ABOUT Department 13 International Ltd

D13 was founded in Virginia in 2010 by a team of former military operators, scientists and engineers who apply proprietary innovative advanced technology to emerging requirements.

D13 is developing cutting edge software and communication systems that have the potential to transform the networking and communication fields as well as current applications in drone defense, mobile phone IT security and secure enhanced android phone systems.

Department 13 is engaged with multiple counter UAS projects to provide strategic solutions for civil, military and commercial security requirements. Department 13 is competing in the MITRE CUAS Challenge at Marine Corps Base Quantico in August and Blackdart -- the DoD's premier Counter Drone Test Range at Eglin AFB, Florida this September.

D13 has 11 patents and 14 patent applications in the development of wireless protocol manipulation and communication networking software with applications in:

- Drone defense;
- Local area and wide area cellular communications and networking;
- Enhanced data bandwidth for all digital communications;
- Cyber security for mobile devices;
- Sophisticated applications in the RF environment (Radiometrics).
