health and Safety Policy. The system is fundamental to achieving compliance with WHSE regulations in all jurisdictions in which we operate and is implemented at all of our sites.

Where applicable, licences and consents are in place in respect of each site within the Group. An interactive database is further used to ensure compliance and completion of all required actions.

On occasion, the Group receives notices from relevant authorities pursuant to local WHSE legislation and in relation to the Group's WHSE licences and consents. The Group takes all notices seriously, conducting a thorough investigation into the cause and ensuring that there is no reoccurrence. Pact works with the appropriate authorities to address any requirements and to proactively manage any obligations.

The Group is also subject to the reporting and compliance requirements of the Australian National Greenhouse and Energy Reporting Act 2007 (Cth). The National Greenhouse and Energy Reporting Act 2007 requires that Pact reports its annual greenhouse gas emissions and energy use. Pact has submitted all annual reports, and is due to submit its next report by 31 October 2016.

Share Options and Rights

A Long Term Incentive Plan (LTIP) for the CEO commenced on 1 December 2015. Please refer to the Remuneration Report (section 3) for further details.

Directors' Report

Indemnification and Insurance of Officers

The Company's Constitution requires the Company to indemnify current and former Directors, alternate Directors, executive officers and such other officers of the Company as the Board determines on a full indemnity basis and to the full extent permitted by law against all liabilities incurred as an officer of the Group. Further, the Company's Constitution permits the Company to maintain and pay insurance premiums for Director and Officer liability insurance, to the extent permitted by law.

Consistent with (and in addition to) the provisions in the Company's Constitution outlined above, the Company has also entered into deeds of access, indemnity and insurance with all Directors of the Company and the Company Secretary which provide indemnities against losses incurred in their role as Directors or Company Secretary, subject to certain exclusions, including to the extent that such indemnity is prohibited by the *Corporations Act 2001* or any other applicable law. In addition, a wholly owned subsidiary of the Company has entered into deeds of indemnity with those of its current and former Directors and Secretaries involved in a potential transaction which provide indemnities against losses incurred in the event of breaches of their obligations under confidentiality deeds entered into by them for the purpose of such transaction, and in the course of their employment, subject to certain exclusions including to the extent that such indemnity is prohibited by the *Corporations Act 2001*. The deeds stipulate that the Company will meet the full amount of any such liabilities, costs and expenses (including legal fees).

During the financial year the Company paid insurance premiums for a Directors and Officers liability insurance contract that provides cover for the current and former Directors, alternate Directors, secretaries, executive officers and officers of the Group. The Directors have not included details of the nature of the liabilities covered in this contract or the amount of the premium paid, as disclosure is prohibited under the terms of the contract.

Pursuant to the terms of the Company's standard engagement letter with Ernst & Young (EY), it indemnifies EY against all claims by third parties and resulting liabilities, losses, damages, costs and expenses (including reasonable legal costs) arising out of, or relating to, the services provided by EY or a breach of the engagement letter. The indemnity does not apply in respect of any matters finally determined to have resulted from EY's negligent, wrongful or wilful acts or omissions nor to the extent prohibited by applicable law including the *Corporations Act 2001*.

Proceedings on Behalf of the Company

No person has applied to the court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with the leave of the court under section 237 of the *Corporations Act 2001*.

Non-audit Services

During the year, EY, the Company's auditor, performed other assignments in addition to their statutory audit responsibilities.

Details of the amounts paid or payable to EY for non-audit services provided in respect of the Group during the year are as follows:

	30 June 16 (\$000's)	30 June 15 (\$000's)
Tax services	472	507
Other assurance related services	528	543
Total	1,000	1,050

The Board has considered the position and, in accordance with the advice received from the Audit, Business Risk and Compliance Committee, is satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*.

The Directors are satisfied that the provision of non-audit services by EY, given the amounts paid and the type of work undertaken, did not compromise the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- all non-audit services have been reviewed by the Audit, Business Risk and Compliance Committee to ensure they do not impact the impartiality and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110: *Code of Ethics for Professional Accountants*, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Group, acting as advocate for the Group or jointly sharing economic risk and rewards.

Directors' Report

Remuneration Report (audited)

This *Remuneration Report* for the year ended 30 June 2016 outlines the remuneration arrangements of the Group in accordance with the requirements of the *Corporations Act 2001* (the *Act*) and its regulations. This information has been audited as required by section 308(3C) of the *Act*.

The *Remuneration Report* is presented under the following sections:

1. Introduction
2. Governance
3. Executive remuneration arrangements
4. Executive remuneration outcomes for 2016
5. Executive KMP contracts
6. Non-Executive Directors' remuneration arrangements
7. Equity holdings of KMP
8. Related party transactions

1. Introduction

The *Remuneration Report* details the remuneration arrangements for key management personnel (KMP) who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company and the Group, directly or indirectly, including any director (whether executive or otherwise) of the Company.

For the purposes of this *Report*, the term KMP includes all non-executive Directors of the Board, the Chief Executive Officer (CEO) and the Chief Financial Officer (CFO) of the Company and the Group.

Key Management Personnel

Name	Position	Term as KMP in 2016
Non-Executive Directors (NEDs)		
Raphael Geminder	Non-Executive Chairman	Full Year
Lyndsey Cattermole	Non-Executive Director	Full Year
Peter Margin	Non-Executive Director	Full Year
Jonathan Ling	Non-Executive Director	Full Year
Ray Horsburgh	Non-Executive Director	Appointed 5 October 2015
Other KMP		
Malcolm Bunday	Managing Director and CEO	Appointed 1 December 2015
Richard Betts	Chief Financial Officer	Full Year (appointed 1 July 2015)
Former KMP		
Tony Hodgson	Former Non-Executive Director	Retired 30 September 2015
Brian Cridland	Former Managing Director and CEO	Retired 10 April 2016

There have been no other changes to KMP after the reporting date and before the date the *Financial Report* was authorised for issue.

2. Governance

Nomination and Remuneration Committee

The Nomination and Remuneration Committee (the Committee) is delegated responsibility by the Board for managing appropriate remuneration policy and governance procedures including:

- review and recommend to the Board appropriate remuneration policies and arrangements including incentive plans for the CEO and CFO;
- review and approve short-term incentive plans, long-term incentive plans, performance targets and bonus payments for the CEO and CFO;
- review the performance of the CEO;
- review the Senior Executives' performance assessment processes to ensure they are structured and operate to realise business strategy; and
- review and recommend to the Board, remuneration arrangements for the Chairman and NEDs.

The Committee comprises four NEDs and meet as often as the Committee members deem necessary to fulfil the Committee's obligations. It is intended they meet no less than three times a year. A copy of the Committee's charter is available at www.pactgroup.com.au.

Directors' Report

Remuneration Report (audited) Cont.

Use of Remuneration Consultants

To ensure the Committee is fully informed when making remuneration decisions it will seek remuneration advice where required.

Decisions to engage remuneration consultants are made by the Committee or the Board. Contractual engagements and briefing of the consultants is undertaken by the Chairman of the Committee and the remuneration recommendation is to be provided directly to the Chairman of the Committee.

EY was engaged during the financial year to provide recommendations to the Group on the development of a Long-Term Incentive Plan (LTIP). EY provided recommendations on the structure of a LTIP including but not limited to the following components:

- timing of awards;
- quantum of grants;
- eligibility of employees;
- type of equity instrument as an award vehicle;
- performance measures;
- vesting schedule; and
- the performance period.

The CEO and CFO had no involvement in the engagement or instruction of EY. The Company complies with the Act to ensure any remuneration advice or recommendation received is free from undue influence by the KMP to whom the advice or recommendation relates. The appointment of EY for the provision of this service did not impact on the independence of EY as auditors of the Company and the Group, as EY was not involved in the final design and implementation of the plan. The Company paid EY \$29,612 for this review.

3. Executive Remuneration Arrangements

Remuneration Principles and Strategy

Pact's executive remuneration strategy is designed to attract, retain, reward and motivate high performing individuals through remuneration arrangements that are based on performance and experience, are competitive for companies of a similar size and nature, and are aligned with the interests of shareholders.

Remuneration for executive KMP includes fixed remuneration, and benefits that are at risk, awarded only on the achievement of performance conditions. This includes a short-term incentive plan (STI) for the CEO and CFO, and a LTIP for the CEO.

Fixed Remuneration

Comprises base salary and company superannuation contributions. The Group's strategy is to provide competitive fixed remuneration to attract high quality executives with the right experience, qualifications and industry expertise to manage the business.

STI

An "at risk" component of remuneration paid in cash, awarded on the achievement of performance conditions (financial and non-financial) over a 12 month period, that is intended to drive performance against the Group's short-term objectives.

LTIP

An "at risk" component of remuneration comprising the issue of Performance Rights awarded on the achievement of performance conditions over a three year period, that is intended to drive performance against the Group's long-term objectives.

The LTIP was introduced in 2016 as a component of the CEO's remuneration. The Committee believes the LTIP appropriately incentivises and motivates the CEO in the achievement of longer term objectives which are aligned with shareholders interests.

A review of whether broader participation in the LTIP, including participation by the CFO and other senior executives, will be undertaken by the Committee at a later date.

Directors' Report

Remuneration Report (audited) Cont.

Approach to Setting Remuneration

Remuneration levels are considered annually through a remuneration review that considers market data, insights into remuneration trends, the performance of the Group and individual, and the broader economic environment. The target remuneration mix for the 2016 year was as follows⁽¹⁾:

Executive KMP remuneration component at target	Malcolm Bunday %	Richard Betts %	Brian Cridland %
Fixed remuneration	41%	68%	68%
Short-term incentives	41%	32%	32%
Long-term incentives (LTIP)	7%	-	-
Long-term incentives (Initial Share Grant) ⁽²⁾	11%	-	-
Total	100%	100%	100%

(1) Target remuneration is calculated as Fixed Remuneration, plus STI at target, plus long term incentives at target (based on the fair value of Performance Rights at grant date).

(2) The initial share grant will form part of Mr Bunday's total remuneration for the first three years of employment (refer to page 30 and 32 of the Remuneration Report).

Detail of Incentive Plans

STI

The CEO has a maximum STI of 100% of Annual Base Salary (ABS). The CEO has achievement of Group earnings before interest, tax, depreciation and amortisation (EBITDA), before significant items as a financial performance measure, and will be entitled to receive up to 80% of his STI plan if he achieves target levels. The CEO also has a component based on non-financial performance measures including risk management, diversity targets and talent management that comprise 20% of the STI plan.

The CFO has a maximum STI of 50% of ABS. The CFO has achievement of Group EBITDA before significant items as a financial performance measure, and will be entitled to receive up to 80% of his STI plan if he achieves target levels. The CFO also has a component based on non-financial performance measures including risk management, diversity targets and talent management that comprise 20% of the STI plan.

Group EBITDA before significant items is considered a financial measure which is strongly aligned with the interests of shareholders. EBITDA is key indicator of the underlying growth of the business, and is strongly aligned with cashflow, which enables the payment of dividends to shareholders. EBITDA can be reliably measured.

LTIP

The CEO participates in the LTIP, with an entitlement to performance rights equal to 100% of annual base salary with a vesting period of three years.

Key features of the LTIP are outlined below:

Grant Value

For the year ended 30 June 2016, 146,444 performance rights are expected to be granted based on the volume weighted average price (VWAP) of \$4.78. The VWAP was based on the Pact Group share price over the five day period commencing 24 November 2015. The number of performance rights are on a pro rata entitlement based on a commencement date of 1 December 2015. The fair value of each right at the valuation date of 22 June 2016 is \$3.85.

The 2015 LTIP has been granted as one tranche, commencing on 1 December 2015. Share based payments expense for FY2016 has been recognised from 1 December 2015. The expense is based on the fair value of the performance rights.

