Comments by directors

Comments on the following matters are required by the Exchange or, in relation to the half yearly statement, by AASB 134: Interim Financial Reporting. The comments do not take the place of the directors' report and statement (as required by the Corporations Act) but may be incorporated into the directors' report and statement. For both half yearly and preliminary final statements, if there are no comments in a section, state NIL. If there is insufficient space in comment, attach notes to this statement.

Basis of accounts preparation

If this statement is a half yearly statement, it is a general purpose financial report prepared in accordance with the listing rules and AASB 134: Interim Financial Reporting. It should be read in conjunction with the last annual report and any announcements to the market made by the issuer during the period. This report does not include all notes of the type normally included in an annual financial report [Delete if inapplicable.]

manage in an amanage of the mapping and in a second and in a s
A description of each event since the end of the current period which has had a material effect and is not related to matters already reported, with financial effect quantified (if possible). In a half yearly report, provide explanatory comments about any seasonal or irregular factors affecting operations (as per paragraphs 16(b), 16(b) and Aus 16.1 of AASB 134: Interim Financial Reporting)
Any other factors which have affected the results in the period, or which are likely to affect results in the future, including those where the effect could not be quantified.
Franking credits available and prospects for paying fully or partly franked dividends for at least the next year
Changes in accounting policies, estimation methods and measurement bases since the last annual report are disclosed as follows. (Disclose changes in the half yearly statement in accordance with paragraph16(a) of AASB 134: Interim Financial Reporting. Disclose changes in the preliminary final statement in accordance with paragraphs 28-29 of 108: Accounting Policies, Changes in Accounting Estimates and Errors.)
The Group has adopted AASB 16: Leases retrospectively with the cumulative effect of initially applying AASB 16 recognised at 1 July 2019. In accordance with AASB 16 the comparatives for the 2018 reporting period have not been restated.

An issuer shall explain how the transition from previous GAAP to Australian equivalents to IFRS' affected its reported financial position, financial performance and cash flows. (as per paragraph 38 of AASB 1: First-time Adoption of Australian Equivalents to International Financial Reporting Standards)

Notes

- 1. For announcement to the market The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show the amount of the change up or down. If changes in accounting policies or procedures have had a material effect on reported figures, do not show either directional or percentage changes in profits. Explain the reason for the omissions in the note at the end of the announcement section. Issuers are encouraged to attach notes or fuller explanations of any significant changes to any of the items in page 1. The area at the end of the announcement section can be used to provide a cross reference to any such attachment.
- 2. **True and fair view** If this statement does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the *issuer* must attach a note providing additional information and explanations to give a true and fair view.
- 3. Consolidated statement of financial performance
 - Item 1.1 The definition of "revenue" is set out in AASB 118: Revenue
 - Item 1.6 This item refers to the total tax attributable to the amount shown in *item 1.5*.

 Tax includes income tax and capital gains tax (if any) but excludes taxes treated as expenses from ordinary activities (eg. fringe benefits tax).
- 4. **Income tax** If the amount provided for income tax in this statement differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the issuer must explain in a note the major items responsible for the difference and their amounts. The rate of tax applicable to the franking amount per dividend should be inserted in the heading for the column "Franking rate applicable" for items in *section 9*.
- 5. Consolidated statement of financial position

Format The format of the consolidated statement of financial position should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of *AASB 134: Interim Financial Reporting, and AASB 101: Presentation of Financial Statements.* Banking institutions, trusts and financial institutions may substitute a clear liquidity ranking for the Current/Non-Current classification.

Basis of revaluation If there has been a material revaluation of non-current assets (including investments) since the last annual report, the *issuer* must describe the basis of revaluation adopted. The description must meet the requirements of *AASB 116: Property, Plant and Equipment*. If the *issuer* has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required.

- 6. **Consolidated statement of cash flows** For definitions of "cash" and other terms used in this statement see *AASB 107: Cash Flow Statements. Issuers* should follow the form as closely as possible, but variations are permitted if the *directors* (in the case of a trust, the management company) believe that this presentation is inappropriate. However, the presentation adopted must meet the requirements of *AASB 107*.
- 7. **Net tangible asset backing** Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the ordinary *securities* (i.e. all liabilities, preference shares, outside equity interests, etc). Mining *issuers* are *not* required to state a net tangible asset backing per ordinary *security*.
- 8. **Gain and loss of control over entities** The gain or loss must be disclosed if it has a material effect on the consolidated financial statements. Details must include the contribution

for each gain or loss that increased or decreased the *issuer*'s consolidated operating profit (loss) after tax by more than 5% compared to the previous corresponding period.

- 9. **Equity accounting** If an *issuer* adopts equity accounting, no comparative equity accounting figures are required in the first period following its adoption.
- 10. Rounding of figures This statement anticipates that the information required is given to the nearest \$1,000. However, an *issuer* may report exact figures, if the \$A'000 headings are amended. If an *issuer* qualifies under *ASIC* Class Order 98/0100 dated 15 July 2004, it may report to the nearest million dollars, or to the nearest \$100,000, if the \$A'000 headings are amended.
- 11. Comparative figures Comparative figures are to be presented in accordance with AASB 101: Presentation of Financial Statements or AASB 134: Interim Financial Reporting as appropriate and are the unadjusted figures from the last annual or half year report as appropriate. However, if the previously reported figures are adjusted to achieve greater comparability, in accordance with an accounting standard or other reason, a note explaining the adjustment must be included with this statement. If no adjustment is made despite a lack of comparability, a note explaining the position should be attached.
- 12. Additional information An issuer may disclose additional information about any matter, and must do so if the information is material to an understanding of the financial statements. The information may be an expansion of the material contained in this statement, or contained in a note attached to the statement. The requirement under the listing rules for an issuer to complete this statement does not prevent the issuer issuing statements more frequently. Additional material lodged with the ASIC under the Corporations Act must also be given to the Exchange. For example, a directors' report and declaration, if lodged with the ASIC, must be given to the Exchange.
- 13. **Accounting Standards** the *Exchange* will accept, for example, the use of International Accounting Standards for *foreign issuers*. If the standards used do not address a topic, the Australian standard on that topic (if one exists) must be complied with.
- 14. **Borrowing corporations** This statement may be able to be used by an *issuer* required to comply with the *Corporations Act* as part of its half yearly financial statements if prepared in accordance with Australian Accounting Standards.
- 15. **Details of expenses** AASB 101: Presentation of Financial Statements requires disclosure of expenses according to either their nature or function. For foreign entities, there are similar requirements in other accounting standards accepted by the Exchange. Issuers must disclose details of expenses using the layout (by nature or function) employed in their accounts.

The information in items 7.1 - 7.2 may be provided in an attachment to Appendix 3

Relevant items AASB 101: Presentation of Financial Statements requires the separate disclosure of specific revenues and expenses which are of a size, nature or incidence that disclosure is relevant, as defined in AASB 101, in explaining the financial performance of the issuer. There is an equivalent requirement in AASB 134: Interim Financial Reporting. For foreign entities, there are similar requirements in other accounting standards accepted by the Exchange.

16. **Dollars** If reporting is not in A\$, all references to \$A must be changed to the reporting currency. If reporting is not in thousands of dollars, all references to "000" must be changed to the reporting value.

17. Discontinuing operations

Entities must either provide a description of any significant activities or events relating to discontinuing operations equivalent to that required by paragraph 7.5 (g) of AASB 134: Interim Financial Reporting, or, the details of discontinuing operations they are required to disclose in their accounts in accordance with AASB 5: Non-current Assets for Sale and Discontinued Operations

In any case, the information may be provided as an attachment to this Appendix 3
