Review of Results and Operations

Operational Review

The Bendigo Telco Group has recorded an after-tax profit of \$121,487 for the half year ended 31 December 2021. This is a substantially reduced result when compared to the previous year's first half result (31 December 2020: \$666,803). The result reflects the challenging Telco environment and the change in products and services utilised by our Customers in today's market. It also reflects our modified priorities and the new investments applied across the business to ensure our services remain relevant and valued by our Customers and Communities.

The Groups first half result demonstrates the impact of reduced revenues and margins on our legacy voice and data products offered to our customers over the past years. While the decline in these legacy revenues is in line with our projections and experienced across the entire telco industry, it has impacted this half year result. Our Business expects this trend of declining revenues on these legacy products will continue through this financial year, however we continue to invest in products and services that will contribute to replacement revenues.

The Group has also experienced a decrease in mobile revenues primarily attributed to a reduction in the number of mobile services taken up by our consumer customer base. During the past reporting period we have taken the opportunity to renegotiate our supply arrangement and have since re-launched our mobile suite of products.

As part of ongoing market and technology changes the Group directed its priorities, strategic approach, and core operating model to the new opportunities in the market. The leadership team believe that by focusing on improving the accessibility and delivery of technology, combined with helping customers adopt technology to support their needs, the business will be able to position itself for future sustainable growth and ongoing creation of shareholder value.

Our strategic framework ensures we continue to maintain a balance across our five key focus areas, People, Customer, Community, Operations and Financial, which will ensure the appropriate priority and level of attention is given to the growth opportunities available across our markets.

The Board remains convinced that the Group can add value technically and strategically for both our customers and the communities we serve, therefore effectively employing our shareholder capital. We continue to look for investment opportunities which will enhance the Groups prospects of success.

Impact of COVID-19

The pandemic continues to impact the community and economy. The Group continues to follow all Government directives, focusing on the protection of our staff and ensuring that we continue to deliver service and support to our customers and communities. The duration of the pandemic remains uncertain as at the date of this report.

The events relating to COVID-19 have not had an adverse impact on either the operations or financial performance of the Group during this period. The Group continues to offer support to its customers as required.

Reported Results

The Group generated a net profit before tax of \$199,354 and a net profit after tax of \$121,487 for the half year ended 31 December 2021. This compares to a net profit before tax of \$975,120 and a net profit after tax of \$666,803 in the prior year.

Earnings before interest, tax, depreciation and amortisation ("EBITDA") for the period was \$1,414,043, representing a decrease of \$805,266 (36.3%) compared to the prior year (2020: \$2,219,309).

Total Group's revenue decreased by 13.2% over the corresponding prior period to \$13,480,166 (2020: \$15,531,703). This decrease is substantially due to the loss of traditional fixed voice, traditional data and mobile revenues.

At the end of the period, the net assets of the Group were \$7,521,762 (30 June 2021: \$7,982,109). The Group continued to generate strong cash flows from operating activities and maintained a sound working capital with current assets exceeding current liabilities by \$1,283,502 (30 June 2021: \$1,516,909).

NOTES TO AND FORMING PART OF THE INTERIM FINANCIAL REPORT

Note 1: Summary of significant accounting policies

Basis of Preparation

These general purpose interim financial statements for the half-year reporting period ended 31 December 2021 have been prepared in accordance with the requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: Interim Financial Reporting. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update of the latest annual financial statements of Bendigo Telco Limited. As such, it does not contain information that represents relatively insignificant changes during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements for the year ended 30 June 2021, together with any public announcements made during the following half-year.

These interim financial statements were authorised for issue on 23rd February 2022.

Accounting Policies

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements.

The Group has considered the implications of new or amended Accounting Standards, but determined that their application to the financial statements is either not relevant or not material.

Interim Financial Report for the Half-Year Ended 31 December 2021

Disaggregation of revenue from contracts with customers based on the nature and the timing of transfer of goods and services, by major products, is presented in Note 4: Operating Segments.

·

Note 4: Operating Segments

Segment information is presented using a 'management approach'; that is, segment information is provided on the same basis as information used for internal reporting purposes by the chief operating decision maker (the board that makes strategic decisions).

