Warning Statement for New Zealand Investors

This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in the which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

Chairman's letter

20 May 2016

Dear Investor,

The Offer

On behalf of the board of Mercantile Investment Company Limited, I am pleased to invite you to subscribe for 8% p.a. unsecured notes of the Company.

The MVT Notes carry an annual interest rate of 8%, payable semi-annually in arrears and maturing on 10 July 2021, approximately 5 years from the expected Issue Date.

Under this Prospectus, the Company is offering up to 150,000 MVT Notes, with the ability to accept oversubscriptions for up to a further 100,000 MVT Notes, at an offer price of \$100 per MVT Note. The Offer will raise up to \$15 million (with a potential \$10 million in oversubscriptions). Proceeds from the issue of MVT Notes will be used to meet the costs of the Offer and repay the Company's existing short term debt facility, to fund its investment strategy, acquisitions of new securities and for working capital and debt servicing purposes, consistent with the investment strategy of Mercantile.

The Company's principal activities are investment directly and through controlled entities in securities that will provide attractive risk adjusted returns, including by way of short term trading, profit making ventures and holding shares for dividend yield/long term capital appreciation, as appropriate. The Company may also hold cash.

On 6 January 2012, Mercantile's shareholders approved the acquisition of Siblow Pty Limited's portfolio of ASX listed securities and the appointment of Siblow's controller, Sir Ron Brierley, to the Board. From that date to 30 April 2016, net tangible asset backing per Share (after tax) increased from 6.4 cents to 16.14 cents, representing a compound return of approximately 23.8% per annum. Investors are reminded that past performance is no indicator of future performance.

A detailed description of the key risks associated with an investment in the Issuer is provided in Section 5. I encourage you to read this Prospectus carefully and in its entirety before making your investment decision.

Yours sincerely,

Ron Brierley
Chairman

It is not anticipated that the funds raised under the Offer will be applied specifically to pay dividends to Shareholders. However, access to the proceeds of the Offer will enable cash derived from other sources to be applied to other purposes, including the payment of dividends and the issue of MVT Notes might therefore assist in the payment of dividends to Shareholders.	Section 4.4

The MVT Note Trustee must require all of the MVT Notes to be fully (but not partially) Redeemed if an Event of Default occurs and is subsisting, it is so directed by a Special Resolution, it is indemnified to its reasonable satisfaction and is not restricted or prohibited from taking such action by any court order or any applicable law. Question	Answer	More Information
	and MVT's total debt outstanding is approximately \$10 million as at the date of this Prospectus. MVT will repay those debts from the proceeds of the Offer, bringing the balance of funds outstanding under its Short Term Debt Facility to zero. The Short Term Debt Facility will remain available to be drawn if required. If at any time an Insolvency Event occurs in relation to the Company, any amount owing to MVT Noteholders will only be paid after all amounts owing to all other creditors ranking ahead of MVT Noteholders have been paid. At the date of this Prospectus the Issuer had no debt incurred through its controlled entities.	
Can MVT change its borrowing policy?	The Company has a disciplined approach to borrowing. With the exception of short term debt funding provided from time to time by the Chairman, the Company has no other debt. The Company may change its borrowing policy from time to time.	Section 4.4
ASX quotation	The Issuer will apply for quotation of MVT Notes on ASX. It is expected that MVT Notes will be quoted under ASX code "MVTHA". Completion of the Offer is conditional on ASX approving this application.	
How will payments on the MVT Notes be funded?	The Issuer will adopt a disciplined approach to managing its financial affairs and meeting its obligations under the MVT Notes. Interest payments are expected to be funded through one or more of the following means: ➤ utilising working capital, which is funded from investment income, including dividends, interest, the proceeds of realisation of investments, other payments from assets held, and investment activities; ➤ from time to time entering into various borrowing arrangements; and ➤ undertaking further equity or debt raisings. The Issuer expects to fund Redemption of the MVT Notes through one or more (or a combination) of the following means: ➤ from cash holdings at the time of Redemption; ➤ disposal of underlying financial assets or other assets; ➤ issuing new debt securities; ➤ entering into additional borrowing facilities or refinancing existing borrowing facilities of MVT and its controlled entities; and ➤ issuing Shares or other equity or hybrid securities.	

Question	Answer	More Information
What are the key benefits of MVT Notes?	The key benefits of MVT Notes are: ➤ fixed rate interest payments; ➤ semi-annual interest payments; ➤ listed on the ASX; ➤ ranking ahead of Shareholders in a liquidation of the company; and ➤ diversification for Shareholders, being an opportunity to diversify investment exposure type to the Company.	
What are the key risks associated with investing in MVT Notes?	The key risks of an investment in the MVT Notes are highlighted below. Investors should bear these in mind, when considering whether to participate in the Offer: ➤ MVT Notes are unsecured liabilities that rank behind any senior debt and rank equally with other unsecured creditors of the Company, other than creditors preferred by law; ➤ the Issuer may fail to pay Interest or repay Face Value on Redemption when required. See Section 4.6(g) for information regarding the Company's interest cover ratio. A low interest cover ratio may indicate that the Issuer could face difficulties in servicing its debt if earnings decrease or interest rates increase (to the extent the Company might have variable rate interest obligations) and the Issuer does not have access to sufficient cash to service the debt; ➤ MVT Notes do not mature until the Maturity Date, but MVT may also fully (but not partially) Redeem all MVT Notes if a Tax Event or a Change of Control Event occurs; ➤ individual MVT Noteholders cannot require the Redemption of their MVT Notes unless and until after the MVT Note Trustee fails to do so, where it is obliged to under the Terms or Trust Deed, for a period of 20 Business Days; ➤ MVT may issue additional MVT Notes, securities that rank equally with MVT Notes and other indebtedness senior to MVT Notes, subject to the Terms of the MVT Notes; ➤ the market price of MVT Notes on the ASX may fluctuate and you may lose money if you cannot sell MVT Notes at their issue price; ➤ liquidity of MVT Notes on ASX may be low; ➤ in certain circumstances, the Issuer may amend the Terms of the MVT Notes (see Section 5.2); ➤ MVT's financial performance may be negatively impacted, including the possibility that its investments may decrease in value and/or yield which may in turn impact on its ability to pay Interest or Redeem MVT Notes on Maturity; ➤ MVT may be unable to refinance its debt facilities,	Investors should read these risks together with the other risks described in Section 5

Question	Answer	More Information
	including the MVT Notes, at maturity; ➤ global financial markets may be disrupted; ➤ the Australian economy and/or the economies of other countries in which the Company invests (currently, New Zealand and the United Kingdom) may suffer a downturn; ➤ MVT may fail to meet covenants on existing or new debt instruments; ➤ regulation impacting MVT or MVT Notes may change; and ➤ MVT is dependent on the retention of key personnel with responsibility for managing investments.	
Who can participate in the Offer?	Members of the general public who have a registered address in Australia or New Zealand.	Section 8.1 and 8.11
How do I apply for MVT Notes?	The procedures for making an application for MVT Notes are described in Section 8. The Lead Manager may be required to obtain identification information from Applicants. The Company reserves the right to reject an Application if this information is not provided upon request. When will I receive confirmation that my Application has been successful?	It is expected that initial holding statements will be despatched on or about 29 June 2016.	
What are the fees and costs of the Offer?	The Lead Manager is entitled to a management fee of \$50,000 (excluding GST). The fee is payable by the Company. The Company will pay a broker firm fee equal to 1.5% (excluding GST) of the Application Monies provided with valid Application Forms to the Lead Manager to the extent MVT Notes are allotted under the Broker Firm Offer. No broker firm fee will be payable on General Applications or Priority Applications. The Company will pay an arranging fee of 0.85% (excluding GST) of the proceeds of the Offer to Sandon Capital Pty Limited (ACN 130 853 691) an entity associated with Gabriel Radzynski, a Director. 3. About Mercantile

3.1. Issuer of MVT Notes

The Issuer of MVT Notes is Mercantile Investment Company Limited. The MVT Note Trustee will hold the benefit of undertakings given by the Issuer in respect of its operations and the MVT Notes on trust for MVT Noteholders and will act to enforce the Trust Deed and rights of MVT Noteholders under the Trust Deed.

