CORRESPONDENCE

All correspondence and enquiries to the Manager about the Fund should be addressed to the Manager, Smartshares Limited, at the above address.

AUSTRALIAN TOP 20 FUND

Smartshares Limited (the 'Manager') and Public Trust (the 'Supervisor') are parties to a trust deed dated 24 June 2014 as amended and restated on 9 September 2016 (the 'Trust Deed') which sets out the terms and conditions on which units in the funds within the Smartshares Exchange Traded Funds are offered for subscription, whether to the public or otherwise.

The Trust Deed provides that each fund is to be established by the Manager and the Supervisor entering into an establishment deed setting out the specific terms and conditions relating to that fund.

The Australian Top 20 Fund (the 'Fund') was created by an establishment deed dated 9 September 2016 between the Manager and Supervisor.

STATEMENT BY THE MANAGER

In our opinion, the accompanying financial statements and notes are prepared in accordance with Generally Accepted Accounting Practice in New Zealand ('NZ GAAP'), and fairly present the financial position of the Fund as at 30 September 2017, and the results of its financial performance and cash flows for the six months ended 30 September 2017 in accordance with the requirement of the Trust Deed.

It is believed that there are no circumstances that may materially and adversely affect any interest of the unitholders in the assets other than those already disclosed in this report.

For and on behalf of the Manager:
Smartshares Limited

AUSTRALIAN TOP 20 FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2017

GENERAL INFORMATION

The Australian Top 20 Fund (the 'Fund') is a for-profit fund registered in New Zealand and established under the Financial Market Conduct Act 2013 ('FMC Act 2013'). It is offered under a registered managed investment scheme known as the Smartshares Exchange Traded Funds. Smartshares Limited, the Manager of the Fund is a FMC reporting entity for the purpose of the FMC Act 2013.

The Fund is governed by the Trust Deed dated 24 June 2014 as amended and restated on 9 September 2016 between the Manager and the Supervisor. The Fund was established on 9 September 2016, and commenced operation on 7 November 2016.

The Fund's units are quoted on the NZX Main Board. The Fund is a passive investment fund that tracks the S&P/ASX 20 Index (the 'Index'). As prescribed by the Trust Deed, the Fund invests in the securities included in the Index broadly in proportion to the weightings of the Index. Investments are valued at fair value according to last traded market prices on the Australian Securities Exchange on 30 September 2017 (see Note 2).

STATEMENT OF ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These accounting policies have been consistently applied to the periods presented.

Basis of preparation

The financial statements of the Fund have been prepared in accordance with the requirements of the FMC Act 2013, Financial Reporting Act 2013, New Zealand equivalents to International Financial Reporting Standards ('NZ IFRS') and International Financial Reporting Standards ('IFRS'). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss. The functional currency of this entity is the same as the presentation currency of these financial statements being the New Zealand Dollar ('NZD'), rounded to the nearest thousand.

The preparation of financial statements in conformity with NZ IFRS requires the use of certain critical accounting estimates. It also requires the Smartshares Limited Board of Directors to exercise its judgement in the process of applying the Fund's Statement of Accounting Policies.

Comparative period

These financial statements are for the period ended 30 September 2017. The comparative figures are for the period 9 September 2016 to 31 March 2017.

Financial assets at fair value through profit or loss

(a) Classification

The Fund classifies its investments in equity securities held at fair value as financial assets at fair value through profit or loss. These financial assets are designated by the Smartshares Board of Directors at inception as the financial assets' performance is managed and evaluated on a fair value basis in accordance with a documented investment strategy.

(b) Recognition/derecognition

Purchases and sales of investments were recognised on the trade date - the date on which the Fund committed to purchase or sell the investment. Investments are derecognised when the rights to receive cash flows from the investments has expired or the Fund has transferred substantially all risks and rewards of ownership.

(c) Measurement

Financial assets at fair value through profit or loss were recognised at fair value. Gains and losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are presented in the Statement of Comprehensive Income when they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within dividend income when the Fund's right to receive payment is established.

(d) Fair value estimation

The fair value of the financial instruments is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Fund is the last traded market price.

AUSTRALIAN TOP 20 FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2017

Receivables

Trade receivables and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'receivables'. Receivables are measured at amortised cost using the effective interest method less impairment.

Payables

Trade payables and other payables are recognised when the entity becomes obliged to make future payments resulting from the purchase of goods and services, and are measured at amortised cost.

Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency (NZD) using the exchange rate prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at balance date exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

Translation differences of non-monetary financial assets such as equities held at fair value through profit or loss are recognised in the Statement of Comprehensive Income as part of the net changes in fair value of financial assets at fair value through profit or loss.