Bendigo Telco Limited reports and delivers services under three dedicated teams, Voice Services, Network Services and IT Services. These teams are responsible for the efficient end to end delivery of their product suites.

In prior periods the Group operated under two divisions, Business and Enterprise and Consumer and Small Business. Comparatives have been restated to reflect the change in operating structure.

Goodwill has been reallocated accordingly to cash generating units which cannot be greater than a segment as defined in AASB 8 Operating Segments. On reallocation, no additional goodwill impairment was required.

Major customers

During the half year ended 31 December 2021 approximately 36.7% (2020: 36.6%) of Bendigo Telco's external revenue was derived from sales to one customer (2020: one customer).

Assets & Liabilities

No information is disclosed for segment assets and liabilities as no measure of segment assets and liabilities is regularly provided to the chief operating decision maker.

·

Note 5: Contingent Liabilities

There has been no change in contingent liabilities since the last annual reporting period.

Note 6: Events after the end of the interim period

Other than the following, the directors are not aware of any significant events since the end of the interim period.

Since the end of the interim period, the directors have resolved to pay an interim fully franked dividend of 2.0 cents per share (2021: 6.0 cents per share) payable on 25 March 2022 to shareholders on the share register at 18 March 2022. This dividend will be recognised in shareholders' equity in the next interim financial statements.

Since the end of the interim period, in February 2022, the directors performed a review of its property leasing requirements. Following this review, a business decision was made in February 2022 whereby it was determined the Group was no longer reasonably certain to exercise optional terms included in two of the Group's leased properties.

At 31 December 2021, lease payments relating to such optional terms were included in the measurement of the Group's right-of-use assets and lease liabilities. Accordingly, this business decision, which was made in February 2022, has given rise to a non-adjusting subsequent event, requiring the Group to remeasure its right-of-use assets and lease liabilities since the end of the interim period. This has resulted in right-of-use assets decreasing by \$1,422,879 and lease liabilities decreasing by \$1,532,324 subsequent to the end of the interim period, the remeasurement of which will be accounted for and presented in the Group's statement of financial position at 30 June 2022.

Note 7: Capital Commitments

At 31 December 2021 the Group had entered into a contract to purchase, but was yet to capitalise, approximately \$130,000 of network infrastructure equipment. The equipment is expected to be installed and ready for use in February 2022. The Group had no capital commitments in the previous period.

Note 8: Correction of Prior Period Errors

In previous periods the Group classified all prepayments as current assets on the Statement of Financial Position. However, during the interim period the Group identified this treatment was incorrect as the economic benefits associated with some of these prepayments were not expected to be realised within 12 months of the reporting date.

Accordingly, prepayments disclosed at 30 June 2021 on the Statement of Financial Position have been restated, whereby \$158,632 of prepayments have been disclosed within non-current assets instead of current assets. The prior period error had no impact on the Group's net profit result or net asset position, however the restatement did reduce the Group's working capital position at 30 June 2021 by \$158,632.

Interim Financial Report for the Half-Year Ended 31 December 2021

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Bendigo Telco Limited, the directors of the Group declare that:

- 1. The financial statements and notes, as set out on pages 1 to 13 are in accordance with the *Corporations Act* 2001, including:
 - a. complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the Corporations Regulations 2001; and
 - b. giving a true and fair view of the Group's financial position as at 31 December 2021 and of its performance for the half-year ended on that date.
- 2. In the directors' opinion there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

On behalf of the Directors

Independent auditor's review report to the members of Bendigo Telco Ltd

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Bendigo Telco Ltd, which comprises the consolidated statement of financial position as at 31 December 2021, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Bendigo Telco Ltd does not comply with the *Corporations Act 2001*, including:

- i. giving a true and fair view of the Bendigo Telco Ltd's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- ii. complying with AASB 134: Interim Financial Reporting and the Corporations Regulations 2001.

Basis for conclusion

We conducted our review in accordance with ASRE 2410: Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibility of the directors for the Financial Report

The directors of Bendigo Telco Ltd are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including, giving a true and fair view of Bendigo Telco Ltd's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
