## **About Castle:**

Castle Minerals (ASX code '**CDT**') is one of the largest tenure holders in Ghana, West Africa, a country with a long history of gold mining and exploration. Castle's ~11,000km<sup>2</sup> licence holdings host several projects including Kpali in Ghana's Upper West region and Akoko close to Takoradi in Ghana's southern and prolific gold mining region. All of Castle's projects are prospective for gold and, whilst resources have been delineated at some, all are considered at an early stage of evaluation.

The Company's management is intent on adding value to its existing project holdings and to evaluating and, if warranted, acquiring new opportunities that will provide existing shareholders with multiple returns on the present market value of their investments.

Government of Ghana has the right to acquire a 10% free carried interest in all licences and is entitled to a 5% Gross Royalty on production. All licences are held in 100% owned Ghana based subsidiaries, Carlie Mining Limited and Topago Mining Limited. Where required, Castle has lodged applications for extension of the licences and in those cases may be awaiting renewal or extension of the licences.

^ Put Option to sell the Julie West PL to Bunda Resources Limited was exercised in October 2015. Bunda's rights were assigned to Phoenix Resources Limited (Azumah Resources Limited) in April 2016.

\* Sale agreement for the sale of shares in Topago Mining Limited entered into 26 October 2016.
