LETTER FROM THE CHAIRPERSON OF WINDWARD

17 October 2016

Dear Shareholder

TAKEOVER BID BY INDEPENDENCE GROUP NL

On 5 October 2016, Windward Resources Ltd (**Windward**) announced an off-market takeover offer by IGO Group NL (**IGO**) to acquire all of the Windward Shares on issue (the **Offer**).

Under the terms of the Offer, Windward Shareholders who accept the Offer will receive **\$0.19 cash** per Windward Share.

Included with this Target's Statement is the Bidder's Statement from IGO which encloses the details of the Offer. This Target's Statement sets out the response of the Directors to the Offer.

Board Recommendation

After careful consideration, the Directors of Windward unanimously recommend that you **ACCEPT** the Offer in the absence of a Superior Proposal.

The Windward Directors who hold Windward Shares intend to accept the Offer in full, in the absence of a Superior Proposal.

In making its recommendation, the Windward Directors have carefully considered the following matters:

- the cash offer of \$0.19 per Windward Share represents a significant premium to the trading price of Windward Shares on ASX up to and including 16 September 2016 (being the last day of trading prior to Windward Shares being placed in trading halt and voluntary suspension), including:
 - 46% premium to the last traded price of Windward Shares of \$0.13 on 16 September 2016;
 - 60% premium to the 5 day volume weighted average price of \$0.119 up to and including 16 September 2016; and
 - 81% premium to the 30 day volume weighted average price of \$0.105 up to and including 16 September 2016;
- Windward Shareholders are being offered certainty of value through the 100% cash consideration, providing you with the ability to lock in an attractive and guaranteed cash return as compared to the risks and uncertainties associated with remaining a Windward Shareholder;
- IGO holds a Relevant Interest in Windward of 41.79% as at 14 October 2016, being the last trading day prior to the date of this Target's Statement;
- one of Windward's major shareholders, Mark Creasy, who holds a Relevant Interest in 27.44% of Windward Shares, has indicated that he intends, in the absence of a proposal superior to the Offer, to accept the Offer in respect of all Windward Shares he holds or controls on the business day following the later of 21 days after

the Offer opens and IGO lodging a notice of change of interest of substantial holder in respect of Windward confirming IGO's voting power in Windward of at least 22.67%;

- there has not been any other takeover offer for Windward and, as at the date of this Target's Statement, the Directors believe the prospect of a Superior Proposal emerging is remote; and
- there are material risks which may affect the value of your investment in Windward if you do not accept the Offer. See section 3.16 of this Target's Statement for more details of these risk factors.

The Windward Directors recommend that you read this Target's Statement in its entirety and in conjunction with the Bidder's Statement you have received from IGO.

If you wish to accept the Offer, you should follow the instructions in the Bidder's Statement and on the Acceptance Form.

The Offer is scheduled to close at **7.00pm (Sydney time) on 30 November 2016**, unless extended by IGO.

If you have any questions in relation to the Offer, I encourage you to seek independent advice from your investment, financial, tax or other professional adviser, or contact the Company Secretary of Windward on +61 8 9321 6667.

I would also like to take this opportunity to thank you for your support of Windward.

Yours sincerely,

Ms Bronwyn Barnes
Executive Chairperson

2. REASONS TO ACCEPT THE OFFER

The Windward Directors have considered the advantages and disadvantages of the Offer and unanimously recommend that you **ACCEPT** the Offer, unless a Superior Proposal emerges.

The Windward Directors further recommend that you accept the Offer promptly to ensure that your acceptance is received before the closing date of the Offer at **7.00pm (Sydney time) on 30 November 2016**. You should not assume that the Offer Period will be extended.

The reasons for the recommendation of the Windward Directors are as follows:

- **THE OFFER PROVIDES A SIGNIFICANT PREMIUM FOR YOUR WINDWARD SHARES**

The cash consideration being offered by IGO is **\$0.19 cash** per Windward Share.

