## Letter from the Executive Director & CEO

Dear Shareholder,

### **RE: RRG Listing on the official list of the National Stock Exchange of Australia Limited (NSX)**

On behalf of the directors of Red Ridge Group Limited (**RRG** or **Company**), I am pleased to write to you in respect of the proposed listing of RRG's securities on the official list of the NSX (**Listing**).

This Information Memorandum has been prepared by the Company in compliance with Listing Rule 6.41 and for the purposes of the Company's re-compliance with the requirements of Chapter 4 of the Listing Rules as if applying for a listing on the NSX. As announced by the Company to NSX in the Notice of General Meeting dated 4 October 2024, the Company has been working with Mr. Vikram J. Rana (Executive Director and controlling shareholder of the Company) to develop a new business opportunity for the Company which results in a significant change to the Group's principal business activities. The Company obtained shareholder approval for the significant change to the Group's principal business activities on 8 November 2024.

RRG provides sourcing, design and distribution of toys and arts & craft related products. By completing the re-compliance Listing, the Company's securities will continue to trade on a public stock exchange which will provide a number of benefits to the Company and its shareholders, each of which are set out in this Information Memorandum.

In summary, the Board considers that the benefits of the Listing include:

**Improving the Company profile:** due to being listed on a public stock exchange, the profile of the Company is likely to improve, and it will be more identifiable as a market listed entity.

**More transparency:** the Company's shareholders can take comfort in receiving prompt and up-to-date market information, which will be publicly available, including in respect of the Company's share price.

**Access to capital:** the Company may see an increase in avenues in obtaining additional funding, if that option ever becomes necessary.

**Increased trading:** companies listed on public exchanges see an increase in the liquidity in trading of the company's securities.

**Increased value and borrowing power:** the Company may see an increase in value which may also see a higher collateral value.

More detailed information regarding the Listing and the Company is set out in this Information Memorandum. You should read this Information Memorandum in its entirety.

If you have any questions, please contact the Company's at +61 2 9713 9495 or [enquiries@redridgeglobal.com](mailto:enquiries@redridgeglobal.com) or your professional financial advisor.

Yours sincerely,

Vikram Rana

# 1. Overview

---

Set out below is a summary of information of the Company and the Listing which the Directors consider to be key. The information contained in this section is a summary only and is not intended to be exhaustive. This section should be read in conjunction with the other sections of this Information Memorandum as a whole.

## 1.1 Purpose of this Information Memorandum

The purpose of this Information Memorandum is to provide the market with information regarding the profile, business and affairs of the Company and its Subsidiaries in connection with the continued listing of the Company's securities on the official list of the NSX. This Information Memorandum also sets out information regarding the risks and benefits of the Listing and other information which the Board considers useful to the market.

Notwithstanding that the Company is already listed, it is not raising funds as part of the Listing, the NSX has requested, and the Company has agreed, for the Company to provide relevant information in respect of the Company, as contained in this Information Memorandum, to the market.

## 1.2 Reasons to list on the NSX

### (a) NSX background

Like the ASX, the NSX is an ASIC regulated tier one licensed stock exchange. The NSX uses the same CHESS platform as the ASX with the same SRN and HIN structure and offers access to the same share registries as the ASX.

The NSX's governance policies represent a smooth and fast path for growth in the Australian market while maintaining a high level of accountability, disclosure and rigor. The Listing Rules contain similar disclosure requirements to the ASX listing rules to ensure fair and efficient market for security holders.

### (b) General benefits of the Listing

If the Listing proceeds, the Company and its shareholders may see a number of benefits, including (but not limited to) the following:

#### (i) Improved Company profile

The profile of the Company is likely to improve. Companies which are listed on public securities exchanges are much more noticeable and identifiable than privately held, or public but non-listed, companies. Listed companies enjoy an increase in public image and branding as a result.

#### (ii) More transparency

The Company's shareholders can take comfort in being provided with prompt and detailed publicly available information in relation to the ongoing affairs of the Company. Companies listed on securities exchanges are generally held to a higher standard than private (or non-listed) companies. This includes, among other things, imposed obligations of public disclosure of all material information to the market and to follow fair trading practices.

