ALL REGULATORY APPROVALS NOW IN PLACE FOR WANGLE LAUNCH

Highlights

- Wangle reaches significant commercialisation milestone with the approval of Interception Capability Plan (ICP).
- Follows the recent approval of the Data Retention Plan (DRP).
- Approval of the ICP marks Wangle's full compliance with Telecommunications (Interception and Access) Act 1979.
- Wangle set to launch on or before 15 October 2016.

Wangle Technologies Limited (ASX:WGL) (**Wangle** or the **Company**) has received confirmation that its proposed Interception Capability Plan (**ICP**) has been approved by the Communications Access Authority (**CAC**). This follows the recent approval by the CAC of the Company's Data Retention Implementation Plan as announced on 23 June 2016.

Wangle submitted the ICP for approval on 8 August 2016 which has now been accepted by the relevant security and law enforcement agencies within Australia and ensures the Company meets legal obligations as a Carriage Service Provider under the Telecommunications (Interception and Access) Act 1979.

The development and approval of an ICP is necessary to ensure all communication across the Wangle system is safe, secure and compliant with national standards.

With all necessary regulatory approvals now in place, Wangle has taken the next step towards commercialisation with the launch of the App scheduled for on or before 15 October 2016.

- ENDS -