The Offer values the entire issued share capital of Windward at approximately A\$20.5 million and represents a:

- **46% premium** to the last traded price of Windward Shares of **\$0.13** on 16 September 2016, being the last trading day for Windward Shares prior to the announcement of the Offer;
- **60% premium** to the 5 day VWAP of **\$0.119** up to and including 16 September 2016, being the last trading day for Windward Shares prior to the announcement of the Offer; and
- **81% premium** to the 30 day VWAP of **\$0.105** up to and including 16 September 2016, being the last trading day for Windward Shares prior to the announcement of the Offer.

- **THE ALL CASH OFFER PROVIDES YOU WITH CERTAINTY OF VALUE FOR YOUR WINDWARD SHARES**

The Offer of **\$0.19 cash** per Windward Share provides you with certainty of value for your Windward Shares.

If IGO does not acquire all of the Windward Shares and no Superior Proposal is received by Windward, the Windward Directors believe that the Windward Share price may fall to levels below the Offer Price.

- **REMOTE LIKELIHOOD OF A SUPERIOR PROPOSAL**

As at the date of this Target's Statement, there has not been any other takeover offer for the Windward Shares and the Directors believe the prospect of a Superior Proposal emerging is remote, given:

- As at 14 October 2016, being the last trading day prior to the date of this Target's Statement, IGO holds a Relevant Interest in Windward of 41.79%; and
- One of Windward's major shareholders, Mark Creasy, who holds a Relevant Interest in 27.44% of Windward Shares, has indicated that he intends, in the absence of a proposal superior to the Offer, to accept the Offer in respect of all Windward Shares he holds or controls on the business day following the later of 21 days after the Offer opens and

IGO lodging a notice of change of interest of substantial holder in respect of Windward confirming IGO's voting power in Windward of at least 22.67%.

- **THE WINDWARD BOARD UNANIMOUSLY RECOMMENDS YOU ACCEPT THE OFFER, IN THE ABSENCE OF A SUPERIOR PROPOSAL**

The Windward Board unanimously recommends that you accept the Offer, in the absence of a Superior Proposal.

Each of the Windward Directors who holds a Relevant Interest in Windward Shares has indicated their intention to accept, or procure the acceptance of, the Offer in respect of the Windward Shares that they, or their Associates, own or control or otherwise have a Relevant Interest in, subject to there being no Superior Proposal.

- **UNDER THE OFFER YOU WILL NOT INCUR BROKERAGE FEES**

By accepting the Offer:

- You will be paid **\$0.19 cash** per Windward Share;
- You will not incur any brokerage fees which may be incurred if you choose to sell your Windward Shares on the ASX; and
- You will be paid on the earlier of one month after the receipt of your acceptance and 21 days after the end of the Offer Period.

IGO has stated that it intends to compulsorily acquire your Windward Shares if it becomes entitled to do so. You should be aware that any payment made to Windward Shareholders whose Windward Shares are compulsorily acquired will occur later than payments made to Windward Shareholders who accept the Offer.

- **THERE ARE OTHER RISKS IN NOT ACCEPTING THE OFFER**

If you retain your Windward Shares, you will continue to be exposed to the risks associated with being a Windward Shareholder. A non-exhaustive summary of such risks are set out in section 8 of this Target's Statement.

For further information on the risks associated with not accepting the Offer, refer to section 3.16 of this Target's Statement.

In considering whether to accept the Offer, the Windward Directors encourage you to:

- (a) read and carefully consider the whole of this Target's Statement and the Bidder's Statement;
- (b) have regard to your individual risk profile, portfolio strategy, tax position and financial circumstances; and
- (c) obtain independent advice from your investment, financial, tax or other professional adviser on the effect of accepting the Offer.

3. DETAILS OF THE OFFER

The Offer Price represents a premium to the price at which Windward Shares were last traded on ASX prior to the announcement of the Offer. The Offer Price represents a premium as follows:

- 46% premium to the last traded price of Windward Shares prior to the announcement of the Offer
- 60% premium to the 5 day VWAP up to and including 16 September 2016
- 81% premium to the 30 day VWAP up to and including 16 September 2016

3.4 The Offer is unanimously recommended by the Windward Directors

The Windward Directors unanimously recommend that Shareholders accept the Offer in the absence of a Superior Proposal.