This includes information relating to the price of the shares of the Company. The Company's shareholders will be able to determine the value of their shares from public share price information available.

(iii) Access to capital

The Company may see an increase in avenues to obtain additional funding, if that option becomes necessary in future. Most companies listed on securities exchanges are able to raise more affordable capital. By being listed on a public securities exchange, the Company may have easier access to capital due to an increase in the attractiveness of the Company to a wider investor community.

Additionally, the Company has found it much easier to conduct an equity raise, given the improved public profile and transparency of the Company.

(iv) Increased trading

Naturally, companies listed on public exchanges see an increase in liquidity in the trading of the company's securities since the listed securities are much more easily traded, and information in respect of the listed company is much more readily available.

(v) Increased value and borrowing power

The Company may see an increase in value of the shares of the Company which may also see a high collateral value. The perception of companies listed on public securities exchanges is generally of a higher regard than in respect of privately held or non-listed companies.

Financial institutions are generally more willing to lend against more reputable listed securities than unlisted securities.

### 1.3 Key risks

There are a number of risks that are associated with the Listing, some of which the Company is already exposed to (notwithstanding the non-completion of the foregoing events). As a summary, these risks relate to the following:

- (a) Product safety and efficacy;
- (b) Foreign exchange;
- (c) Reliance on key personnel;
- (d) Intellectual property;
- (e) Brand maintenance;
- (f) Market conditions; and
- (g) Listing may not get approved.

Refer to section 4 for detailed information.

## 2. Company Profile

---

### 2.1 Overview

The Company was incorporated in Western Australia on 28 October 2020, as a public limited company. The Company has been experiencing losses in recent years due to the economic downturn in Hong Kong and China, as well as the tourism industry.

On 22 May 2024, the Company announced to the NSX that it had sold its entire equity interest in its wholly-owned subsidiary, Smart Auto Holding (HK) Limited, as well as its directly owned subsidiary, Grand Tour Bus Services Limited (the Group's primary operating subsidiary in Hong Kong), to an independent third party on 17 May 2024.

The Company has been assessing its long-term sustainability and had been actively seeking funding to support the Company and new business opportunities to revive the business. In 2023, the Company found an interested investor, Mr. Vikram Rana. The Company completed an entitlement offer on 18 June 2024, underwritten by Mr. Rana. Commensurate to the disclosures in the entitlement offer prospectus (announced to the NSX on 30 April 2024), the funds raised will be used to develop a new business and for working capital purposes.

The new business will include providing sourcing, design and distribution of toys and arts & craft related products, to US wholesale customers and brokers, online and offline suppliers of department stores and network chains, and the product source will be derived from China and India.

### 2.2 Organisational structure

The corporate structure of the Group is set out in Annexure A.

### 2.3 Management structure

The current management team, consisting of the executive directors, is currently in the process of organising all the groundwork to have the new customer contracts in place. The contracts are anticipated to be for US wholesale customers and brokers, online and offline suppliers of department stores and network chains, and the product source will be derived from China and India.

As at the date of this Information Memorandum, the Company's staffing arrangements are as follows:

- (a) RRG has 5 consultants/employees, being its 4 Directors and its Company Secretary; and
- (b) 3 local staff in Hong Kong for the accounting and administration centre of the business, and 1 senior finance manager for reporting purposes.

### 2.4 Directors & Officers of RRG

A summary of the Board, as at the date of this Information Memorandum, is set out below.

#### ***Vikram Jitendra Rana – Executive Director & Chief Executive Officer***

Mr. Vikram Rana specialises in producing arts & craft and licensed children's toys for international trade, serving customers in the United States, Middle East and European countries. He has extensive market experience and materials sourcing networks in China, India and other Asian countries.