3.2. Overview of Mercantile

Mercantile Investment Company Limited is an investment company listed on the ASX and on the NZX Main Board. The Company's principal activities are investing directly and through controlled entities in securities that the Board considers are likely to provide attractive risk adjusted returns, including by way of short term trading, profit making ventures and holding shares for dividend yield/long term capital appreciation, as appropriate. The Company may also hold cash.

On 6 January 2012, Shareholders approved the acquisition of a portfolio of listed securities from Siblow Pty Ltd (**Siblow**) in exchange for a controlling shareholding in the Company and the appointment of Siblow's controller, Sir Ron Brierley, to the Board. From that date to 30 April 2016, net tangible asset backing per Share (after tax) (**NTA**) increased from 6.4 cents to 16.14 cents, representing a compound return of approximately 23.8% per annum.

As at close of trading on 30 April 2016, the Company's market capitalisation was approximately \$36.4 million (based on a closing price of MVT Shares on ASX on that date of \$0.13).

3.3. Investment objectives and strategy

Unlike many other listed investment companies, the Company does not have an external manager. Instead, the Company invests selectively on a broad range of criteria under the Board's supervision.

As the Company's investments are managed internally, there is no set investment mandate or restrictions on investment management. The Board monitors the Company's investments and applies the investment principles the Chairman has applied over more than 50 years (see Section 3.11 for details on the experience of the Chairman and other Directors). The Company's investments are not restricted by size or market capitalisation, whether the relevant entities are listed or unlisted, their industry, geographic location (although the Company's current portfolio is dominated by Australian, New Zealand and United Kingdom entities) or any other characteristic.

The Company is able to take up investment opportunities the Board deems appropriate, as, when, and where they arise.

There is no guarantee that the Company will be successful in achieving its investment objective of providing attractive risk-adjusted returns.

3.4. Investment portfolio

The Company holds a portfolio of Australian and selected international financial assets, both listed and unlisted. - (b) the ASX listing of Afterpay Holdings Pty Limited (**Afterpay**) at \$1.00 per Afterpay share. The Company's shares in Afterpay, acquired prior to the IPO, are subject to escrow restrictions. This is reflected in the pro forma information for April 2016 set out in Section 4.6(f)

On 26 February 2016, the Company's wholly owned New Zealand subsidiary, Mercantile NZ Limited, announced a takeover offer for all issued shares in Kirkcaldie & Stains Limited, a company listed on the NZX Main Board. The funding for this transaction will be sourced from a combination of the Company's cash reserves and from the Short Term Debt Facility. 3.6. Raising further equity or debt

At the Company's discretion and depending on market conditions, proceeds from any further debt or equity issues may be utilised to acquire new investments, for working capital or to service or refinance debt (including MVT Notes).

The Company may at a future date decide to issue further MVT Notes or obtain other debt in the Company or its controlled entities. A further issue of MVT Notes may be undertaken if there is demand for investment in those notes and if such an issue were to fall within the Company's parameters of appropriate borrowing.

As at the date of this Prospectus, there are no planned future issues of either MVT Notes or MVT Shares.

3.7. Capital management policy

Subject to any restrictions imposed under the Corporations Act, Listing Rules and the Company's Constitution, the Board monitors and considers the capital management of the Company on a regular basis. The Company's policy is to consider the balance of risk and reward, as far as practicable, in order to optimise the returns gained from its investment activities and to meet the expectations of its stakeholders.

The Board implements this policy by ensuring that adequate procedures are in place to identify the principal risks of the Company's business and implementation of appropriate systems to manage these risks. The Board has delegated to the Audit & Risk Committee responsibility for:

routinely to the Board, via the Audit & Risk Committee, its performance in managing the Company's risk profile.

The Audit & Risk Committee having due regard for the current size and complexity of the Company does not believe an internal auditor is warranted at this point in the Company's development.

3.9. No foreign exchange hedging

The Company does not presently hedge its exposure to foreign exchange movements.

3.10. Dividend policy

No dividends were paid or are payable for the financial year ended 30 June 2015 or half-year ended 31 December 2015. The Directors will continue to consider the capacity of the Company to pay dividends in the future.

4. Financial Information about the Company

4.1. Restatement of accounts

In the context of the audit-review of the Company's financial statements for the half year ended 31 December 2015, the Company's new auditors identified errors relating to the presentation of the consolidated entity's statement of comprehensive income and statement of cash flows for the financial year ended 30 June 2015. These errors resulted in the Company's auditors including a disclaimer in their review report in respect of the half year to 31 December 2015. As a result, the financial statements for the Company for the financial year ended 30 June 2015 were the subject of a new audit. The restated audited financial statements for the year ended 30 June 2015 were released to ASX on 5 April 2016 and the restated reviewed financial statements for the half year ended 31 December 2016 were released to ASX without a disclaimer on 11 April 2016.

As there were no errors recorded in the consolidated statement of changes in equity, the effect on the net asset position and total equity of the consolidated entity for the half year to 31 December 2014 and the year ended 30 June 2015 was nil.

The impact on the consolidated entity's previously reported performance for the year ended 30 June 2015 was as follows:

- (a) understated profit by \$1,236,352;
- (b) overstated other comprehensive income by \$10,597,155;
- (c) overstated total comprehensive income by \$9,360,803;
- (d) overstated other comprehensive income attributable to members of the parent entity by \$9,360,803; and
- (e) overstating net cash provided by operating activities by \$3,795,961 and understating net cash provided by investing activities by the same amount.

The impact on the consolidated entity's previous reported performance for the half year ended 31 December 2014 was as follows:

- (f) understated profit after tax by \$14,032;
- (g) overstated other comprehensive income after tax by \$8,194,802;
- (h) overstated total comprehensive income after tax by \$8,180,770;
- (i) overstated total comprehensive income attributable to members of the parent entity by \$8,180,770; and
- (j) understating net cash provided by operating activities by \$2,349,211 and overstating net cash provided by investing activities by the same amount.

The financial information set out in this Prospectus relating to the financial year ended 30 June 2015 and the half year ended 31 December 2015 reflects the information set out in the restated financial statements.

4.2. Overview of financial performance

This and the following Section provide a summary of the historical financial performance and position of the Company. More detailed financial information is set out in Section 4.6.

For the year ended 30 June 2015 the Company generated total comprehensive income, net of tax, of \$1.87 million and an operating profit net of tax of \$0.49 million.

During the year the net tangible asset backing per Share (after tax) (**NTA**) increased from \$0.135 to \$0.142. The increase in NTA was primarily due to the increase in the market value of the Company's investments as well as interest, dividend and other income received during the year.

Total comprehensive income after income tax for the half year to 31 December 2015 was \$3.35 million (Dec 2014: loss of \$0.27 million). During the period the NTA increased from \$0.14 to \$0.15 (Dec 2014: remained at \$0.13). The half year to 31 December 2015 represented the first half-year period since taking a controlling interest in Ask Funding Limited in September 2015.

The market price of Shares increased over the period from \$0.125 per Share at close of trading on 30 June 2015 to \$0.14 per Share at close of trading on 31 December 2015.

4.3. Profile of earnings

Cash flow profile

The Company maintains a portfolio of investments and requires capital to acquire new investments. Funding for new acquisitions has historically come from a combination of two sources. The first is investment income from its existing portfolio including dividends – franked or otherwise - and distributions, returns of capital and proceeds from disposal of investments. The Company's other source of funding has been by way of short term loans from the Chairman, Sir Ron Brierley.

Cash flow from investment income is unpredictable as to both amount and timing. Investment income and/or operating losses can result from movements in the market value of the Company's investments in listed securities, interest, dividends and other income received during the year, as well as gains on disposal of assets and/or short term trading. The Company is not able to guarantee capital gains on portfolio assets or indeed any other form of investment income. That income is subject to a wide range of variables relating to the underlying investments, making this aspect of the Company's cash flow irregular and inconsistent.

The consolidated cash flow statements set out in Section 4.6(e) illustrates the historical cash flow for the consolidated entity.

