(Company Secretary)

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

Notes Attached to this Report

During the September quarter there was renewed interest in the sale of the second half of the company's joint venture project which resulted in a number of offers submitted to the board for consideration. Prior to the end of the quarter one of those offers, subject to a number of conditions, was accepted and the board expects this to be finalised next quarter.

The board continues to embark on its preferred strategy in seeking out potential parties including large developers interested in participating, on a joint venture basis, in multiple dwelling projects incorporating steel framing construction, unfortunately market conditions have made this more difficult. The company remains operationally constrained due to its financial capacity to take on larger projects, however a capital raising remains under consideration by the Board, if deemed warranted, to assist in the pursuit of opportunities that will generate profits and potentially lead to a meaningful impact on the company's share price.

In the meantime major shareholders, investors and the bank continue to provide and offer ongoing support to the Company to create value, albeit marginal through its current strategy of smaller sized ventures incorporating steel framing construction.

In addition, the company has commenced initial discussions with some business owners and vendors, who conduct business in a very similar industry, regarding the potential for working together, a merger of some sort, or formulation of any other structure that may benefit all parties. However, these discussions are extremely premature and if any progress eventuates with these parties we will advise the market after discussions with the ASX.

JV Global Ltd continues to be a very lean run company with minimal directors' fees and administration costs. This strategy will continue until the management can generate enough value to warrant any change.

The Board continues to look for other opportunities and or possible diversification of activities into other markets or sectors that will could add value to the company, providing they can be pursued within the ASX listing rules, and fit within the Company's reward to risk ratio requirements. In the meantime, the Company has sufficient liquid and current assets to convert to cash, and access to funds if required, to meet its commitments, as and when required for the next 2 quarters.