3.5 Directors' intentions in relation to the Offer

Each of the Windward Directors who holds a Relevant Interest in Windward Shares has indicated their intention to accept, or procure the acceptance of, the Offer in respect of the Windward Shares that they, or their Associates, own or control or otherwise have a Relevant Interest in, subject to there being no Superior Proposal.

3.6 IGO intentions

See section 6 of the Bidder's Statement for a summary of IGO's intentions following completion of the Offer.

3.7 Intentions of a major shareholder

Mr Creasy, who holds a 27.44% Relevant Interest in Windward, has indicated his intention to accept the Offer, in the absence of a proposal superior to the Offer, in respect of all Shares he holds or controls on the business day following the later of 21 days after the Offer opens and a substantial holding notice being lodged by IGO in respect of Windward confirming that IGO has Voting Power in Windward of at least 22.67%.

Mr Stephen Lowe, a Windward Director, is currently the part-time business manager for Mark Creasy and is responsible for managing most aspects of Mr Creasy's business interests and investments. Mr Lowe is the nominee of Mr Creasy on the Windward Board. The Windward Board (other than Mr Lowe) has determined that, for the purposes of the Offer, Mr Lowe is an independent director and is able to participate in discussions, vote on matters, and give his recommendation to Shareholders, in relation to the Offer.

3.8 Offer Conditions

The Offer is not subject to any conditions.

3.9 Offer Period and extension

Unless the Offer is extended, it is open for acceptance from 17 October 2016 until 7.00pm (Sydney time) on 30 November 2016.

IGO may extend the Offer Period at any time before the end of the relevant Offer Period.

In addition, there will be an automatic extension of the Offer Period if within the last 7 days of the Offer Period IGO increases the consideration being offered under the Offer or IGO's Voting Power in Windward increases to more than 50%.

If either of these two events occurs, the Offer Period for the Offer is automatically extended so that it ends 14 days after the relevant event occurs.

3.10 Effect of acceptance

The effect of accepting the Offer is set out in section 9.5 of the Bidder's Statement.

3.11 Withdrawal of the Offer

The Offer may only be withdrawn with the consent of ASIC and subject to any conditions which ASIC may impose. Any acceptances of the Offer prior to the date of withdrawal will remain enforceable. Refer to section 9.8 of the Bidder's Statement for further details.

3.12 Your ability to withdraw your acceptance

If you accept the Offer you may not withdraw your acceptance.

3.13 When you will receive the Offer Price if you accept the Offer

If you accept the Offer IGO will pay you the Offer Price on or before the earlier of:

- (a) one month after the date of your acceptance; and
- (b) 21 days after the end of the Offer Period.

Full details of when you will receive the Offer Price are set out in section 9.6 of the Bidder's Statement.

3.14 Increased Offer Price

If IGO improves the Offer Price during the Offer Period, any Shareholder who had previously accepted the Offer will be entitled to receive the improved Offer Price.

3.15 Compulsory acquisition

IGO's intentions with respect to compulsory acquisition are set out in section 6.3 of the Bidder's Statement.

In summary, IGO has indicated that if it becomes entitled to compulsorily acquire any outstanding Windward Shares in accordance with Part 6A.1 of the Corporations Act and any outstanding Windward Options in accordance with Part 6A.2 of the Corporations Act, it intends to proceed with the compulsory acquisition of these shares and options.

An overview of IGO's rights to compulsorily acquire Windward Shares is set out below.

(a) Post-bid compulsory acquisition

IGO will be entitled, under section 661A of the Corporations Act, to compulsorily acquire any Windward Shares in respect of which it has not received an acceptance of the Offer on the same terms as the Offer if, during or at the end of the Offer Period, IGO (together with its Associates) has a Relevant Interest in at least 90% (by number) of the Windward Shares and IGO and its Associates have acquired at least 75% (by number) of the Windward Shares that IGO offered to acquire under the Offer (whether the acquisitions happened under the bid or otherwise).