Cash and cash equivalents

Cash and cash equivalents are considered to be cash at banks, net of bank overdrafts. Operating activities in the Statement of Cash Flows include all transactions or events that are not investing or financing activities. Investing activities are those activities that relate to the acquisition, holding and disposal of investments and securities not falling within the definition of cash. Financing activities are those activities that relate to cash contributions, withdrawals and distributions.

Units

The Fund issues units, which provide the holder with a beneficial interest in the Fund. The units can be put back to the Fund via a basket redemption, in accordance with the redemption rules as defined in the Trust Deed, for securities of the constituent companies in proportion to the Index and of a proportion of cash held in the Fund.

The units are issued and redeemed based on the Fund's net asset value per unit at the time of issue or redemption. The Fund's net asset value per unit is calculated by dividing the net assets attributable to the unitholders by the total number of outstanding units. In accordance with the provisions of the Trust Deed, investment positions are valued based on the last traded market price for the purpose of determining the net asset value per unit for subscriptions and redemptions.

Dividend income

Dividend income is recognised when the right to receive payment is established.

Distributions to unitholders

Distributions are made up of income received from the investments less expenses paid and allowances for future liabilities. Income from investments held is attributed to unitholders on the basis of the number of units held on the record date of the distribution. To the extent that imputation credits are available, distributions to unitholders will be fully imputed. The record date for the distributions are on the last business day of May and November in each year. Currently, distributions are paid to unitholders within 20 business days of the record date.

Taxation

The Fund is domiciled in New Zealand and is registered as a Portfolio Investment Entity ('PIE').

The Fund is liable for tax at the prevailing company tax rate on taxable dividends (excluding dividends from investments in securities subject to the Fair Dividend Rate method ('FDR')) from the investment in securities listed in Note 2 after the deduction of management fees. For securities subject to FDR, the Fund is liable for tax based on the market value of the security. The Fund is able to utilise imputation credits and foreign withholding tax credits when they arise. The Fund pays tax to the extent that the imputation credits and foreign withholding tax credits do not cover the tax liability in full.

Deferred tax is recognised in respect of temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Current and deferred tax is measured using the tax rates enacted or substantively enacted at the reporting date. The temporary differences relate to accrued dividends.

Goods and services tax (GST)

The Fund is not registered for GST and consequently all components of the financial statements are stated inclusive of GST where appropriate.

AUSTRALIAN TOP 20 FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2017

Segment information

The Fund operates solely in the business of investment management, investing in Australian equities. The Fund receives all of its income from its Australian equity investments. For the period ended 30 September 2017, three equity investments (31 March 2017: three equity investments) individually contributed 10% or more of the Fund's dividend income. The individual dividend income received from these equity investments amounted to \$404,000, \$265,000 and \$306,000 (31 March 2017: \$228,000, \$342,000 and \$306,000).

Issued but not yet effective accounting standards

A number of accounting standards have been issued or revised that are not yet effective as at 30 September 2017, and have not been applied in preparing the financial statements. The Fund did not adopt these standards early. The standards which are relevant to the Fund are as follows:

- NZ IFRS 9 Financial Instruments - Effective for annual reporting periods beginning on or after 1 January 2018. The impact of any changes has not yet been determined.
- NZ IFRS 15 Revenue from Contracts with Customers - Effective for annual reporting periods beginning on or after 1 January 2018. The impact of any changes has not yet been determined.

AUSTRALIAN TOP 20 FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2017

3. FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments measured at fair value can be categorised across the following 3 levels based on the degree to which their fair value is 'observable':

Level 1 – Fair value measurements are derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – Fair value measurements are derived from inputs other than quoted prices included within level 1 that are observable either directly or indirectly;

Level 3 – Fair value measurements are derived from valuation methods that include inputs that are not based on observable market data.

All financial instruments of the Fund measured at fair value are categorised as level 1 in the hierarchy. There were no transfers between levels in the period ended 30 September 2017 (31 March 2017: none).

4. EARNINGS PER UNIT

The basic earnings per unit (EPU) is calculated by dividing the net profit/(loss) after tax attributable to the unitholders by the weighted average number of units on issue during the period.

The Fund's diluted EPU is the same as the basic EPU since the Fund has not issued any instrument with dilutive potential.

	30 September 2017	31 March 2017

6. UNITHOLDERS' FUNDS

As at 30 September 2017 there were 26,402,000 (31 March 2017: 25,727,000) units on issue.

