Seeka notifies Australian kiwifruit orchard symptoms

Seeka Limited [NZX:SEK] advises the market that the Australian Regulatory Authorities have confirmed PSA on the Seeka orchards in Australia, affecting 4.5 hectares of its 154 hectares of kiwifruit orchards. Seeka has moved to contain the outbreak and is working with the Agriculture Victoria and the relevant Australian Federal Authorities. Seeka continues to proactively monitor the orchards, and in particular the orchards in development.

There has been no significant deterioration from the update of October 2nd and no change to the earnings Guidance provided by Seeka.