The implementation of the LTIP, including the issuing of entitlements to shares or the vesting of shares under the plan, remains subject to the approval of the LTIP by shareholders at the Company's AGM to be held in November 2016. In the event that the LTIP as currently proposed and set out in this report is not approved by shareholders at the AGM, it is the Board's intention to replicate the LTIP, as closely as practicable, but replacing the issuing of entitlements in shares with entitlements to cash payments that 'shadow' the value of the shares that would otherwise have vested under the proposed plan.

Performance Period

The performance period for the LTIP is from 1 December 2015 to 30 June 2018.

Directors' Report

Remuneration Report (audited) Cont.

Performance Hurdles

Vesting of this tranche will be subject to the following:

- The Company achieving its relative Total Shareholder Return (TSR) target. This hurdle was elected by the Committee as it is clearly aligned with returns to shareholders. TSR is calculated by measuring the return to shareholders based on the share price growth combined with the dividends declared over the three year performance period.
- TSR is then ranked on a relative basis with the TSR performance measured against the S&P/ASX 200 comparator group, excluding companies in the Financials, Metals and Mining sector. The peer group has been selected by the Board at the time of the grant.
- The percentage of rights subject to the relative TSR hurdle that vest, if any, will be determined by the Committee with reference to the percentile ranking achieved by the Company over the relevant performance period, compared to other entities in the relative TSR comparator peer group, as follows:

Vesting Schedule

TSR Relative to peer group	Vesting %
At or above the 75th percentile	100%
Between the 50th and 75th percentile	pro rata vesting between 50% to 100%
At the 50th percentile	50%
Below the 50th percentile	Nil

Cessation of Employment

If an executive resigns or is terminated for cause, any unvested LTIP awards are forfeited, unless otherwise determined by the Board. A "good leaver" will retain a pro rata number of performance rights based on time elapsed since the initial grant date. Any such Performance rights will be subject to the original terms and conditions, and discretion of the Board.

Rights Attaching to Performance Rights

Performance rights do not carry any dividend or voting entitlements prior to vesting. Shares allocated upon vesting of performance rights will carry the same rights as other ordinary shares.

Clawback

100% of the award can be forfeited where there has been any fraud, dishonesty, or breach of obligations, including a material misstatement of the Financial Statements.

Change of Control Provisions

In the event of change of control, the performance period end date will be brought forward to the date of change of control, and awards will vest based on performance over this shortened period (subject to Board discretion).

Initial Share Grant

The CEO is entitled to receive an initial share grant of \$1 million. The shares will be issued in 1/3 lots at the conclusion of each anniversary from 1 December 2015 for the first three years of employment. These shares are subject to escrow until the three years of service has been completed. Should the CEO cease employment during this time the shares will be forfeited.

4. Executive Remuneration Outcomes for 2016

Business Performance in 2016

In 2016, the Group delivered growth in all key financial metrics despite challenging market conditions, positively impacted by efficiency benefits and growth through acquisitions.

Over the last three financial years:

- compound growth in net profit after tax (before significant items) was 21%;
- compound earnings per share growth⁽²⁾ (before significant items) was 26%;
- an average of 16.7 cents per ordinary share per annum has been paid (or payable) to shareholders in dividends; and
- cumulative Total Shareholder Return (TSR), which represents the movement in the Company's share price plus dividends received by shareholders was 53.9%.

The table below summarises key indicators of the performance of the Company and relevant shareholder returns over the past three financial years.

Performance measure	2014 ⁽⁴⁾	2015	2016
Statutory net profit after tax (\$000)	57,689	67,632	85,051
Net profit after tax (NPAT) ¹ (\$000)	59,725	85,214	94,310
NPAT ⁽¹⁾ growth %	n/a	17.2%	25.9%
EBITDA ⁽¹⁾ (\$000)	198,226	208,678	220,157
EBITDA ⁽¹⁾ growth %	n/a	5.3%	5.5%
Dividends per ordinary share (cps)	9.5	19.5	21.0
Closing share price (30 June)	3.43	4.68	6.03
3 month average share price (1 April to 30 June)	3.41	4.28	5.46
Earnings per share ^{(1), (2)} (cps)	20	29	32
Earnings per share ⁽¹⁾ growth %	n/a	45.0%	10.3%
Cumulative TSR % ⁽³⁾	(10.3%)	17.6%	53.9%

(1) Before significant items (refer to Note 1.1 in the *Consolidated Financial Report*).

(2) Earnings per share in 2014 has been calculated assuming the post IPO share capital structure existed for the entire period. The basis for the calculation is 294.1 million shares outstanding.

(3) Cumulative TSR in each year has been calculated using the share issue price at 17 December, 2013 of \$3.80. The three month average share price has been used in all periods.

(4) The Group was listed on the ASX on 17 December 2013.

Performance Against Targets - Executive KMP

The table below outlines the Group's EBITDA performance for the year ended 30 June 2016, along with comparatives to fiscal year 2015 and fiscal year 2014.

Performance measure	Target applicable to	Year	Actual (\$000)	% Achieved
EBITDA before significant items	Group	2016	220,157	100.7%
EBITDA before significant items	Group	2015	208,678	101.3%
EBITDA before significant items	Group	2014	198,226	100.8%

STI Outcomes - Executive KMP

The table below outlines the STI outcomes for Executive KMP for the year ended 30 June 2016.

Executive KMP	Proportion of maximum STI earned in FY16	Proportion of maximum STI forfeited in FY16
Mr Malcolm Bunday ⁽¹⁾	88%	12%
Mr Richard Betts	87%	13%
Mr Brian Cridland ⁽²⁾	85%	15%

(1) The maximum STI earned and forfeited for Mr Bunday is based on a period of service from 1 December 2015 to 30 June 2016.

(2) The maximum STI earned and forfeited for Mr Cridland is based on a period of service from 1 July 2015 to 10 April 2016

LTIP Outcomes - CEO

The performance measure for the LTIP is achievement of relative TSR targets. The vesting conditions have been outlined on page 30.

Formal testing of the performance hurdle will take place shortly after 30 June 2018.

(1) Non-monetary benefits includes motor vehicle lease payments and FBT payments made by the Company on behalf of Mr Cridland.

(2) Other benefits is the movement in the annual leave provision for Mr Bunday, Mr Betts and Mr Cridland.

(3) Long-term benefits is the movement in the long service leave provision for Mr Cridland and Mr Brown.

(4) An independent valuation of the performance rights was performed to establish the fair value in accordance with AASB2 *Share Based Payments*. Valuation of the rights was done using Monte Carlo valuation simulations.

(5) Pro rata entitlement of the initial share grant for Mr Bunday based on a period of service from 1 December 2015 to 30 June 2016 (please refer to sections 3 and 5 of the *Remuneration Report* for additional detail).

5. Executive KMP Contracts

Remuneration arrangements for Executive KMP are formalised in employment agreements.

The following outlines the key details of contracts relating to Executive KMP:

Chief Executive Officer (CEO)

The CEO, Mr Malcolm Bunday, is employed under an employment contract with a notice period for termination of six months. There is no fixed term. Mr Bunday's remuneration package contains the following components:

- The CEO receives fixed remuneration of \$1,225,000 per annum.
- The CEO has a maximum STI of 100% of ABS. Please refer to section 3 of the *Remuneration Report* for further details of the CEO's STI plan.
- The CEO is entitled to 146,444 performance rights from participation in the LTIP, and a total of \$127,312 has been disclosed as remuneration in relation to performance rights for the year ended 30 June 2016. Key features of the LTIP are outlined on page 29.
- The CEO is entitled to receive an initial share grant of \$1 million (209,205 shares) to be issued in 1/3 lots over three years (69,735 shares) at 1 December 2016, 1 December 2017 and 1 December 2018. Please refer to section 3 of the *Remuneration Report* for further details.
- There are no provisions for redundancy payments. The Company is not required to make any payment of a benefit which is not permitted by Part 2D.2, Division 2 or Chapter 2E of the Act in the absence of shareholder approval or the ASX Listing Rules. The Company must use its reasonable endeavours to try and obtain shareholder approval, if required.

Chief Financial Officer (CFO)

The CFO, Mr Richard Betts, is employed under an employment contract, with a notice period for termination of three months. There is no fixed term. Mr Bett's remuneration package contains the following components:-

- The CFO receives fixed remuneration of \$500,000 per annum.
- The CFO has a maximum STI of 50% of ABS. Please refer to section 3 of the *Remuneration Report* for further details of the CFO's STI plan.
- In the event a redundancy occurs, the CFO is entitled to receive a redundancy payment of three weeks for every year of service which is capped at 52 weeks. The Company is not required to make any payment of a benefit which is not permitted by Part 2D.2, Division 2 or Chapter 2E of the Act in the absence of shareholder approval or the ASX Listing Rules. The Company must use its reasonable endeavours to try and obtain shareholder approval, if required.

Directors' Report

Remuneration Report (audited) Cont.

6. Non-Executive Directors' Remuneration Arrangements

Remuneration Policy

The Committee seeks to set aggregate remuneration at a level that provides the Company with the ability to attract and retain non-executive directors (NEDs) of the highest calibre, whilst incurring a cost that is acceptable to shareholders.

The amount of aggregate remuneration sought to be approved by shareholders and the fee structure is reviewed annually against fees paid to NEDs of comparable companies (S&P/ASX 200 comparator group, excluding companies in the Financials, Metals and Mining sector).

The Company's Constitution and the ASX Listing Rules specify that the NED fee pool shall be determined from time to time by a general meeting. Consistent with prior years, the total amount paid to NEDs must not exceed a fixed sum of \$1,000,000 per financial year in aggregate. Raphael Geminder does not receive a fee for his position as Chairman and a NED of the Company.

Structure

The remuneration of NEDs consists of directors' fees and committee fees. The payment of additional fees for serving on a committee or being the Chair of a committee recognises the additional time commitment required by NEDs who serve on committees.

The table below summarises the NED fees for FY16, which remains unchanged from FY15:

Responsibility	Fees \$
Board Fees	
Non-Executive Directors (excluding the Chairman)	110,000
Audit, Business Risk and Compliance Committee	
Chair	30,000
Member	7,500
Nomination and Remuneration Committee	
Chair	20,000
Member	7,500

All NED fees are inclusive of 9.5% of superannuation. NEDs do not participate in any incentive programs.

The remuneration of NEDs for the year ended 30 June 2016 is detailed in the following table.

Non-Executive KMP remuneration for the year ended 30 June 2016

		Short-term benefits Fees \$	Post-employment benefits Superannuation \$	Total \$
Ms Lyndsey Cattermole	2016	114,416	10,870	125,286

7. Equity Holdings of KMP

The following table shows the respective shareholdings of KMP (directly and indirectly) including their related parties and any movements during the year ended 30 June 2016:

KMP	Balance 1 July 2015	Movements	Balance 30 June 2016
Raphael Geminder	117,036,546	-	117,036,546
Lyndsey Cattermole	78,948	-	78,948
Peter Margin	7,894	-	7,894
Jonathan Ling	2,365	-	2,365
Ray Horsburgh	-	20,100	20,100
Malcolm Bunday ⁽¹⁾	-	-	-
Richard Betts	-	-	-

(1) Mr Bunday is expected to be granted 146,444 shares under the LTIP. This is subject to shareholder approval at the 2016 Annual General Meeting.

8. Related party transactions

The following table provides the total amount of transactions with related parties for the year ended 30 June 2016:

		Sales to related parties	Purchases from related parties	Other (income) / expense with related parties	Amounts (owed to) / receivable from related parties
\$'000's					
Related parties – director's interests⁽¹⁾					
	2016	10,051	19,048	293	681
	2015	9,385	19,544	14	568

(1) Related parties – director's interests includes the following group of entities: P'Auer Pty Ltd, Pro-Pac Packaging Limited, Centralbridge Pty Ltd (as trustee for the Centralbridge Unit Trust), Centralbridge Two Pty Ltd, Centralbridge (NZ) Limited and Albury Property Holdings Pty Ltd.

