**MORABISI LITHIUM AND TANTALUM PROJECT
PROJECT EXPERT ENGAGED
PREPARATIONS FOR FIELDWORK COMMENCING**

Key Highlights

- ✓ **District scale Lithium and Tantalum network identified**
- ✓ **Preparations for fieldwork and sampling commence**
- ✓ **Field work overseen and managed by Lithium experts Borg Geoscience, who specialise in the early identification and ongoing evaluation of successful lithium projects**

Greenpower Energy Ltd (ASX: Greenpower, "GPP", "Company") is pleased to advise that preparations to commence in-country evaluation of the Morabisi Project (Binding Heads of Agreement announced to the ASX on the 20th of September 2016) have started. **The Company expects to announce further details on the project plan very shortly.**

The Company is also pleased that it has engaged **Borg Geoscience, a leading Lithium consulting firm, to conduct the fieldwork program** within the Morabisi project area. The Company confirms Brendan Borg will oversee the in-country field activities in conjunction with Guyana Strategic Metals Inc. An overview of Brendan Borg, Principal of Borg Geoscience is summarised below:

"Brendan Borg has 20 years' experience gained working in exploration, operations, environmental and project development roles in the Mining and Environmental industries, with companies such as Rio Tinto Iron Ore, Uranex Limited, IronClad Mining Limited, Lithex Resources Limited, CH2M Hill, Lane Piper, Metalicity Limited and Unimin Australia Limited, and most recently, as an independent consultant specialising in "new energy" minerals including lithium and graphite.

Brendan is a Director of geological consultancy Borg Geoscience Pty Ltd, and of a new energy minerals marketing firm, Minemark Pty Ltd."

Greenpower Executive Director, Gerard King:

"Greenpower is extremely pleased to have secured the services of Borg Geoscience to oversee the in-country activity on behalf of Greenpower shareholders. We are abundantly aware of Borg Geoscience's market reputation and track record in the Lithium and energy metals space.

As the Company commences an extremely busy 4th quarter of activity, we look forward to keeping our shareholders updated."

ENDS