Mr. Ng has been involved in a number of IPOs and M&A activity on major stock exchanges (LSE, HKEX, ASX, NSX, SGX, TSX, NYSE). Mr. Ng is responsible for investment, corporate and financial management. He is also an executive director of Sanvo Fine Chemicals Group Limited, a company listed on the main board of the Hong Kong Stock Exchange and an executive director of Credit Intelligence Ltd (ASX:CI1).

### ***Michael Pixley – Independent Non-Executive Chairman***

Mr. Michael Pixley has 35 years merchant banking experience in Australia and Asian regions across a broad range of industries. Mr. Pixley is a non-executive director of Refresh Group Ltd (ASX:RGP) and Credit Intelligence Ltd (ASX:CI1). He has a Bachelor of Business Management from Curtin University, Perth, Western Australia.

### ***Gregory Starr – Independent Non-Executive Director***

Mr. Gregory Starr is a CPA and an experienced public company non-executive and executive director and company secretary. He has been involved in many IPOs, M&A transactions and acquisitions and debt and company restructures over the past 26 years.

In the past three years Mr. Starr has held executive and non-executive board positions on ASX listed companies, Diatrema Resources Limited (ASX:DRX), Investor Centre Limited (ASX:ICU), Candy Club Limited (ASX:CLB), Credit Intelligence Limited (ASX:CI1), Eastern Metals Limited (ASX:EMS), Kallium Lakes Limited (ASX:KLL), Openn Negotiation Limited (ASX:OPN) and Admiralty Resources Limited (ASX:ADY).

Mr. Starr brings significant corporate governance and investor relations experience in ASX, TSX and NSX listed companies to the Company's board.

### ***Louisa Ho – Company Secretary***

Ms. Louisa Ho is a lawyer by profession holding an LLB, Bachelor of Business (major in accounting) & Bachelor of Laws from the University of Technology Sydney and has been admitted as a lawyer of the Supreme Court of New South Wales.

Ms. Ho has extensive experience in assisting Boards in transitional periods, capital raising activities, corporate governance and compliance advisory with respect to the Corporations Act and the ASX listing rules. She is also currently the Company Secretary of Admiralty Resources NL (ASX:ADY), Cardiex Limited (ASX:CDX), Credit Intelligence Ltd (ASX:CI1), High Peak Royalties Limited (ASX:HPR), I Synergy Group Limited (ASX:IS3), Kallium Lakes Limited (ASX:KLL), Openn Negotiation Limited (ASX:OPN) and AHP Group Limited (SSX:88A).

## **2.5 Audited Financial Information**

The audited financial information (including the notes set out therein) of the Group have been prepared in accordance with recognised accounting principles of Australia, and in accordance with the accounting policies set out in those audited financial reports. For the annual report for year ended 31 March 2024, refer to the NSX release dated 26 June 2024.

## 2.6 Working capital

As at 19 May 2025, the group had \$1,627,540.00 available to it. As at the date of this Information Memorandum, the Group considers it has sufficient working capital for its current requirements. Therefore, the Company has no intention of raising additional funds for at least twelve months after its listing on NSX.

## 2.7 No prospective financial forecast

No prospective financial forecast or projection is prepared for inclusion in this Information Memorandum because the Directors consider that any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection, given the early stages of the new sourcing, design and distribution of toys and arts & craft related products business despite the business being developed from an existing business model.

Notwithstanding the above, this Information Memorandum includes, or may include, forward-looking statements which have been based on the Company's current expectations. These forward-looking statements are, however, subject to known and unknown risks, uncertainties and assumptions that could cause actual results, performance or achievements to differ materially from expected future results, performance or achievements expressed or implied by such forward-looking statements. These forward-looking statements are based on numerous assumptions regarding the Company's present and future business strategies an environment in which the Company will operate in the future. Matters not yet known to the Company or not currently considered material to the Company may impact on these forward-looking statements.

In light of these risks, uncertainties and assumptions, forward-looking statements in this Information Memorandum might not occur. Investors are therefore cautioned not to place undue reliance on these statements.