P'Auer Pty Ltd (P'Auer)

P'Auer an entity controlled by Mr Raphael Geminder (the Non-Executive Chairman of Pact) has a supply agreement to provide label products to Pact. Pact has a Transitional Services and Support Agreement with P'Auer to provide support services. Agreements are on arm's length terms. In addition, P'Auer provides Pact with periodic warehousing services.

Pro-Pac Packaging Limited (Pro-Pac)

Pro-Pac, an entity for which Mr Raphael Geminder owns approximately 49%, is an exclusive supplier of certain raw materials such as flexible film packaging, flexible plastic bags and tapes to Pact for an initial term that expires on 1 October 2016. Total fees under this arrangement are approximately \$4.9 million (2015: \$4.8 million) for the 12 months ended 30 June 2016. The supply arrangement is on arm's length terms.

Directors' Report

Remuneration Report (audited) Cont.

Terms and Conditions of Property Leases with Related Parties

The Group leased 16 properties (13 in Australia and 3 in New Zealand) from Centralbridge Pty Ltd (as trustee for the Centralbridge Unit Trust), Centralbridge Two Pty Ltd, Centralbridge (NZ) Limited and Albury Property Holdings Pty Ltd ("Centralbridge Entities"), which are each controlled by entities associated with Mr Raphael Geminder and are therefore related parties of the Group ("Centralbridge Leases"). The aggregate annual rent payable by Pact under the Centralbridge Leases for the year ended 30 June 2016 was \$6.6 million (2015: \$6.6 million). The rent payable under these leases was determined based on independent valuations and market conditions at the time the leases were entered into.

Of the Centralbridge Leases in Australia:

- seven of the leases contain early termination rights in favour of the landlord to terminate the lease at the expiry of the 6th and 9th term;
- two of the leases contain early termination rights in favour of the landlord to terminate the lease at the expiry of the 8th term; and
- two of the leases do not contain standard default provisions which give the landlord the right to terminate the lease in the event of default.

Except as set out above, the Centralbridge Leases in Australia are on arm's length terms.

Of the Centralbridge Leases in New Zealand, three of the leases contain early termination rights in favour of the landlord to terminate the lease at the expiry of the 6th and 9th term. With the exception of the early termination right, the Centralbridge Leases in New Zealand are on terms which are not uncommon for leases of commercial premises.

Terms and Conditions of Transactions with Related Parties

The purchases from and sales to related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the end of the period are unsecured and interest free and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. For the year ended 30 June 2016, the Group has not recorded any impairment of receivables relating to amounts owed by related parties (2015: nil).

Financial Statements

Consolidated Statement of Cash Flows

For the year ended 30 June 2016

\$'000	Notes	2016	2015
Cash flows from operating activities			
Receipts from customers		562,383	1,352,244
Receipts from securitisation program ⁽¹⁾		984,549	65,471
Payments to suppliers and employees		(1,344,483)	(1,212,801)
Income tax paid		(28,514)	(18,797)
Interest received		133	62
Proceeds from securitisation of trade debtors		18,745	96,855
Borrowing, trade debtor securitisation and other finance costs paid		(32,024)	(32,627)
Net cash flows provided by operating activities	4.1	160,789	250,407
Cash flows from investing activities			
Payments for property, plant and equipment		(52,050)	(43,350)
Purchase of businesses and subsidiaries, net of cash acquired	2.1	(113,936)	(34,898)
Proceeds from sale of property, plant and equipment		8,554	243
Sundry items		(1,358)	407
Net cash flows used in investing activities		(158,790)	(77,598)
Cash flows from financing activities			
Proceeds from borrowings		348,705	176,537
Repayment of borrowings		(273,000)	(285,512)
Payment of dividend		(59,109)	(55,883)
Payment of dividend to non-controlling interest		(303)	-
Net cash flows provided by / (used in) financing activities		16,293	(164,858)
Net increase in cash and cash equivalents		18,292	7,951
Cash and cash equivalents at the beginning of the year		32,612	24,227
Effect of exchange rate changes on cash and cash equivalents		981	434
Cash and cash equivalents at the end of the year		51,885	32,612

⁽¹⁾ Represents receipts from customers paid into the securitisation program. In the prior year \$65.5 million has been reclassified from receipts from customers, which relates to the 8 days the program was in place in 2015 (refer Note 3.1).

The Consolidated Statement of Cash Flows should be read in conjunction with the accompanying notes.

Notes to the Financial Statements

Section 1 – Our Performance

A key element of Pact's strategy is to maximise long-term shareholder value. This section highlights the results and performance of the Group for the year ended 30 June 2016.

1.1 Group Results

Sales revenue

\$'000	2016	2015
Pact Australia	1,027,939	889,911
Pact International	353,399	359,242
TOTAL	1,381,338	1,249,153

Pact's chief operating decision maker is the Managing Director and Chief Executive Officer (CEO). The CEO monitors results by reviewing two reportable segments, Pact Australia (PA) and Pact International (PI), focusing on reported EBIT (earnings before finance costs and loss on de-recognition of financial assets, net of interest income, tax and significant items). As required by AASB 8 *Operating Segments*, the results above have been reported on a consistent basis to that supplied to the CEO.

Reportable segments	Countries of Operation	Products/services
Pact Australia	Australia	Manufacture and supply of rigid plastic and metal packaging and associated services
Pact International	New Zealand	Contract manufacturing and packing services
	China	
	Indonesia	Manufacture and supply of materials handling products and the provision of associated services
	Philippines	
	Singapore	Recycling and sustainability services
	United States of America	

How Pact accounts for Revenue

Revenue from the sale of goods is recognised when there has been a transfer of risks and rewards to the customer (through the execution of a sales agreement at the time of delivery of the goods to the customer), no further work or processing is required, the quantity and quality of the goods has been determined, the price is determined and generally title has passed. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

Notes to the Financial Statements

Section 1 – Our Performance

1.1 Group Results (continued)

EBIT

\$'000	2016	2015
Pact Australia	95,635	86,313
Pact International	66,834	66,116
EBIT before significant items	162,469	152,429

Net profit after tax

The reconciliation of EBIT before significant items shown above and the net profit after tax disclosed in the Consolidated Statement of Comprehensive Income is as follows:

\$'000	2016	2015
EBIT before significant items (Pact Australia + Pact International)	162,469	152,429
Significant items		
Acquisition costs ⁽¹⁾	(2,913)	(2,691)
Business Reorganisation Program⁽²⁾		
restructuring costs	(7,759)	(6,788)
asset write downs	(834)	(12,582)
loss on partial disposal of subsidiary	-	(1,486)
	(8,593)	(20,856)
Total significant items	(11,506)	(23,547)
EBIT after significant items	150,963	128,882
Finance costs ⁽³⁾	(30,511)	(33,034)
Net profit before tax	120,452	95,848
Income tax expense	(35,408)	(28,157)
Net profit after tax	85,044	67,691

⁽¹⁾ Acquisition costs includes stamp duty, professional fees and all other costs associated with business acquisitions.

⁽²⁾ The business reorganisation program relates to the optimisation of business facilities across the Group as announced in 2015.

⁽³⁾ Net finance costs includes Interest income of \$207,000 (2015: \$62,000).

Basic and Diluted Earnings per share

	2016	2015
Earnings per share (EPS) (\$) – Basic	0.29	0.23
Earnings per share (EPS) (\$) – Diluted	0.29	0.23
Calculated using:		
• Net profit attributable to ordinary equity holders (\$'000s)	85,051	67,632
• Weighted average of ordinary shares (shares) – Basic	295,244,495	294,183,109
• Weighted average of ordinary shares (shares) – Diluted	295,329,321	294,183,109

Earnings per share is calculated by dividing the net profit for the year attributable to ordinary equity holders of Pact by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share includes the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive shares. This would include items such as performance rights as disclosed in Note 5.2.

Notes to the Financial Statements

Section 1 – Our Performance

1.2 Taxation

Reconciliation of tax expense

\$'000	2016	2015
Accounting profit before tax	120,452	95,848
Income tax calculated at 30% (2015: 30%)	36,136	28,755
Adjustments in respect of income tax of previous years	(302)	(711)
Sundry items	(426)	113
Income tax expense / (benefit) reported in the Consolidated Statement of Comprehensive Income	35,408	28,157
Comprising of:		
• Current year income tax expense	23,655	20,780
• Deferred income tax expense	12,055	8,088
• Adjustments in respect of previous years income tax	(302)	(711)

Included in the above is a tax benefit on significant items of \$2.3 million for the year ended 30 June 2016 (2015: \$6.0 million), of which \$2.0 million (2015: \$5.8 million) related to Pact's business reorganisation program.

Recognised current and deferred tax assets and liabilities

\$'000	2016 Current Income tax	2016 Deferred Income tax	2015 Current Income tax	2015 Deferred Income tax
Opening balance	(6,098)	(12,867)	(5,481)	(6,874)
Charged to income	(23,655)	(12,055)	(20,780)	(8,088)
Adjustments in respect of income tax of previous years	(2,662)	2,964	1,140	(428)
Charged to other comprehensive income	-	301	-	497
Payments	28,712	-	18,797	-
Acquisitions / disposals	(211)	1,555	(547)	1,760
Foreign exchange translation movement	(927)	(662)	773	266
Closing balance	(4,841)	(20,764)	(6,098)	(12,867)
Comprises of:				
Deferred tax assets				
• Employee entitlements provision		13,040		10,269
• Provisions		8,678		10,019
• Hedges		1,614		767
• IPO transaction costs		2,803		3,976
• Unutilised tax losses		680		243
• Other		2,315		1,504
		29,130		<u>26,778</u>
Deferred tax liabilities				
• Property, plant and equipment		(46,652)		(37,753)
• Other		(3,242)		(1,892)
		(49,894)		<u>(39,645)</u>

Key Estimates and Judgements – Taxation

Pact is subject to income tax in Australia and foreign jurisdictions. The calculation of the Group's tax charge requires management to determine whether it is probable that there will be sufficient future taxable profits to recoup deferred tax assets.

Judgements and assumptions are subject to risk and uncertainty, hence if final tax determinations or future actual results do not align with current judgements, this may have an impact to the carrying value of deferred tax balances and corresponding credits or charges to the Consolidated Statement of Comprehensive Income and Consolidated Statement of Financial Position.

Notes to the Financial Statements

Section 1 – Our Performance

1.2 Taxation (continued)

How Pact accounts for taxation

Income tax charges:

- Comprise of current and deferred income tax charges and represent the amounts expected to be paid to and recovered from the taxation authorities in the jurisdictions that Pact operates.
- Are recorded in Equity when the underlying transaction that the tax is attributable to is recorded within Other Comprehensive Income.

Pact uses the tax laws in place or those that have been substantively enacted at reporting date to calculate income tax. For deferred income tax, Pact also considers whether these tax laws are expected to be in place when the related asset is realised or liability is settled. Management periodically re-evaluate their assessment of their tax positions, in particular where they relate to specific interpretations of applicable tax regulation.

Deferred tax assets and liabilities are recognised on all assets and liabilities that have different carrying values for tax and accounting, except for:

- initial recognition of goodwill; and
- any undistributed profits of Pact's subsidiaries, associates or joint ventures where either the distribution of those profits would not give rise to a tax liability or the directors consider they have the ability to control the timing of the reversal of the temporary differences.

Specifically for deferred tax assets:

- They are recognised only to the extent that it is probable that there is sufficient future taxable amounts to be utilised against. This assessment is reviewed at each reporting date.
- They are offset against deferred tax liabilities in the same tax jurisdiction, when there is a legally enforceable right to do so.
- If acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, would be recognised subsequently if new information about facts and circumstances changed. The adjustment would either be treated as a reduction to goodwill (as long as it does not exceed goodwill) if it was incurred during the measurement period or in the Consolidated Statement of Comprehensive Income.

