

Xped Limited

Company Update

Xped Limited (**ASX: XPE**) (“Xped” or “the Company”) wishes to provide a Company Update:

HIGHLIGHTS

- LAUNCH OF APP IN iOS & ANDROID STORES AHEAD OF SCHEDULE
- XPED & TELINK JOINT MARKETING EFFORTS OPEN OPPORTUNITIES IN AUTOMOTIVE ACCESSORY & SMART HOME LIGHTING MARKETS
- DEVELOPMENT WITH AUTOMOTIVE ACCESSORY COMPANY FOR POTENTIAL LARGE SCALE ROLL OUT
- XPED CONTINUES TO REVIEW PRESENTED OPPORTUNITIES

LAUNCH DATE FOR iOS & ANDROID STORES

The Company is delighted to announce that final stage software development for Xped’s “DEVICE BROWSER” APP is progressing well and the company is well on track to launch native versions of Xped’s “Device Browser” APP in the Apple and Google Play stores during September.

Xped Limited

CUSTOMER & BUSINESS DEVELOPMENT UPDATE

Following recent Business Development meetings the Company has been requested to develop a Bluetooth® solution for a potential high volume automotive audio accessory product offering.

Xped is now currently finalising software integration and design for this automotive audio accessory product and the Company expects to demonstrate its solution to the client during August. The prospective client (consumer electronics manufacturer) has seen the potential in the Xped "Device Browser" APP and ADRC platform.

In addition Xped is in the final stages of development for a smart home lighting solution that will be presented to a "Tier 1" manufacturer in the near future.

The above mentioned opportunities highlight some of the first joint marketing efforts that Xped and Telink are collaborating on.

Xped will now aim to progress these opportunities for both first revenue and active subscriber uptake for its "Device Browser" APP.

REVIEWING OPPORTUNITIES

The Company would like to advise that it is presently reviewing complimentary opportunities that have been presented to the Company in the IoT sector over the past months.

The Company will continue to update the market as these opportunities unfold.

By Order of the Board

Xped Limited

ABOUT XPED

Xped has developed revolutionary and patent protected technology that allows any consumer, regardless of their technical capability, to connect, monitor and control devices and appliances found in our everyday environment. It's as simple as two people shaking hands. By enabling the Internet of Things, Xped's ADRC platform will bring benefit to Manufacturers, Retailers, Service Providers and Consumers.

At Xped, we're **Making Technology Easy Again**