(d) **Summary of rights and liabilities attaching to the Shares**

All of the Shares currently on issue, rank equally with all other Shares on issue. The rights attaching to the Shares consist of a combination of the Company's constitution, statute and general law. The primary rights attaching to the Shares include the right to receive notices of meetings, attend and vote at meetings, receive non-cumulative dividends which are declared at the discretion of the Company and any surplus on winding up.

| Right                          | Description  |
|--------------------------------|--|
| <b>Voting rights</b>           | <p>Subject to any rights or restrictions attaching to any class or classes of shares, at general meetings of the members of the Company, every Shareholder present in person or by proxy, representative or attorney has one vote on a show of hands in respect of their shareholding and has one vote for each partly paid Share held by the member equivalent to the proportion which the amount paid on the Share bears to the total amounts paid and payable on the Share.</p> <p>If two or more persons are jointly entitled to a Share, and more than one joint holder is present at any meeting, either personally or by attorney or proxy, the vote of the person present whose name stands first in the register of members in respect of that share shall be accepted to the exclusion of the other joint holders.</p> |
| <b>Meetings of members</b>     | <p>An annual general meeting of the Company must be held in accordance with the provisions of the Corporations Act.</p> <p>All general meetings other than an annual general meeting may be called by the Directors, a court or at the request of the Company's members with at least 5% of the total number of paid-up Shares as at the date of the request. Each member, director and auditor of the Company is entitled to notice of all general meetings.</p>  |
| <b>Dividends</b>               | <p>The Company does not currently have a dividend plan in place.</p>   |
| <b>Issue of further Shares</b> | <p>The Directors may issue shares or grant options over unissued shares to any person any on any conditions the Directors think fit.</p> <p>The shares may be issued on the terms and with the rights and restrictions (in respect of dividends, voting, return of capital, winding up, or otherwise), as the directors think fit.</p>   |
| <b>Transfer of Shares</b>      | <p>Holders of Shares may transfer those shares by a written transfer in any usual or common form or in any other form approved by the Board.</p> <p>The Board must not decline to register a transfer of a share except in certain circumstances.</p>  |

|                   |  |
|-------------------|--|
| <b>Winding Up</b> | <p>If the Company is wound up, and the property of the Company is more than sufficient to pay all of the debts and liabilities of the Company and the costs of winding up the Company, then the excess must be divided among members in proportion to the shares held by them, save that the amount of the excess that would distributed to the holder of a partly paid share must be reduced by the amount unpaid on that share at the date of the distribution.</p> <p>If the Company is wound up, the liquidator may, with the sanction of a special resolution of the members, divide among the Shareholders the whole or any part of the assets of the Company and determine how the division is to be carried out as between the members of different classes.</p> |

