The results of the survey are then tabled and discussed by the Board and used to assist decision making with respect to changes to Board processes.

During the year, a review of the Board was undertaken which was led by the Chair. The review involved a questionnaire on the Board's performance against a variety of criteria and sought feedback on areas for improvement. The Board then discussed the results with the focus on areas that could be improved and the steps that will lead to that improvement.

1.7 Performance evaluation of management

The CEO's performance is reviewed by the Chair in consultation with the Board. The CEO takes responsibility for the review of the performance of other senior management personnel. Formal reviews are conducted at least annually.
