Appendix 1 Glossary of terms and measures

Except where noted, common terms and measures used in this document are based upon the following definitions: Actual currency/FX Results translated into US dollars at the applicable actual monthly exchange rates ruling in each period. Average Capital Invested (ACI) Average Capital Invested (ACI) is a 12 month average of capital invested. Capital invested is calculated as net assets before tax balances, cash and borrowings but after adjustment for accumulated pre-tax Significant Items, actuarial gains and losses and net equity adjustments for equity-settled share-based payments. Safety performance indicator that measures the combined number of fatalities, lost time injuries, modified duties and medical treatments per million hours worked. Brambles Injury Frequency Rate (BIFR) Brambles Value Added (BVA) Represents the value generated over and above the cost of the capital used to generate that value It is calculated using fixed June 2015 exchange rates as:

- Underlying Profit; plus
- Significant Items that are part of the ordinary activities of the business; less Average Capital Invested, adjusted for accumulated pre-tax Significant Items that are part of the ordinary activities of the business, multiplied by 12%. Unless otherwise stated, capital expenditure is presented on an accruals basis and excludes intangible assets, investments in associates and equity acquisitions. It is shown gross of any fixed asset disposals Capital expenditure (capex) Cash flow generated after net capital expenditure but excluding Significant Items that are outside the ordinary course of business. $\frac{1}{2} \left(\frac{1}{2} \right) = \frac{1}{2} \left(\frac{1}{2} \right) \left($ Cash Flow from Operations Current period results translated into US dollars at the actual monthly exchange rates applicable in the comparable period, so as to show relative performance between the two periods before the translation impact of currency fluctuations. Appendix 1 Glossary of terms and measures (continued)

DIN	The sum in a period of: Depreciation expense; Irrecoverable Pooling Equipment Provision expense; and Net book value of compensated assets and scraps (disposals). Used as a proxy for the cost of leakage and scraps in the income statement and estimating replacement capital expenditure.
Earnings per share (EPS)	Profit after tax, minority interests and Significant Items, divided by weighted average number of shares on issue during the period.
Earnings before interest, tax, depreciation and amortisation (EBITDA)	Operating profit from continuing operations after adding back depreciation and amortisation and Significant Items outside the ordinary course of business.
Free Cash Flow	Cash flow generated after net capital expenditure, finance costs and tax, but excluding the net cost of acquisitions and proceeds from business disposals.
Irrecoverable Pooling Equipment Provision (IPEP)	Provision held by Brambles to account for pooling equipment that cannot be economically recovered and for which there is no reasonable expectation of receiving compensation.