Investors should note that the Company's activities, including its lending activities, mean that its profit/loss before interest and tax is not the only measure relevant to the Company's capacity to make Interest payments and to Redeem MVT Notes. See Section 4.6 for more detail.

The Group has made use of short term debt funding made available by Sir Ron Brierley as and when required for takeover bids, other asset acquisitions and/or working capital..

The Board monitors working capital levels closely to ensure the Group is appropriately resourced.

Issue of the MVT Notes will provide greater long term flexibility to the Group in its arrangements for funding its investment strategy.

Short Term Debt Facility

As indicated above, from time to time the Chairman has provided short term funding support for the Company to enable it to undertake its investment activities. On 25 February 2016 existing loan arrangements were consolidated into a new short term debt facility (**Short Term Debt Facility**). The key terms of the Short Term Debt Facility are as follows:

- at the Company's request, the Chairman must advance (on an unsecured basis) up to a total of \$5 million or such other amount as agreed for ongoing working capital and/or investment acquisition purposes;
- the Company must pay interest on amounts outstanding at the cash rate published by the Reserve Bank of Australia from time to time; and

- the Company must repay all amounts outstanding under the Facility on the earlier of:
 - the date of issue of MVT Notes but only to the extent of funds raised under this Prospectus net of costs; and
 - the date elected by Mercantile;
- it is a revolving facility permitting it to be redrawn unless otherwise agreed by the parties or on termination of the facility;
- the Chairman may terminate the Short Term Debt Facility on six months prior written notice;
- the Company may repay all or any part of the amounts drawn under the facility without penalty.

The total amount outstanding under the Short Term Debt Facility as at the date of this Prospectus is \$10,003,264.

Funding sources for the Company's wholly owned subsidiary Mercantile OFM Pty Limited (**Mercantile OFM**)'s on-market takeover offer for Richfield International Limited (**RIS Takeover Offer**) included a funding commitment letter from the Chairman; this was not used as Mercantile OFM funded acquisitions under that takeover using the Company's existing cash reserves.

The principal and interest for all amounts outstanding under the Short Term Debt Facility are expected to be repaid from the proceeds of the Offer. The refreshed Short Term Debt Facility will remain available for the Company's use at its election.

4.4. Use of Offer proceeds and ongoing financing strategy

Proceeds from the issue of MVT Notes will be used to pay the costs of the Offer and to repay any amounts outstanding under the Short Term Debt Facility. The balance of the proceeds of the Offer will be applied to fund the Company's investment strategy as outlined in Section 3.3, for working capital purposes and debt servicing purposes (including MVT Notes) consistent with the Company's investment strategy.

The Board will determine the optimal deployment of cash from the Offer (after payment of Offer costs and repayment of the Short Term Debt Facility) as circumstances and opportunities require. Apart from refreshment of the Short Term Debt Facility, no decision has been made about the amounts or proportions of the proceeds that will be used for each purpose, with the decision to be influenced by the amount raised and the commercial opportunities that arise.

The Company and its directly or indirectly owned subsidiaries may borrow or assume debt to fund the purchase of financial assets or any other purpose consistent with the Company's objectives.

4.5. No leverage ratio target

The Company does not seek to maintain a target consolidated leverage ratio. The Company regularly monitors its borrowings and may, from time to time, adjust leverage ratios as it sees appropriate in light of circumstances and market conditions, which may vary from time to time. Leverage and working capital is monitored on a day-to-day basis (see Section 4.6(g) for information regarding the Company's current gearing and leverage ratios). The Company adopts a disciplined approach to borrowing and as at the date of this Prospectus, the only debt currently outstanding is under the Short Term Debt Facility.

- (g) Historical and Pro Forma Financial Ratios

ASIC encourages issuers of a prospectus offering “simple corporate bonds” to investors to include disclosure regarding the Gearing Ratio, Interest Cover and Working Capital Ratio for an issuer on a consolidated basis. The MVT Notes are not “simple corporate bonds” within the meaning of the Corporations Act. Nevertheless, to assist potential investors to understand the financial position and performance of MVT, the following disclosure regarding these ratios has been included.

The ratios included below have been calculated based on:

- the reviewed consolidated profit and loss statement for the six months to 31 December 2015;
- the unaudited pro forma consolidated statements of financial position as at 30 April 2016 incorporating completion of the Offer and expenditure of funds associated with the Offer included above.

Ratios have been provided for the purposes of this Prospectus only, based on the assumptions outlined, and will not be specified in the financial statements reported by the Company.

A description of the ratios follows this table.

	Financial Information 31 December 2015	Unaudited Financial Information 30 April 2016	Minimum Subscription \$10m	Maximum Subscription \$15m	Over Subscription \$25m
Gearing Ratio	24.7%	36.7%	36.1%	46.7%	67.9%

Working capital ratio	2.7 x	2.0 x	11.4 x	13.7 x	18.4 x

Notes:

- 1 Interest expense for the consolidated Group for the half year to 31 December 2015 was \$22,211 being interest payable under the Short Term Debt Facility. Interest income for the consolidated Group for the half year to 31 December 2015 was \$756,542. In view of the low level of interest expense, the Company does not consider that the presentation of Interest Cover – NPBT and Interest Cover – EBITDA ratios are meaningful.

Notwithstanding this, these data have been provided for the half year ended 31 December 2015 but have not been provided for the 10 months ended 30 April 2016.

2. The Interest Cover – NPBT and Interest Cover – EBITDA reflect the relevant ratios for the half year ended 31 December 2015 recorded in the Half Yearly Report adjusted to replace the interest expense of \$22,211 with the interest expense that would have been incurred by the Company had the Company issued 100,000 MVT Notes raising \$10 million (being the minimum subscription under the Offer) as at 1 July 2015. Periodic amortisation of capitalised Offer costs set out in the column entitled “Unaudited Proforma Statement of Financial Position \$10 million” has also been included for the half year to 31 December 2015.
3. The Interest Cover – NPBT and Interest Cover – EBITDA reflect the relevant ratios for the half year ended 31 December 2015 recorded in the Half Yearly Report adjusted to replace the interest expense of \$22,211 with the interest expense that would have been incurred by the Company had the Company issued 150,000 MVT Notes raising \$15 million (being the maximum subscription under the Offer without oversubscriptions) as at 1 July 2015. Periodic amortisation of capitalised Offer costs set out in the column entitled “Unaudited Proforma Statement of Financial Position \$15 million” has also been included for the half year to 31 December 2015.
4. The Interest Cover – NPBT and Interest Cover – EBITDA reflect the relevant ratios for the half year ended 31 December 2015 recorded in the Half Yearly Report adjusted to replace the interest expense of \$22,211 with the interest expense that would have been incurred by the Company had the Company issued 250,000 MVT Notes raising \$25 million (being the maximum subscription under the Offer with oversubscriptions) as at 1 July 2015. Periodic amortisation of capitalised Offer costs set out in the column entitled “Unaudited Proforma Statement of Financial Position \$25 million” has also been included for the half year to 31 December 2015.

The following table illustrates adjustments made to the EBITDA and Net Interest for the relevant periods.

\$'000	6 months to 31 December 2015
Interest Income	756,542
Interest Expense	22,211
Capitalised interest	-
Net Interest	734,331
Profit/(Loss) before income tax (NPBT)	1,288,595
Net Interest	734,331

Earnings before Interest, Tax, Depreciation and Amortisation (EBITDA)	554,264

Gearing Ratio and Leverage Ratio

The Gearing Ratio is:

$$\text{Gearing Ratio} = \frac{\text{Total Liabilities}}{\text{Total equity}}$$

The Gearing Ratio is in the form for a prospectus offering “simple corporate bonds”. The Gearing Ratio does not represent the traditional gearing ratio adopted by the Company or the industry, which has been included as the Leverage Ratio below.

The Leverage Ratio is:

$$\text{Leverage Ratio} = \frac{\text{Gross Debt}}{\text{Gross Assets}}$$

The Gearing Ratio and the Leverage Ratio indicate the extent to which the assets of the Company are funded by debt. Generally, a higher ratio indicates greater use of borrowings to fund a business. The impact that this would have on the MVT Notes will depend on where any additional borrowing will rank in the Company's debt structure.

