

Oneview Healthcare PLC enters new agreement with Thomas Holt for assisted living solution

Sydney, Friday 19 August 2016. Oneview Healthcare PLC (ASX:ONE) the Australian listed Irish healthcare company today announced the signing of a contract for the design and installation of Oneview's senior living solution at Thomas Holt's new assisted living facility at Kirrawee, NSW.

The agreement provides for Oneview, to complete initial design and to install its assisted living solution in 120 rooms at the facility for a period of up to five years.

Mark McCloskey, Founder and President of Oneview, commented "We are delighted to be continuing to partner with some of the most innovative senior living organisations in the world and look forward to working with Thomas Holt to demonstrate the power of the Oneview platform."

Thomas Holt CEO Alexandra Zammit said "At Thomas Holt we aim to be at the forefront of enabling technology in our service offering and delivery. Our partnership with Oneview ensures we have access to leading edge technology allowing us to respond quicker, offer better service, and more effectively manage all our resources which ultimately results in better care of all our clients particularly those living with dementia and that's what matters."

About Thomas Holt:

Thomas Holt is a not-for-profit boutique company focused on delivering aged care services. It proudly employs over 150 staff who provide a wide range of services for over 300 elderly people in the St George and Sutherland Shire. From retirement living and home care services, to 24 hour care, Thomas Holt focus on delighting their clients to live their life with choice independence and wellbeing.

Oneview continues to execute its business plan after successfully listing on the Australian Stock Exchange in March 2016. The IPO raised A\$62.4 million for Oneview, which currently has an undiluted market capitalisation of approximately A\$309 million as at 18 August 2016.

About Oneview Healthcare:

Oneview Healthcare's innovative Patient Engagement and Clinical Workflow Solution seamlessly integrates IT systems onto one high performance technology platform. It provides point-of-care access to those systems across end user devices, including bedside terminal, TV, tablet and smart phone.

Through its services and applications, which include entertainment and interactive resident care services, Oneview assists facilities to optimise resident engagement, clinical outcomes and workflow efficiencies – revolutionizing the resident experience.

The Oneview Solution is now recognised globally as being one of the most innovative patient and resident engagement products in the healthcare market. Testimony to this is the company's partnerships with industry leaders worldwide including Microsoft and its growing list of customers in the USA, Australia and the Middle East.

Oneview commenced operations in 2008 and has offices in Dublin, Chicago, Dubai, Sydney and Melbourne. Oneview Healthcare is headquartered in Dublin, the location for all its R&D and software development.