Australian tax consolidated group

Pact Group Holding Ltd and its wholly-owned Australian subsidiaries formed a tax consolidated group (Australian tax consolidated group), effective January 2014. A tax funding agreement is also in place such that Pact Group Holdings Ltd pays any taxes owed by the Group to the Australian Tax Office.

The operation of the previously announced amendments to the income tax consolidated group legislation have been changed and deferred by the Government as outlined in the announcements in the 2016-17 Budget. It is now intended that these rules should apply from 1 July 2016, rather than 13 May 2013, therefore eliminating any potential material negative impact on Pact's financial position at 30 June 2016 but subject to the final form and content of the law if released.

There has been no further information regarding the proposed changes since the 2016-17 Budget announcement.

1.3 Dividends

\$'000	2016	2015
Dividends paid during the financial year	59,412	55,883
Proposed dividend ⁽¹⁾	32,644	29,456

⁽¹⁾ Since the end of the financial year the directors have determined payment of a 65% franked final dividend of 11.0 cents per ordinary share (2015: 10 cents, 65% franked). The amount disclosed is based on the number of shares on issue at reporting date. The final dividend is expected to be paid on 6 October 2016.

Franking credit balance	2016	2015
Franking account balance as at the end of the financial year at 30% (2015: 30%)	6,832	1,707
Franking (debits) / credits that will arise from the payment of income tax payable as at the end of the financial year	(1,033)	964
Franking debits that will arise from the payment of dividends as at the end of the financial year	(9,094)	(8,206)
Total franking credit available for the subsequent financial year	(3,295)	(5,535)

Notes to the Financial Statements

Section 2 – Our Operational Footprint

This section provides further details of acquisitions which the Group has made in the period, as well as details of controlled entities and interests in associates and joint ventures.

2.1 Businesses Acquired

Summary of 30 June 2016 acquisitions

\$'000	Jalco ⁽¹⁾	Other acquisitions ⁽²⁾	Total
Consideration paid	80,113	42,080	122,193
Comprising of:			
• Cash consideration paid ⁽³⁾	76,113	31,180	107,293
• Deferred settlement	4,000	300	4,300
• Shares issued as consideration	-	10,600	10,600
Fair value of identifiable net assets	36,189	18,384	54,573
Assets			
• Cash ⁽³⁾	62	854	916
• Trade and other receivables	30,001	6,964	36,965
• Inventory	16,103	3,064	19,167
• Property, plant & equipment	24,044	11,360	35,404
• Deferred tax asset	2,738	-	2,738
• Other assets	391	165	556
Liabilities			
• Trade Payables and other provisions	(31,026)	(2,602)	(33,628)
• Employee benefits provisions	(5,594)	(775)	(6,369)
• Deferred tax liability	(530)	(646)	(1,176)
Goodwill arising on acquisition	43,924	23,696	67,620

⁽¹⁾ On 1 September 2015 the Group purchased 100% of the issued capital of Jalco Group Pty Limited and the following controlled entities: Jalco Automotive Pty Limited, Jalco Powders Pty Limited, Jalco Plastics Pty Ltd, Jalco Australia Pty Limited, Jalco Care Products Pty Limited, Packaging Employees Pty Limited, Jalco Cosmetics Pty Limited, and Jalco Promotional Packaging Pty Limited (Jalco) for a purchase consideration of \$80.1 million. Jalco is a leading supplier of contract manufacturing, filling and packing in the non-food FMCG sector. The acquisition is part of the Group's overall strategy to deepen its existing FMCG customer relationships and to enter new areas of growth.

Goodwill of \$43.9 million has arisen as a result of the purchase consideration exceeding the fair value of identifiable net assets acquired. Goodwill is allocated to the Pact Australia reportable segment. This goodwill will not be deductible for tax purposes.

The fair value of Jalco's trade and other receivables acquired amounted to \$30.0 million. This was net of an immaterial impairment provision and it is expected that the stated fair value amount will be collected.

From the date of acquisition to 30 June 2016 Jalco contributed \$165.4 million of revenue and \$7.4 million to the net profit before tax of the Group. If the combination had taken place at 1 July 2015, contributions to revenue for the year ended 30 June 2016 would have been \$38.0 million higher and the contribution to profit before tax for the Group would have been \$2.6 million higher.

⁽²⁾ During the year, consistent with strategy to expand its customer and product portfolio, the Group acquired:

- The business assets, business records and contracts of Stowers Containment Solutions Ltd for \$13.9 million (NZ\$15.0 million) on 29 February 2016.
- 100% of the shares in Power Plastics Pty Ltd for \$25.2 million, consisting of a \$15.8 million cash payment and the issue of \$9.4 million shares in the Company on 1 March 2016 (refer Note 4.2).
- The business assets, business records and contracts of Ecopolymers Pty Ltd for \$2.9 million, consisting of a \$1.4 million cash payment, \$0.3m deferred consideration and the issue of \$1.2 million shares in the Company on 3 May 2016 (refer Note 4.2).

Notes to the Financial Statements

Section 2 – Our Operational Footprint

2.1 Businesses Acquired (continued)

The provisional fair value of the trade and other receivables acquired through these acquisitions amounted to \$7.0 million. None of the trade receivables were impaired and it was expected that the full contractual amounts would be collected.

In the Consolidated Statement of Financial Position provisional goodwill of \$23.7 million has been recognised as a result of these acquisitions. This goodwill will not be deductible for tax purposes.

From the dates of acquisition to 30 June 2016 the acquisitions contributed \$11.7 million of revenue and \$0.6 million to the net profit before tax of the Group. If the combination of the acquisitions had taken place at 1 July 2015, contributions to revenue for the 12 months would have been \$29.1 million higher and the contribution to profit before tax for the Group would have been \$2.9 million higher.

- ⁽³⁾ The difference between this balance and amounts recorded in the Consolidated Statement of Cash Flows is the net cash acquired as part of the transaction, and a \$7.2 million deferred payment made this financial year relating to the Sulo acquisition, and a \$0.3 million payment for a non-controlling interest in Vmax Returnable Packaging Systems Pty Ltd.

Summary of 30 June 2015 acquisitions

\$'000	Sulo ⁽¹⁾	Other acquisitions ⁽²⁾	Total
Consideration paid	31,421	14,888	46,309
Comprising of:			
• Cash consideration paid ⁽³⁾	24,173	11,813	35,986
• Deferred settlement	7,248	1,175	8,423
• Shares issued as consideration	-	1,900	1,900
Fair value of identifiable net assets	20,961	8,127	29,088
Assets			
• Cash ⁽³⁾	1,088	-	1,088
• Trade and other receivables	4,954	-	4,954
• Inventory	5,312	1,420	6,732
• Property, plant & equipment	19,677	4,675	24,352
• Intangibles	85	2,061	2,146
• Deferred tax asset	1,915	-	1,915
• Other assets	154	-	154
Liabilities			
• Trade Payables and other provisions	(11,074)	-	(11,074)
• Employee benefits provisions	(995)	(29)	(1,024)
• Deferred tax liability	(155)	-	(155)
Goodwill arising on acquisition	10,460	6,761	17,221

- ⁽¹⁾ On 8 August 2014 the Group purchased 100% of the shares in the Australian and New Zealand operations of Sulo MGB (Australia) Pty Ltd including its subsidiary Sulo (NZ) Ltd from Plastics Group Pty Ltd for a total consideration of \$31.4 million. Details of the fair values of the assets and liabilities acquired and the goodwill arising are disclosed above.

There have been no further adjustments to these amounts in the current period and final goodwill of \$10.5 million has been recognised on acquisition.

- ⁽²⁾ During the year ended 30 June 2015, the Group acquired the:
- drum recycling assets from Brazier Group Pty Ltd for \$1.4 million on 23 December 2014.
 - business assets from Brackley Industries Pty Ltd for \$5.4 million on 6 May 2015. Brackley is a supplier of consol games, computer software and other media packaging products.
 - business assets from A&C Packers Pty Ltd for \$4.7 million on 7 May 2015.
 - the drum business assets of NCI for \$3.4 million on 15 May 2015 by a cash payment.
- ⁽³⁾ The difference between this balance and amount recorded in the Consolidated Cash Flow Statement is the net cash acquired as part of the transactions.

Notes to the Financial Statements

Section 2 – Our Operational Footprint

2.1 Businesses Acquired (continued)

Key Estimates and Judgements – Business combinations

Certain assets and liabilities either given up or acquired as part of a business combination may not be normally traded in active markets, thus management judgement is required in determining the fair values. Management judgement is also required in ascertaining the assets and liabilities which should be recognised, in particular with respect to intangible assets such as brand names, customer relationships, patents and trademarks and contingent liabilities.

How Pact accounts for business acquisitions

When Pact acquires a business, if it satisfies the conditions of being a business combination under AASB 3 *Business Combinations*, then:

- the cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value, and the amount of any non-controlling interest in the acquiree;
- where settlement of any part of the consideration is deferred, and if the impact of discounting is significant, the amounts payable in the future are discounted to their present value. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions;
- assets given, shares issued or liabilities incurred or assumed at the date of exchange are recorded at fair value;
- acquisition related costs are expensed as incurred;
- transaction costs arising on the issue of any equity instruments are recognised directly in equity;
- if the cost of the business combination is in excess of the net fair value of the Group's share of the identifiable net assets acquired, the difference is recognised as goodwill. For impairment testing, this goodwill has been allocated to and tested at the level of their respective cash generating units (CGU's), or group of CGU's, in accordance with the level at which management monitors goodwill; and
- if the cost of acquisition is less than the Group's share of the net fair value of the identifiable net assets of the subsidiary, the difference is recognised as a gain in the income statement.

2.2 Controlled Entities

Australian incorporated entities that are part to the Deed of Cross Guarantee at 30 June 2016:⁽¹⁾

⁽¹⁰⁾ Owned by Sulo MGB Australia Pty Ltd

Key Estimates and Judgements – Control and significant influence

Determining whether Pact can control or exert significant influence over an entity can at times require judgement. It requires management to consider whether Pact is exposed to, or has the rights to, variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. In making such an assessment, a range of factors are considered, including if and only if the Group has: power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee); exposure, or rights, to variable returns from its involvement with the investee; and the ability to use its power over the investee to affect its returns.

How Pact accounts for controlled entities

Controlled entities are fully consolidated when the Group obtains control and cease to be consolidated when control is transferred out of the Group. The Group controls an entity when it:

- is exposed, or has the rights, to variable returns from its involvement with the investee; and
- has the ability to affect those returns through its power over the entity, for example has the ability to direct the relevant activities of the entity, which could affect the level of profit the entity makes.

Notes to the Financial Statements

Section 2 – Our Operational Footprint

2.3 Associates and Joint Ventures

Pact has entered into a number of strategic partnering arrangements with third parties and / or associates and jointly controlled entities. The following are entities that Pact have significant influence or joint control over:

Entity \$'000	Principal place of operation	About	Pact's ownership interest ⁽¹⁾	2016	2015
Changzhou Viscount Oriental Mould Co Ltd (Oriental Mould)	China	Is an associate company, which is a manufacturer of moulds, of which a proportion is purchased by the local Chinese subsidiaries of Viscount Plastics (China) Pty Ltd.	40%	216	240
Spraypac Products (NZ) Ltd (Spraypac)	New Zealand	Is an associate company distributing plastic bottles and related spray products.	50%	783	668
Weener Plastop Asia Inc (Weener)	Philippines	A joint venture with Weener Plastik GMBH which manufactures plastic jars and bottles for the Personal Care, Food & Beverage and Home Care markets.	50%	3,570	3,495
Gempack Weener (Gempack)	Thailand	A joint venture with Weener Plastik GMBH which manufactures plastic jars and bottles for the Personal Care, Food & Beverage and Home Care markets.	50%	11,470	10,236

⁽¹⁾ Ownership interest at 30 June 2016 and 30 June 2015.