If these thresholds are met, IGO will have up to one month after the end of the Offer Period within which to give compulsory acquisition notices to Windward Shareholders who have not accepted the Offer. Windward Shareholders have statutory rights to challenge the compulsory acquisition, but a successful challenge will require the relevant Windward Shareholder to establish to the satisfaction of a Court that the consideration offered does not represent "fair value" for their Windward Shares.

If compulsory acquisition occurs, Windward Shareholders who have their Windward Shares compulsorily acquired will be paid their consideration later than Windward Shareholders who accept the Offer.

(b) General compulsory acquisition provisions

IGO will be entitled, under section 664A of the Corporations Act, to compulsorily acquire any outstanding Windward Shares and Windward Options if IGO's voting power in Windward is at least 90% and IGO (either in its own right or through related bodies corporate) acquires full beneficial interests in at least 90% (by value) of the aggregate of all Windward Shares and Windward Options and:

- (i) IGO lodges a compulsory acquisition notice with ASIC within six months of achieving that 90% holding;

- (ii) IGO proposes a cash sum for the compulsory acquisition of the Windward Shares and Windward Options; and
- (iii) IGO obtains the report of an expert stating whether, in the expert's opinion, the terms proposed in the notice give fair value of the securities covered.

3.16 Risks associated with rejecting the Offer

(a) No Premium

Windward Shareholders who do not accept the Offer may not receive the premium offered by IGO. Further, in the absence of the Offer, the price of Windward Shares on ASX may potentially reduce to the levels at which it was trading before the date of announcement of the Offer.

(b) Minority shareholding

If IGO fails to acquire sufficient Windward Shares to be entitled to compulsorily acquire all outstanding Windward Shares, non-accepting Windward Shareholders may find themselves as minority shareholders in a company with potentially limited share liquidity. In those circumstances, the possible implications would be as follows:

- (i) IGO will be able to cast the majority of votes at a general meeting of Windward enabling it to control the Board and senior management, determine Windward's dividend policy and control the strategic direction of Windward;
- (ii) subject to the requirements of the Corporations Act and Windward's constitution, IGO may appoint nominees of IGO to the Board;
- (iii) if IGO acquires 75% or more of the Windward Shares, it will be able to pass special resolutions of Windward. This will enable IGO to amend Windward's constitution; and
- (iv) there would be a risk that Windward Shares would trade at prices materially lower than the Offer Price.

In section 6.4 of the Bidder's Statement, IGO describes its intentions in the event Windward becomes a controlled entity of IGO, but IGO is not entitled to proceed to compulsory acquisition.

3.17 Further developments

Should there be any developments during the Offer Period (for example, the emergence of a Superior Proposal from another bidder) which would alter the Windward Directors' recommendations in relation to the Offer, Windward Shareholders will be notified through a supplementary Target's Statement.

3.18 Taxation Consequences

In making a decision whether to accept the Offer, Windward Shareholders should also have regard to the fact that the disposal of Windward Shares may have taxation consequences. Windward Shareholders should carefully read and consider the potential Australian taxation consequences of accepting the Offer as set out in section 7 of the Bidder's Statement.

3.19 Options Offer

Windward currently has 1,200,000 Options on issue as follows:

Option Class	Number of Options	Exercise Price	Expiry Date
1	900,000	\$0.206	27 November 2017
2	300,000	\$0.0804	1 December 2018

Under the Bid Implementation Deed, IGO will, as soon as practicable after making the Offer, make an offer to each holder of Windward Options under which their Windward Options will be cancelled in exchange for the payment to the Optionholders of cash consideration equal to:

- (a) in respect of Option Class 1: **\$0.06 per Option**; and
- (b) in respect of Option Class 2: **\$0.13 per Option**.

The Options Offer is subject to ASX granting a waiver from ASX Listing Rule 6.23.2 or Windward Shareholders approving the cancellation of the Windward Options.