### 3. Future Plans for the Company

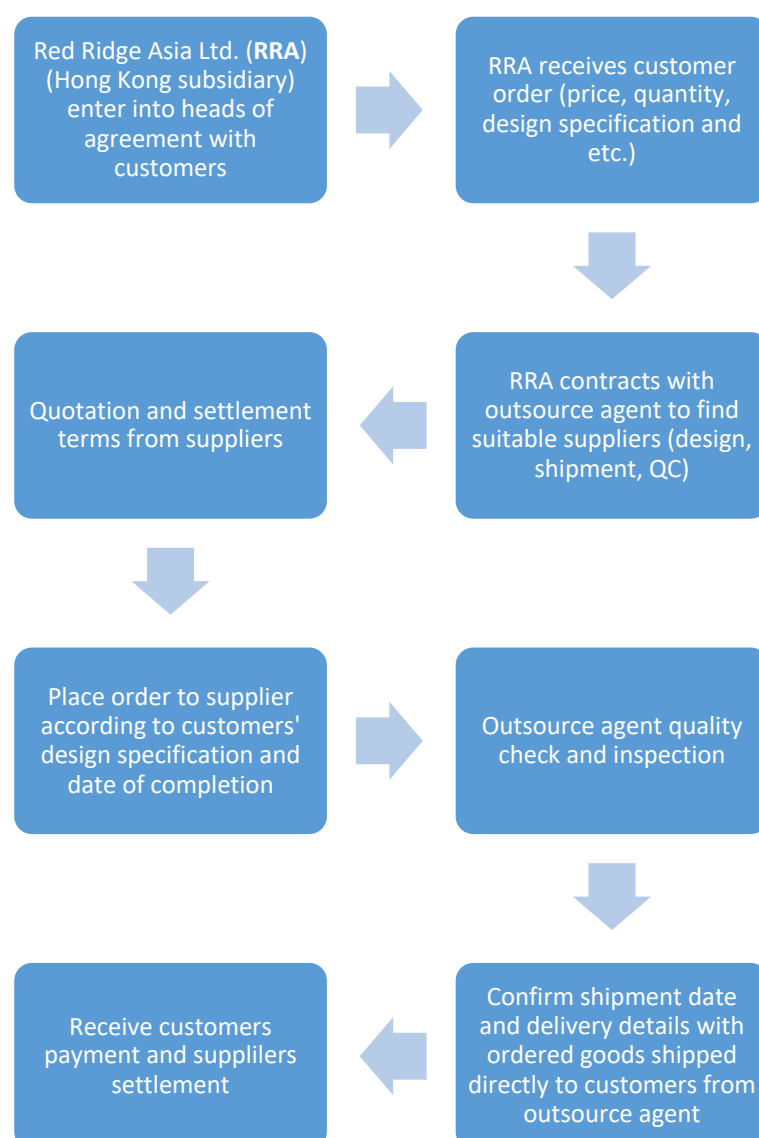

---

#### 3.1 Overview

The Company has been working with Mr. Vikram Rana (executive director and controlling shareholder of the Company) to develop a new business opportunity for the Company which results in a significant change to Red Ridge Group's principal business activities. Mr. Rana specialises in producing arts & crafts and licensed children's toys for international trade, serving customers in the United States, Middle East and European countries. He has extensive market experience and materials sourcing networks in China, India and other Asian countries.

The Company has established Red Ridge Holding Ltd (a new offshore investment holding company to hold an operating subsidiary) and Red Ridge Asia Ltd (the operating subsidiary) to accommodate the new customer contracts sourced by Mr. Rana and his business team. The sourcing team in the operating subsidiary of the Group, Red Ridge Asia Ltd, will work with local manufactures (i.e. China, Malaysia, and India) according to customers' specifications and needs (design), and export to customers (i.e. USA) directly from the local suppliers. Red Ridge Asia Ltd will also be an operating centre for (i) sourcing, (ii) finance accounting, (iii) design, (iv) sales and marketing. All revenue and payment will be recorded and recognised in the books of this entity.

Process Diagram:

### 3.2 Future goals

The Company is looking to expand its current operations to provide its products to more customers around the world. The Company aims to achieve the following:

- (a) increase the brand awareness among customers in the area of sourcing, design and distribution of toys and arts & craft related products;
- (b) grow revenue by diversifying the customer base and enhance customer engagement;
- (c) increase profitability through maximising developed internal infrastructure and processes along with negotiating with existing partnership networks, whereby as sales volume grows, the Company will benefit from economies of scale.

### 3.3 Capital raising

The Company recently raised \$2.19 million in an entitlement offer, refer to NSX announcement dated 18 June 2024.

The Company may seek to conduct fund raising in the future in order to fund its ongoing operational requirements. The Company may seek to do this by way of additional debt financing or by way of issuing securities in the Company.

The Company does not currently have any intention to raise capital.

### 3.4 Material contracts

As at the date of this Information Memorandum, the Company has been working with its customers to secure contracts relating to the sourcing, design and distribution of toys and arts & craft related products.

On 2 October 2024, the Company announced via the NSX that it has secured its first order under the new customer contracts for the sale of stickers book and related products. The products are scheduled to be delivered by the end of November 2024, and the revenue from this order is expected to be received at the end of January 2025, which is 120 days from the invoice date.

The Company continues to work with its customers to secure more customer contracts.