Summary of associates and joint venture financial information at 30 June

\$'000	2016	2015
Carrying value of investment		
Current assets	15,072	11,756
Non-current assets	24,250	24,824
Current liabilities	(7,899)	(7,891)
Net assets	31,423	28,689
Carrying amount of the Group's investment	16,039	14,639
Group's share of profit/(loss) for the year		
Revenue	29,915	15,317
Expense	(25,461)	(12,565)
Net profit/(loss) after tax	4,454	2,752
Group's share of profit/(loss) for the year	2,227	1,376

Dividends received from associates and joint ventures during the year was \$1.7 million (2015: \$0.4 million).

The joint ventures and associates had no contingent liabilities or significant capital commitments at 30 June 2016 (2015: nil).

Notes to the Financial Statements

Section 2 – Our Operational Footprint

2.3 Associates and Joint Ventures (continued)

How Pact accounts for investment in associates and joint ventures and jointly controlled entities

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group uses the equity method to account for their investments in associates and joint ventures, where they consider they have significant influence but they do not have control. Generally significant influence is deemed if Pact has over 20% of the voting rights.

Under the equity method:

- Investments in the associates are carried at cost plus post-acquisition changes in the Group's share of associates' net assets.
- Goodwill relating to an associate is included in the carrying amount of the investment and is not tested for impairment separately.
- The Group's share of its associates' post-acquisition profits or losses is recognised in the Consolidated Statement of Comprehensive Income, and its share of post-acquisition movements in reserves is recognised in reserves.
- When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any unsecured long-term receivables and loans, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

After application of the equity method, the Group determines whether it is necessary to recognise any impairment loss with respect to the Group's net investment in associates. Goodwill included in the carrying amount of the investment in associates is not tested separately, rather the entire carrying amount of the investment is tested for impairment as a single asset. The Group applies AASB 139 *Financial Instruments: Recognition and Measurement* to determine whether there is an indicator that the Group's net investment in associates is impaired, after first applying equity accounting in accordance with AASB 128 *Investments in Associates*. The Group must apply judgement to determine whether there is objective evidence that one or more events have had an impact on the estimated future cash flows of its associates.

Notes to the Financial Statements

Section 3 – Our Operating Assets

This section highlights the primary operating assets used and liabilities incurred to support the Group's operating activities.

Liabilities relating to the Group's financing activities are disclosed in Note 4.1 *Net Debt*, Deferred tax assets and liabilities are disclosed in Note 1.2 *Taxation and employee benefits provisions* are disclosed in Note 5.1 *Employee Benefits Expenses and Provisions*.

3.1 Working Capital

Trade and other receivables

Trade and other receivables at 30 June comprise of:

\$'000	2016	2015
Trade receivables ⁽¹⁾	64,265	50,559
Allowance for impairment loss	(191)	(318)
Other receivables ⁽²⁾	50,530	43,444
Total current trade and other receivables	114,604	93,685

⁽¹⁾ Below is a breakdown of the ageing of trade receivables:

⁽²⁾ At 30 June 2016 \$33.6 million (2015: \$30.7 million) has been recognised as part of other receivables representing the Group's participation in the securitisation program. The program requires the Group (or an entity other than the bank) to be a participant of the program. Given the short term nature of this financial asset, the carrying value of the associated receivable approximates its fair value and represents the Group's maximum exposure to the receivables derecognised as part of the program.

At 30 June 2016, trade receivables with an invoice value of \$0.2 million (2015: \$0.3 million) were impaired and fully provided for. The Group has a number of mechanisms in place which assist in minimising financial losses due to customer non-payment. These include:

- all customers who wish to trade on credit terms are subject to strict credit verification procedures, which may include an assessment of their independent credit rating, financial position, past experience and industry reputation;
- individual risks limits, which are regularly monitored in line with set parameters;
- monitoring receivable balances on an ongoing basis; and
- a debtors securitisation program. This is a three year program established in June 2015 which allows Pact to sell receivables, at a discount, to a third party on a non-recourse basis.

Notes to the Financial Statements

Section 3 – Our Operating Assets

3.1 Working Capital (continued)

How Pact accounts for trade and other receivables

Pact's trade receivables are non-interest bearing, are recorded at the amount on the sales invoice and include Goods and Services Tax (GST). Trade receivables generally have 30 day terms from the end of the month.

If there is a concern over the collectability of a specific receivable and objective evidence exists, then the amount recorded may be reduced by management's best estimate of the potential impairment loss. Impairment losses incurred which were specifically provided for in previous years are eliminated against the provision for impairment. In all other cases, impairment losses are written off as an expense in the Consolidated Statement of Comprehensive Income.

Under the debtors securitisation program:

- The Group transfers substantially all the risks and rewards of receivables within the program to a third party.
- Receivables are sold at a discount under the debtors securitisation program and at the date of sale the receivable is derecognised and the discount is included as part of the loss on derecognition of financial assets in the Consolidated Statement of Comprehensive Income. The costs associated with establishing the program are also recognised on a pro rata basis within the same account (refer to Note 4.1).
- The Group also acts as a servicer to the program to facilitate the collection of receivables. Income received for being a servicer is recorded as an offset to the loss on derecognition of receivables.
- At balance date, a liability is recognised if received collections have not been paid to other participants of the program.

Inventories

Inventories at 30 June comprise of:

\$'000	Examples	2016	2015
Raw materials and stores	Plastic resin, steel and tinsplate	64,625	49,103
Work in progress	Manufactured plastic, steel and tin packaging that have not yet reached a full stage of completion	18,093	15,290
Finished goods	Manufactured plastic, steel and tin packaging that are intended for sale to external customers	63,914	53,099
Total inventories		146,632	117,492

How Pact accounts for inventories

Inventories are recorded at cost, which for Pact includes:

- Raw materials: the invoice price of the product, net of any discount, rebates, duties and taxes, as well as the cost of internal freight.
- Work in Progress and Finished Goods: cost of raw materials, direct labour and a proportion of manufacturing overheads based on a normal level of operating capacity, but excluding costs that relate to general administration, finance, marketing, selling and distribution.

If the estimated selling price in the ordinary course of business, less estimated cost of completion and making the sale, is less than the cost of the inventory, the carrying value of inventory is reduced to this lower amount.

Trade and other payables

Current trade and other payables at 30 June comprise of:

Trade payables	248,339	188,969
Other payables	60,996	72,465
Income tax payable	4,841	6,098
Total current trade and other payables	314,176	267,532

How Pact accounts for trade and other payables

Trade and other payables are carried at their principal amounts, are not discounted and include GST. They represent amounts owed for goods and services provided to the Group prior to, but were not paid for, at the end of the financial year. The amounts are generally unsecured and are usually paid within 30 – 90 days of recognition.

Notes to the Financial Statements

Section 3 – Our Operating Assets

3.2 Non-Current Assets

The below outlines the geographical location of Pact's property, plant and equipment, intangible assets and goodwill.

\$'000	2016	2015
Australia	617,610	559,663
New Zealand	311,369	251,429
Other	71,688	70,450
Total	1,000,667	881,542

Property, plant and equipment

The key movements in property, plant and equipment over the year were:

\$'000	Property ⁽¹⁾ Freehold: 40 – 50 years Leasehold: 10 – 15 years	Plant and equipment 3 – 20 years	Capital work in progress n/a	Total
Estimated useful life				
Year ended 30 June 2016				
At 1 July 2015 net of accumulated depreciation	39,431	474,346	27,696	541,473
Additions and transfers	1,254	46,345	11,987	59,586
Acquisition of subsidiaries and businesses	1,865	32,585	954	35,404
Disposals	(4,082)	(1,892)	-	(5,974)
Asset write downs	-	(834)	-	(834)
Foreign exchange translation movement	3,430	6,420	481	10,331
Depreciation charge for the year	(2,982)	(54,281)	-	(57,263)
At 30 June 2016 net of accumulated depreciation	38,916	502,689	41,118	582,723
Represented by:				
At cost	55,372	969,276	41,118	1,065,766
Accumulated depreciation	(16,456)	(466,587)	-	(483,043)
Year ended 30 June 2015				
At 1 July 2014 net of accumulated depreciation	28,902	486,991	29,711	545,604
Additions and transfers	6,814	44,086	(728)	50,172
Acquisition of subsidiaries and businesses	3,300	21,052	-	24,352
Disposals	-	(9,482)	(1,623)	(11,105)
Asset write downs	-	(12,582)	-	(12,582)
Foreign exchange translation movement	3,080	(2,337)	336	1,079
Depreciation charge for the year	(2,665)	(53,382)	-	(56,047)
At 30 June 2015 net of accumulated depreciation	39,431	474,346	27,696	541,473
Represented by:				
At cost	53,111	924,150	27,696	1,004,957
Accumulated depreciation	(13,680)	(449,804)	-	(463,484)

⁽¹⁾ Property consists of the following: leasehold improvements of \$17.3 million (2015: \$15.1 million) and accumulated depreciation of \$6.5 million (2015: \$4.9 million), and freehold property of \$38.1 million (2015: \$38.0 million) and accumulated depreciation of \$10.0 million (2015: (\$8.8 million)).

Key Estimates and Judgements – Estimation of useful lives of assets

The estimation of the useful lives of assets has been based on historical experience and lease terms. In addition, the condition of the assets is assessed at least once per year and considered against the remaining useful life. Adjustments to useful lives are made when considered necessary.

Key Estimates and Judgements – Recoverability of property, plant and equipment

The Group assesses impairment of all assets at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. These include product and manufacturing performance, technology, social, economic and political environments and future product expectations. If an impairment trigger exists the recoverable amount of the asset is assessed.

Notes to the Financial Statements

Section 3 – Our Operating Assets

3.2 Non-Current Assets (continued)

Property, plant and equipment (continued)

How Pact accounts for property plant and equipment

Property, plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditure directly attributable to the acquisition of the item and subsequent costs incurred to replace parts that are eligible for capitalisation. Depreciation is calculated on a straight line basis over the estimated useful life of the assets. Where assets are in the course of construction at the reporting date they are classified as capital works in progress. Upon completion, capital works in progress are reclassified to plant and equipment and are depreciated from this date.

The Group assesses at each reporting date whether there is an indication that an asset with a finite life may be impaired. If any such indication exists, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset generates cash inflows that are largely dependent on those from other assets or groups of assets and the asset's value in use cannot be estimated to approximate its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in the Consolidated Statement of Comprehensive Income.

An assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amounts are estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If this is the case the carrying amount of the asset is increased to its recoverable amount. The increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years.

Goodwill and other intangibles

The majority of Pact's intangible assets and goodwill balance relates to Goodwill, with the remainder of the other intangibles balance comprising the carrying value of patents, trademarks and licenses. Other intangibles for the year were \$2,472,000 (2015: \$2,849,000) and includes amortisation charges of \$425,000 (2015: \$202,000). These are recognised at cost and amortised over their useful life.

The movements in goodwill over the year were:

\$'000	2016	2015
Opening balance at 1 July net of impairment	337,220	326,210
Goodwill arising on acquisition	67,620	17,426
Foreign exchange translation movements	10,632	(6,416)
Closing balance at 30 June net of impairment⁽¹⁾	415,472	337,220
Allocated to the following group of CGU's and segments⁽²⁾:		
Pact Australia	219,967	164,708
Pact International	195,505	172,512

⁽¹⁾ There are \$nil impairment charges against the goodwill balance at 30 June 2016 (2015: \$nil).

⁽²⁾ This is the lowest level where goodwill is monitored.

Key Estimates and Judgements – Impairment of goodwill and other intangibles

The recoverable amount of each of the CGU's has been determined based on value in use calculations using cash flow projections contained within next year's financial budget approved by management and other forward projections. Management have used their current expectations and what is considered reasonably achievable when assigning values to key assumptions in their value in use calculations.