Each of the Windward Directors is a holder of Windward Options in the proportions set out in section 9.2 of this Target's Statement. Each of the Windward Directors intends to accept the Options Offer made to him or her in full, in the absence of a Superior Proposal.

4. OFFER CONSIDERATIONS AND RISKS

This section 4 sets out key reasons why Shareholders may decline to accept the Offer.

4.1 Possible reasons not to accept the Offer

(a) **You may disagree with the recommendation of the Windward Directors**

You may hold a different view to the Windward Directors and believe that the Offer Price of \$0.19 per Share is inadequate.

(b) **You may wish to remain a Windward Shareholder**

If you accept the Offer, you will no longer be entitled to participate in the future financial performance of Windward or exercise the rights (including voting rights) of being a Windward Shareholder.

(c) **The tax consequences of acceptance of the Offer may not be favourable to you given your financial position**

Acceptance of the Offer by Windward Shareholders is likely to have tax implications. You should carefully read and consider the potential Australian taxation consequences of accepting the Offer as summarised in section 7 of the Bidder's Statement.

Windward Shareholders should not rely on the taxation considerations set out in section 7 of the Bidder's Statement as being advice on their own affairs. Shareholders should consult with their own independent

taxation advisers regarding the taxation implications of accepting the Offer given their particular circumstances.

(d) **You may consider that there is the potential for a proposal superior to the Offer to be made for Windward Shares**

It is possible that a proposal superior to the Offer could materialise in the future. However, as at the date of this Target's Statement, no alternative proposal has been received.

4.2 Risks associated with accepting the Offer

If Superior Proposal is announced you will not be able to withdraw your acceptance of the Offer

If a Superior Proposal is announced, Windward Shareholders who accept the Offer will not be able to withdraw their acceptance of the Offer and accept a Superior Proposal.

At the date of this Target's Statement, the Windward Directors are not aware of any Superior Proposal.

5. YOUR CHOICES AS A SHAREHOLDER

As a Windward Shareholder you have three choices currently available to you:

- **ACCEPT THE OFFER**

Windward Shareholders may elect to accept the Offer in respect of their Windward Shares. Shareholders will receive \$0.19 cash consideration for each Share for which a valid acceptance has been received.

To accept the Offer, follow the instructions on the Acceptance Form which accompanies the Bidder's Statement.

- **SELL YOUR WINDWARD SHARES ON MARKET**

Windward Shareholders may elect to sell some or all of their Windward Shares on ASX if they have not already accepted the Offer in respect of those Windward Shares.

The price you will receive for your Windward Shares will depend on the prevailing market price of the Windward Shares at the time of sale. You should be aware that the market price of Windward Shares may rise or fall throughout the Offer Period and following the close of the Offer. You should also note that:

- you will need to pay any brokerage fees which may be payable on such a sale; and
- you will not benefit from any increase in the Offer Price or from any alternative offer made by another bidder for your Windward Shares, if such an offer is made.

The latest price for Windward Shares may be obtained from the ASX website at **www.asx.com.au**.

Windward Shareholders who wish to sell their Windward Shares on ASX should contact their broker for information on how to effect that sale.

- **DO NOTHING**

Windward Shareholders who do not wish to accept the Offer or sell their Windward Shares on market can do nothing.

Windward Shareholders should note that if IGO acquires a Relevant Interest in at least 90% of the Windward Shares during or at the end of the Offer Period, IGO has indicated that it intends to compulsorily acquire the Windward Shares in which it has not acquired a Relevant Interest. In that situation, you may be paid for your Windward Shares later than Windward Shareholders who accept the Offer.

6. INFORMATION RELATING TO WINDWARD

6.1 Overview of Windward

Windward is an ASX-listed mineral exploration company. The principal focus of Windward is its interest in the Fraser Range North and Fraser Range South projects which are considered prospective for nickel and gold.

6.2 History of Windward

Windward was incorporated on 18 May 2012 for the primary purpose of identifying exploration projects in Australia and elsewhere which could host commercially significant mineral deposits. Windward has been listed on the ASX since 28 November 2012.

