#### 1. Environmental Impact Assessment Report

The company had resubmitted the Environmental Impact Assessment Report according to Experts' Opinion to the Ecological Environment Bureau of Hohhot City on 9th October 2019. The Company has been told that the Ecological Environment Bureau of Hohhot City has a large backlog of case files due to the Covid-19 lockdown measures. In addition, they have been tasked by the Commission for Discipline Inspection to check for violations of laws and regulations in the resource field for the past 20 years and rectify these violations.

The Ecological Environment Bureau has been in communication with the Land & Resource Bureau regarding our application for the Environmental Impact Assessment Report and have explained that they are currently processing our application but have been delayed due to the backlog of work. With the above understanding between the Bureaus, the Land & Resource Bureau has indicated that they will extend and is currently going through the procedures to formally extend our issued Approvals.