Notes to the Financial Statements

Section 3 – Our Operating Assets

3.2 Non-Current Assets (continued)

The calculations of value in use for both Pact Australia and Pact International CGU's are sensitive to the following assumptions:

- **Gross margins and raw material price movement** – Gross margins are based on average budgeted (next years) margins which reflect current gross margins adjusted for any expected (and likely) efficiency improvements or price changes.
- **Cash Flows** – Cash flows beyond the one year period are extrapolated using growth rates which are a combination of volume growth and price growth. Rates are based on published industry research and economic forecasts relating to GDP growth rates. The long term growth rates are in the range of 2.3% - 6.0% (2015: 2.7% - 6.0%).
- **Discount rates** – The discount rates for each CGU are calculated using rates based on an external assessment of the Group's pre-tax weighted average cost of capital in conjunction with risk factors specific to the countries in which the CGU's operate. Foreign currency cash flows are discounted using the functional currency of the CGU's and then translated to Australian Dollars using the closing exchange rate. The pre-tax discount rates applied to cash flow projections are in the range of 11.3% - 20.0% (2015: 11.0% - 19.0%).

With regard to the assessment of value in use, management believes that no reasonable change in any of the above key assumptions would cause the carrying value of the CGU to materially exceed its recoverable amount.

How Pact accounts for goodwill

Goodwill is:

- initially measured at cost, being the excess of the cost of the business combination over the Group's interest in the net fair value of the acquired identifiable assets, liabilities and contingent liabilities;
- subsequently measured at cost less any accumulated impairment losses; and
- reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

Impairment is determined by assessing the recoverable amount of the CGU (or group of CGU's), to which the goodwill relates. When the recoverable amount of the CGU (or group of CGU's) is less than the carrying amount, an impairment loss is recognised.

When goodwill forms part of a CGU (or group of CGU's) and an operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this manner is measured based on the relative values of the operation disposed of and the portion of the CGU's retained.

3.3 Commitments and Contingencies

Operating leases

\$'000	2016	2015
Operating lease and rental expense ⁽¹⁾	46,746	44,033

⁽¹⁾ The Group leases buildings and plant and equipment such as office equipment and motor vehicles. The Group has determined that it does not obtain all the significant risks and rewards of the buildings, office equipment and motor vehicles and has thus classified the leases as operating leases. Rental payments are generally fixed, but with inflation escalation clauses. These are accounted for through the fixed rent provision. Property leases generally provide the Group with a right of renewal at which time terms are renegotiated. There are no restrictions placed upon the lessee by entering into these leases.

Notes to the Financial Statements

Section 3 – Our Operating Assets

3.3 Commitments and Contingencies (continued)

The future minimum lease payments under non-cancellable operating leases contracted for but not capitalised in the financial statements are payable as follows:

\$'000	2016	2015
Within one year	48,901	36,466
After one year but not more than five years	160,163	105,031
More than five years	142,791	79,336
Total lease expenditure commitments	351,855	220,833

How Pact accounts for Operating lease commitments

Operating lease payments are recognised as an expense in the Consolidated Statement of Comprehensive Income on a straight-line basis over the lease term. Lease incentives are recognised as a liability when received and subsequently reduced by allocating lease payments between rental expense and reduction of the liability.

Other expenditure commitments

Other expenditure commitments contracted for at reporting date, but not provided for are:

Payable within one year	29,913	3,720
Payable after one year but not more than five years	4,792	1,124
Total	34,705	4,844

Contingencies

From time to time, the Group may be involved in litigation relating to claims arising out of its operations. The Group is not party to any legal proceedings that are expected, individually or in the aggregate, to have a material adverse effect on its business, financial position or operating results.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to the taxation authority.

3.4 Other Provisions

Total other provisions at 30 June comprise of:

\$'000	2016	2015
Current		
Business reorganisation	6,082	11,224
Other	29	759
Total current provisions	6,111	11,983
Non-Current		
Fixed rent	12,635	9,882
Make good on leased premises	9,897	11,610
Total non-current provisions	22,532	21,492

Notes to the Financial Statements

Section 3 – Our Operating Assets

3.4 Other Provisions (continued)

Movement in provisions

\$'000	Business reorganisation ⁽¹⁾	Fixed rent provision ⁽²⁾	Make good on leased premises ⁽³⁾	Other	Total
Year ended 30 June 2016					
At 1 July 2015	11,224	9,882	11,610	759	33,475
Acquisition of subsidiaries and businesses	-	-	778	-	778
Provided for during the year	7,759	4,041	1,317	-	13,117
Utilised	(12,926)	(205)	-	-	(13,131)
Unutilised amounts reversed	-	-	(4,017)	(732)	(4,749)
Transfer to unearned income	-	(1,189)	-	-	(1,189)
Foreign exchange translation movement	25	106	209	2	342
At 30 June 2016	6,082	12,635	9,897	29	28,643

⁽¹⁾ Business reorganisation - The business reorganisation program (announced in 2015) relates to the optimisation of business facilities by eliminating excess capacity. That program is expected to be completed in 2017.

⁽²⁾ Fixed rent - Annual rentals for some of the property operating leases increase annually by fixed increments. The provision has been recognised to apportion these increments on a straight line basis over the minimum non-cancellable lease term.

⁽³⁾ Make good on leased premises - In accordance with the form of lease agreements, the Group may be required to restore leased premises to their original condition at the end of the lease term and upon exiting the site. The provision is based on the costs which are expected to be incurred using historical costs as a guide. During the year, the Group reduced its property make good provisions by \$4.0m following a review of contractual obligations, actual make good expenditure incurred and the renegotiation of existing leases.

Key Estimates and Judgements – Business reorganisation

Business reorganisation provisions are only recognised when a detailed plan has been approved and the business reorganisation has either commenced or been publicly announced, or contracts relating to the business reorganisation have been entered into. Costs related to ongoing activities are not provided for.

How Pact accounts for other provisions

Provisions are recognised when the following three criteria are met:

- the Group has a present obligation (legal or constructive) as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a financing cost.

Notes to the Financial Statements

Section 4 – Our Capital Structure

This section details specifics of the Groups' capital structure. When managing capital, management's objective is to ensure that the entity continues as a going concern as well as to provide optimal returns to shareholders and other stakeholders.

Management also aims to maintain a capital structure that ensures the lowest cost of capital available to the entity. Primary responsibility for identification and control of capital and financial risks rests with the Treasury Risk Management Committee.

4.1 Net Debt

Debt profile

Pact has the following non-current interest bearing loans and borrowings at 30 June:

\$'000	Term	Average interest rate	2016	2015
Syndicated Facility Agreement A Tranche 1 ⁽¹⁾	3 years	3.28%	295,000	295,000
Syndicated Facility Agreement A Tranche 2 ⁽¹⁾	5 years	3.48%	112,000	22,000
Syndicated Facility Agreement B Tranche 1 ⁽¹⁾	3 years	4.10%	71,473	79,766
Syndicated Facility Agreement B Tranche 2 ⁽¹⁾	5 years	4.38%	85,767	79,766
Capitalised borrowing costs			(2,800)	(3,632)
Total non-current interest bearing loans and borrowings			561,440	472,900

⁽¹⁾ The Group has a A\$590.0 million facility (loans A above with total drawn debt: \$407.0 million; 2015: \$317.0 million) and a NZ\$180.0 million facility (loans B above with total drawn debt: \$157.2 million; 2015: \$159.5 million). Each facility is split between a 3 year tranche maturing July 2018 and a 5 year tranche maturing in July 2020. The Group uses interest rate swaps to manage interest rate risk. As a result of utilising these swaps the average interest rate in the 3 year tranche is 3.84%.

Pact has incurred the following finance costs during the year ending 30 June:

\$'000	Notes	2016	2015
Interest on Syndicated Facility Agreement		23,748	31,169
Borrowing costs amortisation		1,446	1,046
Interest rate swaps		1,695	89
Sundry items		392	750
Total finance costs		27,281	33,054
Loss on de-recognition of financial assets	3.1	3,363	42
Total finance costs & loss on de-recognition of financial assets		30,644	33,096

During the current and prior year, there were no defaults or breaches on any of the loan terms and conditions.

How Pact accounts for loans and borrowings

All loans and borrowings are:

- Initially recognised at the fair value of the consideration received less directly attributable transaction costs.
- Subsequently measured at amortised cost using the effective interest method, which is calculated based on the principal borrowing amount less directly attributable transaction costs.
- Are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Fair value of the Group's interest-bearing loans and borrowings are determined by using a discounted cash flow method, applying a discount rate that reflects the issuer's borrowing rate at the end of the reporting period. As the underlying debt has a floating interest rate (excluding the impact of the separate interest rate swaps), the Group's own performance risk at 30 June 2016 was assessed to be insignificant.

The carrying amount of the Group's current and non-current borrowings materially approximates fair value. The computation of the fair value of borrowings is derived using significant observable inputs (Fair Value Hierarchy Level 2).

Finance costs are recognised as an expense when incurred. Finance costs which are directly attributable to the acquisition of, or production of, a qualifying asset are capitalised as part of the cost of that asset using the weighted average cost of borrowings.

Decrease in deferred tax assets	2,050	1,020
Increase in trade and other payables	9,889	38,113
Decrease in employee entitlement provisions	(453)	(1,168)
(Decrease) / increase in other provisions	(6,498)	12,543
(Decrease) / increase in current tax liabilities	(581)	699
Increase in deferred tax liabilities	6,273	6,951
Net cash flow provided by operating activities	160,789	250,407

Non-cash activities

\$'000	Notes	2016	2015
Acquisition of assets, liabilities and business via issue of shares	2.1	10,600	1,900

How Pact accounts for cash and cash equivalents

Cash and cash equivalents in the Consolidated Statement of Financial Position comprise cash at bank and on hand and short-term deposits with a maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

For the purposes of the Consolidated Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of bank overdraft balances. Bank overdrafts are included within interest-bearing loans and borrowings in current liabilities on the Consolidated Statement of Financial Position. Cash flows are included in the Consolidated Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Notes to the Financial Statements

Section 4 – Our Capital Structure

4.2 Contributed Equity and Reserves

Terms, conditions and movements of contributed equity

Ordinary shares are classified as equity. Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of shares held.

	2016		2015	
	Number of shares	\$'000's	Number of shares	\$'000's
Movements in contributed equity				
Ordinary shares:				
Beginning of the year	294,555,855	1,491,497	294,097,961	1,489,597
Issued during the year ⁽¹⁾	2,205,025	10,600	457,894	1,900
End of the year	296,760,880	1,502,097	294,555,855	1,491,497

⁽¹⁾ Shares issued during the year include:

- On 1 March 2016, 1,970,650 shares in the Company were issued as part of the acquisition of Power Plastics Pty Ltd (refer Note 2.1), 985,325 shares are subject to voluntary escrow for 12 months and will be released from escrow on 1 March 2017. The remaining 985,325 shares are subject to voluntary escrow for 24 months and will be released from escrow on 1 March 2018.
- On 3 May 2016, 234,375 shares in the Company were issued as part of the acquisition of the assets of EcoPolymers Pty Ltd (refer Note 2.1), the shares are subject to voluntary escrow for 12 months and will be released from escrow on 4 May 2017.

How Pact accounts for contributed equity

Issued and paid up capital is classified as contributed equity and recognised at the fair value of the consideration received by the entity. Incremental costs directly attributable to the issue of new shares or options are shown in contributed equity as a deduction, net of tax, from the proceeds.

Reserves

\$'000	2016	2015
Foreign currency translation reserve ⁽¹⁾	27,200	20,394
Cash flow hedge reserve ⁽²⁾	(2,498)	(1,790)
Common control transaction reserve ⁽³⁾	(928,385)	(928,385)
Share based payments reserve ⁽⁴⁾	322	-
Total reserves	(903,361)	(909,781)

⁽¹⁾ The foreign currency translation reserve is used to record foreign exchange fluctuations arising from the translation of the financial statements of foreign subsidiaries.

