### LiveHire signs Telstra Health to launch Talent Community

#### Highlights

- LiveHire signs agreement with Telstra Health, launching the Talent Community solution for one of Australia's largest eHealth businesses
- Telstra Health will implement the LiveHire Talent Community platform to manage the flow of talent into and across its entities

MELBOURNE, Australia, Monday 5 September, 2016 - LiveHire Limited (ASX: LVH), the technology company behind the Live Talent Ecosystem, where people privately connect with Live Talent Communities of the best brands, is pleased to announce an agreement with Telstra Health, Telstra's eHealth business.

Under the agreement, Telstra Health will implement LiveHire to manage the flow of talent into and across its entities. The terms of the agreement provide flexibility for Telstra Health to scale the Talent Community over time to suit its needs.

Telstra Health, is a business division of Telstra Corporation and one of Australia's largest eHealth businesses. Telstra Health aims to be the partner of choice and is working with medical experts, the health sector, government, funders as well as the world's best and most innovative eHealth companies to build a future where eHealth solutions are integrated together to create a brilliantly different health care system.

#### **Antonluigi Gozzi, Co-Founder and Managing Director of LiveHire said:**

"The launch of Telstra Health's Talent Community today marks an important milestone for LiveHire. Telstra Health will be using LiveHire and its Talent Community platform to be the centralised and single destination of talent through one unified profile that allows proactive recruitment, and the formation of real and sustained relationships with past, current, and future employees.

The successful signing of Telstra Health is a significant validation point for the Company, as it is a proof point our technology can satisfy the most stringent data security requirements of Telstra and that our technology and team can support Australia's biggest companies who are leading the world on innovation and technology."
