ASX Release

APPENDIX 4C - QUARTERLY CASH FLOW REPORT - MARCH 2016

Melbourne, Australia, Friday 29th April 2016: Avexa Limited (ASX: AVX) lodges the attached Appendix 4C Quarterly Consolidated Statement of Cash Flows for the period ending 31 March 2016.

Commentary is provided as follows:

- The Company held cash reserves of \$0.9 million at 31 March 2016;
- The acquisition of TALI Health Pty Ltd was settled on the 15th of February 2016 through the issue of 27,584,420 shares (valued \$1.1 million); and
- The Company raised a total of \$874,000 from a Private Placement to professional and sophisticated investors and from the Share Purchase Plan (SSP) during the March quarter. These proceeds will be applied towards product development of TALI, associated TORUS Games enhancements, clinical trials and workshops and an initial rollout in targeted centres of TALI as described to shareholders at the 2015 AGM.

About Avexa Limited

Avexa is a Melbourne based medical technology company with a long history of innovation, development and commercialisation of medical treatments. Avexa's flagship program is the revolutionary and innovative TALI system, which uses a cognitive function approach to diagnosing and treating developmental disabilities including childhood attention deficits.

About TALI Health Pty Ltd (100% owned by Avexa)

TALI Health has the exclusive global license and right to acquire the TALI Technology, and is seeking to position itself as the global leader in the diagnosis and treatment of intellectual disabilities, via the unique cognitive abilities focused on in the TALI Process.

The TALI Process is a result of ground-breaking research pioneered over twenty years by internationally renowned Professor Kim Cornish, Head of School of Psychological Sciences at Monash University and her team. A collaboration between Monash University, Grey Innovation Pty Ltd and Torus Games Pty Ltd, developed the solution in response to the perceived absence of holistic approaches by the medical industry in addressing the limited awareness and treatment of intellectual disabilities, including Autism, in modern society.

The front end of the TALI Process is an attention measuring and training game (accessed by downloading an "App") for delivering interventions on tablets (or similar). The back end of the TALI Process is a Cloud based, centralised secure data collection, analysis and report back function.
