

ASX Release

SALE OF NUSEP'S GELS BUSINESS

Sydney, Tuesday 12 April 2016

NuSep Holdings Limited (**ASX: NSP**) ("**NuSep**") advises that it has sold its US subsidiary, NuSep, Inc. and its Gels Business including the manufacturing plant and all related patents to Dycent Biotech (Shanghai) Co. Ltd for US\$130,000. In addition, Dycent placed a substantial order with NuSep to manufacture gels to provide sufficient stocks for the business during the transfer of the plant to Shanghai.

The manufacturing plant will be moved to Shanghai where Dycent will continue to manufacture nUView gels.

The sale of the Gels Business allows NuSep to focus on developing its in-house assets with high IP value, in particular SpermSep, NuSep's patented technology for sperm processing for use in assisted reproductive technologies.