Interest Cover Calculations

Interest Cover gives an indication of the Company's ability to meet its interest payments from earnings. It therefore provides important information about the Company's financial sustainability and the risks associated with the Issuer's level of borrowings. A low Interest Cover may indicate that the Issuer could face difficulties in servicing its debt (including the MVT Notes) if earnings decrease or interest rates increase and the Company does not have access to sufficient cash reserves to service that debt.

The Interest Cover – NPBT Ratio is:

$$\text{Interest Cover} = \frac{\text{NPBT}}{\text{Net interest expense}}$$

The Interest Cover – EBITDA Ratio is:

$$\text{Interest Cover} = \frac{\text{EBITDA}}{\text{Net interest expense}}$$

Two measures of interest cover are provided in the table above, one using NPBT and the other using EBITDA. The EBITDA figure is often used to calculate interest cover, as it seeks to provide a measure of "earnings" available for debt servicing. The Company has chosen to also provide an alternative measure, NPBT. The Company considers NPBT provides a more relevant measure of the Company's ability to service its debt obligations, as a number of the Company's investments are debt instruments or securities that pay interest to the Company, and whose earnings are therefore available to pay interest on the Company's debt. The NPBT and EBITDA figures used to calculate the Interest Cover ratios are historic, and assume there is no increase in investment income from the Company deploying the proceeds of the MVT Notes in each scenario. This means that NPBT and EBITDA remain the same while the net interest expense increases in each scenario.

The Working Capital Ratio is:

$$\text{Working Capital Ratio} = \frac{\text{Current assets}}{\text{Current liabilities}}$$

A Working Capital Ratio indicates whether the issuer has sufficient short-term assets to meet its short-term liabilities. Generally, a higher ratio indicates a greater ability to meet liabilities (including the liability to pay Interest on the MVT Notes) over the short term (including unexpected liabilities).

Due to the Company's investment approach, investors should consider all ratios together before making an investment decision. Consideration of one ratio in isolation may not provide a good indication of the Company's ability to meet its interest payments.

(h) Basis of preparation

The Financial Information in this Section 4.6 has been prepared in accordance with the Australian Accounting Standards and interpretations, issued by the AASB and the Corporations Act, as appropriate for for-profit oriented entities (as modified for inclusion in the Prospectus).

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board. Material accounting policies adopted in the preparation of these financial statements and the pro forma consolidated statements of financial position are presented in the

Company's complete financial report as at 30 June 2015, which is available from the Company's website at www.mercantileinvestment.com.au or via ASX at www.asx.com.au. They have been consistently applied unless otherwise stated.

The Financial Information presented in this Prospectus is presented in an abbreviated form and does not contain all of the disclosures that are usually provided in an annual report prepared in accordance with the Corporations Act. The Financial Information has been prepared on the basis of assumptions outlined in Section 4.6. The Financial Information has been prepared on an accrual basis and is based on historical costs.

5. Risks

5.1. Introduction

An investment in the MVT Notes issued by the Issuer will be exposed to a number of risks, which may either individually, or in combination, materially and adversely affect the future operating and financial performance of the Issuer, its investment returns and the value of an investment in MVT Notes.

Risks that the Directors believe are key risks associated with MVT Notes specifically are described in Section 5.2 below. Specific investment risks related to the Company's business are set out in Section 5.3. General investment risks are discussed in Section 5.4.

Prospective investors should be aware that this is not an exhaustive list of the risks associated with an investment in the MVT Notes and should be considered in conjunction with other information disclosed in this Prospectus. Investors should also note that the occurrence or consequences of some of the risks described in this section of the Prospectus are partially or completely outside the control of the Issuer and the Directors. There can be no guarantee that the Company will achieve its stated objectives or that any forward looking statements or forecasts contained in this Prospectus will be realised.

Investors should have regard to their own investment objectives and financial circumstances, and should consider seeking professional guidance from their stockbroker, solicitor, accountant or other independent professional advisor before deciding whether to invest.

5.2. Risks associated with MVT Notes specifically

Holders of MVT Notes are subordinated and unsecured creditors

If the Company becomes insolvent, MVT Noteholders' claims will rank after the claims of any secured creditors and creditors preferred by law.

MVT Notes are unsecured liabilities and will effectively rank, in an Insolvency Event (for example, if a liquidator is appointed to wind up the Company):

- behind senior debt;
- behind unsecured creditors preferred by law;
- pari passu (the same as) other unsecured creditors of the Company, including the Short Term Loan provided by Sir Ron Brierley (to the extent to which there are any borrowings under this facility); and
- ahead of ordinary shares in the Company.

As at the date of this Prospectus the Company had drawn \$10,003,264 under the Short Term Debt Facility but intends to repay this balance from proceeds of the Offer.

If at any time an Insolvency Event occurs in relation to the Company, any amount owing to MVT Noteholders will only be paid after all amounts owing to all other creditors ranking ahead of MVT Noteholders have been paid.

If, after the claims of creditors preferred by law and secured creditors are satisfied there are insufficient assets, to satisfy all of the unsecured creditors of the Issuer (including the MVT Noteholders), there is a risk that you may lose some or all of the money you invested in MVT Notes. If an Insolvency Event occurs there may be competing claims between MVT Noteholders and other unsecured creditors of the Issuer to recover amounts owed on the MVT Notes and by the Issuer.

The Company may fail to pay Interest and/or repay the Face Value

Depending upon its performance and financial position, the Company may fail to pay some or all of the Interest or repayment of the Face Value on MVT Notes. Section 4.6(g) outlines the Company's Interest Cover ratio, calculated depending on the amount raised under this Offer. A low Interest Cover may indicate

that the Company could face difficulties in servicing its debt if earnings decrease or interest rates on other borrowings increase and the Issuer does not have sufficient cash reserves to service its debt.

If the Issuer does not repay some or all of the Face Value, this means that you may lose some or all of the money you invested in MVT Notes.

If an Event of Default occurs and is subsisting, the MVT Note Trustee may declare that all MVT Notes are to be Redeemed for their Face Value plus any unpaid Interest plus any final Interest payment for the last Interest Period and may make a claim for this amount in the winding-up of the Issuer.

The MVT Note Trustee is restricted from taking action to wind-up the Issuer under the Trust Deed.

The MVT Note Trustee can only be required to take enforcement action if it is indemnified to its satisfaction. There is a risk that, if it were not so indemnified the MVT Note Trustee would not take enforcement action.

MVT Notes do not mature until 10 July 2021

MVT Notes do not mature until 10 July 2021, approximately 5 years from the expected after the Issue Date. In the event that the timetable is changed, on announcement of completion of the Offer the final Maturity Date will be advised.

As a result, there is a risk that you will not receive repayment of the Face Value on or before 10 July 2021, and there is also a risk that the business, financial position and financial performance of the Company will change significantly over this period.

To realise your investment, once the MVT Notes are listed on the ASX, you can sell your MVT Notes on the ASX at the prevailing market price. However, depending on market conditions at the time, it is possible that MVT Notes may be trading at a market price below the Face Value and/or the market for MVT Notes may not be liquid. If liquidity is low, there is a risk that, if you wish to sell your MVT Notes prior to the Maturity Date, you may not be able to do so at an acceptable price, or at all. The Company may redeem MVT Notes if certain events occur.

The Company may Redeem all but not part of the Face Value of all MVT Notes following a Tax Event or a Change of Control Event. However, the Company is not required to do so even if one of these events occurs. An early redemption of MVT Notes would mean that you do not receive interest for the period between the early redemption date and 10 July 2021.

Depending on market conditions at the time, you may not be able to reinvest the amount you receive on Redemption at a similar rate of return to the rate of return you expected on your MVT Notes if you had held them until the Maturity Date and the timing or occurrence of the Redemption may not coincide with your individual preferences.

Individual MVT Noteholders are not entitled to take action to require the redemption of their MVT Notes until 20 Business Days after the MVT Note Trustee fails to do so.

