### About GEO:

Geo provides cloud-based business productivity tools and applications for small to large businesses with mobile and distributed workforces. Geo targets its productivity tools at customers across different functions and business areas that range from sole traders to multi-seat organisations, sometimes with hundreds of licences. The nature of Geo's platform means that it is designed to scale for organisations of various sizes and with various needs. For additional information, please visit <https://geoservice.io> or <https://geo.tools>