6.3 Project overview

(a) Fraser Range North

The Fraser Range North Project consists of ten tenements covering a total of area of 1,957 km², located in the Fraser Range region of Western Australia. The tenements extend for approximately 180km from Zanthus in the north to Fraser Range Station in the south.

Windward holds a 70% interest in the majority of the tenements comprising the Fraser Range North Project, with the remaining 30% held by entities that are part of the Creasy Group. Windward holds 100% of some of the tenements in the Fraser Range North Project.

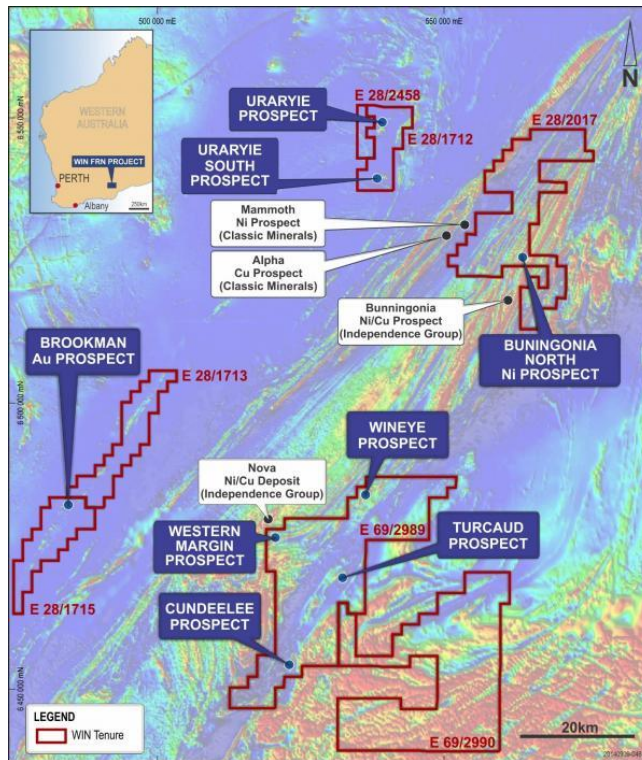

Figure 1 – Fraser Range North project locations.

Western Margin Prospect

Within the Fraser Range North Project, Windward has embarked upon an exploration initiative focusing on the Western Margin prospect, following a reassessment of its exploration potential.

The Western Margin prospect is located in a favourable geological and structural setting just 3.5km east of IGO's Nova nickel-copper deposit.

A detailed gravity survey has been completed at the Western Margin prospect to potentially identify mafic intrusive rocks in favourable structural settings within the Western Margin stratigraphy. These intrusions are known to host the nearby Nova nickel-copper-cobalt deposit.

The Western Margin tenement (E69/2989) is located within the Fraser Zone along the eastern margin of the main Fraser Range north-easterly trending gravity high. The geology at Western Margin is identified as a series of folded rocks predominantly comprising a mixture of metasedimentary and mafic rocks intruded by mafic sills.

Windward completed reprocessing and interpretation of its detailed aeromagnetic dataset (in 2013) covering the Western Margin prospect. The key outcome of this exploration review and analysis, including the new gravity survey, was the identification of an "area of interest" located approximately 3.5km due east of the Nova nickel-copper deposit. The area includes a large residual gravity feature within the recently determined structural corridor in an area below a paleo-channel which has not previously been drill tested. Windward's soil geochemical samples show nickel and copper values that are indicative of the presence of mafic and possibly ultramafic rocks in this area.

