JCurve Solutions signs new partnership deals and expands ERP offering

JCurve Solutions Limited (ASX: JCS) is pleased to advise that it has signed six new partnership agreements to expand its cloud ERP offering with new integrated functionality, including eCommerce, banking, warehouse management, international money transfer and foreign exchange, contact centres and SMS messaging.

One of the largest NetSuite Partners in the ANZ region providing cloud ERP solutions to businesses of all sizes, JCS has signed new partnership agreements with the following technology providers:

- **Pistachio Media** – This new collaboration will enable rapid deployment of eCommerce sites with over 100 modern, pre-configured templates that integrate inventory and order information directly into NetSuite, including the JCurve ERP edition.
- **ERP Fast Forward** – a global NetSuite Solution Developer Network partner. JCS has begun trials of frequently requested banking integration functionality that works within the NetSuite platform. Thanks to the new partnership with ERP Fast Forward, users will now be able to directly import a bank statement for easy creation of bank transactions and bank reconciliations. Direct bank feeds are now supported by over 150 banks worldwide, 106 in Australia and 7 in New Zealand with more on the way.
- **Cloud Coders** – A leading Warehouse Management Solution built on using the Honeywell Movilizer platform that will empower businesses to run their Warehouse operations on a daily basis. This extends to Purchasing and Receiving, Bin Put aways, Pick/ Pack and Shipping and barcoding. The partnership will enable JCS customers to more efficiently process their orders.
- **TransferMate** – Integrating directly with NetSuite, TransferMate provides a smarter and more cost effective way to send and receive international payments. Offering a range of currency tools as well as security and regulation compliance across the U.S., Canada, Europe, Australia and New Zealand.

- **Contivio.com** – JCS will now offer Contivio’s cloud-based contact centre solution within the JCurve ERP edition. Contivio’s contact centre solution will provide inbound and outbound multi-channel capability with automatic dialler, interactive voice response, real time statistics, configurable reporting, workforce management and voice recording.
- **MessageMedia** – Australia’s leading messaging provider. JCS customers will be able to send SMS from a PC, the web, via email or using API integration into NetSuite, including the JCurve ERP edition.

JCurve Solutions CEO Stephen Canning explained that, “Client expectations have evolved over the past few years when it comes to removing time intensive and repetitive tasks for employees. With these new partnership agreement’s, we are looking to make time saving a reality by integrating a number of state-of-the-art technology solutions.”

JCS recently announced a new agreement with NetSuite, extending its reseller rights to include businesses of all sizes across Australia and New Zealand. The new agreement also allows JCS to upgrade clients from the small business “JCurve ERP edition” of NetSuite to the mid-market and enterprise editions.

“Since the agreement was announced in August a number of JCS clients are now in the process of upgrading from the JCurve ERP small business edition to the NetSuite mid-market edition. These businesses have upgraded to take advantage of additional NetSuite functionality and increased licensing (the JCurve ERP edition is only available for customers with up to 20 user licenses),” added Mr Canning.

About JCurve Solutions:

JCurve Cloud ERP is award winning cloud-based business management software that helps to empower growth in SMEs by transforming the way they manage their businesses. While providing real-time data and KPIs for total visibility, it also allows businesses to streamline and automate operations across financials and payroll, inventory and order management, CRM, eCommerce and more. JCurve Solutions is the Australian and New Zealand, 5 star awarded small business partner of NetSuite, the global leader in cloud enterprise resource planning (ERP) software. JCurve Solutions Ltd is listed on the ASX (JCS).
