Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
2. The definitions in, and provisions of, *AASB 1026: Statement of Cash Flows* apply to this report except for the paragraphs of the Standard set out below.
 - 6.2 - reconciliation of cash flows arising from operating activities to operating profit or loss
 - 9.2 - itemised disclosure relating to acquisitions
 - 9.4 - itemised disclosure relating to disposals
 - 12.1(a) - policy for classification of cash items
 - 12.3 - disclosure of restrictions on use of cash
 - 13.1 - comparative information
3. **Accounting Standards.** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.

+ See chapter 19 for defined terms.

Notes Attached to this Report

During the quarter the board had anticipated finalising and settling one of a number of offers in relation to the second half of its joint venture, unfortunately the market conditions have slowed the enthusiasm of buyers at this time. Interested buyers remain in discussions with our agent and we are hopeful this will be finalised during the June quarter allowing us to pursue our next venture.

The Board continues to seek out potential parties and large developers who may want to participate on a joint venture basis in line with the company's preferred strategy of multiple dwelling developments incorporating steel framing construction. The Board also engaged in discussions with non-related business owners and/or vendors of which to date have been inconclusive. If any progress eventuates we will advise the market after discussions with the ASX.

The company remains operationally constrained to pursue its preferred strategy due to its financial position, however a capital raising remains under consideration by the Board if deemed warranted to pursue opportunities that may arise and which the Board forecasts will generate profits that will lead to a meaningful impact on the company's share price.

In the meantime major shareholders, investors and the bank continue to provide and offer their ongoing support to the Company to create value, albeit marginal through its current strategy of smaller sized ventures incorporating steel framing construction.

JV Global Ltd continues to be one of the least expensive run companies on the ASX, with minimal directors' fees, totalling some combined \$72,000 per annum, and the entire administration of the company costing less than \$70,000 per annum.

This austerity will continue until the Directors and management are able to be adequately rewarded for their time, and for the ever increasing liabilities, and responsibilities, attached to being directors of a public company imposed by Politicians, ASX and the ASIC.

The Board will continue to look for other possible opportunities and or diversification of activities as outlined herein as they arise that could add value to the share price, providing they can be pursued within the ASX listing rules and fit the Company's reward to risk ratio requirements. In the meantime, the Company has sufficient liquid and current assets to convert to cash, and access to funds if required, to meet its commitments, as and when required for the next 2 quarters.
