FIRST VERIGROW® ORDERS FOR BROADACRE CROPS AND SUCCESSFUL COMPLETION OF CHEMICAL COMPATIBILITY TESTING

Veratin Limited (**NSX: VTN**) (the **Company**) is pleased to announce following the successful completion of its broadacre trials on sceptor wheat with Trialco, it has now received its first 3,000L Verigrow® orders from farms in Katanning and Kojonup in Western Australia.

The Company is also pleased to announce it has successfully completed initial compatibility testing of Verigrow® with chemicals used in broadacre farming. The list of chemicals comprised herbicides, fungicides, insecticides and adjuvants (**Table 1**) and all have shown compatibility with Verigrow®.

Table 1. Commonly used herbicides, fungicides, insecticides and adjuvants tested for compatibility with Verigrow®

Herbicides	Fungicides	Insecticides	Adjuvants
Velocity	Uplift	Lemat	SE14
MPCA 750	Amistar	Chlorpyrifos	Uptake
Clethodim 240	Veritas opti	Transform	Adigor
Triathlon/Howitzer	Veritas	Bifenthrin 240	
Jaguar	Aviator pro	Cruiser 350	
Boxer Gold	Prosaro	Gaucha	
MCPA 570	Propiconazole 625	Dimethoate	
Topik	Impact	Trojan	
Ester 680	Evergold prime		
Lontrel	Orius 430		
Oxyflorufen	Soprano 500		
Intervix	Radial		
Tenet 500 SC			
Priority			

Executive Chairman of Veratin, Dr Ramiz Boulos says, "We are very pleased with the compatibility testing results, which support the use of Verigrow® with other products, reducing application time and improving work efficiencies. We continue to build a data package for Verigrow® through our continued investment in research and development. This will ultimately assist farmers in making the best investment for their farm".