Unless the MVT Note Trustee is obliged to take action to enforce the rights of the MVT Noteholders under the Trust Deed and fails to do so within 20 Business Days, individual MVT Noteholders are not entitled to take action to require the Redemption of their MVT Notes. For a summary of the Trust Deed, including the circumstances in which the MVT Note Trustee is required to take action to enforce the rights of the MVT Noteholders, see Section 7.4.

The Company may raise more debt and issue further securities

The Issuer has the right to raise more debt and issue further securities that:

- have the same or different interest rates as MVT Notes;
- have the same or different maturities as MVT Notes;
- have the same or different terms and conditions as MVT Notes; and

- rank for payment of principal or interest (including on insolvency) after, equally with, or ahead of MVT Notes, whether or not secured.

Following completion of this Offer until the Redemption Date, the Company may issue further MVT Notes at its discretion within its leverage and other relevant requirements set by the Board at the time of issue.

Any further debt raising or issue of further securities may affect your ability to recover Interest or Face Value due to you on an Insolvency Event occurring.

The Terms do not contain any covenants preventing the Company from raising more debt or issuing further securities, requiring the Company to refrain from certain business changes, or requiring the Company to operate within certain ratio limits.

A holding of MVT Notes does not confer any right to participate in further issues of securities by the Company.

It is difficult to anticipate the effect such further debt or issues of securities by the Company or its controlled entities may have on the market price or liquidity of MVT Notes.

Controlled entities of the Company may raise more debt within the leverage and other relevant Board requirements from time to time. The Terms do not contain any covenants preventing any of the Company's controlled entities from raising more debt, requiring those entities to refrain from certain business changes or requiring those entities to operate within certain ratio limits.

As your claim is only against the Company, it is only recoverable out of the assets of the Company, being the Company's investments in its financial assets and its cash reserves.

The market price of MVT Notes will fluctuate

The Company will apply for quotation of MVT Notes on the ASX. The market price of MVT Notes on the ASX will fluctuate due to various factors, which may include:

- changes in Australian and international economic conditions, interest rates, credit margins, inflation rates and foreign exchanges rates;
- the performance or financial position of the Company;
- movements in the market price of equity and/or other debt issued by the Company or by other issuers;
- changes in investor perceptions and sentiment in relation to the Company, the industries in which it invests, or the Australian and international financial markets; and
- other major Australian or international events such as hostilities and tensions and acts of terrorism.

MVT Notes may trade at a market price below the Face Value from time to time and the market price may be more sensitive than that of equity (including Shares) to changes in interest rates, credit margins and other market prices.

The liquidity of MVT Notes may be low

The market for MVT Notes may not be liquid and may be less liquid than that of equity (including Shares).

If liquidity is low, there is a risk that, if you wish to sell your MVT Notes prior to the Maturity Date, you may not be able to do so at the Issue Price or an acceptable price, or at all.

The Company may amend the Terms

The Company may amend the Terms in two ways:

- without the consent of MVT Noteholders but with the approval of the MVT Note Trustee and subject to compliance with relevant laws — if the amendment is of a formal, technical or minor nature; to cure an ambiguity or correct any manifest error; or necessary or expedient to comply with any applicable law; or
- with the consent of MVT Notes Noteholders — by a Special Resolution being passed.

In both cases, the Terms of all MVT Notes will be amended. However, in particular in the latter case, MVT Noteholders who did not vote with the majority will be subject to the amended Terms which may not coincide with their individual preferences.

Breach of Trust Deed not always an Event of Default

The Issuer has given undertakings to the MVT Note Trustee under the Trust Deed. These include obligations imposed by Chapter 2L of the Corporations Act. A failure to comply with these obligations (such as a material breach of the Trust Deed) may fall within the definition of Event of Default, entitling the MVT Note Trustee to require early Redemption of MVT Notes. If the Company fails to comply with its obligations under the Trust Deed, the rights of the MVT Note Trustee are limited to contractual rights and rights at common law and in equity. These rights include the right to seek to recover damages suffered by MVT Noteholders as a result of any breach and may in some circumstances include the ability to seek an order for specific performance of the obligations of the Company under the Trust Deed.

The MVT Note Trustee is restricted from taking action to wind-up the Issuer under the Trust Deed.

5.3. Risks Specific to the Business

Key person risk

The success and profitability of the Company in large part depends upon the retention of key personnel including the Chairman and the Executive Director, who have responsibility for managing its portfolio and implementing the investment strategy.

The Board monitors the Company's investments and applies the investment principles the Chairman has developed (see Section 2.14). The Chairman and the Executive Director manage the portfolio of the Company on a day-to-day basis, under the oversight of the Board. As the Company's investments are managed internally, there is no set investment mandate, or restrictions on investment management.

No external predictability to investment decisions

The Company is able to take up investment opportunities it deems appropriate, as, when, and where they arise. The Company has no set investment mandate, or restrictions on investment management. The Company's investments are not restricted by size or market capitalisation, whether the relevant entities are listed or unlisted, their industry, geographic location (although the Company's current portfolio is dominated by Australian and New Zealand entities) or any other characteristic. The investments held by the Company at any time may vary widely from those disclosed in Section 3.4.

Foreign exchange risk

As at the date of this Prospectus the Company holds approximately 26% of the value of its portfolio in assets domiciled outside Australia. The value of the Australian dollar has been subject to significant fluctuations in the past and may be subject to significant fluctuations in the future.

The Company does not currently intend to hedge, but at its absolute discretion may hedge, the potential foreign exchange impact of raising MVT Notes in Australian dollars.

Historical cash flows

The Company's investment portfolio generates cash flow in two key ways:

- purchase and sale of securities; and
- dividends, distributions and other forms of investment income.

Cash flows may be adversely affected by a number of factors including movements in the market value of the Company's investments in listed securities, as well as interest, dividends and other income received during the year, as well as gains on disposal of assets. The Company is not able to guarantee gains on divestment of portfolio assets, or indeed any other form of investment income. That income is subject to a wide range of variables relating to the underlying investments, making this aspect of the Company's cash flow irregular and inconsistent.

The ability of the Company to pay Interest on the MVT Notes will depend, among other things, on the Company, generating investment income, maintaining sufficient cash balances, entering alternative debt or equity funding arrangements, and disposal of assets. Similarly, the ability of the Issuer to repay the Face Value at maturity will depend upon the Issuer having access to funds from the sources set out above or any replacement financing package obtained by MVT by that date. There can be no certainty that the operating cash flow derived by the Company and its controlled entities will be sufficient to meet obligations to pay Interest and that it will have sufficient assets to redeem the Face Value of the MVT Notes at maturity.

Australian and New Zealand taxation laws and accounting standards

Changes to accounting standards or taxation laws may affect the reported earnings and financial position of the Issuer.

Other tax considerations

Changes in government legislation, including changes to taxation laws in the New Zealand and Australia, and changes in interpretation of the tax legislation by the New Zealand or Australian tax authorities, may affect future earnings and the relative attractiveness of investing in the Issuer.

Borrowing risk

It is important to note that borrowing may increase the potential return of the Issuer but may also increase its potential losses.

Refinancing risk

MVT Noteholders are exposed to the risk that the Issuer and its subsidiaries may not be able to refinance debt facilities it may enter into as they fall due, or that refinancing is only available on terms materially less favourable.

Future acquisitions

The Issuer intends to continue to acquire financial assets, including by way of takeover. The rate at which this occurs will depend on market conditions and the availability of suitable opportunities on appropriate terms at the time. There can be no guarantee that suitable opportunities will arise in future.

5.4. General / other risks

Macroeconomic risks

The value of the assets of the Company can be affected by changes in various macroeconomic conditions. Changes in the Australian or international economic, technological, political or regulatory environment, as well as inflation and market sentiment, can have a negative or positive impact on asset values.

There is no way the Company can reliably predict any such changes. Should they occur, the Company will at that time seek to develop and implement strategies to mitigate those risks. The Company seeks to mitigate the impact of macroeconomic risks through prudent and careful evaluation and selection of investments.

Regulatory risk

Changes in Government legislation, regulation and policy may affect future earnings and values of assets held by the Company. Changes in accounting standards may also affect the reported earnings and financial position of the Company in future financial periods. There is no way the Company can reliably predict any such changes. Should such risks emerge, the Company will at that time, seek to develop and implement strategies that might mitigate those risks.