## 4. Risks

---

Activities in the Company and its controlled entity, as in any business, are subject to risks, which may impact on the Company's future performance. The Company and its controlled entity have implemented appropriate strategies, actions, systems and safeguards for known risks, however, some are outside its control.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risk factors which Shareholders need to be aware of in evaluating the Company's business and risks of increasing your investment in the Company or considering whether an investment in the Company is suitable for you. Shareholders should carefully consider the following factors in addition to the other information presented in this Prospectus.

The principal risks include, but are not limited to, the following:

### 4.1 Risks relating to the Listing

#### (a) **Listing may not get approved**

There is no guarantee that the Company will be granted recompliance with Chapter 4 of the Listing Rules by the NSX, as if applying for a listing, notwithstanding its best efforts to complete the Listing.

### 4.2 Risks specific to the Company

#### (a) **Product safety and efficacy**

The reputation and commercial success of the Group hinges on the safety, and efficacy of its products. Serious or unforeseen health, safety, or efficacy concerns could result in reduced market acceptance, reputational damage, and potential liability claims. Any concerns regarding the health, safety, or efficacy of the Company's service are likely to diminish customer demand and adversely affect the Company's profitability.

#### (b) **Additional capital requirements**

The Company may require further financing in the future. It is also possible further capital may be required at an earlier stage if any risks, including those described in this Section 4 materialise. Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the then market price or may involve restrictive covenants which limit the Company's operations and business strategy.

Debt financing, if available, may involve restrictions on financing and operating activities or the registering of security interests over the Company's assets. Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all.

#### (c) **Control Risk**

Vikram Jitendra Rana is currently the largest Shareholder of the Company and has a relevant interest in 70.30% of the shares in the Company. Mr Rana's significant interest in the capital of the Company means that he is in a position to potentially influence the financial decisions of the Company, and his interests may not align with those of all other Shareholders.

(d) **Going concern risk**

The Company's financial report for the financial year ended 31 March 2024 includes a note on the financial condition of the Company as follows:

"The Group incurred a net loss of A\$7,490,980 for the year ended 31 March 2024 (comprising a loss for continuing operations of A\$1,859,052 and a loss for discontinuing operations of A\$5,631,928) and, as of that date, the Group had net current liabilities and net liabilities of A\$4,925,878. These conditions indicate a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern."

Notwithstanding the 'going concern' qualification included in the annual report, the Directors believe that the Company will have sufficient funds to adequately meet the Company's current commitments and short term working capital requirements. However, it is highly likely that further funding will be required to meet the medium to long term working capital costs of the Company.

(e) **Commercial Risks**

The Company may explore various corporate opportunities, such as acquisitions, licensing, or partnerships. There is no guarantee that any such opportunities can be finalised on commercially acceptable terms. Even if terms for licensing and partnerships are agreed upon, unforeseen factors related to the environment, technology, or market conditions may impede the performance of partners, distributors and collaborators in delivering contracted outcomes. Moreover, the future success of the Company hinges on market acceptance and client retention. This involves convincing prospective clients and partners of the efficacy of the Company's products and services.

(f) **Competition**

Rival product offerings by existing and new competitors as well as technology developments by competitors may have an adverse impact on the Company's business operations, financial performance and prospects as well as on the value and market price of the Company's shares. This risk may influence the Company's customer acquisition cost and customer lifetime value.

Furthermore, the industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operational and financial performance of the Company.

Many of the Company's competitors and potential competitors are larger and have greater brand name recognition, longer operating histories, larger marketing budgets and established customer relationships, access to larger customer bases and significantly greater resources for the development of their solutions. In addition, the Company may face potential competition from participants in adjacent markets that may enter its markets by leveraging related technologies and partnering with or acquiring other companies or providing alternative approaches to provide similar results.

(g) **Reliance on key personnel**

The Company depends on the expertise, experience and efforts of its executive officers and other key employees. A failure to attract and retain executive, business development, technical and other key personnel could reduce the Company's revenues and operational effectiveness.

There is continuing demand for relevant qualified personnel, and the Company believes that its future growth and success will depend up on its ability to attract, train and retain such personnel. There can be no assurance that the Company will maintain sufficiently

qualified personnel on a timely basis or that it will be able to retain its key management personnel.