All issued units are fully paid and redeemable, and are quoted on the NZX Main Board. The Fund's net asset attributable to unitholders are represented by these units. The relevant movements are shown on the Statement of Changes in Unitholders' Funds.

The number of units allotted during the period ended 30 September 2017 was 825,000 (31 March 2017: 26,477,000) for total value of \$2,954,000 (31 March 2017: \$83,382,000).

The number of units redeemed during the period ended 30 September 2017 was 150,000 (31 March 2017: 750,000) for total value of \$549,000 (31 March 2017: \$2,542,000).

	30 September 2017 '000	31 March 2017 '000
Movement in the number of units		
Balance at the beginning of the period	25,727	-

8. FINANCIAL RISK MANAGEMENT

Strategy in using financial instruments

The Fund utilises a number of financial instruments in the course of its normal investing activities. Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised in respect of each class of financial asset and financial liability are disclosed in the Statement of Accounting Policies.

The financial instruments not accounted for at fair value through profit and loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value.

The Fund's activities expose it to a variety of financial risks: market price risk, credit risk, liquidity risk and currency risk. The risk management policies used by the Fund are detailed below:

8a. Market price risk

The Fund's equity securities are exposed to market price risk arising from uncertainties about future prices of the financial instruments.

Because the Fund tracks an Australian equity index and is fully invested in the index's underlying Australian equity securities, the value of the Fund will move up and down with the Australian market.

A 10% increase/decrease in equity prices as at 30 September 2017 would have increased/decreased net profit and unitholder funds by \$9,133,000 (31 March 2017: \$9,536,000).

8b. Credit risk

The Fund is exposed to the potential risk of financial loss resulting from the failure of counterparties to fully honour the terms and conditions of a contract with the Fund. Financial instruments that subject the Fund to credit risk consisted primarily of cash and receivables.

The maximum credit risk of financial instruments is considered to be their carrying value. The risk of non-recovery of monetary assets is considered very low due to the quality of counterparties dealt with.

The Fund does not require collateral or other security to support financial instruments with credit risk. The maximum exposures to credit risk at the reporting date are:

	30 September 2017 \$'000	31 March 2017 \$'000
Cash and cash equivalents	2,350	2,629
Receivables	181	614

Cash and cash equivalents

The Fund's cash and cash equivalents balances are held with ANZ Bank New Zealand Limited ('ANZ'), BNP Paribas Securities Services ('BNP Paribas') and Westpac New Zealand Limited ('Westpac').

8. FINANCIAL RISK MANAGEMENT (Continued)

The table below discloses the Standard & Poor's credit rating for the Fund's cash and cash equivalents balance with each bank at the reporting date.

	30 September 2017		31 March 2017	
	Balance \$'000	Credit rating	Balance \$'000	Credit rating
ANZ	165	AA-	1,197	AA-
BNP Paribas	52	A	207	A
Westpac	2,133	AA-	1,225	AA-
	<u>2,350</u>		<u>2,629</u>	

8c. Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with the financial liabilities that were settled by delivering cash or another financial asset.

The Fund's investments in listed securities are considered readily realisable, as they are quoted on the Australian Securities Exchange. In addition, liquidity risk associated with redemptions is managed by meeting redemptions in the form of baskets rather than cash. The Fund meets its redemption obligations by returning the proportionate number of underlying securities in return for the units. Liquidity risk for the Fund is therefore low.

8d. Currency risk

Currency risk is the risk that the value of the financial instruments will fluctuate due to changes in foreign exchange rates.

The Fund holds assets denominated in a currency other than the New Zealand dollar, the functional currency. It is therefore exposed to currency risk, as the value of the securities denominated in Australian dollars will fluctuate due to changes in the exchange rate. The Fund's policy is not to enter into any currency hedging transactions.

A 10% strengthening/weakening of the New Zealand dollar against the Australian dollar as at 30 September 2017 would have decreased/increased profit and unitholders funds by \$9,156,000 (31 March 2017: \$9,618,000).

The table below summarises the Fund's exposure to currency risks.

	30 September 2017	31 March 2017
	\$'000	\$'000
Australian dollar cash held (NZD)	52	207
Receivables	181	614
Investments in equity securities held at fair value through profit or loss	91,326	95,355

9. COMMITMENTS AND CONTINGENCIES

The Fund had no commitments or contingencies as at 30 September 2017 (31 March 2017: none).

10. EVENTS AFTER THE REPORTING PERIOD

Since 30 September 2017 there have been no matters or circumstances not otherwise dealt with in the financial statements that have significantly affected or may significantly affect the Fund.