Taxation risk

Changes to the taxation laws and policies in Australia, New Zealand or other relevant jurisdiction might adversely impact the Company and/or MVT Noteholders. There is no way the Company can reliably predict or control any such changes.

Counterparty risk

There is a risk that counterparties which deal with the Company do not perform their obligations which may affect the value of, and returns from, the Company's assets and its ability to service and/or repay the MVT Notes. The Company seeks to reduce these risks by carefully managing its engagement with counterparties.

No guarantee

Neither the Issuer, nor any other person gives a guarantee regarding the payment of interest or principal of MVT Notes.

Litigation risk

In the course of its operations, the Company may be involved in disputes and litigation. The extent of those disputes and litigation cannot be ascertained at this time, but there are risks that costly disputes or litigation may adversely affect the profitability of the Company, value of its assets and ability to service and/or repay MVT Notes.

Force majeure

Force majeure is the term generally used to refer to an event beyond the control of any party, including acts of God, fire, floods, earthquakes, hurricanes, blizzards, wars and strikes. These events may adversely affect the Company and/or MVT Noteholders.

6. Australian tax considerations

6.1. Australian tax considerations

This section of the Prospectus provides a general summary of the key Australian income tax consequences for individuals, companies and complying superannuation entities who subscribe for MVT Notes under the Offer and hold the MVT Notes on capital account for Australian tax purposes.

(a) Qualifications

This summary does not take into account the Australian tax consequences for MVT Noteholders who acquire the MVT Notes otherwise than under the Offer, or acquire the MVT Notes in the course of trading or dealing in securities or otherwise hold the MVT Notes on revenue account or as trading stock. In addition, this summary does not take into account the potential application of the Taxation of Financial Arrangement (**TOFA**) rules which may apply to a MVT Noteholder, depending on the MVT Noteholder's individual circumstances.

This is a general summary only and is not intended to be and should not be taken as definitive Australian tax advice to a MVT Noteholder and does not consider all possible circumstances that may affect the position of each MVT Noteholder. Applicants should be aware that the actual Australian tax implications of investing in the MVT Notes may differ from those summarised in this Prospectus, depending on their individual circumstances. It is therefore recommended that Applicants seek independent professional advice having regard to their own specific circumstances in considering an investment in the MVT Notes.

This summary is based on the Australian tax laws, regulations and administrative practice of the Australian Taxation Office as at the date of this Prospectus. Applicants should be aware that any changes (with either prospective or retrospective effect) to the tax laws, regulations and/or administrative practices may affect the tax treatment of the Company and the MVT Noteholders as described in this Prospectus.

(b) Interest payable on MVT Notes

Debt interest

The MVT Notes are a debt interest under the debt/equity borderline rules, which means that interest payable on the MVT Notes will be treated as "interest", rather than as dividends.

Australian residents

Australian residents and non-Australian residents (who hold the MVT Notes in the course of carrying on business at or through a permanent establishment in Australia) will be required to include interest in their assessable income.

Non-residents

Interest payable on the MVT Notes to non-Australian residents or Australian residents (who hold the MVT Notes in the course of carrying on business at or through a permanent establishment offshore) will be exempt from Australian interest withholding tax (**IWT**) where the conditions for exemption (summarised below) are satisfied. Where the conditions for exemption are not satisfied, IWT will apply at a rate of 10%.

Interest withholding tax exemption

Currently, Australian tax law provides an exemption from IWT for certain publicly offered debentures, such as MVT Notes, where the following broad conditions are met:

- the issuer is a company that is an Australian resident for tax purposes (such as the Company) when it issues MVT Notes and when interest on MVT Notes is paid;
- the issue of MVT Notes satisfies the "public offer test" in section 128F of *the Income Tax Assessment Act 1936* (Cth) because, in particular:

- (a) they are accepted for listing on a stock exchange where there was a prior agreement with a dealer, manager or underwriter in relation to the placement of the MVT Notes, requiring MVT to seek such listing; and
- (b) the Company, at the time of issue, does not know, or have reasonable grounds to suspect, that MVT Notes or interests in MVT Notes were being, or would later be, acquired, directly or indirectly, by an associate of the Company that is a non-resident who is not carrying on a business in Australia at or through a permanent establishment of the associate in Australia (or who is a resident of Australia carrying on business at or through a permanent establishment outside Australia), other than in the capacity of a dealer, manager or underwriter in relation to a placement of MVT Notes or in the capacity of a clearing house, custodian, funds manager or responsible entity of a registered scheme within the meaning of the Corporations Act.

The IWT exemption will also not apply to interest paid by the Company to a person in respect of the MVT Notes if, at the time of the payment, the Company knows, or has reasonable grounds to suspect, that the person is an associate of the Company and the associate does not receive the payment in the capacity of a clearing house, paying agent, custodian, funds manager or responsible entity of a registered scheme and either:

- the associate is a non-resident of Australia and the interest payment is not received in respect of the MVT Notes that the associate acquired in carrying on a business in Australia at or through a permanent establishment of the associate in Australia; or
- the associate is a resident of Australia and the interest payment is received in respect of the Notes that the associate acquired in carrying on a business in a country outside Australia at or through a permanent establishment of the associate in that country.

The MVT Notes should satisfy the above conditions such that interest payments on the MVT Notes are exempt from IWT.

(c) Redemption of MVT Notes

Where MVT Noteholders receive accrued interest on redemption of the MVT Notes, the Australian income tax consequences should be as described in Section 6.1(b) above.

Where the MVT Note is Redeemed for an amount less than the Face Value, the MVT Noteholder may be entitled to claim a deduction on revenue account for the loss on redemption provided that the redemption is undertaken on an arm's length basis.

However, a loss on redemption of MVT Notes should not be deductible if:

- MVT Notes were not acquired in the ordinary course of trading on a securities market; and
- at the time the Noteholder acquired the MVT Note, it was not open to the Noteholder to acquire an identical security in the ordinary course of trading on a securities market; and
- having regard to the financial position of the Issuer, and perceptions of the financial position of the Issuer, and other relevant matters, it would be concluded that the redemption of the MVT Note took place for the reason (or for reasons that included the reason) that there was an apprehension or belief that the Issuer was or would be likely to be, unable or unwilling to discharge all liability to pay amounts under the MVT Note.

Where a deduction is not available, the MVT Noteholder should be entitled to claim a capital loss.

(d) Sale of MVT Notes

Where the MVT Note is sold for an amount greater than the Face Value, the MVT Noteholder will be required to include the gain on disposal (calculated as the difference between the sale price and the Face Value) in their assessable income.

Where the MVT Note is sold for an amount less than the Face Value, the MVT Noteholder may be entitled to claim a deduction on revenue account for the loss on disposal provided that the disposal is undertaken on an arm's length basis. However, a deduction will not be available if:

- MVT Notes were not acquired in the ordinary course of trading on a securities market; and
- At the time the MVT Noteholder acquired the MVT Note, it was not open to the MVT Noteholder to acquire an identical security in the ordinary course of trading on a securities market; and
- the disposal did not take place in the ordinary course of trading on a securities market; and
- having regard to the financial position of the Issuer, perceptions of the financial position of the Issuer and any other relevant matters, it could be concluded that the MVT Note was disposed of for the reason (or for reasons that included the reason) that there was an apprehension or belief that the Issuer was or would be likely to be, unable or unwilling to discharge all liability to pay amounts under the MVT Note.

Where a deduction is not available, the MVT Noteholder should be entitled to claim a capital loss.

(e) Quotation of Australian Business Numbers or Tax File Numbers

The Issuer is required to deduct Pay-As-You-Go withholding tax from interest paid to MVT Noteholders at the highest marginal tax rate, including the Medicare Levy (currently 49%) if the MVT Noteholder has not quoted either their Tax File Number or Australian Business Number and none of the relevant exemptions apply. MVT Noteholders should generally be entitled to an income tax credit for any such tax withheld.

(f) Stamp Duty

No stamp duty should be payable in Australia on the issue, redemption or disposal of the MVT Notes.