⁽²⁾ This reserve records the portion of the gain or loss on a hedging instrument and the related transaction in a cash flow hedge that are determined to be an effective relationship.

⁽³⁾ The common control reserve of \$928.4 million includes a balance of \$942.0 million that arose through a Group restructure in the financial year ended 30 June 2011, less \$13.6 million in relation to the acquisition of Viscount Plastics (China) Pty Ltd and Asia Peak Pte Ltd in the year ended 30 June 2014.

⁽⁴⁾ The share based payments reserve records items recognised as expenses on the valuation of employee rights issues.

Notes to the Financial Statements

Section 4 – Our Capital Structure

4.3 Managing Our Financial Risks

There are a number of financial risks the Group is exposed to that could adversely affect the achievement of future business performance. The Group's risk management program seeks to mitigate risks and reduce volatility in the Group's financial performance. Financial risk management is managed centrally by the Treasury Risk Management Committee.

The Group's principal financial risks are:

- Interest rate risk;
- Foreign currency risk;
- Liquidity risk;
- Credit risk; and
- Commodity price risk.

Managing interest rate risk

Pact seeks to manage its finance costs by assessing and, where appropriate, utilising a mix of fixed and variable rate debt. When variable debt is utilised it exposes the Group to interest rate risk.

What is the risk?	How does Pact manage this risk?	Impact at 30 June 2016
Pact has variable interest rate debt, and therefore if interest rates increase, the amount of interest Pact is required to pay would also increase.	<ul style="list-style-type: none"> • Utilises interest rate swaps to lock in the amount of interest that Pact will be required to pay. • Considers alternative financing and mix of fixed and variable debt, as appropriate. 	<p>At 30 June 2016, the Group hedge cover is 44% (2015: 52%) of its long term variable debt excluding working capital facilities.</p> <p>Sensitivity analysis performed by management showed that a +1% in AUD interest rates would reduce net profit after tax by \$1.1 million and reduce equity by \$0.5m (2015: \$0.5 million reduction in net profit after tax and \$1.8m increase in equity).</p> <p>Sensitivity analysis performed by management showed that a +1% in NZD interest rates would reduce net profit after tax and equity by \$1.1 million (2015: \$1.1 million reduction).</p>

⁽¹⁾ The impact of a +/- 1% movement in interest rates was determined based on the Group's mix of debt, credit standing with finance institutions, the level of debt that is expected to be renewed and economic forecasters' expectations.

Managing foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates to the Group's (i) operating activities which are denominated in a different currency from the entities functional currency, (ii) financing activities, and (iii) net investments in foreign subsidiaries.

The Group currently operates in six countries outside of Australia, with the following functional currencies:

Country of domicile	New Zealand	Thailand	Singapore	China	Philippines	Indonesia
Functional Currency	NZD	THB	USD	RMB	PHP	IDR

Notes to the Financial Statements

Section 4 – Our Capital Structure

4.3 Managing Our Financial Risks (continued)

As Pact has an Australian dollar (AUD) presentation currency, which is also the functional currency of its Australian entities, this exposes Pact to foreign exchange rate risk.

What is the risk?	How does Pact manage this risk?	Impact at 30 June 2016
If transactions are denominated in currencies other than the functional currency of the operating entity, there is a risk of an unfavourable financial impact to earnings if there is an adverse currency movement.	<ul style="list-style-type: none"> Utilises forward foreign currency contracts to eliminate or reduce currency exposures of individual transactions once the Group has entered into a firm commitment for a sale or purchase. 	<p>The Group has a significant exposure to the USD against the AUD and NZD from USD purchase commitments, while the Group's exposure to sales denominated in currencies other than the functional currency of the operating entity is less than 1%.</p> <p>At 30 June 2016, the Group has the majority of its foreign currency committed purchase orders hedged.</p> <p>Sensitivity analysis of the foreign currency contracts was performed to movements in the Australian dollar against the relevant foreign currencies, with all other variables held constant, taking into account all underlying exposures and related hedges.</p> <p>This analysis showed that a 10% movement in its major trading currencies would not materially impact net profit after tax or equity.</p>
As Pact's overseas entities do not have an Australian dollar (AUD) functional currency, if currency rates move adversely compared to the AUD, then the amount of AUD-equivalent profit would decrease and the balance sheet net investment value would decline.	<ul style="list-style-type: none"> Pact utilises borrowing in the functional currency of the overseas entity to naturally hedge offshore entities where considered appropriate. The foreign currency debt provides a balance sheet hedge of the asset, while the foreign currency interest cost provides a natural hedge of the offshore profit. 	<p>There is no material impact from a change in FX rates in other functional currencies on net profit after tax or equity, if the movement was within +/- 10%.</p>

How Pact accounts for foreign currency transactions

Transactions in foreign currencies are initially recorded in the functional currency of the individual entity by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange prevailing at reporting date.

Non-monetary items that are measured at:

- Historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction.
- Fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

As at the reporting date the assets and liabilities of the controlled entities with non-Australian dollar functional currency are translated into the presentation currency of Pact at the rate of exchange at the reporting date and their statements of comprehensive income are translated at the weighted average exchange rate for the year (where appropriate).

The exchange rate differences arising on the translation to presentation currency are taken directly to the foreign currency translation reserve, in equity.

On disposal of a foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in the Consolidated Statement of Comprehensive Income.

Notes to the Financial Statements

Section 4 – Our Capital Structure

4.3 Managing Our Financial Risks (continued)

Managing liquidity risk

Liquidity risk arises from the financial liabilities of the Group and the Group's ability to meet its obligations to repay these financial liabilities as and when they fall due. Pact has a range of liabilities at 30 June that will be required to be settled at some future date.

What is the risk?	How does Pact manage this risk?	Impact at 30 June 2016
The risk that Pact cannot meet its obligations to repay its financial liabilities as and when they fall due.	<ul style="list-style-type: none"> Having access to an adequate amount of committed credit facilities. Maintains a balance between continuity of funding and flexibility through the use of bank overdrafts, loans and debtor securitisation. 	<p>The Group is in a net current asset deficiency of \$31.8 million at balance date, however it has:</p> <ul style="list-style-type: none"> \$197.3 million of unused credit within its syndicated facilities; and \$20.2 million unused overdraft facility. <p>The Directors have assessed that due to the Group's access to undrawn facilities and forecast positive cash flows into the future they will be able to pay their debts as and when they fall due, and therefore it is appropriate the financial statements are prepared on a going concern basis.</p>

The maturity profile of the Group's assets and liabilities based on contractual undiscounted receipt / payments terms is as follows:

\$'000	≤ 6 months	6–12 months	1–5 years	> 5 years	Total
Year ended 30 June 2016					
Financial assets⁽¹⁾					
Cash and cash equivalents	51,885	-	-	-	51,885

Foreign exchange forward contracts ⁽²⁾	(65,105)	(264)	(1,257)	-	(66,626)
Interest rate swaps	(898)	(896)	(1,652)	-	(3,446)
Syndicated Facility Agreements ⁽³⁾	(11,039)	(10,919)	(433,385)	(102,234)	(557,577)
Total outflows	(338,476)	(12,079)	(436,294)	(102,234)	(889,083)
Net inflow/(outflow)	(145,626)	(11,819)	(435,011)	(102,234)	(694,690)

⁽¹⁾ The Group's principal financial instruments comprise cash, receivables, payables, bank loans, bank overdrafts, finance leases and derivative instruments.

⁽²⁾ Foreign exchange forward contracts are recorded as a net balance in the Consolidated Statement of Financial Position, where in this table the contractual maturities are the gross undiscounted cash flows.

⁽³⁾ When the Group is committed to make amounts available in instalments, each instalment is allocated to the earliest period in which the Group is required to pay.

Notes to the Financial Statements

Section 4 – Our Capital Structure

4.3 Managing Our Financial Risks (continued)

Managing credit risk

Credit risk represents the loss that would be recognised if counterparties failed to meet their obligations under a contract or arrangement. The Group is exposed to credit risk arising from its operating activities (primarily from customer receivables) and financing activities. The Group manages this risk through the following measures:

- Operating activities: The Group has in place a number of mechanisms to manage its exposure to customer credit risk, discussed in Note 3.1, including a debtor's securitisation program where substantially all the risks and rewards of the receivables within the program are transferred to a third party.
- Financial activities: Restricting dealings to counterparties with high credit ratings and limiting concentration of credit risk.

The maximum exposure to credit risk by class of recognised financial assets at the end of the reporting period is equivalent to the carrying amount as presented in the Consolidated Statement of Financial Position.

Commodity price risk

The Group is exposed to commodity price risk from a number of commodities, mainly resin. In managing this risk the Group is generally able to pass on the price risk contractually with customers through rise and fall adjustments.

Utilising hedging contracts to manage risk

As discussed above, the Group utilises interest rate swaps and foreign exchange forward contracts to hedge its risks associated with interest rate and foreign currency fluctuations. All of Pact's hedging instruments are designated in cash flow hedging relationships, providing increased certainty over future cash flows associated with foreign currency purchases or interest payments on variable interest rate debt facilities.

How Pact accounts for derivative financial instruments in a cash flow hedge relationship

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes:

- identification of the hedging instrument;
- the hedged item or transaction; and
- the nature of the risk being hedged; and how the entity will assess the hedging instrument's effectiveness in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they have actually been highly effective throughout the financial reporting period for which they were designated.

Derivative financial instruments are:

- Recorded at fair value at inception and every subsequent reporting date.
- Classified as assets when their fair value is positive and as liabilities when their fair value is negative.

The fair value of:

- Forward currency contracts is calculated by using valuation techniques such as present value techniques, comparison to similar instruments for which market observable prices exist and other relevant models used by market participants. These valuation techniques use both observable and unobservable market inputs, which are not considered to be significant (Fair value hierarchy level 2).
- Cross currency interest rate swaps and interest rate swap contracts is determined by reference to market values for similar instruments.

The effective portion of the gain or loss on the hedging instrument is recognised directly in equity, while the ineffective portion is recognised in the Consolidated Statement of Comprehensive Income.

Amounts taken to equity are transferred to the Consolidated Statement of Comprehensive Income when the hedge transaction affects the Consolidated Statement of Comprehensive Income, such as when hedged income or expenses are recognised or when a forecast sale or purchase occurs. When the hedged item is the cost of a non-financial asset or liability, the amounts taken to equity are transferred to the initial carrying amount of the non-financial asset or liability.

If the forecast transaction is no longer expected to occur, amounts previously recognised in equity are transferred to the Consolidated Statement of Comprehensive Income. If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover, or if its designation as a hedge is revoked, amounts previously recognised in equity remain in equity until the forecast transaction occurs. If the related transaction to which the hedging instrument relates is not expected to occur, the amount is taken to the Consolidated Statement of Comprehensive Income.

Notes to the Financial Statements

Section 5 – Remunerating Our People

This section provides financial insight into employee reward and recognition designed to attract, retain, reward and motivate high performing individuals so as to achieve the objectives of the company, in alignment with the interests of the Company and its shareholders.

This section should be read in conjunction with the Remuneration Report, contained within the Directors Report, which provides specific details on the setting of remuneration for Key Management Personnel.

5.1 Employee Benefits Expenses and Provisions

The Group's employee benefits expenses for the year ended 30 June were as follows:

\$'000	2016	2015
Wages and salaries	300,414	262,217
Defined contribution superannuation expense	16,197	14,014
Other employee benefits expense	23,834	14,906
Share based payments expense	322	-
Total employee benefits expense	340,767	291,137

The Group's non-current employee benefits provisions, \$8,293,000 (2015: \$7,012,000) relate to long serve leave entitlements, while the current employee benefits provisions as at 30 June comprise of the following:

Annual leave	16,807	14,397
Long service leave	13,322	11,759
Total current provisions	30,129	26,156

How Pact accounts for employee benefits

Provision is made for employee benefits accumulated as a result of employees rendering services up to the reporting date. These benefits include wages and salaries, annual leave and long service leave.

