ASX/Media Release

13 October 2016

Successful extension of Origin bank loan facilities

Origin Energy Limited (Origin) today announced the successful extension of \$4.5¹ billion of bank debt facilities maturing in December 2018 to a new five-year maturity of October 2021. The extension of these facilities was negotiated through a syndicate of domestic and international banks.

The existing limit of Origin's bank debt facilities remains unchanged at \$7.4 billion¹, comprising \$2.9 billion maturing in December 2019 and \$4.5¹ billion maturing in October 2021. Origin currently holds \$6.6 billion² of committed and undrawn debt facilities.

The transaction improves Origin's financial resilience through the extended maturity profile of its committed bank debt facilities and demonstrates ongoing support for the company by domestic and international banks.

The Bank of Tokyo-Mitsubishi, Commonwealth Bank of Australia, National Australia Bank and Westpac Bank acted as Coordinating Mandated Lead Arrangers and Bookrunners on the transaction.

About Origin Energy

Origin Energy (ASX: ORG) is the leading Australian integrated energy company with market leading positions in energy retailing (approximately 4.2 million customer accounts), power generation (approximately 6,000 MW of capacity owned and contracted) and natural gas production (1,093 PJ of 2P reserves and annual production of 82 PJ). Through Australia Pacific LNG, its incorporated joint venture with ConocoPhillips and Sinopec, Origin is developing Australia's biggest CSG to LNG project based on the country's largest 2P CSG reserves base.