(g) GST

The acquisition, disposal and redemption of MVT Notes should not be subject to GST.

7. Additional Information

7.1. No material breaches of loan covenants or debt obligations

The Issuer and other members of the MVT Group have not materially breached any loan covenants or debt obligations in the two years prior to the date of this Prospectus.

7.2. Compliance with Chapter 2M and section 674 of the Corporations Act

As at the date of this Prospectus, the Company has complied with the provisions of Chapter 2M of the Corporations Act as they apply to the Company, and section 674 of the Corporations Act in each case in all material respects.

7.3. Information excluded from continuous disclosure

While MVT is listed on the ASX, under the ASX Listing Rules, certain information may be excluded from being disclosed under MVT's continuous disclosure obligations.

As at the date of this Prospectus there is no information about MVT that has not been disclosed under MVT's continuous disclosure obligations that:

- (a) is information that investors and their professional advisors would reasonably require to make an informed assessment of:
 - (i) the assets and liabilities, financial position and performance, profits and losses and prospects of MVT; and
 - (ii) the rights and liabilities attaching to the MVT Notes, and
- (b) is reasonable for investors, and their professional advisors, to expect to find in this Prospectus.

7.4. MVT Note Trust Deed

The Company and the MVT Note Trustee have entered into a trust deed, constituted under New South Wales law, and dated on or about 19 May 2016 (**Trust Deed**) which includes the Terms as a schedule. The Terms are also set out in Annexure A.

The Issuer will provide a copy of the Trust Deed upon request free of charge to potential investors during the period until the Issue Date and thereafter to MVT Noteholders who request a copy. A copy of the Trust Deed can be obtained free of charge by any person during the Offer Period, from www.mercantileinvestment.com.au.

The MVT Note Trustee has agreed to act as the trustee for the MVT Noteholders (as described below) under the terms of the Trust Deed. The MVT Notes will be issued subject to the terms and conditions of the Trust Deed.

The MVT Note Trustee is not responsible for monitoring compliance by the Company with its covenants and obligations under the Trust Deed or any other activities or status of the Issuer except as required by law. In this regard, the MVT Note Trustee is subject to certain statutory duties imposed on it under Chapter 2L of the Corporations Act including:

- (a) to exercise reasonable diligence to ascertain whether:
 - (i) the property of the Company that is or should be available will be sufficient to repay the amounts lent by MVT Noteholders in respect of the MVT Notes;
 - (ii) the Company has breached the Terms, the Trust Deed or the provisions of Chapter 2L of the Corporations Act; and

- (b) unless the MVT Note Trustee is satisfied the breach will not materially prejudice MVT Noteholders, it must do everything in its power to ensure the Issuer remedies such a breach.

While other duties of the MVT Note Trustee are set out in Chapter 2L of the Corporations Act, the following is a summary only of the principal provisions of the Trust Deed:

Priority of the MVT Note Trustee

All moneys that are received by the MVT Note Trustee under the Trust Deed will be applied first in payment of any amounts owing to the MVT Note Trustee in connection with the Trust Deed, the MVT Notes or any Additional Transaction Documents, secondly in payment of any amounts owing to an appointee under the Trust Deed, being a receiver, receiver and trustee, official trustee, liquidator, administrator or similar official appointed to the Issuer or its assets, and thirdly in or towards payment of all amounts due and payable under each MVT Note by the Issuer under the Trust Deed equally and without preference or priority amongst the relevant MVT Noteholders.

The balance (if any) of the money remaining after those payments will be returned to the Issuer.

Appointment of MVT Note Trustee and declaration

The MVT Note Trustee holds on trust for MVT Noteholders:

- (a) the sum of \$10;
- (b) all right, title and interest vested in the MVT Note Trustee in, to and under the Trust Deed, including all rights and benefits under them;
- (c) the benefit of all undertakings, covenants, agreements, representations and warranties made or given or agreed to or in favour of, or granted to or for the benefit of, the MVT Note Trustee under the Trust Deed;
- (d) the right to enforce the Company's duty to repay the aggregate Face Value on the MVT Notes, any Interest and any other moneys payable to the MVT Note Trustee or the MVT Noteholders under the Trust Deed;
- (e) the right to enforce any other duties that the Issuer has under the Terms, the Trust Deed or Chapter 2L of the Corporations Act;
- (f) all money paid to the MVT Note Trustee under the Trust Deed in its capacity as trustee of the MVT Notes Trust;
- (g) the net proceeds of all money received or recovered by the MVT Note Trustee under the Trust Deed and Chapter 2L of the Corporations Act whether by enforcement or otherwise (after deduction of fees, costs, charges, expenses and other amounts paid or incurred in accordance with the Trust Deed and Chapter 2L of the Corporations Act);
- (h) the benefit of all claims, actions and demands arising in respect of the powers conferred on the MVT Note Trustee, a MVT Noteholder, or an Attorney or Controller (each as defined in the Trust Deed) appointed under the Trust Deed or any applicable law; and
- (i) all other property acquired by the MVT Note Trustee and intended to be held for the benefit of the MVT Noteholders or the MVT Note Trustee from time to time on the terms and conditions of the Trust Deed.

The Company's obligations

The Company is obliged, among other things, to:

- (a) pay the amounts due and payable in respect of the MVT Notes under and in accordance with the Trust Deed;

- (b) comply with its obligations under the Terms;
- (c) comply with all statutory and regulatory requirements applicable to it (including under the ASX Listing Rules and under Chapter 2L of the Corporations Act) to the extent they relate to obligations under the Trust Deed.

MVT Note Trustee undertakings

The MVT Note Trustee has undertaken that it will, among other things:

- (a) act continuously as trustee of the trust declared under the Trust Deed until the earlier of that trust being terminated, or the retirement or removal of the MVT Note Trustee in the manner provided for under the Trust Deed or the Corporations Act;
- (b) subject to being indemnified to its satisfaction, if the MVT Note Trustee becomes actually aware of the occurrence of an Event of Default, promptly convene a meeting of MVT Noteholders to seek directions from the MVT Noteholders in the form of a Special Resolution as to the action it should take in relation to the Event of Default;
- (c) comply with its duties under Chapter 2L of the Corporations Act;
- (d) act honestly and in good faith;
- (e) not interfere with the conduct of the business of the Company except to the extent necessary to comply with the MVT Note Trustee's obligations under the Corporations Act or the Transaction Documents; and
- (f) keep appropriate records and keep the assets held by the MVT Note Trustee on trust for the MVT Noteholders separate from all other assets of the MVT Note Trustee.

MVT Note Trustee limitation of liability and indemnity

The MVT Note Trustee is not liable to the Company, the MVT Noteholders or any other person in any capacity other than as trustee under the Trust Deed. The MVT Note Trustee, its officers, directors, employees, attorneys and affiliates are entitled to be indemnified by the Issuer and out of the property of the MVT Notes Trust in respect of, among others, all costs, losses, expenses, demands or claims suffered by the MVT Note Trustee under or in connection with the Trust Deed, Terms, or Additional Transaction Documents.

Action by MVT Note Trustee

The MVT Note Trustee is required at all times, to act in accordance with its obligations under the Terms, the Trust Deed, the Corporations Act and applicable material law.

Subject to the Trust Deed, the Terms and the Additional Transaction Documents, the MVT Note Trustee need not take any action to enforce the early redemption rights available on default under the Terms, or exercise any other power, right or discretion under the Trust Deed, unless all of the following conditions are met:

- (a) the MVT Note Trustee is requested to take action by a Special Resolution; and
- (b) the MVT Note Trustee is indemnified to its satisfaction against all costs, charges, liabilities and expenses which the MVT Note Trustee may incur in taking the action; and
- (c) the MVT Note Trustee is not restricted or prohibited by any order of any competent court or any applicable law.

If the MVT Note Trustee forms the view that such action directed by Special Resolution is or could be inconsistent with the Trust Deed, Note Terms, the Corporations Act or any other applicable law, it may take steps to seek a court direction to set aside or vary the Special Resolution. While the process to obtain a court direction is underway, the MVT Note Trustee is not obliged to act under the Special Resolution.