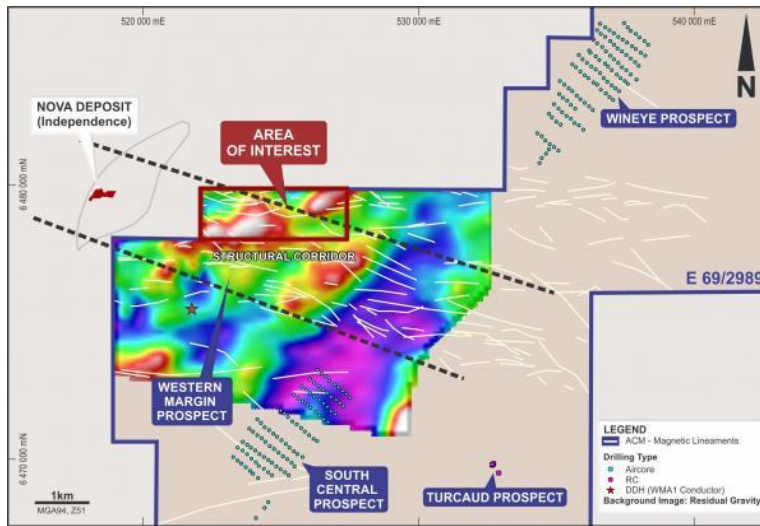

Figure 2 – Cross-Cutting Structural Corridor and “Area of Interest” on Residual Gravity dataset at Western Margin prospect (E69/2989)

On 3 August 2016, Windward announced to ASX the results of its aircore drilling program undertaken on the Western Margin Prospect in June 2016. On 29 August 2016, Windward announced to ASX the results of its IP geophysical survey completed on the “Area of Interest”. On 5 October 2016, Windward announced to ASX an update on its IP review at the Western Margin Prospect. Shareholders are referred to those announcements for further information in respect of the Western Margin Prospect.

(b) **Fraser Range South**

The Fraser Range South Project comprises seven tenements covering a total of 1,100km², located in the Great Southern and South West of Western Australia. The project tenements extend from Lake Muir in the west to Jerramungup in the east, a distance of approximately 250km.

The tenements cover the western and southern extensions of the Albany-Fraser Orogen and the South West Yilgarn Craton.

Windward holds a 70% interest in the Fraser Range South Project, with the remaining 30% held by entities that are part of the Creasy Group.

8. RISK FACTORS

If you decide not to accept the Offer and retain your Windward Shares, you will continue to be exposed to the risks associated with being a Windward Shareholder. Holding a Windward Share provides an economic interest in the ongoing operating activities of Windward. However, there is no guarantee that Windward will become profitable in the future as the business is affected by many risk factors.

These may be risks that are widespread risks associated with any form of business or specific risks associated with Windward's business and its involvement in the exploration and mining industry.

The following summary represents some of the major risk factors which affect Windward. These risk factors ought not to be taken as exhaustive of the risks faced by Windward or by Windward Shareholders. These factors, and others not specifically referred to, may in the future materially affect the financial performance of Windward and the value of Windward Shares. Where relevant, the risk factors below assume the Offer will not be successful and Windward will continue to develop its projects interests.

(a) **General market risks**

The value of Windward Shares will be influenced by a number of factors that are common to most listed investments. At any point in time, these may include:

- (i) the Australian and international economic outlook;
- (ii) movements in the general level of prices on international and the local stock markets;
- (iii) changes in economic conditions including commodity prices, inflation, recessions and interest rates; and
- (iv) changes in Government fiscal, monetary and regulatory policies.

(b) **Company specific risks**

(i) **Future Share price**

There is a risk that the Windward Share price may fall if the Offer is unsuccessful.

The Directors are not in a position to speculate on the future trading price of the Windward Shares, including if the Offer lapses. The future price of Windward Shares is dependent not only on Windward's performance, but also on external market and other factors.

(ii) **Financing and capital**

Windward's continued ability to effectively implement its business plan over time may depend in part on its ability to raise additional funds. Notwithstanding Windward's current financial position, Windward's capacity to develop projects depends on its ability to put significant funding solutions in place.

There can be no assurance that Windward will generate sufficient cash flow, or that access to sufficient investments, loans or other financing alternatives will be secured on commercially acceptable terms.

(iii) **Exploration and development risk**

Windward's future value will be materially dependent on the success or otherwise of Windward's activities which are directed towards the exploration, evaluation and development of nickel, gold and other resources. Exploration for these resources is speculative and involves a significant degree of risk.

