Chairman's introduction

Fred Hutchings

Foreign ownership

Farmind to transfer 6.55% of the shares in Seeka

- Seeka is currently an overseas person under the Overseas Investment Act with more than 25% of our shares owned by overseas persons
- There is potential for this to have a negative effect on Seeka given the nature of our business
- Farmind Corporation of Japan has advised they will undertake an off-market trade of approximately 6.55% of the shares in Seeka to New Zealand persons this evening
- This will result in Seeka:
 - No longer being considered an overseas person under the Overseas Investment Act
 - Being able to waive the Overseas Investment Act approval condition of the Northland deal
 - Being able to complete phase one settlement of the Northland deal on April 30 as scheduled

Foreign ownership continued

Regular public announcements

- Seeka will monitor the company's foreign ownership percentage as best able and advise the market each 6 months
- Additionally Seeka will put overseas investors on notice through a public announcement of the implications of making an investment in Seeka (particularly without OIO approval) and inviting any foreign investor to contact Seeka in advance of investing