Direct action by MVT Noteholder

No MVT Noteholder is entitled to proceed directly against the Company to enforce any right or remedy under or in respect of any the MVT Notes, unless the MVT Note Trustee, having become obliged to proceed, fails to do so within 20 Business Days and such failure is continuing. Any action that the MVT Noteholder takes must be in its own name and not in the name of the MVT Note Trustee.

Fees and expenses

Under the Trust Deed, the Company will pay the MVT Note Trustee by way of a fee for its services such amounts as may be agreed between the Company and the MVT Note Trustee. The Company will also pay the MVT Note Trustee's costs and expenses arising out of, among other things, the MVT Note Trustee acting as trustee under the Trust Deed (including reasonable legal fees, costs and disbursements) as well as additional fees for any enforcement action that the MVT Note Trustee takes in relation to the Trust Deed following the occurrence of an Event of Default or any duties agreed by the Company to be outside the scope of the normal duties of the MVT Note Trustee.

Retirement and removal

The MVT Note Trustee may retire by giving written notice to the Issuer, which will not be effective until 2 months after the date of the notice has passed and provided that the appointment of a new trustee is effective.

The Company may remove the MVT Note Trustee and appoint a new trustee in its place if:

- (a) any of the events referred to in section 283BD of the Corporations Act occur in relation to the MVT Note Trustee;
- (b) the MVT Note Trustee is liquidated;
- (c) the MVT Note Trustee is in material breach of any of its obligations under this Trust Deed, the Terms or any Additional Transaction Document and:
 - (i) the breach is not capable of remedy; or
 - (ii) the breach is capable of remedy and has not been remedied within 10 Business Days after receiving written notice of the default from the Issuer requiring that the default be remedied;
- (d) the MVT Note Trustee ceases to carry on business;
- (e) a receiver, receiver and trustee, official trustee, liquidator, administrator or similar official is appointed to the MVT Note Trustee; or
- (f) any license, consent, authorisation, permit or similar thing the MVT Note Trustee is required to hold to carry out its obligations and duties under or in respect of the Trust Deed is revoked or not renewed.

If the Company fails to appoint a new trustee within the notice period (in the case of the MVT Note Trustee's retirement), or otherwise within 14 days of the Company's removal of the MVT Note Trustee becoming effective, the MVT Note Trustee may, so long as the Issuer has not made an appointment, appoint a new trustee without the further approval of the Issuer or MVT Noteholders.

Meetings

The MVT Note Trustee or the Company may at any time convene a meeting of the MVT Noteholders and must do so if required by the Corporations Act or the Trust Deed. The Trust Deed contains a process to allow MVT Noteholders holding not less than 10%, in terms of the aggregate Face Value of the MVT Notes on issue at the time of the direction, to direct the MVT Note Trustee to convene a meeting of MVT Noteholders for certain purposes.

A meeting of MVT Noteholders has the power, by MVT Noteholder Resolution or by Special Resolution in circumstances required by the Trust Deed to:

- (a) give directions to the MVT Note Trustee (by Special Resolution) to require it to take action under the Terms where there has been an Event of Default (provided certain conditions are met);
- (b) sanction the release of the Company from all or part of its liability to pay the principal moneys and interest owing on any Notes;
- (c) in accordance with the Corporations Act, approve the release of the MVT Note Trustee from liability for anything done or omitted to be done by the MVT Note Trustee.

MVT Noteholder resolutions are decided on a show of hands unless a poll is demanded. On a poll, each MVT Noteholder is entitled to one vote for each \$1 of paid up Face Value of the MVT Notes they hold.

Alteration

Subject to all applicable laws, the Company and the MVT Note Trustee may jointly amend the Trust Deed:

- (a) under a MVT Noteholder Resolution or Special Resolution, as applicable; or
- (b) without the consent of MVT Noteholders, if the Company and the MVT Note Trustee are each of the opinion that such amendments are:
 - (i) of a formal or technical or minor nature;
 - (ii) made to cure any ambiguity or correct any manifest error;
 - (iii) necessary or expedient to enable the MVT Notes to be listed on any stock exchange or offered for subscription or for sale under applicable laws; or
 - (iv) necessary to comply with the provisions of any statute or requirements of any statutory authority or the requirements of any securities exchange on which the Issuer may propose to seek listing of the MVT Notes,
- (c) and, in the case of items (b)(iii) and (b)(iv) above, the Company has provided to the MVT Note Trustee or the MVT Note Trustee has obtained a legal opinion in form and substance satisfactory to the MVT Note Trustee (acting reasonably), addressed to the MVT Note Trustee or otherwise able to be relied on by the MVT Note Trustee from legal advisors of recognised standing in New South Wales opining that such amendment (taken as a whole and in conjunction with all other modifications, if any, to be made contemporaneously with that modification) is otherwise not materially prejudicial to the interests of MVT Noteholders as a whole.

Issue of further MVT Notes

The Company may issue further MVT Notes, without the consent of MVT Noteholders, having the same Terms (except in relation to the Issue Date, the first Interest Period, the first Interest Payment Date and the amount to be paid in respect of the first payment of Interest). Those notes shall be consolidated and form a single series and rank equally with the MVT Notes then outstanding.

7.5. Other documents relevant to the Offer

Section 712 of the Corporations Act provides that instead of setting out information that is contained in a document that has been lodged with ASIC, a prospectus may simply refer to the document. The following documents lodged with ASIC may be relevant to the Offer:

- the Issuer's full consolidated financial report for the full year ended 30 June 2014, contained in the ASX announcement dated 26 September 2014. Information that may be relevant includes the Directors' Report, the Consolidated Statement of Profit or Loss and Other Comprehensive Income, Consolidated Statement of Financial Position and Consolidated Statement of Cash Flows;

- the Issuer's restated full consolidated financial report for the full year ended 30 June 2015, contained in the ASX announcement dated 5 April 2016. Information that may be relevant includes the Director's Report, the Consolidated Statement of Profit or Loss and Other Comprehensive Income, Consolidated Statement of Financial Position and the Consolidated Statement of Cash Flows;
- the Issuer's restated half-year report for the half-year ending 31 December 2015 contained in the ASX announcement dated 11 April 2016. Information that may be relevant includes the Directors' Report, the Consolidated Statement of Profit or Loss and Other Comprehensive Income, Consolidated Statement of Financial Position and Consolidated Statement of Cash Flows; and
- the Trust Deed.

The information in each document is incorporated by reference into this Prospectus. The Company will provide a copy of these documents free of charge to any person who requests a copy during the Offer Period.

7.6. US Persons

MVT Notes have not been and will not be registered under the US Securities Act or the securities laws of any state or other jurisdiction of the United States. They may not be offered or sold, directly or indirectly, in the United States or to, or for the account or benefit of, any US Person, unless an exemption from such registration applies. Any offer, sale or resale of MVT Notes within the United States by any dealer (whether or not participating in the Offer) may violate the registration requirements of the US Securities Act if made prior to 40 days after the Closing Date or if purchased by a dealer in the Offer.

The Prospectus does not constitute an offer to sell, or the solicitation of an offer to buy, any securities in the United States or to, or for the account or benefit of, any US Person. Neither this Prospectus nor any Application Forms or other materials relating to the Offer may be distributed in the United States.

Each Applicant in the Offer will be taken to have represented, warranted and agreed on behalf of itself and each person for whom it is applying for MVT Notes as follows:

- it is not located in the United States at the time of application and it is not, and is not acting for the account or benefit of, any US Persons;
- it has not distributed this Prospectus or any other written materials concerning the Offer to any person in the United States or to any US Persons; and
- it understands that the MVT Notes have not been and will not be registered under the US Securities Act and may not be offered or sold, directly or indirectly, in the United States or to, or for the account or benefit of, any US Person, unless an exemption from such registration applies.

7.7. MVT Note Trustee's privacy policy

The MVT Note Trustee may collect your personal information for the primary purpose of providing trustee services to the Issuer and for ancillary purposes detailed in its privacy policy. The MVT Note Trustee may disclose your personal information, such as your name and contact details, along with your account information to its related bodies corporate, the Issuer, professional advisors, the land titles office and/or as otherwise instructed by the Issuer.