Although the rewards can be substantial, there is no guarantee that future exploration on territories for which Windward has exploration licences will lead to a commercial discovery or, if there is such discovery, that Windward will be able to develop it economically. If at any stage Windward is precluded from pursuing any of its exploration programs or from developing any resource it may identify, this may have an adverse effect on the value of Windward Shares.

(iv) **Resources and reserve estimates**

Resource and reserve estimates are expressions of judgements based on knowledge, experience and industry practice. Estimates which were valid when originally calculated may alter significantly when new information or techniques become available. In addition, by their very nature, resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. As further information becomes available through additional fieldwork and analysis, the estimates are likely to change. This may result in alterations to development and mining plans which may, in turn, adversely affect the Company's operations.

(v) **Operating risks**

The current and future operations of Windward, including exploration, appraisal, construction and production activities may be affected by a range of factors, including adverse geological conditions, limitations on activities due to seasonal weather patterns and cyclone activity, unanticipated operational and technical difficulties encountered in geophysical surveys, drilling and production activities, mechanical failure of operating plant and equipment, industrial and environmental accidents, industrial disputes, riots and other force majeure events, unexpected shortages or increases in the costs of labour, consumables, spare parts, plant and equipment and the inability to obtain necessary consents or approvals.

Further, mechanical or operational failures during drilling, sampling, test work construction and production could cause Windward substantial loss due to the cost of delay, personal injury or loss of life, damage to or destruction of property, natural resources and equipment, pollution or other environmental damage, clean-up responsibilities, regulatory investigation and penalties and suspension of operations. Any of these events might also give rise to claims against Windward.

Industry operating risks include fire, explosions, industrial disputes, unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment, mechanical failure or breakdown, environmental hazards such as accidental spills or leakage of liquids, gas leaks, ruptures, discharges of toxic gases or geological uncertainty. The occurrence of any of these risks could result in legal proceedings against Windward and substantial losses to Windward due to injury or loss of life, damage to or destruction of property, natural resources or equipment, pollution or other environmental damage, clean-up responsibilities, regulatory

investigation, and penalties or suspension of operations. Damage occurring to third parties as a result of such risks may give rise to claims against Windward.

(vi) **Mine development**

Possible future development of mining operations at the Fraser Range Project is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.

If Windward commences production, its operations may be disrupted by a variety of risks and hazards which are beyond its control. No assurance can be given that Windward will achieve commercial viability through the development of the Fraser Range Project.

(vii) **Commodity price volatility**

Internationally traded commodities and price changes are driven by a number of supply and demand factors which are outside of Windward's control and are subject to exchange rate risks. In addition, commodity prices fluctuate and are affected by many factors beyond the control of Windward and the Directors.

Changes to commodity prices may impact the value of Windward's projects and any revenue derived from those projects.

(viii) **Occupational Health and Safety Risk**

The mining industry is an inherently hazardous industry, and is subject to increasing occupational health and safety responsibility and liability. The potential for significant loss and liability is a constant risk. If Windward fails to comply with necessary occupational health and safety legislative requirements, it could result in fines, penalties and compensation for damages as well as reputational damage.

(ix) **Environmental Risk**

The operations of Windward are subject to state and federal laws in Australia concerning the environment. Whilst Windward conducts its activities to the highest standard of environmental obligations including in compliance with environmental laws, there are certain risks inherent in Windward's activities which could subject Windward to environmental liability.

(x) **Regulatory and Political Risk**

Government regulations and political factors, including those relating to prices, taxes, royalties, land tenure, security of mineral rights tenure, land use, the environment, and community constraints, including potential land claims or restrictions on exploration or development are all key considerations in mineral projects. The effects of these factors cannot be accurately predicted and any combination of one or other of the above may impede the operation or development of a project and even render it uneconomic.

(xi) **Reliance on key personnel**

Windward has benefited from having a high quality but small management team available. Loss of a number of key personnel may adversely affect Windward.
