Issue of fully paid ordinary shares

Kaizen Global Investments Limited ACN 602 033 670

Important Notice

This document is not a prospectus. This document does not contain all of the information that an investor may require in order to make an informed investment decision regarding the New Shares offered pursuant to this document. Investing in shares involves a degree of risk, and you should carefully consider the risks involved in acquiring shares. For a comprehensive list of risk factors please refer to the Prospectus 21 January 2015, Section 7.1 General Risk Factors.

This document should be read in its entirety. If after reading this document you have any questions about the Offer or the New Shares then you should consult your stockbroker, accountant or other professional adviser.

19 July 2022

Dear Shareholder,

Post the completion of the recent asset acquisition we are issuing 330,000 shares at \$1.15 to raise, up to \$380,000, to increase ownership in the asset to a 40% shareholding (from approximately 33%).

On 30th November 2021 shareholders unanimously approved Resolution 4 – Issue of paid ordinary shares in the company, which allows for the issue of 8,695,652 at \$1.15 per share within 12 months of approval. See below. On 28 April 2022 it was announced that KGI had successfully raised \$578,526 and issued 503,067 shares, leaving a remaining 8,192,585 shares available under the authorisation.

RESOLUTION 4 - ISSUE OF FULLY PAID ORDINARY SHARES IN THE COMPANY

Explanation

Each year we add this resolution to give us the flexibility to act quickly if we see an opportunity. If we came across an acquisition that we wanted to close quickly, by the time we went through the shareholder approval process, we might have lost the opportunity. This ability to act quickly is very important – being nimble will, we believe, become one of our greatest strengths. Since we are shareholders too, we would only consider issuing shares if there was an attractive opportunity, as we do not want to dilute our investment either – we are laser focused on long-term compounding per share. Having a board that has bought shares on the same terms as its shareholders (no free options packages) is a plus – we are absolutely aligned with our shareholders.

Each year we have passed this resolution, but not exercised it, showing our discipline, since we have not seen an opportunity. However, we are increasingly finding opportunities and need to keep this flexibility. Shareholders have granted us this option every year since inception.

To consider, and if thought fit, to pass with or without amendment, the following as an ordinary resolution:

"That for the purposes of NSX Listing Rule 6.25, and all other purposes, approval is given for the issue and allotment of up to 8,695,652 fully paid ordinary shares at an issue price of \$1.15 per share as detailed in the Explanatory Statement."

https://www.nsx.com.au/ftp/news/021740277.PDF

Reason for the capital raising

The funds raised in the Company will be invested during 2022 in the following ways:

- a) To invest across the listed part of the portfolio; and/or
- b) To increase the investment in the asset acquisition, announced 1 July 2022, to 40%.

In the event that circumstances change or other opportunities arise, the Directors reserve the right to vary the use of the proceeds from the issue of ordinary shares.

The maximum number of shares to be issued in this capital raising would be 330,000 shares which would be the same share class as existing shares.

The price of the offer would be as approved at the AGM: Resolution 4. \$1.15 per share

The issue would be dilutive as the last released pre-tax NTA per share as at 30 June was \$1.331. At the maximum number of shares issued in this placement (i.e. 330,000 shares) this would result in limited NTA dilution, per share, of 1.17%.

The shares will be offered to all shareholders on the same terms and allocated proportionately to the current shareholder holdings, should all shareholders subscribe. For clarity, if there was demand for more than the 330,000 shares then allocations would be scaled back relative to the current shareholder's holdings. We are focused on offering an equal opportunity to participate to all our existing shareholders.

Impact on financials

At the maximum number of shares the share count would increase by 330,000 to 3,833,067. The cash balance would increase by \$379,500 (less costs, estimated to be negligible). Liabilities would be unchanged, as would the profit and loss for the company.

If all shares were issued and allocated proportionate to underlying holdings there would be no change in the percentage of each investor's holdings.

Rights and Quotation

The New Shares will rank pari passu in all respects – including the payment of dividends after allotment – with the existing shares in the Company on the Allotment Date. The Company will apply to the National Stock Exchange of Australia (NSX) for official quotation of the New Shares.

Director/ participation

An entity connected to Connor Grindlay and Simon Winfield is likely to invest in the offer, on exactly the same terms as other shareholders in the offer. This follows on from investments by all three directors in the 28 April 2022 capital raising. Your board has invested into KGI over the past 3 months, on the same terms as all other shareholders, adding to their individual investments. Your directors have bought shares alongside all other shareholders on the same terms.

Offer timetable

The proposed timetable for the Offer is as follows.

Event	Date*
Announcement of offer	19 July 2022
Notice to Shareholders and lodgment with NSX	19 July 2022
