Future Mobility Solutions – Sillinger Enter Supply Agreement.

Future Mobility Solutions is delighted to announce that its subsidiary, Sillinger, has entered into an agreement with the Egyptian government for the manufacture and supply of Rafale® 1200 crafts. Furthermore, it has also agreed a technology transfer and quality assurance programme whereby the Egyptian government will be able to manufacture the craft under licence with the Rafale® brand.

This contract is a new success for the “made in France” label in the Middle East and demonstrates the reputation and the quality of Sillinger products.

Sillinger, based in Mer France, is one of the world’s leading manufacturers of rigid and semi rigid inflatable craft. It has a specific focus on the military and professional markets and its Rafale® brand is widely considered to be a leader in its field.