Benefits expected to be settled within twelve months of the reporting date are classified as current and are measured at their nominal amounts based on remuneration rates which are expected to be paid when the liability is settled.

The liability for long service leave is recognised and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Under this method consideration is given to expected future wage and salary levels, experience of employee departures, and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds (except for Australia where high quality corporate bond rates are used in accordance with the standards) with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

Notes to the Financial Statements

Section 5 – Remunerating Our People

5.2 Share Based Payments

Long Term Incentive Plan (LTIP)

An LTIP was introduced in 2016 as a component of the CEO's remuneration, comprising the issue of Performance Rights. The CEO is the sole participant in the LTIP for the current period and is entitled to performance rights equal to 100% of annual base salary with a vesting period of three years. The LTIP scheme commenced on 1 December 2015. Details of the LTIP can be found on page 29 of the Directors Report.

For the year ended 30 June 2016, 146,444 performance rights are expected to be granted to the CEO. These rights were independently valued to establish the fair value in accordance with AASB2 *Share Based Payments*. The fair value of each right at the valuation date of 22 June 2016 is \$3.85. A total share based payment expense of \$127,312 in relation to the LTIP has been recognised in the current year.

The key assumptions in the independent valuation were as follows:

Share price at valuation date	\$5.79
Annualised volatility	25.0%
Annual dividend yield	4.0%
Risk free rate	1.7%
Expected life of performance right	31 months
Model used	Monte Carlo Simulation Model

Initial Share Grant

The CEO is entitled to receive an initial share grant of \$1 million in shares to be issued evenly at the conclusion of each anniversary from 1 December 2015 for the first three years of employment. These shares are subject to escrow until the three years of service has been completed. Should the CEO cease employment during this time the shares will be forfeited.

The share based payments expense in relation to the initial share grant recognised in the current year was \$194,444.

The total share based payments expense arising from the LTIP and the initial share grant in the current year was \$321,756.

Employee Benefits Expense

The Group's employee benefits expenses for the year ended 30 June were as follows:

\$'000	2016	2015
Wages and salaries	300,414	262,217
Defined contribution superannuation expense	16,197	14,014
Other employee benefits expense	23,834	14,906
Share based payments expense	322	-

5.3 Key Management Personnel

Compensation of Key Management Personnel (KMP) of the Group

The amounts disclosed in the table below are the amounts recognised as an expense during the period relating to KMP:

\$'000	2016	2015
Short-term employee benefits	3,609	3,468
Post-employment benefits	153	169
Long-term benefits	(28)	6
Share based payments expense	322	-
Total compensation	4,056	3,643

Notes to the Financial Statements

Section 5 – Remunerating Our People

5.3 Key Management Personnel (continued)

The following table provides the total amount of transactions with related parties for the year ended 30 June 2016:

\$'000		Sales to related parties	Purchases from related parties	Other (income) / expense with related parties	Amounts (owed to) / receivable from related parties
Related parties – director's interests⁽¹⁾					
	2016	10,051	19,048	293	681
	2015	9,385	19,544	14	568

⁽¹⁾ Related parties – director's interests includes the following group of entities: P'Auer Pty Ltd, Pro-Pac Packaging Limited, Centralbridge Pty Ltd (as trustee for the Centralbridge Unit Trust), Centralbridge Two Pty Ltd, Centralbridge (NZ) Limited and Albury Property Holdings Pty Ltd.

P'Auer Pty Ltd (P'Auer)

P'Auer an entity controlled by Mr Raphael Geminder (the Non-Executive Chairman of Pact) has a supply agreement to provide label products to Pact. Pact has a Transitional Services and Support Agreement with P'Auer to provide support services. Agreements are on arm's length terms. In addition, P'Auer provides Pact with periodic warehousing services.

Pro-Pac Packaging Limited (Pro-Pac)

Pro-Pac, an entity for which Mr Raphael Geminder owns approximately 49%, is an exclusive supplier of certain raw materials such as flexible film packaging, flexible plastic bags and tapes to Pact for an initial term that expires on 1 October 2016. Total fees under this arrangement are approximately \$4.9 million (2015: \$4.8 million) for the twelve months ended 30 June 2016. The supply arrangement is on arm's length terms.

Terms and conditions of property leases with related parties

The Group leased 16 properties (13 in Australia and 3 in New Zealand) from Centralbridge Pty Ltd (as trustee for the Centralbridge Unit Trust), Centralbridge Two Pty Ltd, Centralbridge (NZ) Limited and Albury Property Holdings Pty Ltd ("Centralbridge Entities"), which are each controlled by entities associated with Mr Raphael Geminder and are therefore related parties of the Group ("Centralbridge Leases"). The aggregate annual rent payable by Pact under the Centralbridge Leases for the year ended 30 June 2016 was \$6.6 million (2015: \$6.6 million). The rent payable under these leases was determined based on independent valuations and market conditions at the time the leases were entered into.

Of the Centralbridge Leases in Australia:

- seven of the leases contain early termination rights in favour of the landlord to terminate the lease at the expiry of the 6th and 9th term;
- two of the leases contain early termination rights in favour of the landlord to terminate the lease at the expiry of the 8th term; and
- two of the leases do not contain standard default provisions which give the landlord the right to terminate the lease in the event of default.

Except as set out above, the Centralbridge Leases in Australia are on arm's length terms.

Of the Centralbridge Leases in New Zealand, three of the leases contain early termination rights in favour of the landlord to terminate the lease at the expiry of the 6th and 9th term. With the exception of the early termination right, the Centralbridge Leases in New Zealand are on terms which are not uncommon for leases of commercial premises.

Terms and conditions of transactions with related parties

The purchases from and sales to related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the end of the period are unsecured and interest free and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. For the year ended 30 June 2016, the Group has not recorded any impairment of receivables relating to amounts owed by related parties (2015: nil).

Notes to the Financial Statements

Section 6 – Other Disclosures

This section includes additional financial information that is required by the accounting standards and the *Corporations Act 2001*.

6.1 Basis of Preparation

Basis of preparation and compliance

This financial report:

- Comprises the financial statements of Pact Group Holdings Ltd, being the ultimate parent entity, and its controlled entities as specified in Note 2.2.
- Is a general purpose financial report.
- Has been prepared in accordance and complies with the requirements of the *Corporations Act 2001*, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board.
- Complies with International Financial Reporting Standards (IFRS) and Interpretations as issued by the International Accounting Standards Board.
- Has been prepared on a historical cost basis except for derivative financial instruments, which are measured at fair value.
- Has revenues, expenses and assets recognised net of the amount of GST except where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case GST is recognised as part of the acquisition of the asset or as part of the expense item to which it relates. The net amount of GST recoverable from or payable to the taxation authority is included as part of receivables or payables in the Consolidated Statement of Financial Position.
- Has Research and development costs of \$430,000 (2015: \$392,000).
- Is presented in Australian dollars with all values rounded to the nearest \$1,000, unless otherwise stated, in accordance with the ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 dated 1 April 2016.
- Has all intercompany balances, transactions, income and expenses and profit and losses resulting from intra-group transactions eliminated in full.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies.

New Accounting Standards and Interpretations

There were no standards that were adopted during the year ended 30 June 2016 that have had a material impact on the Group.

There are a number of Australian Standards and Interpretations that have been issued but are not yet effective and have not been adopted by the Group at 30 June 2016. The following has been identified as those which may impact the Group in the period of initial application:

New Standards, Interpretations or Amendments	Pact financial year that it is effective if not early adopted	Impact on Pact financial results
AASB 2015-2 <i>Amendments to Australian Accounting Standards – Disclosure Initiative: Amendments to AASB 101</i>	Commencing 1 July 2016	Not expected to have a material impact
AASB 9 <i>Financial Instruments</i> ⁽¹⁾	Commencing 1 July 2018	Not expected to have a material impact

Pact has a number of Australian entities that are part to a Deed of Cross Guarantee (Deed), representing the 'Closed Group', entered into in accordance with ASIC Class Order 98/1418. This Deed grants these entities relief from preparing and lodging audited financial statements under the *Corporations Act 2001*.

The Closed Group is in a net current asset deficiency at balance date, however the Directors have assessed that due to the Group's access to undrawn facilities and forecast positive cash flows into the future they will be able to pay their debts as and when they fall due (refer Note 4.3 Managing our financial risks).

Notes to the Financial Statements

Section 6 – Other Disclosures

6.6 Geographic Sales

Australia is Pact's largest sales region with \$1,027.9 million sales made to Australian based customers during the year ended 30 June 2016 (2015: \$905.4 million). Pact's second largest region is New Zealand, with \$288.2 million sales made to New Zealand based customers during the year ended 30 June 2016 (2015: \$280.4 million).

6.7 Subsequent Events

On 1 July 2016 the Group acquired the assets, brands and trademarks of the Fruit Case Company (FCC), for a provisional consideration of \$16.9 million. FCC operates crate pooling and hire in New Zealand.

The acquisition aligns with the Group's strategic intent to expand within the materials handling sector.

The acquisition includes the following:

\$'000	AUD
Provisional Consideration paid	16,930
Provisional Fair value of identifiable net assets	3,178
Provisional Goodwill arising on acquisition	13,752

Goodwill represents the provisional value attributed to established networks and strong long term relationships that FCC currently enjoys with growers and retailers.

Other than the matter mentioned above, in the opinion of the Directors, there have been no other material matters or circumstances which have arisen between 30 June 2016 and the date of this report that have significantly affected or may significantly affect the operations of the Group, the results of those operations and the state of affairs of the Group in subsequent financial periods.

The accounting for this acquisition is preliminary and therefore the Group is currently unable to make further disclosures as required by the relevant Accounting Standards.

Directors' Declaration

In the Directors' opinion:

1. The consolidated financial statements and notes, and the remuneration report included in the Directors' report are in accordance with the *Corporations Act 2001* including:
 - (a) giving a true and fair view of the Group's financial position as at 30 June 2016 and of its performance for the year ended on that date;
 - (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
 - (c) complying with International Financial Reporting Standards as disclosed in Note 6.1;
2. There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
3. As at the date of this Declaration, there are reasonable grounds to believe that the members of the Closed Group identified in Note 6.5 will be able to meet any obligations or liabilities to which they are or may become subject by virtue of the Deed of Cross Guarantee described in Note 6.5.

This declaration has been made after receiving the declarations required to be made to the Directors by the Chief Executive Officer and Chief Financial Officer in accordance with section 295A of the *Corporations Act 2001* for the financial year ended 30 June 2016.

This Declaration is made in accordance with a resolution of the Directors.

Independent auditor's report to the members of Pact Group Holdings Ltd

Report on the financial report

We have audited the accompanying financial report of Pact Group Holdings Ltd, which comprises the Consolidated Statement of Financial Position as at 30 June 2016, the Consolidated Statement of Comprehensive Income, the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 6.1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report.

A member firm of Ernst & Young Global Limited
Liability limited by a scheme approved under Professional Standards Legislation

Pact Group Holdings Ltd

Opinion

In our opinion:

- a. the financial report of Pact Group Holdings Ltd is in accordance with the *Corporations Act 2001*, including:
 - i giving a true and fair view of the consolidated entity's financial position as at 30 June 2016 and of its performance for the year ended on that date; and
 - ii complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- b. the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 6.1.

Report on the remuneration report

We have audited the Remuneration Report included in the Directors' Report for the year ended 30 June 2016. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of Pact Group Holdings Ltd for the year ended 30 June 2016, complies with section 300A of the *Corporations Act 2001*.