An inability to attract or maintain a sufficient number of requisite personnel, particularly those with the requisite technical expertise, could have a material adverse effect on the Company's performance on or the Company's ability to capitalise on market opportunities or meet its stated objectives.

**(h) Intellectual Property**

A substantial part of the Company's commercial success will depend on its ability to maintain or as the case may be establish, and protect; its intellectual property, maintain trade secret protection and operate without infringing the proprietary rights of third parties.

The Company may be forced to litigate to enforce or defend its intellectual property rights against infringement and unauthorised use by competitors, and to protect our trade secrets. In doing so, the Company's intellectual property may be put at risk of being invalidated, unenforceable, or limited or narrowed in scope. Further, an adverse result in any litigation or defence proceedings may place pending applications at risk of non-issuance. In addition, if any licensor fails to enforce or defend their intellectual property rights, this may adversely affect the Company's ability to develop and commercialise the Company's current and future products and prevent competitors from making, using, and selling competing products. Any such litigation could be very costly and could distract management from focusing on operating the Company's business.

**(i) Third party risk**

The operations of the Company require the involvement of a number of third parties, including suppliers, contractors and clients. Financial failure, default or contractual non-compliance on the part of such third parties may have a material impact on the Company's operations and performance. It is not possible for the Company to predict or protect the Company against all such risks.

**(j) Unforeseen expenses**

The Company's cost estimates and financial forecasts include appropriate provisions for material risks and uncertainties and are considered to be fit for purpose for the proposed activities of the Company. If risks and uncertainties prove to be greater than expected, or if new currently unforeseen material risks and uncertainties arise, the expenditure proposals of the Company are likely to be adversely affected.

**(k) Future acquisitions, strategic investments, partnerships and alliances**

The Company may in the future seek to acquire or invest in, businesses, products or technologies that the Company believes could complement or expand its current client offerings, enhance its technical capabilities or otherwise offer growth opportunities. The pursuit of potential acquisitions may divert the attention of management and cause the Company to incur various expenses in identifying, investigating and pursuing suitable acquisitions, whether or not they are consummated. The risks the Company faces in connection with such acquisition include:

- (i) encountering difficulties or unforeseen expenditures, in integrating the business, technologies, products, personnel or operations of a company that the Company acquires;
- (ii) an acquisition that disrupts the Company's ongoing business, diverts resources, increases expenses and distracts management;
- (iii) vendor disputes concerning the terms of any acquisition;

- (iv) the Company's use of cash to pay for acquisitions, which may limit other potential uses of its cash;
- (v) if the Company incurs debt to fund an acquisition, such debt may subject it to material restrictions on its ability to conduct its business; and
- (vi) if the Company issues a significant amount of equity securities in connection with acquisitions, existing shareholders may be diluted and earnings per share may decrease.

The occurrence of any of these risks could have an adverse effect on the Company's business, result of operations, financial condition or prospects.

(l) **Brand maintenance**

The Company believes that maintaining its brand in the consumer discretionary industry is important to maintain and growing its proposed use base.

This will depend largely on the Company's ability to provide useful and innovative products. The actions of external industry participants may affect the brand if users do not have a positive experience with the Company's offerings, operating, and management systems.

If the Company fails to maintain its brand, its business and operating results could be adversely affected.

(m) **Foreign exchange**

The Company will be operating in a variety of jurisdictions and as such, expects to generate revenue and incur costs and expenses in more than one currency. Consequently, movements in currency exchange rates may adversely or beneficially affect the Company's operations, results and cash flows. Any depreciation of currencies in foreign jurisdictions in which the Company operates (including Hong Kong) may result in lower than anticipated revenue, profit and earnings of the Company.

