Business Update – Key JomSave Project Milestone

a2a GN Limited (**a2a**) is pleased to announce it has successfully launched its Digital Partner web application, an integral component of the **JomSave** application platform. This key milestone is in line with scheduled progress and we remain on budget and on track for a soft launch of JomSave in December 2019.

JomSave is a2a's latest lifestyle mobile application that embodies an eco-sharing concept to benefit consumers, merchants and digital business partners. The program has been well received in various pre-launch seminars and focus group sessions and continues to attract significant investor interest as evidenced by a2a successfully raising over A\$1.7m over recent months.

A further shareholder update on the JomSave project will be in November, when the next key milestone (Digital Partners reward wallet) is expected to be achieved.