(n) **Climate**

There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:

- (i) the emergence of new or expanded regulations associated with the transitioning to a lower carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and
- (ii) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

## 4.3 Industry risks

### (a) **Business Approvals, Permits and Licences**

The Company requires certain licences and approvals to conduct its business within the sourcing, design and distribution of toys and arts & craft related products industry. These licences are granted at the discretion of the relevant governmental and regulatory authorities, and respective licencing partners and the criteria for eligibility may change (although the Company considers this unlikely). The business activities of the Company are subject to the supervision of these authorities and licence partners which have the power to revoke previously granted licences or approvals or reject applications for new or extended licences or approvals.

If any activity of the Company fails to meet the requirements of applicable rules, regulations, or terms of the agreements, the Company may incur legal liabilities. In particular, if any entity in the Group fails to obtain the grant or renewal of any required licences or approval, the business activities of the affected entity and the Group as a whole may be interrupted, or, if the affected entity continues to operate without the necessary licences and approvals, it may be liable to penalties. Any interruption to the Company's business activities or potential penalties may have a material and adverse effect on the Company and its subsidiaries' business, net assets, financial condition and operational results.

As at the date of this Information Memorandum, the Company holds all necessary registration and licences under the laws of Hong Kong to operate its business, however there can be no assurance that the Company retains all such licences and registrations.

### (b) **Insurance**

Where reasonably able to do so, the Company intends to insure its officers, management and operations in accordance with industry practice and all legal requirements. In certain circumstances, the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered (or fully covered) by insurance could have a material adverse effect on the business, financial condition and results of the Company.

### (c) **Government regulation risk**

The Company is subject to government regulation which may require it to obtain additional licenses and could limit the ability to provide services to its customers. Failure to obtain the required licenses (where such licenses are required), meet registration standards or comply with other government regulations, may affect the Company's ability to generate revenues from the goods and services provided, which could have a material adverse effect on the Company's business, financial condition and results of operations. Compliance with government regulations may also subject the Company to additional fees and costs.

### (d) **Customer experience risk**

The Company's business model relies on recurring service revenue arising from customers. Notwithstanding efforts placed on the customer experience, a poor experience may occur and may affect the repeat and growth of customer numbers.

### (e) **Management of growth and strategies**

There is a risk that management of the Company will not be able to implement the Company's strategies, particularly relating to growth. The capacity of the Company's management to properly implement and manage the strategic direction of the Company may affect the Company's financial performance.

#### 4.4 General risks

(a) **Economic risks**

General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's business activities and potential exploration and development programs, as well as on its ability to fund those activities.

(b) **Force majeure**

The Company's projects now or in the future may be adversely affected by risks outside the control of the Company, including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, pandemics or epidemics or quarantine restrictions.

(c) **Market conditions**

Share market conditions may affect the value of the Company's Shares regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resources stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return to Shareholders.

(d) **Government and legal risk**

Changes in government, monetary policies, taxation and other laws can have a significant impact on the Company's assets, operations and ultimately the financial performance of the Company and its Shares. Such changes are likely to be beyond the control of the Company and may affect industry profitability as well as the Company's capacity to explore and mine.

The Company is not aware of any reviews or changes that would affect its permits. However, changes in community attitudes on matters such as taxation, competition policy and environmental issues may bring about reviews and possibly changes in government policies. There is a risk that such changes may affect the Company's development plans or its rights and obligations in respect of its permits. Any such government action may also require increased capital or operating expenditures and could prevent or delay certain operations by the Company.

(e) **Taxation**

The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation point of view and generally.

(f) **Unforeseen risk**

There may be other risks which the Directors are unaware of at the time of issuing this Prospectus which may impact on the Company, its operations and/or the valuation and performance of its Shares.

(g) **Contractual Disputes and General Litigation**

The Company is not currently involved in any litigation. However, the Company continues to be exposed to possible litigation risks including contractual disputes, intellectual property disputes, product liability claims, employee claims and potential disputes with major customers, contractors, former employees and business partners arising in the ordinary course of business or otherwise. In addition, the Company may be sued by third parties for alleged infringement or misappropriation of their proprietary rights or the Company may be involved in disputes with other parties in the future which may result in litigation. The outcome of litigation or a dispute cannot be predicted with certainty. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position.
